

The background of the slide is composed of several concentric, rounded square frames. The outermost frame is a light teal color, followed by a slightly darker green, then a brownish-green, and finally a dark brown innermost frame. In the center of these frames is a large, irregular, dark brown blob shape. Overlaid on this background is a white rectangular box containing text.

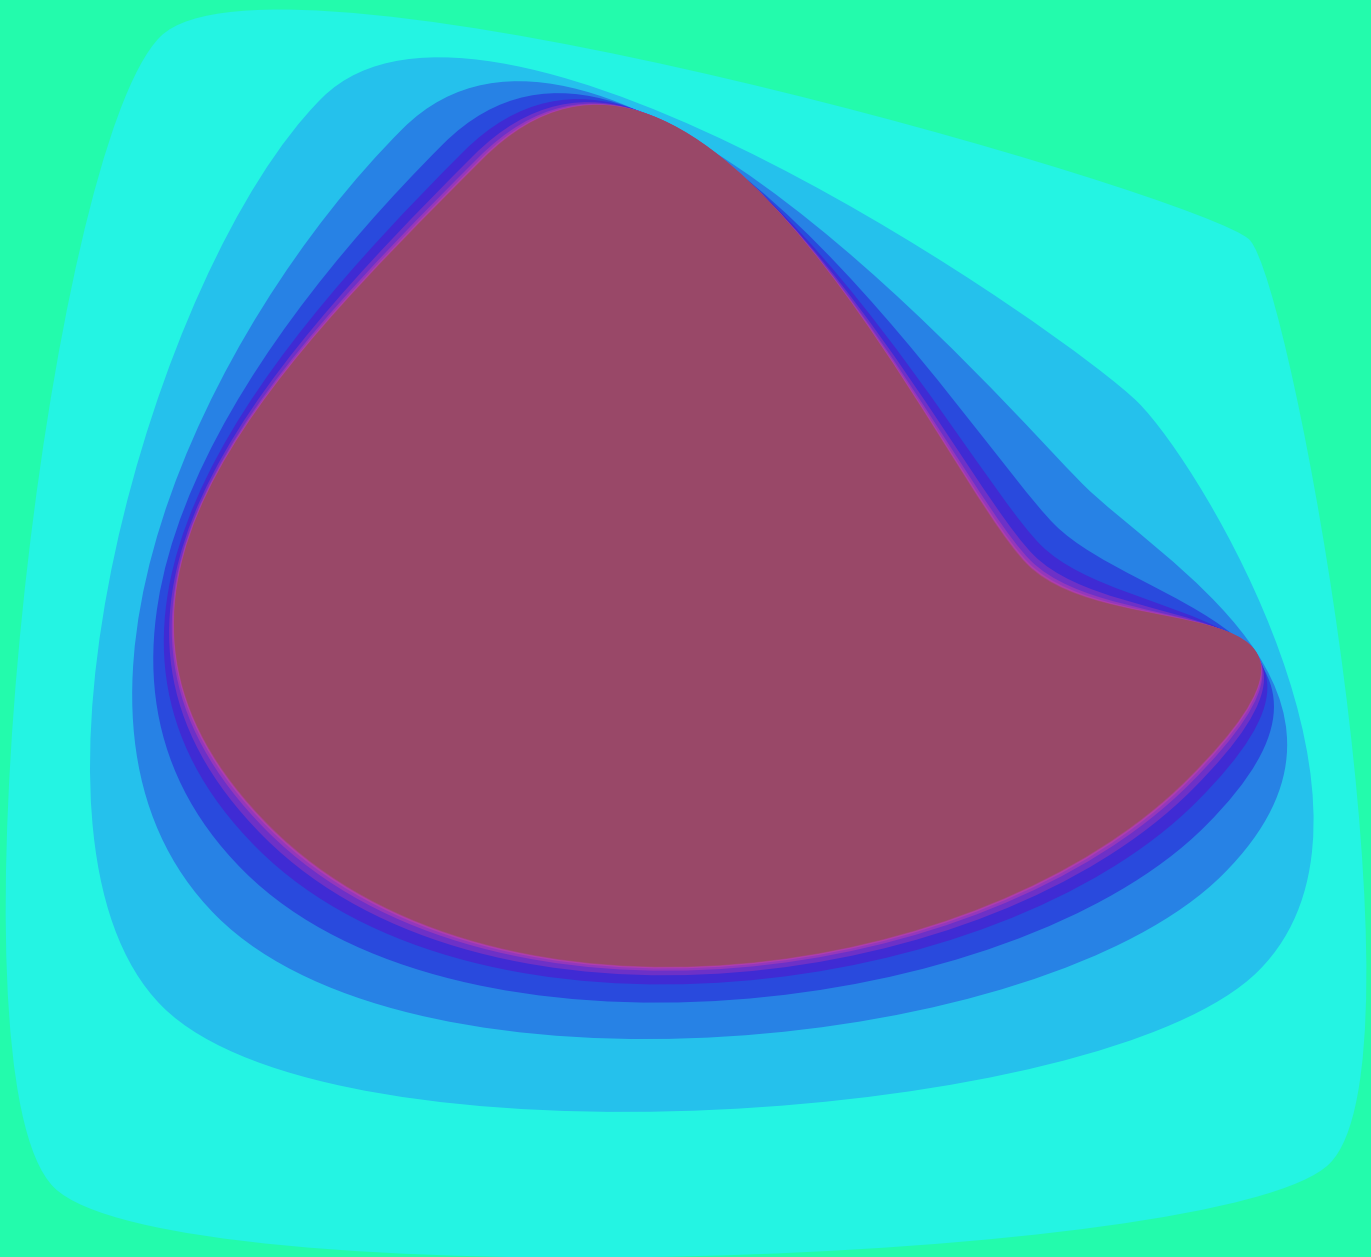

100 random blobs

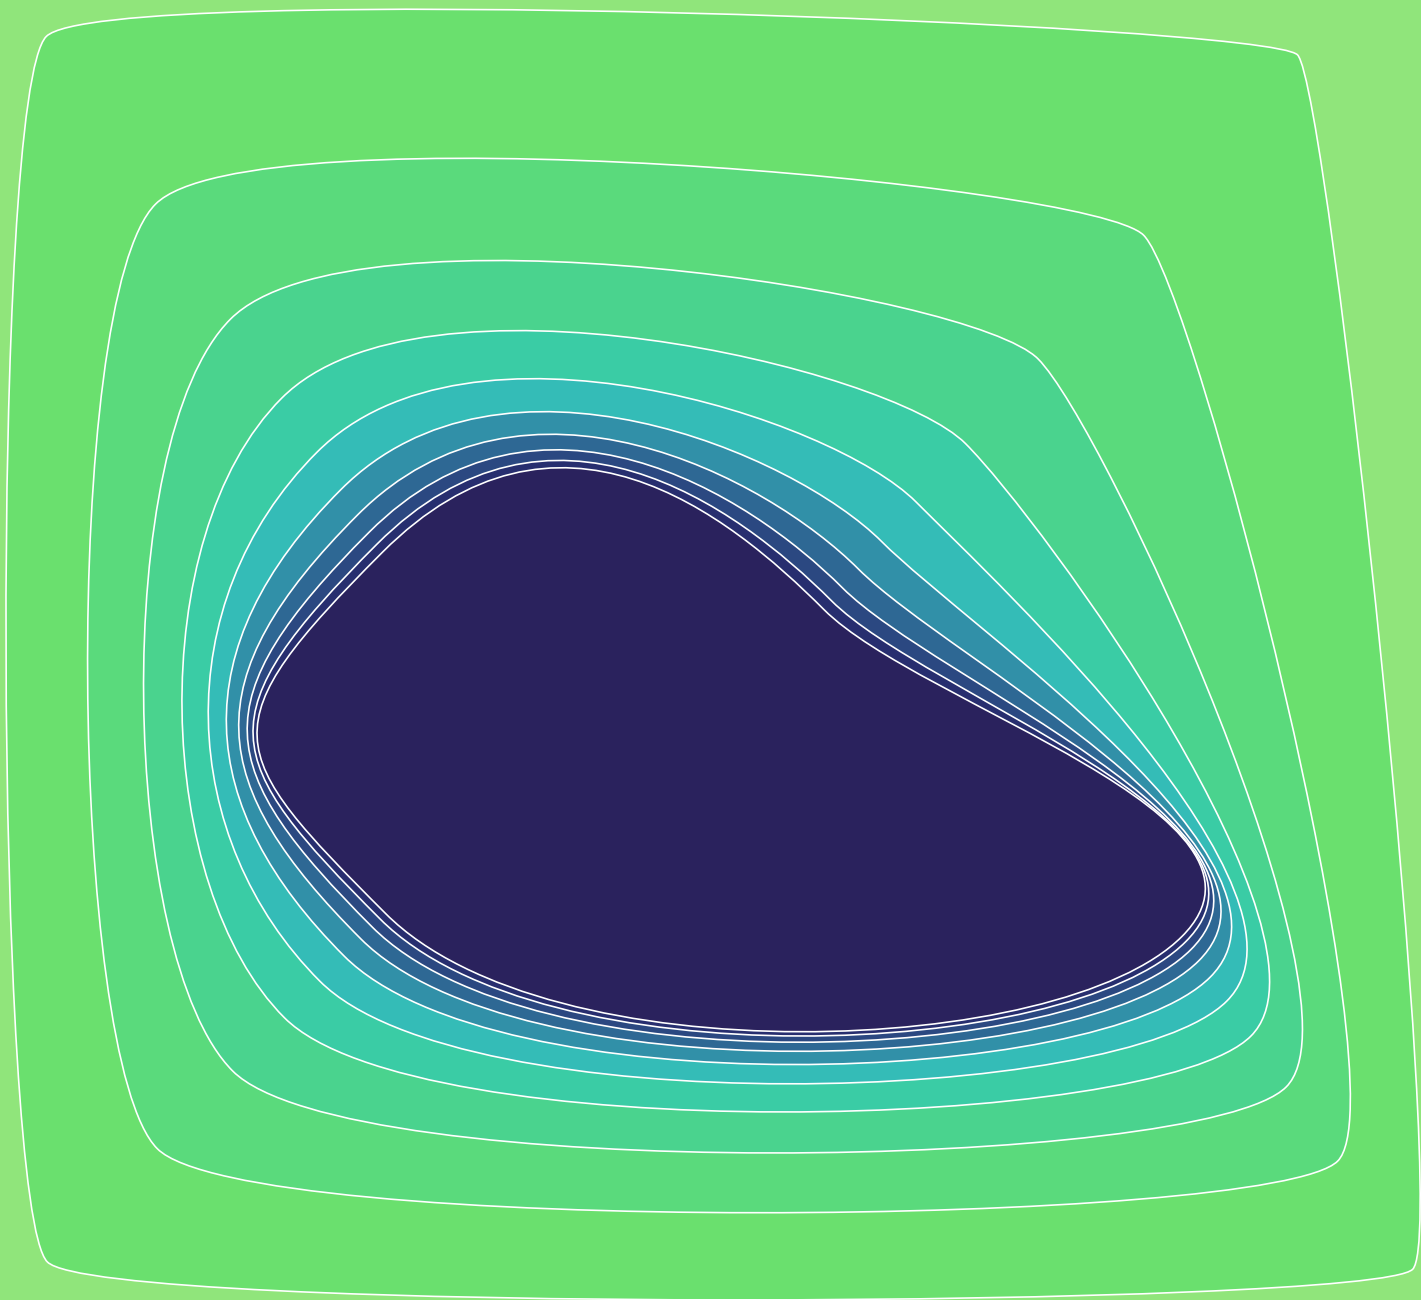

December the 16th, 2015 — Vasilis van Gemert

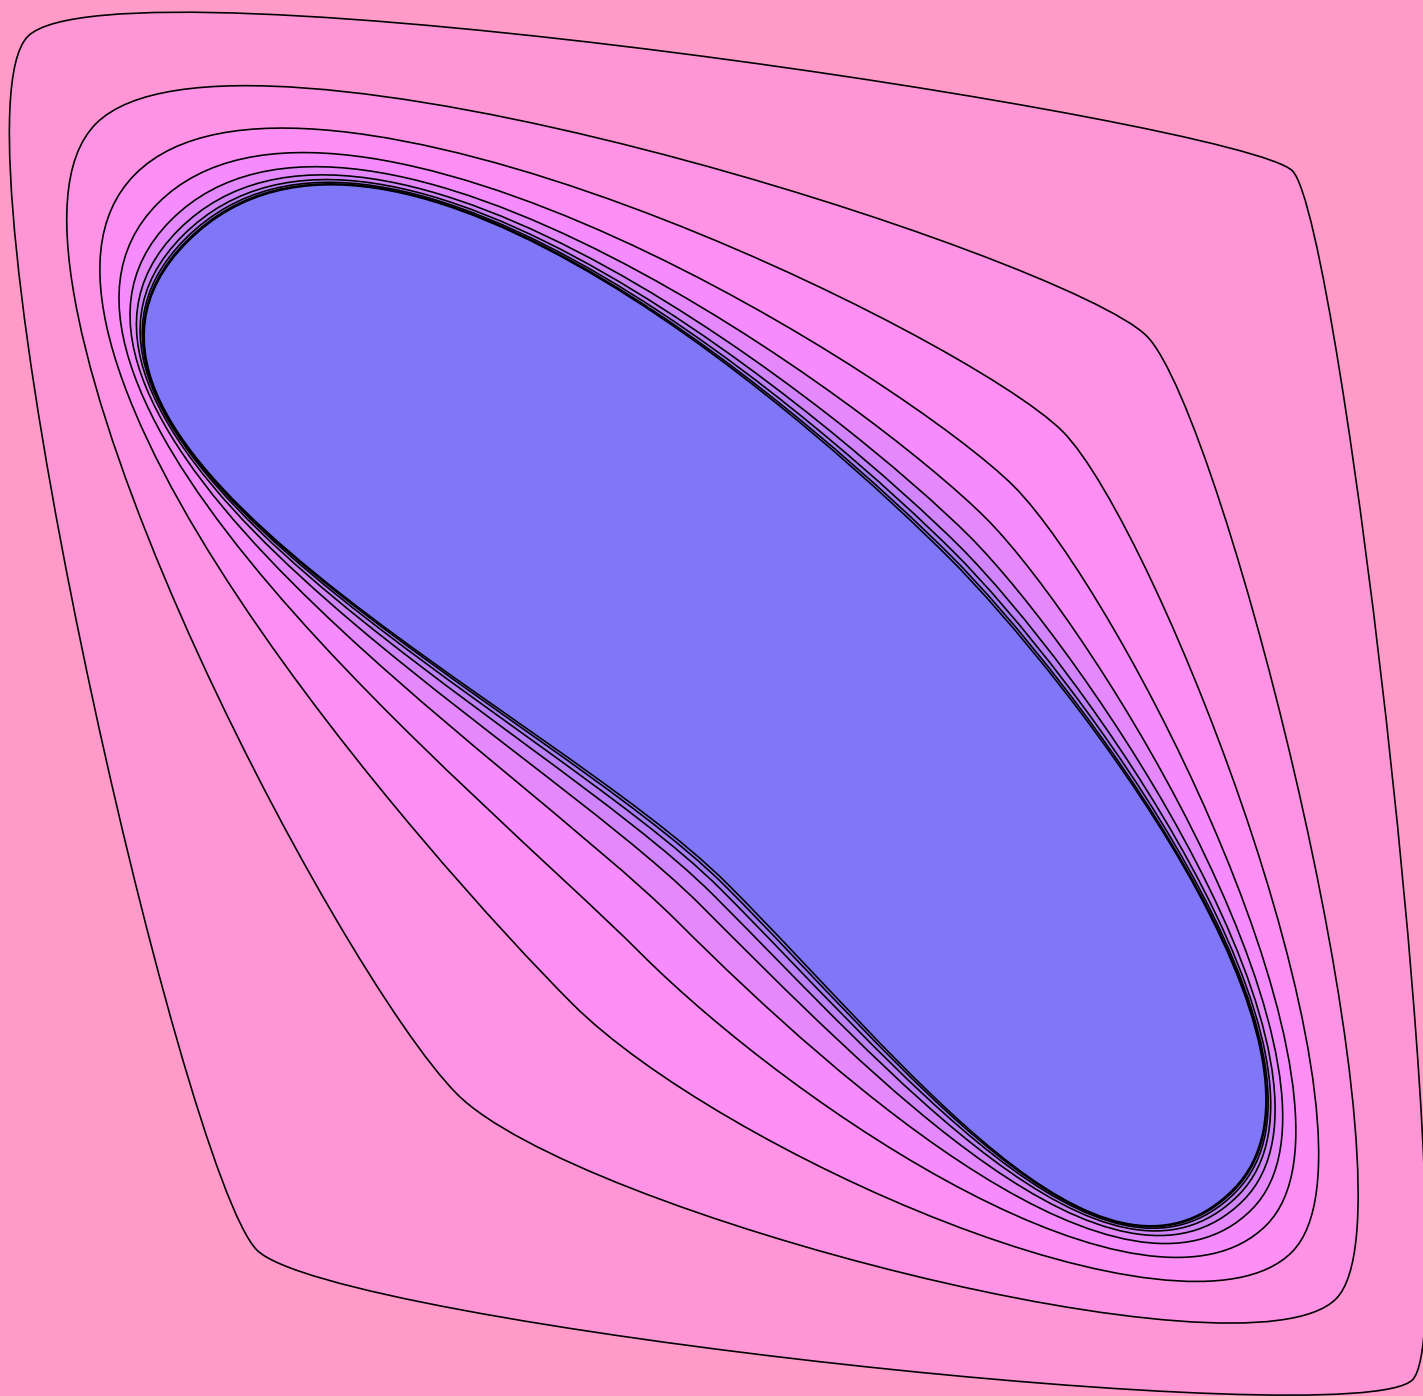

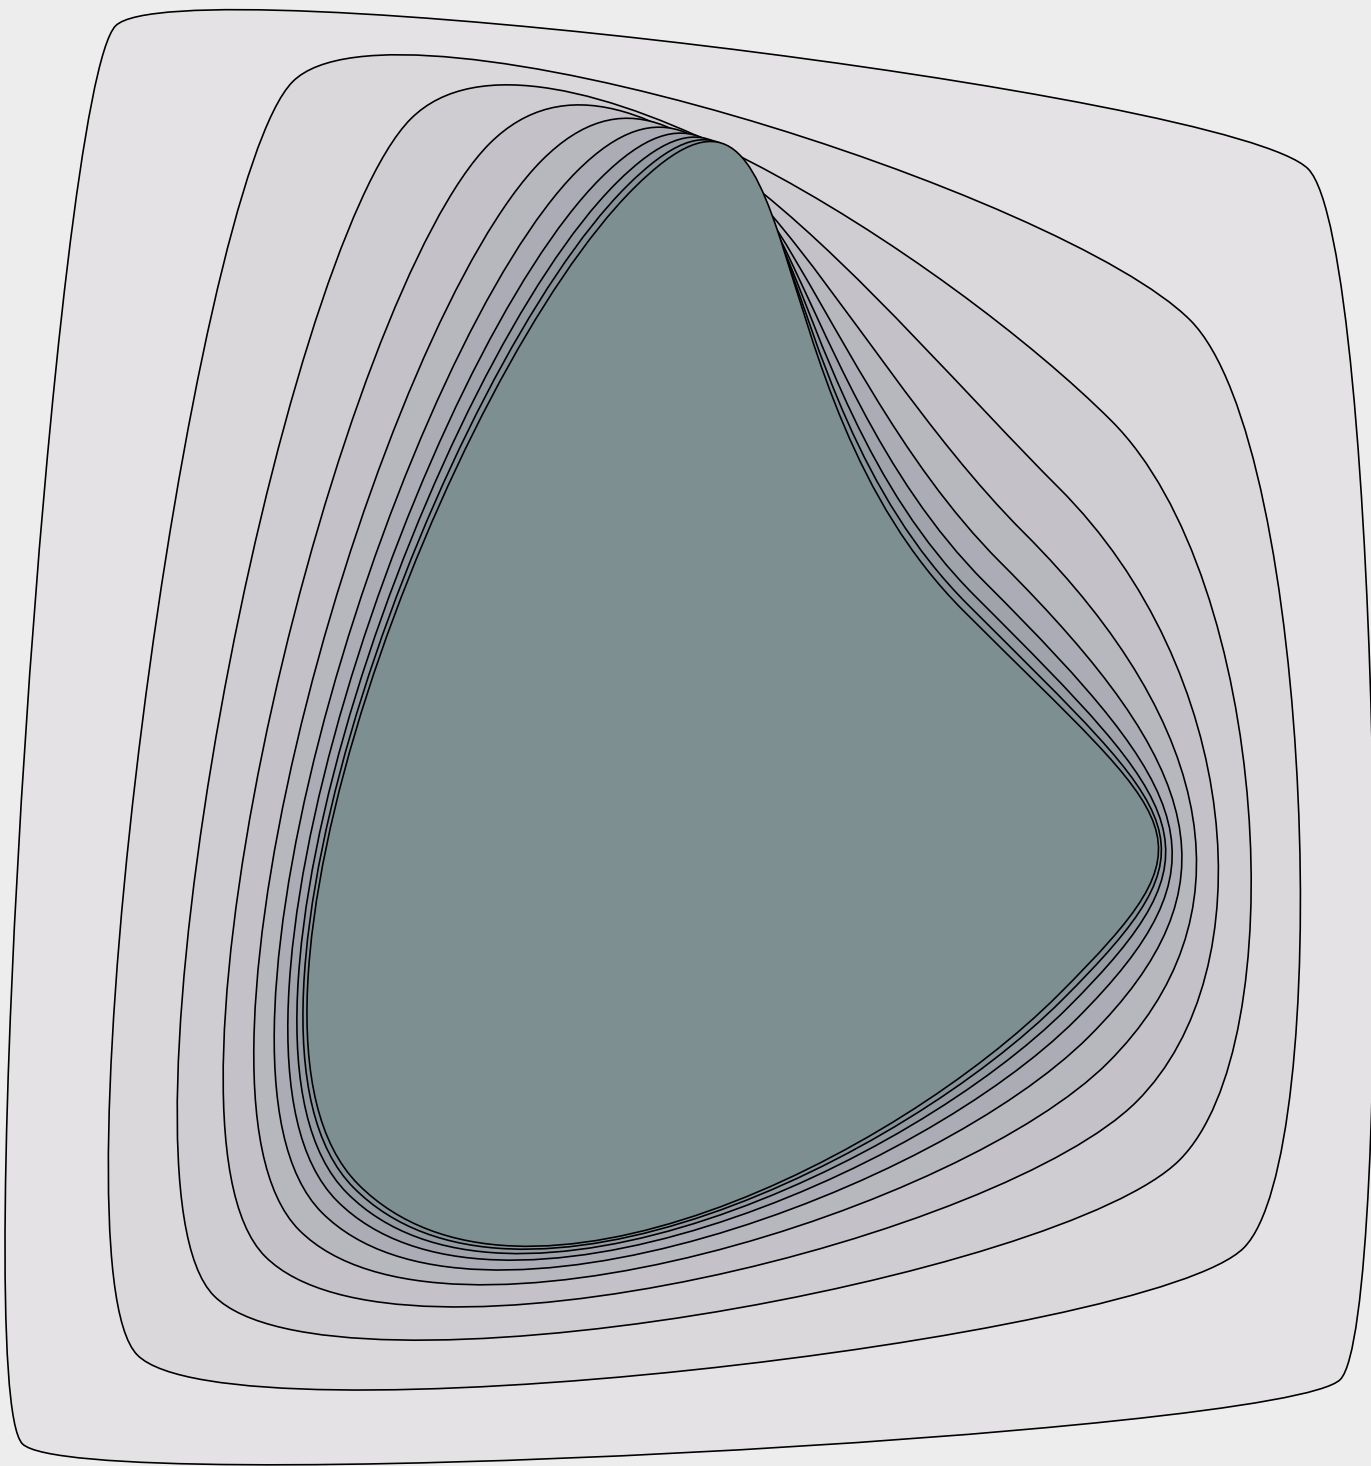

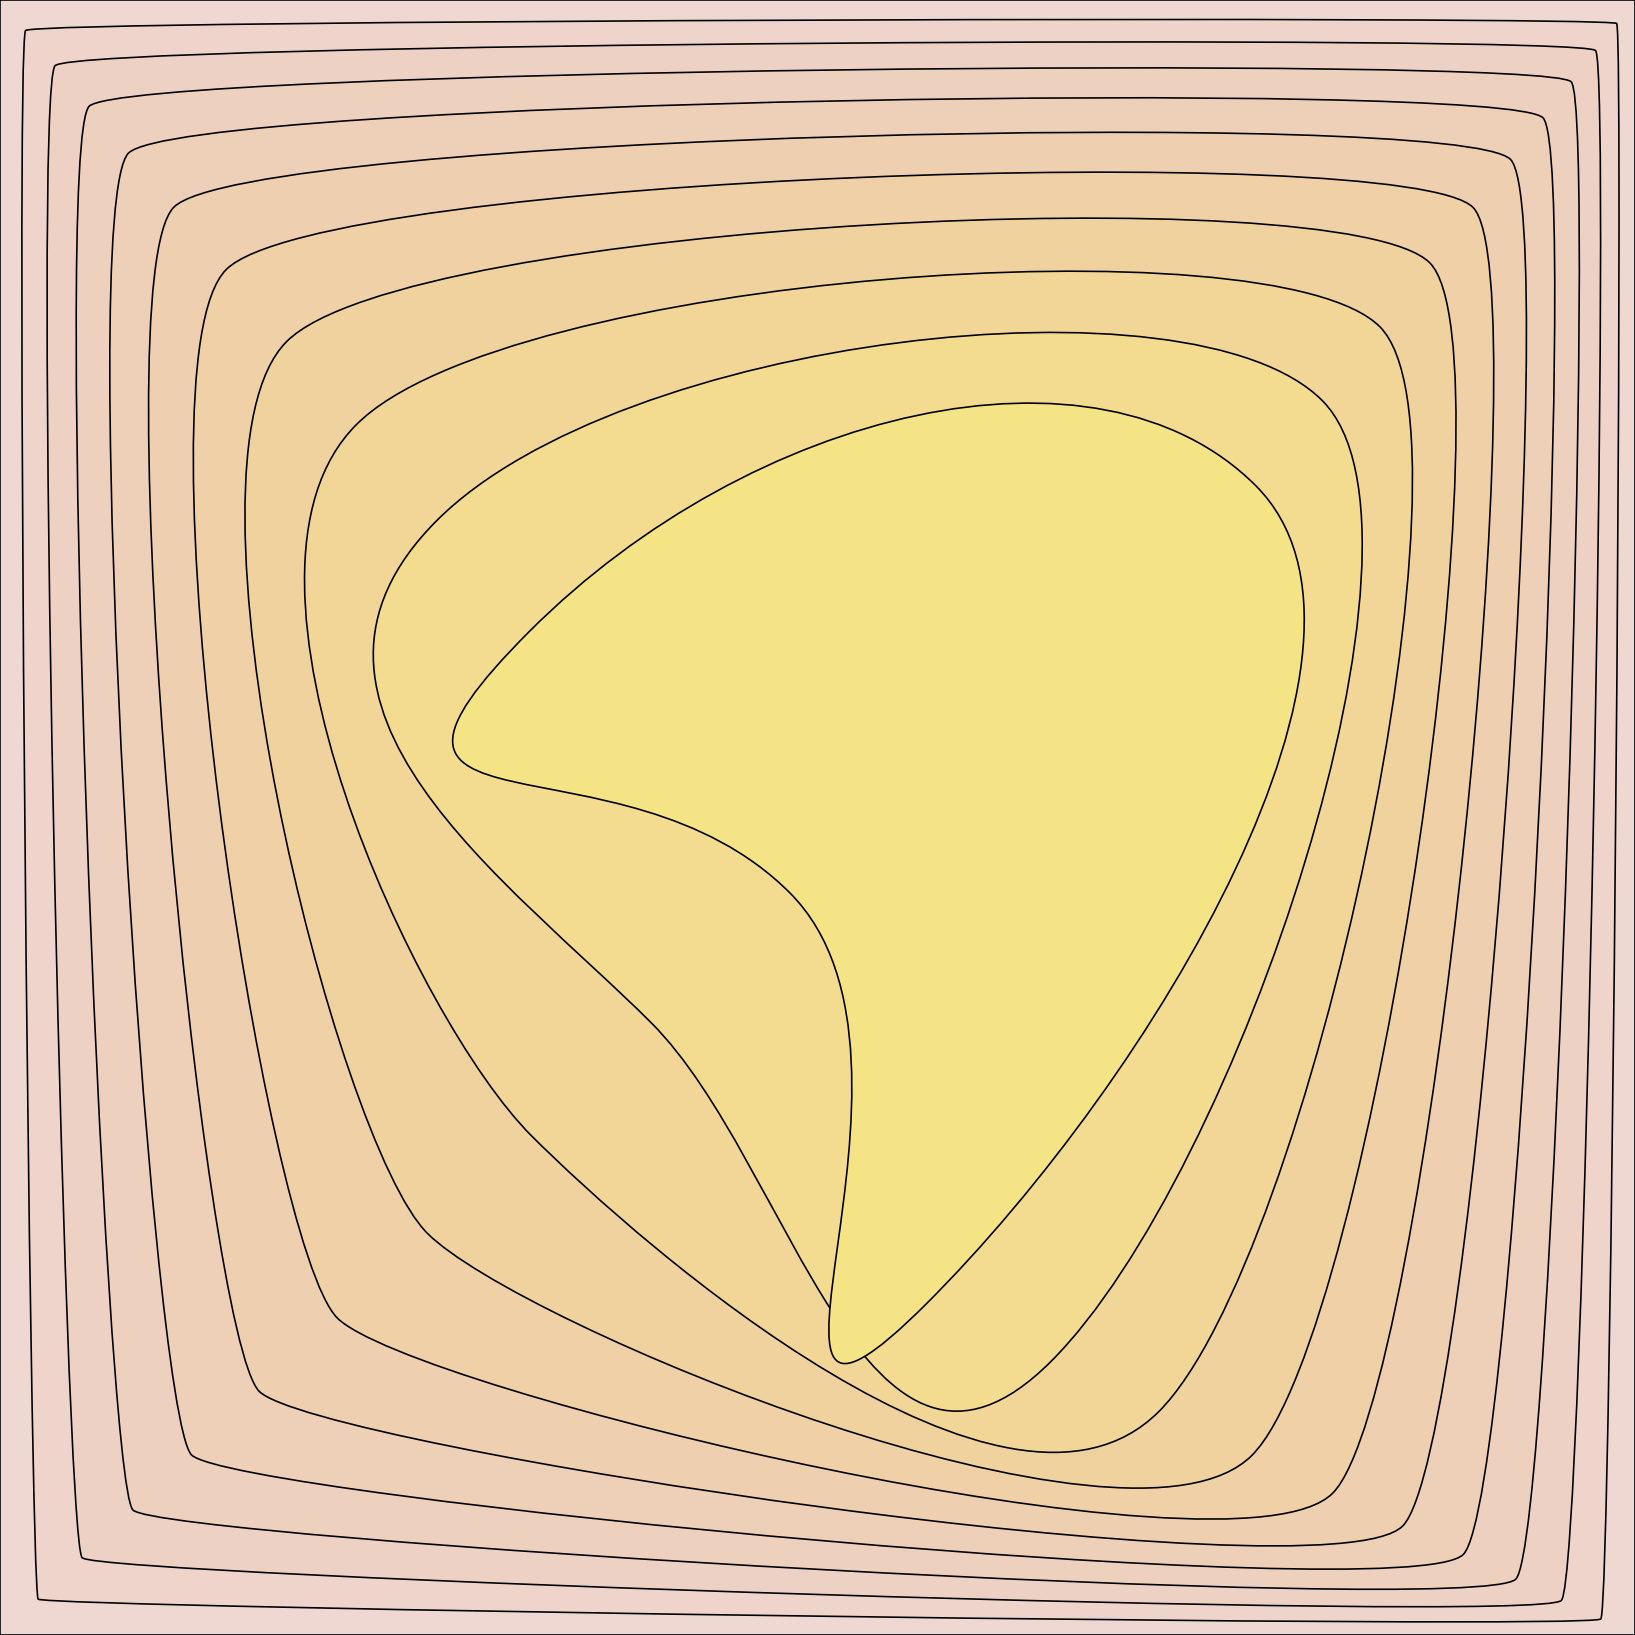

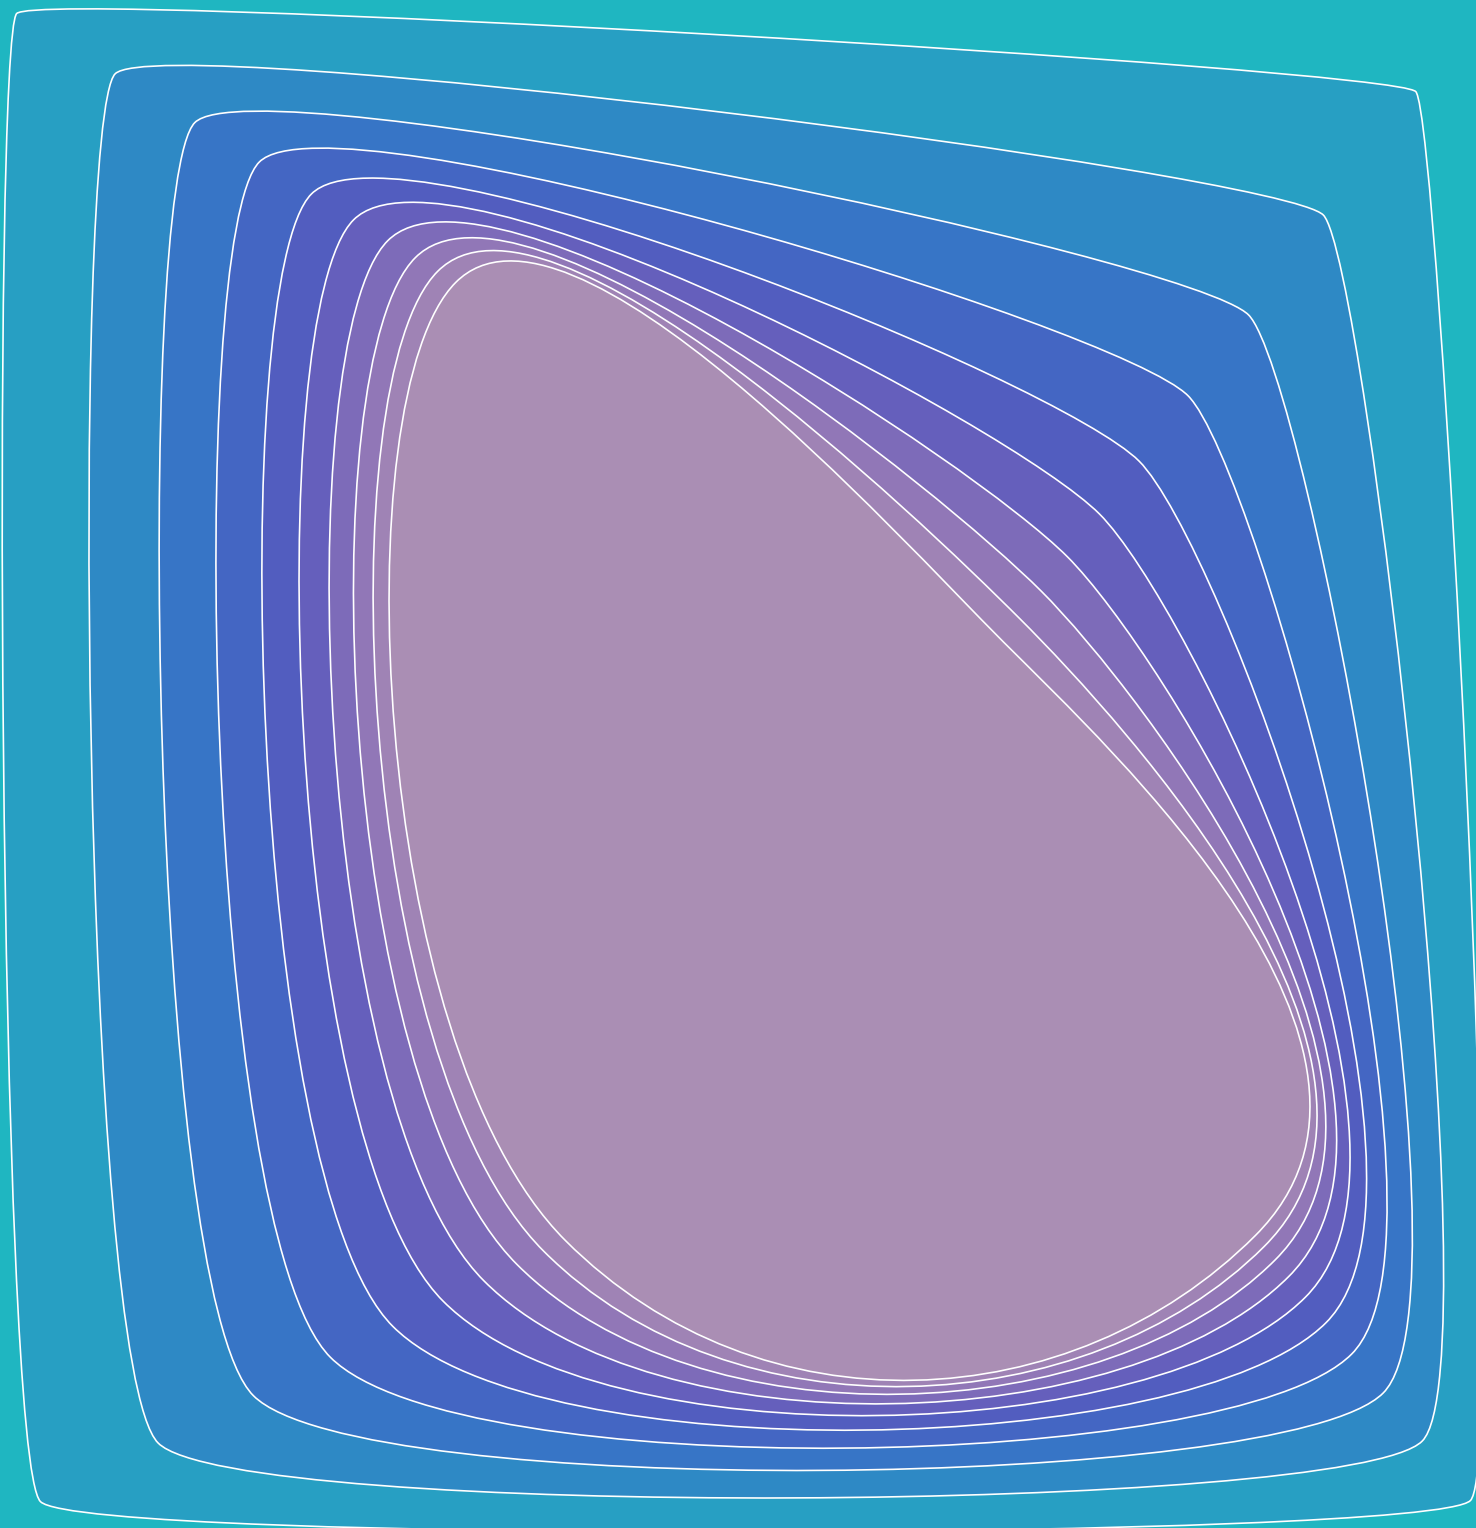

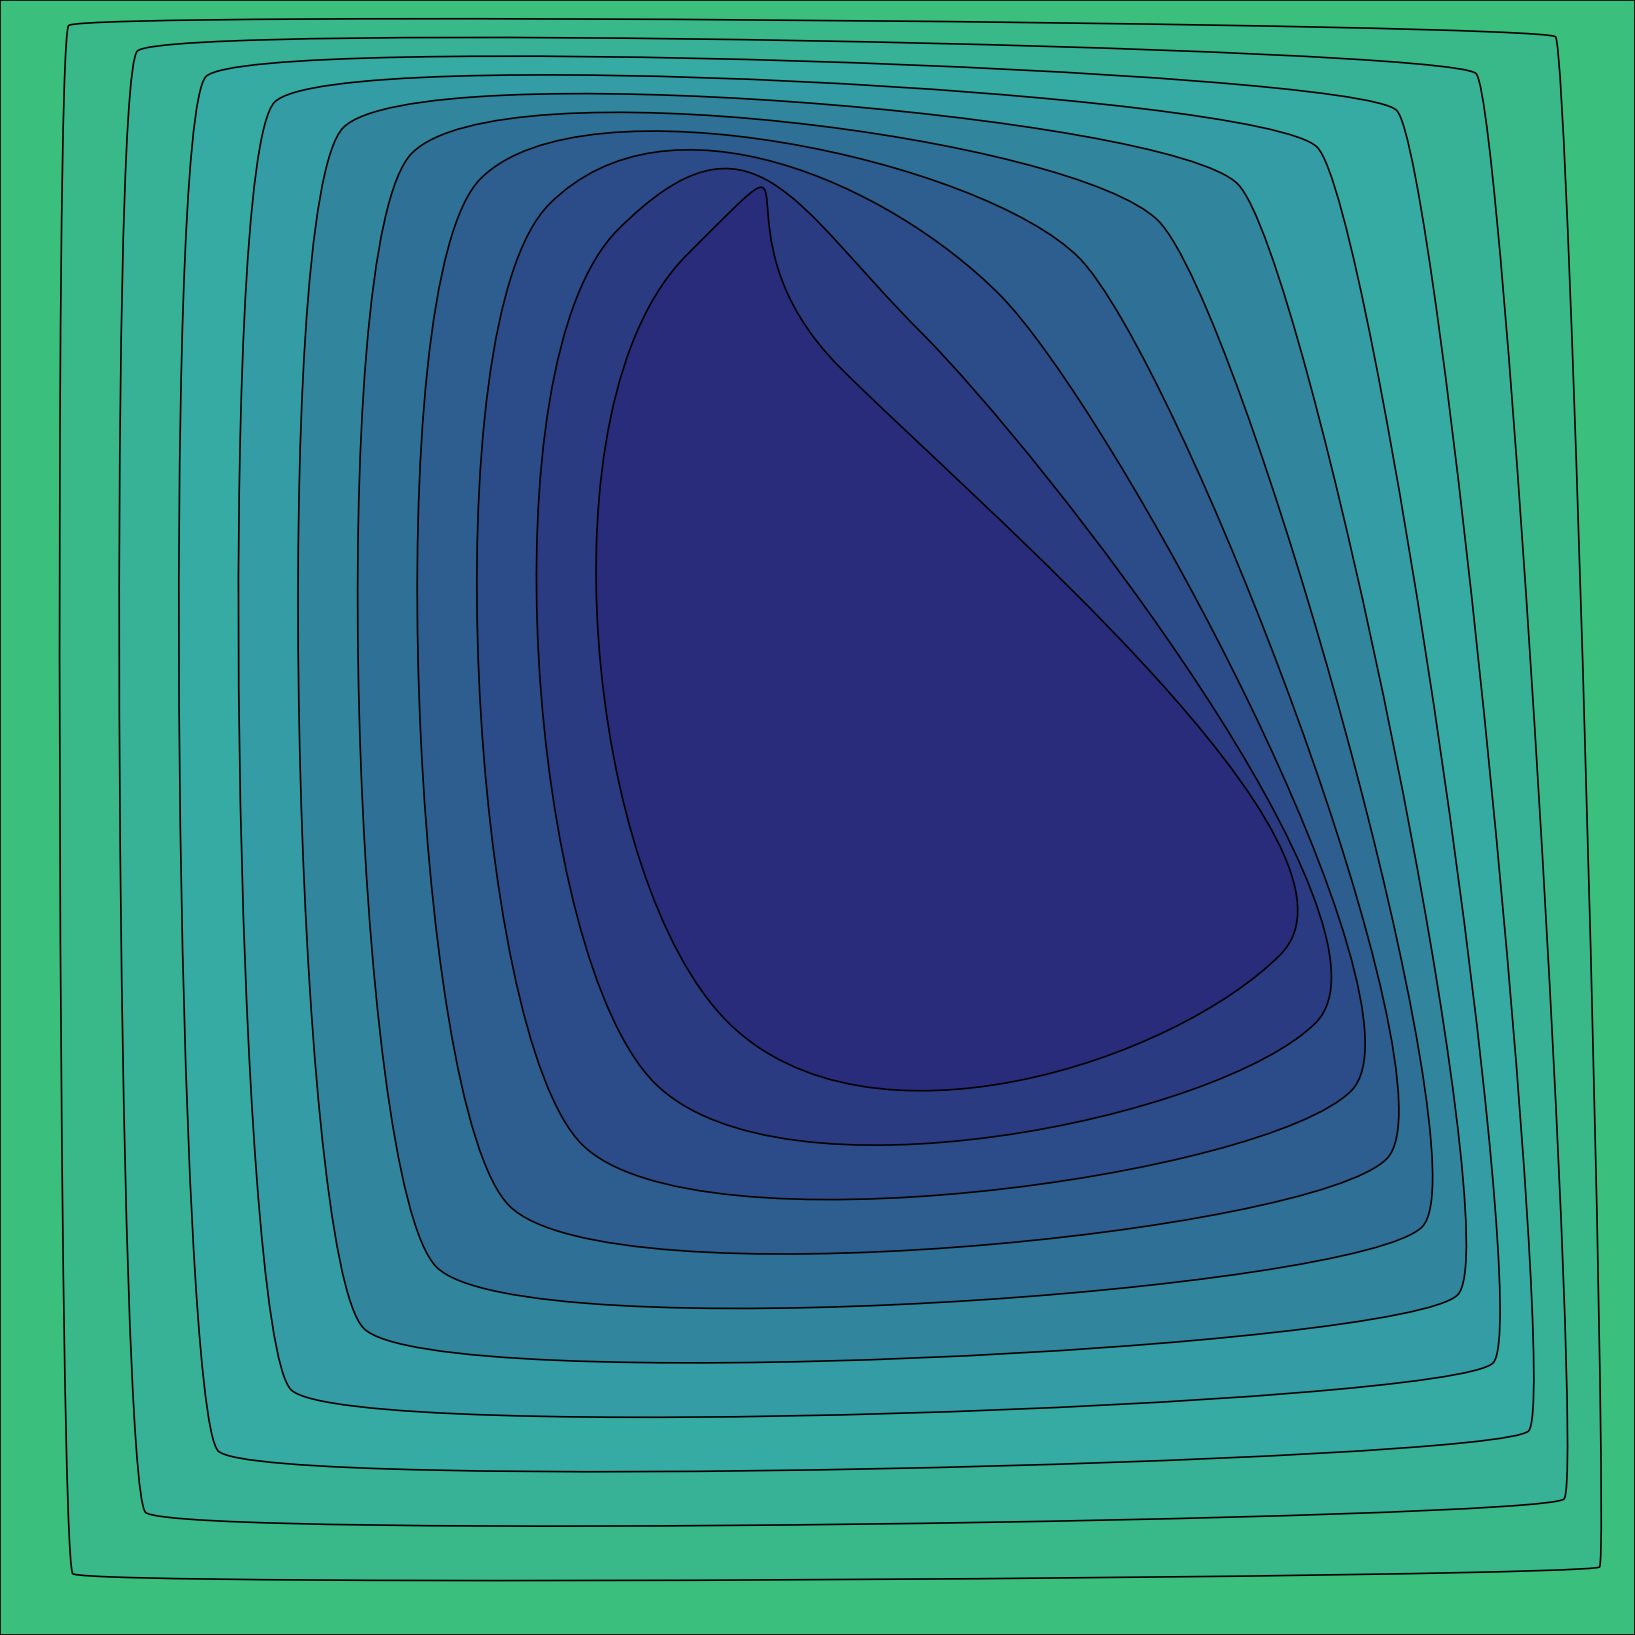

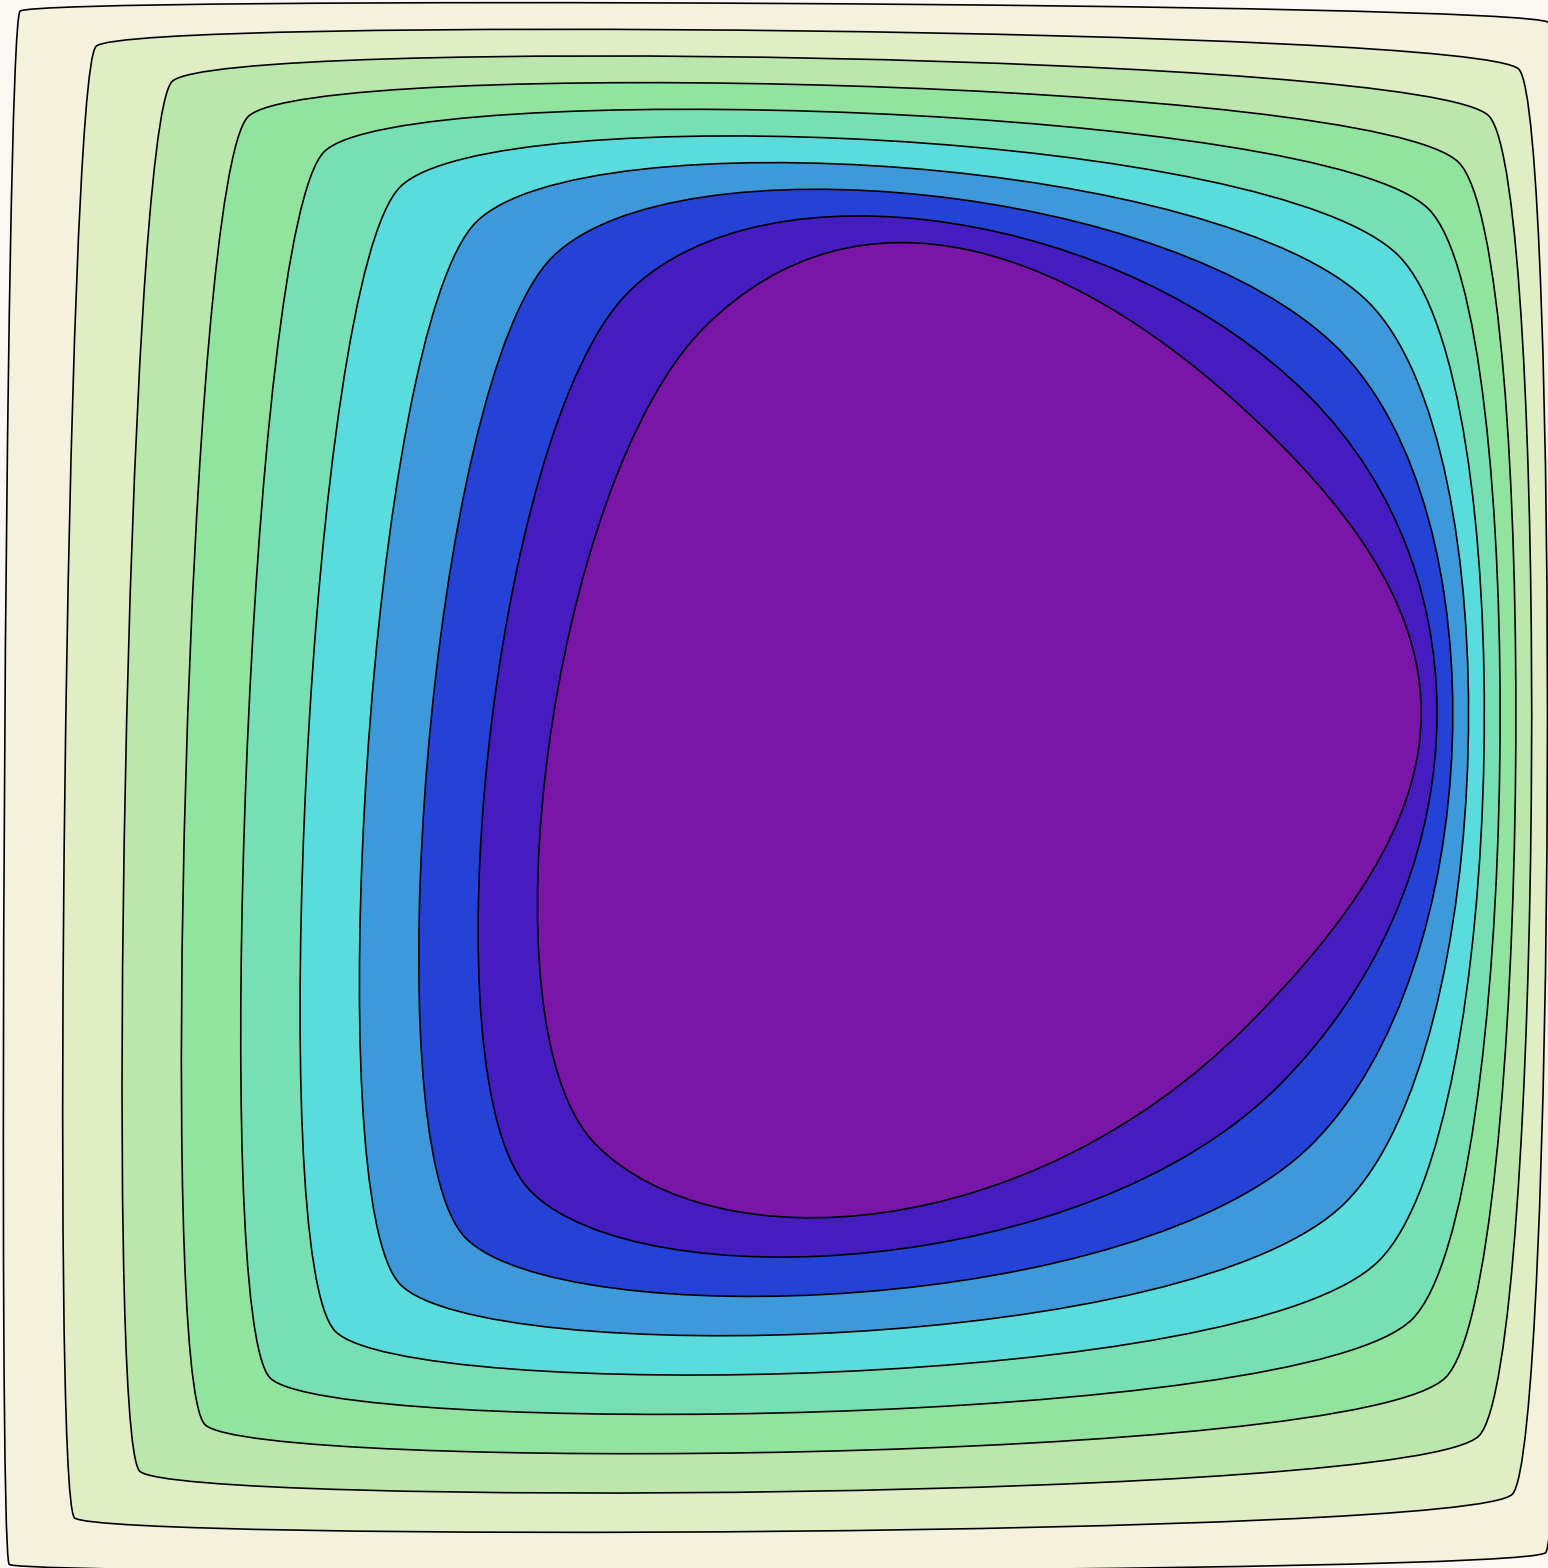

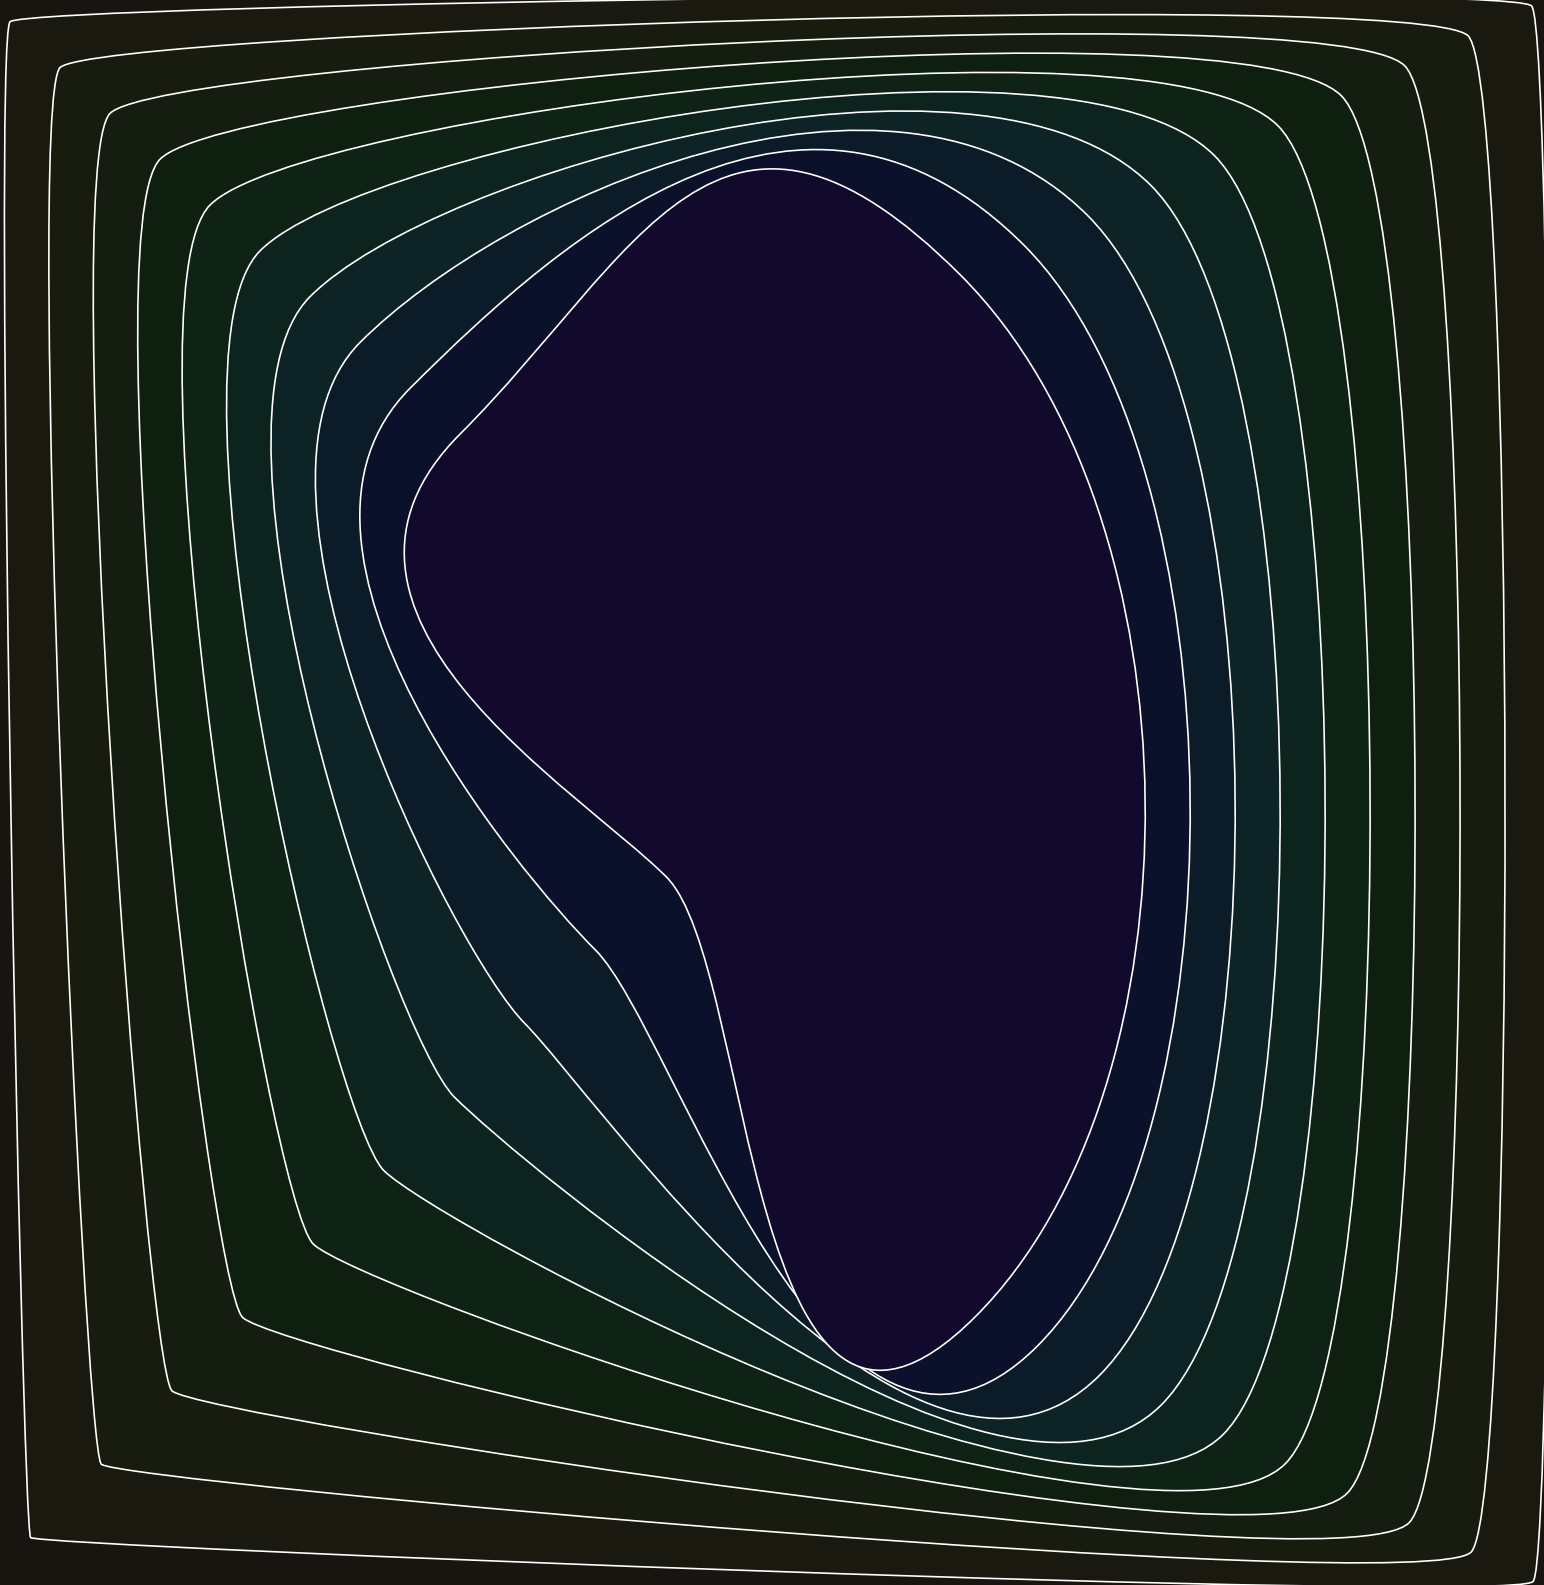

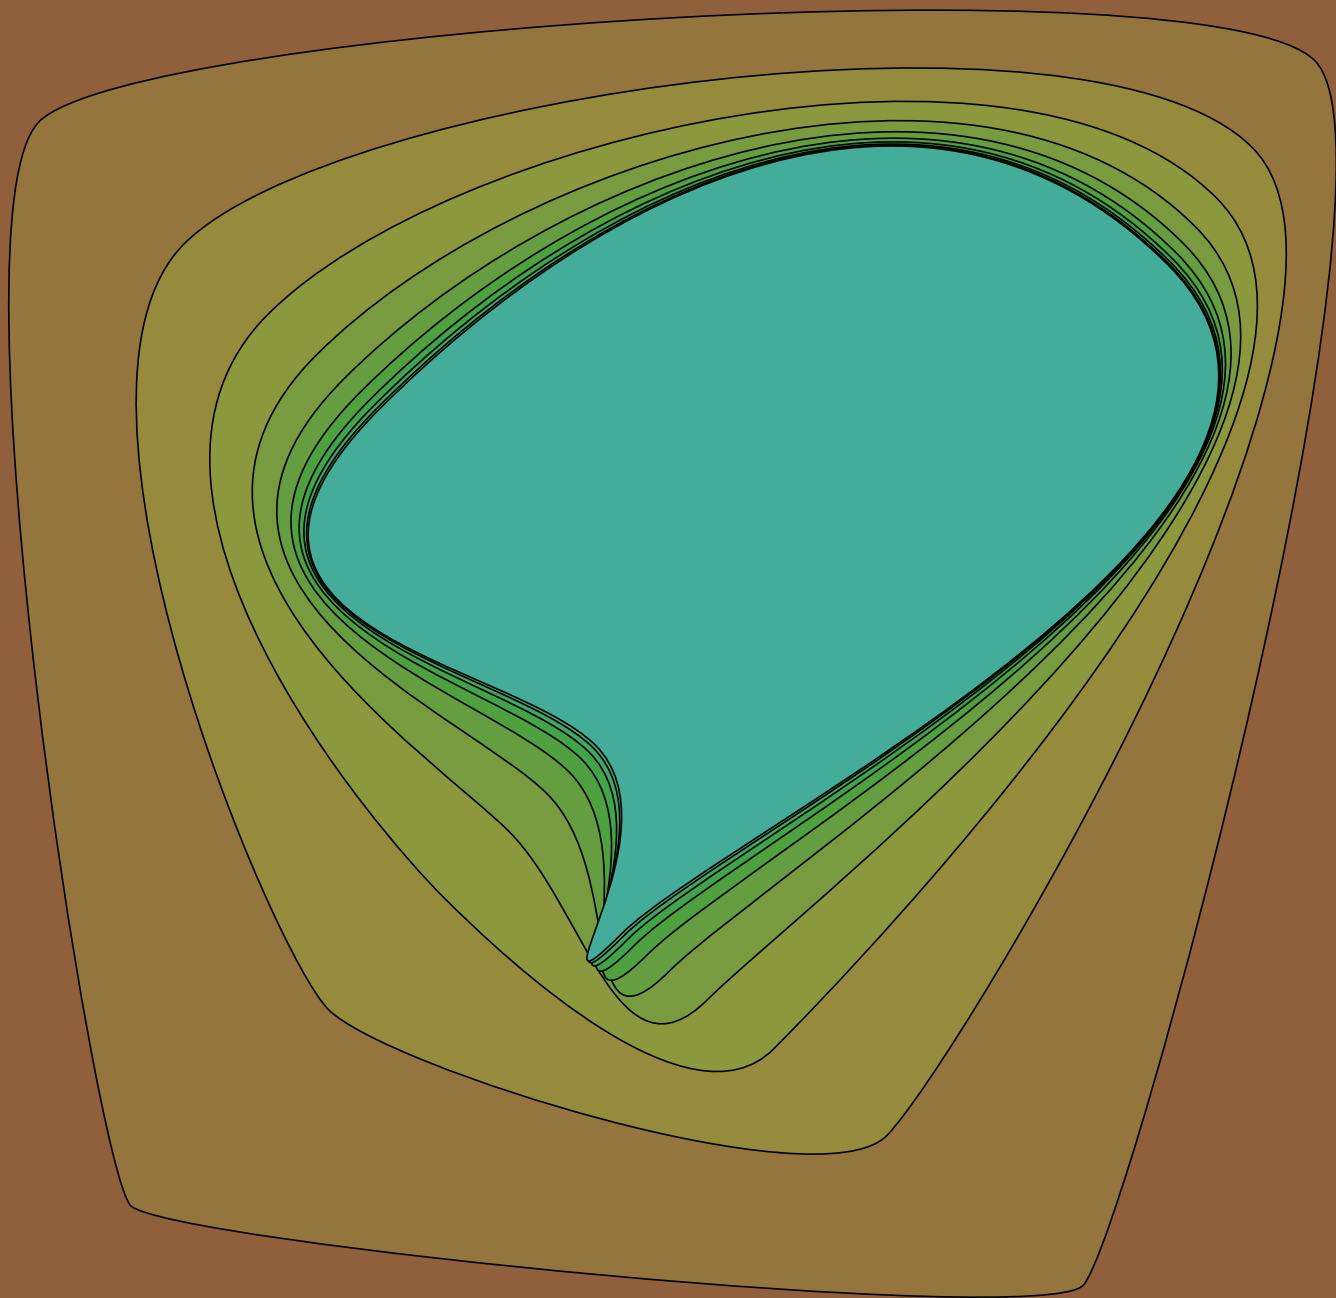

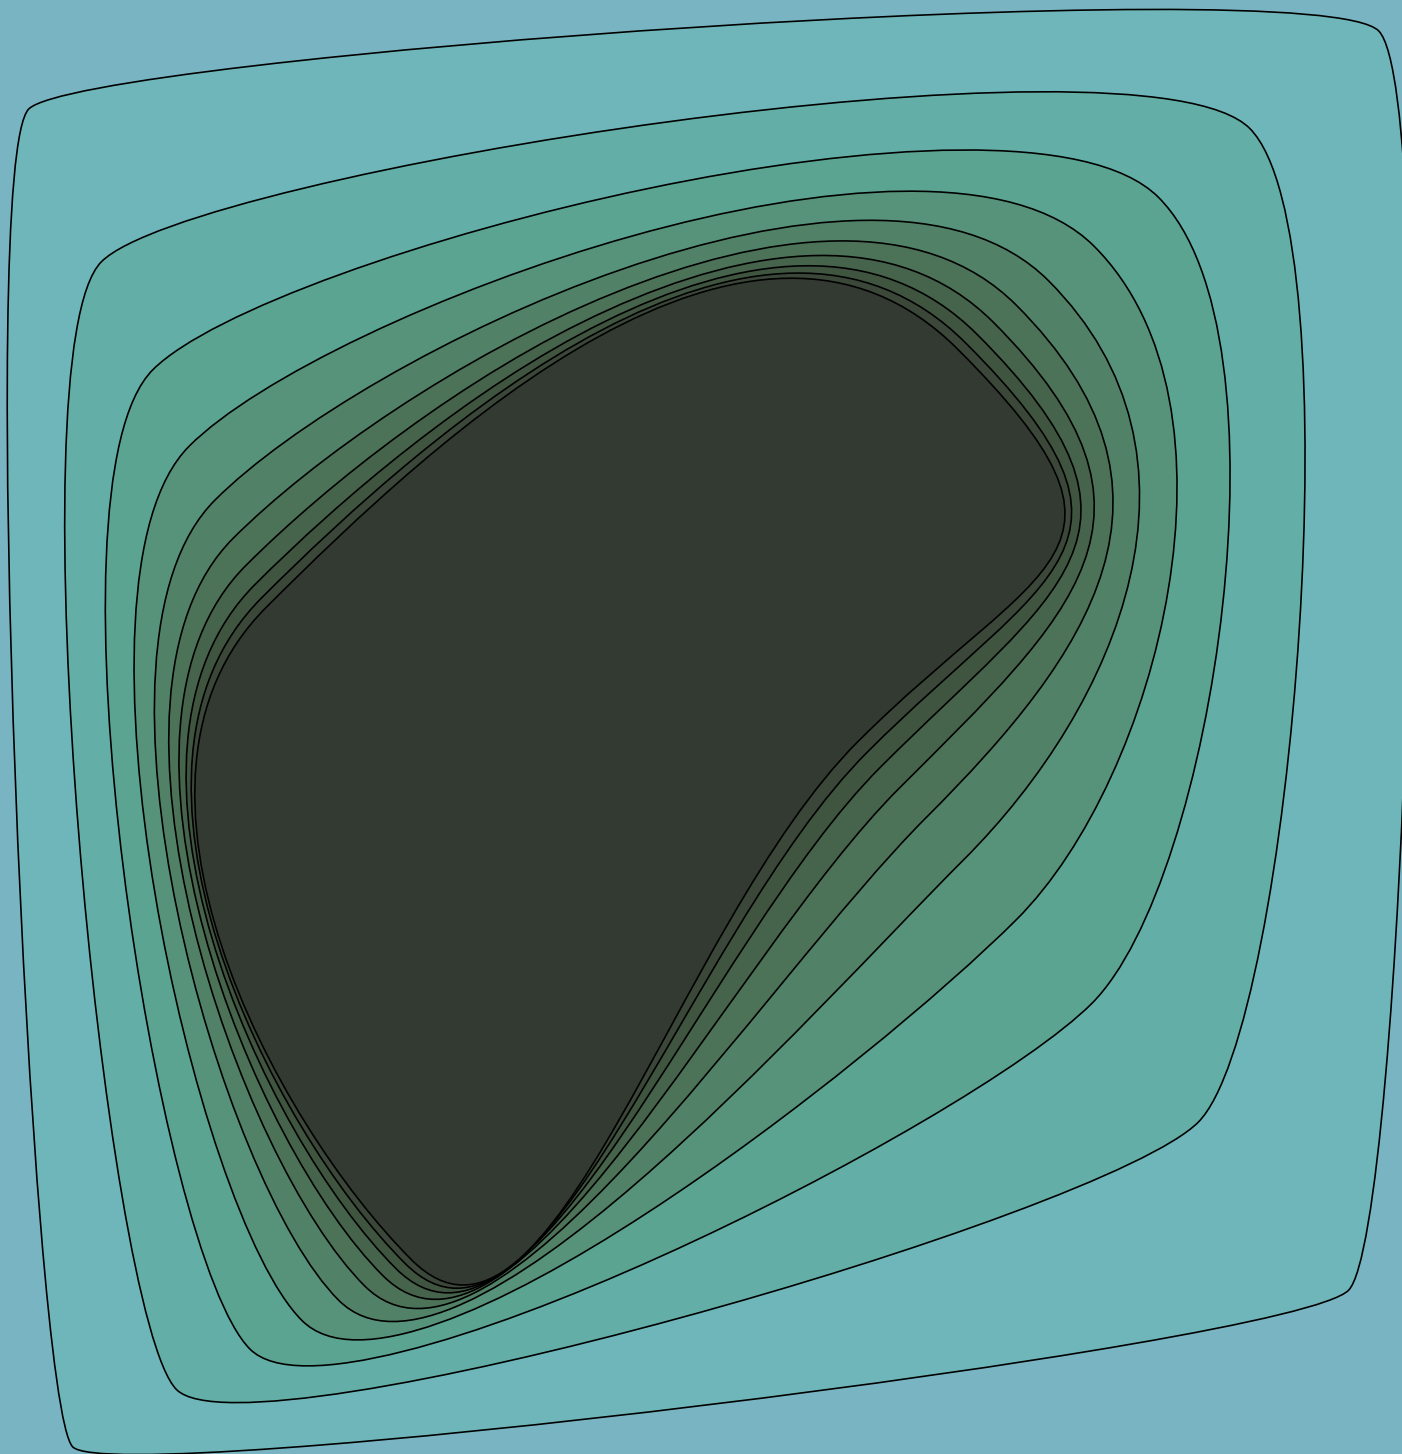

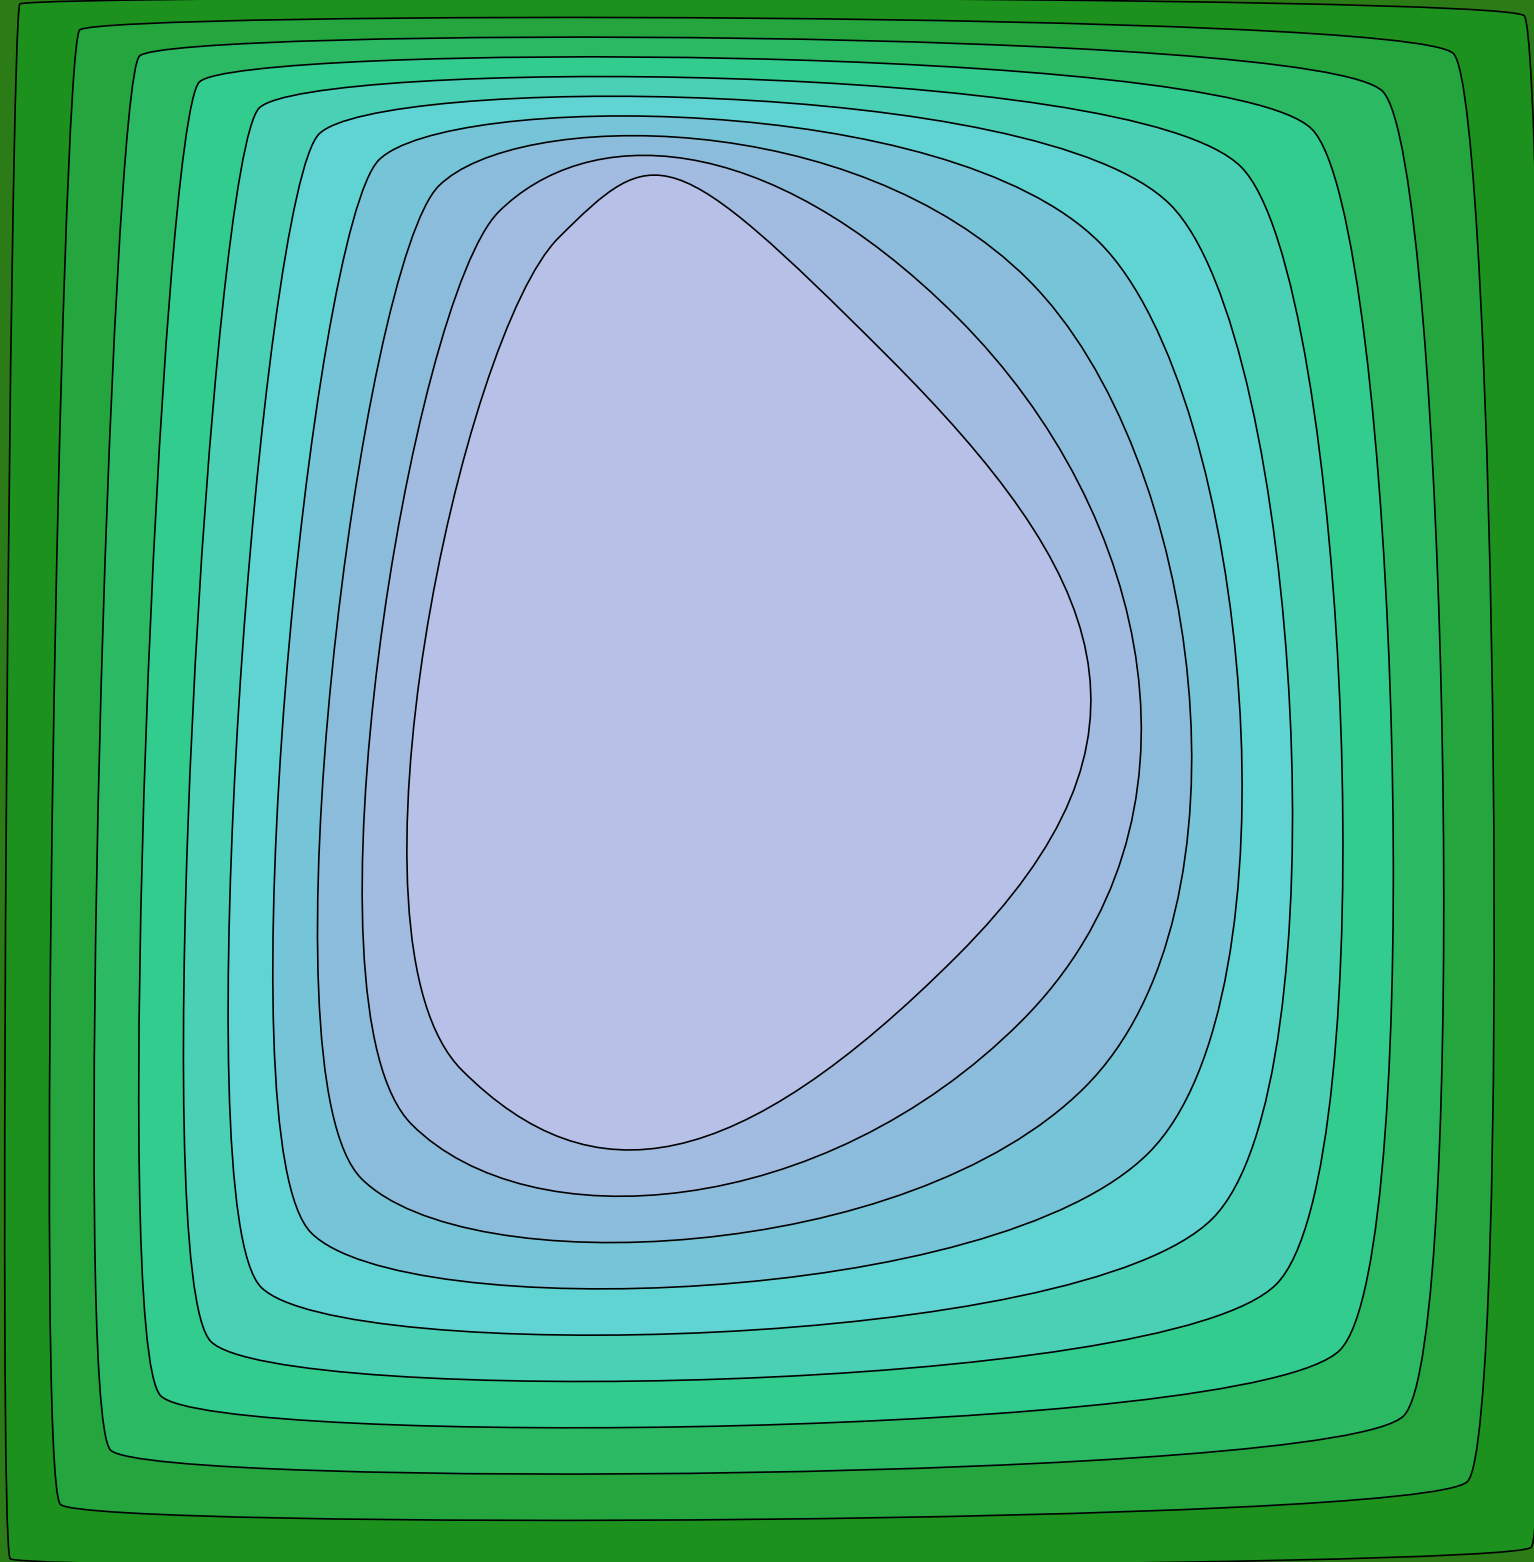

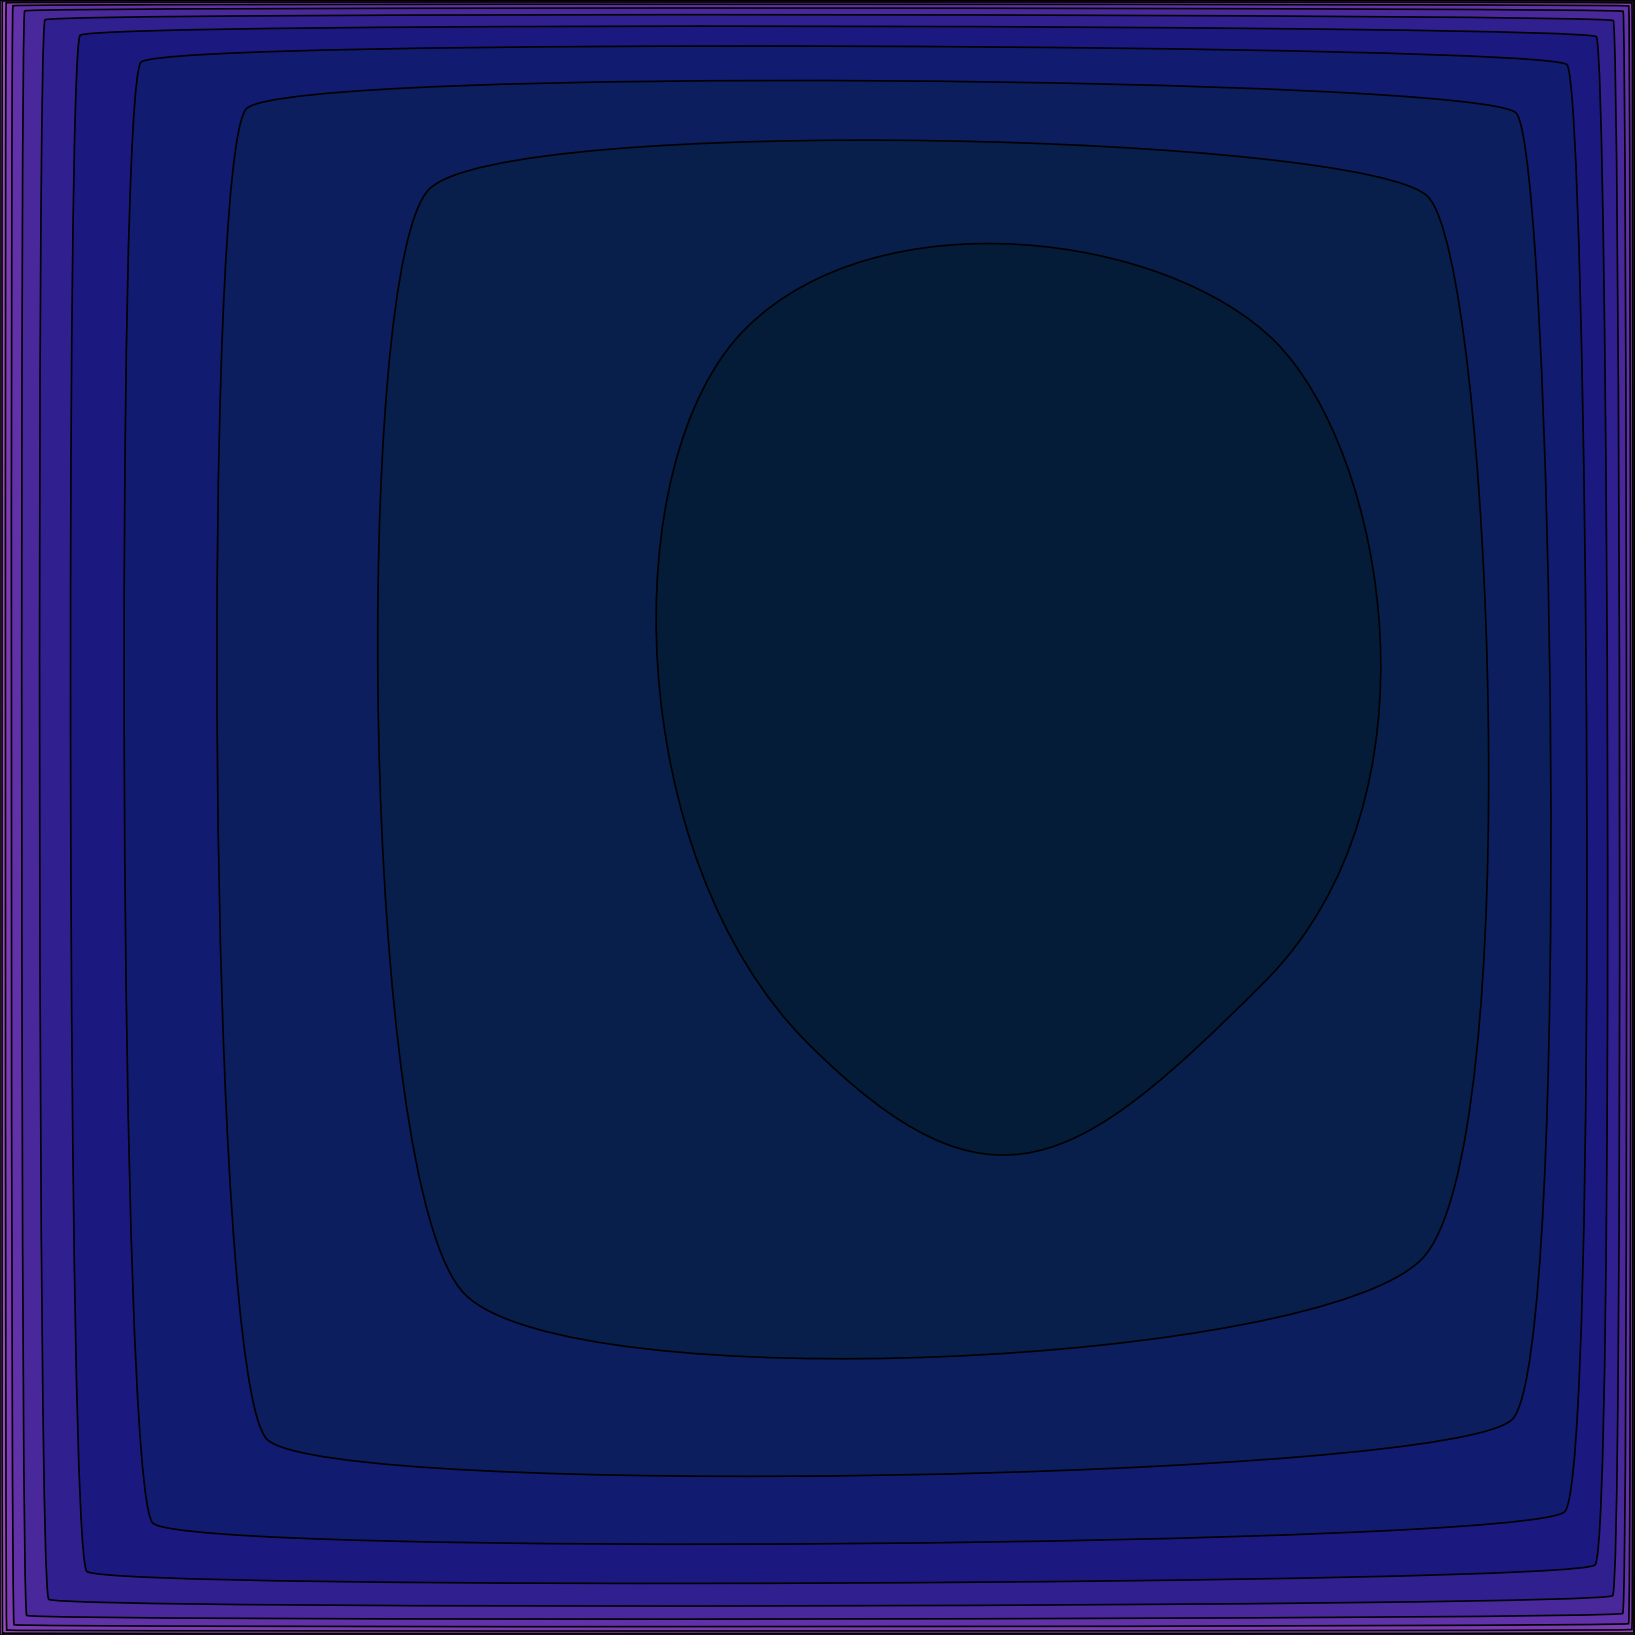

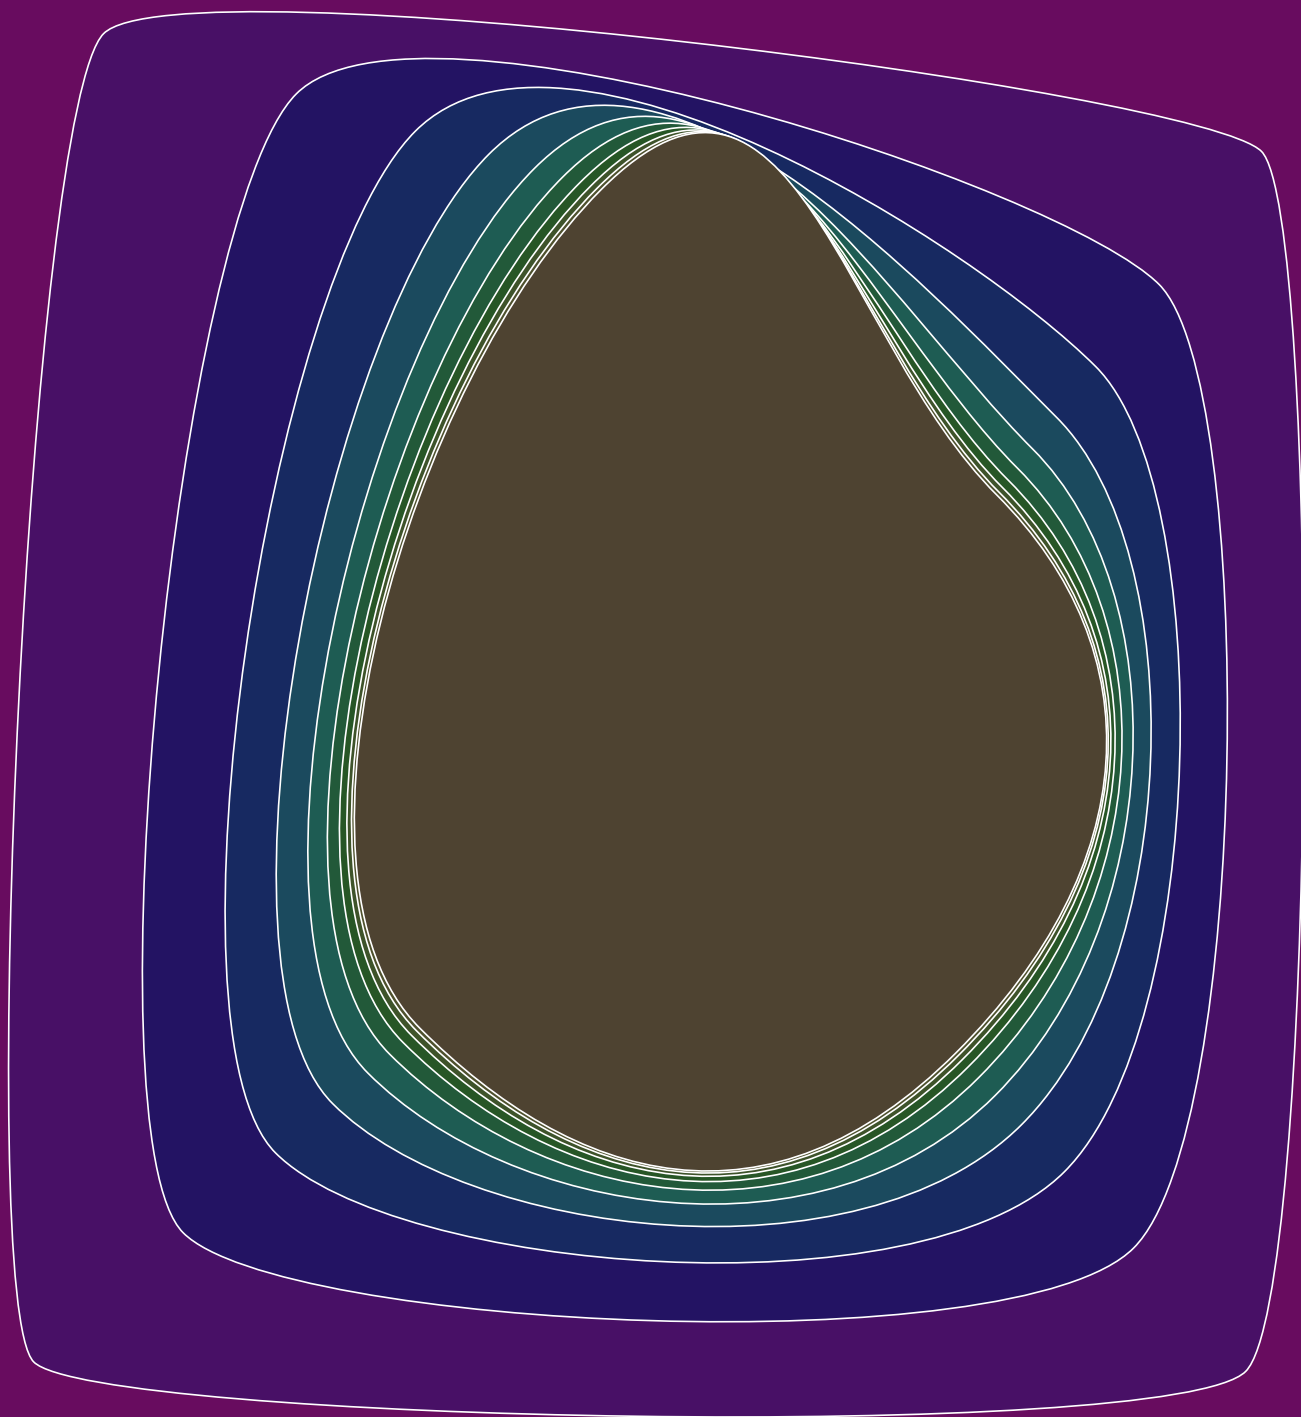

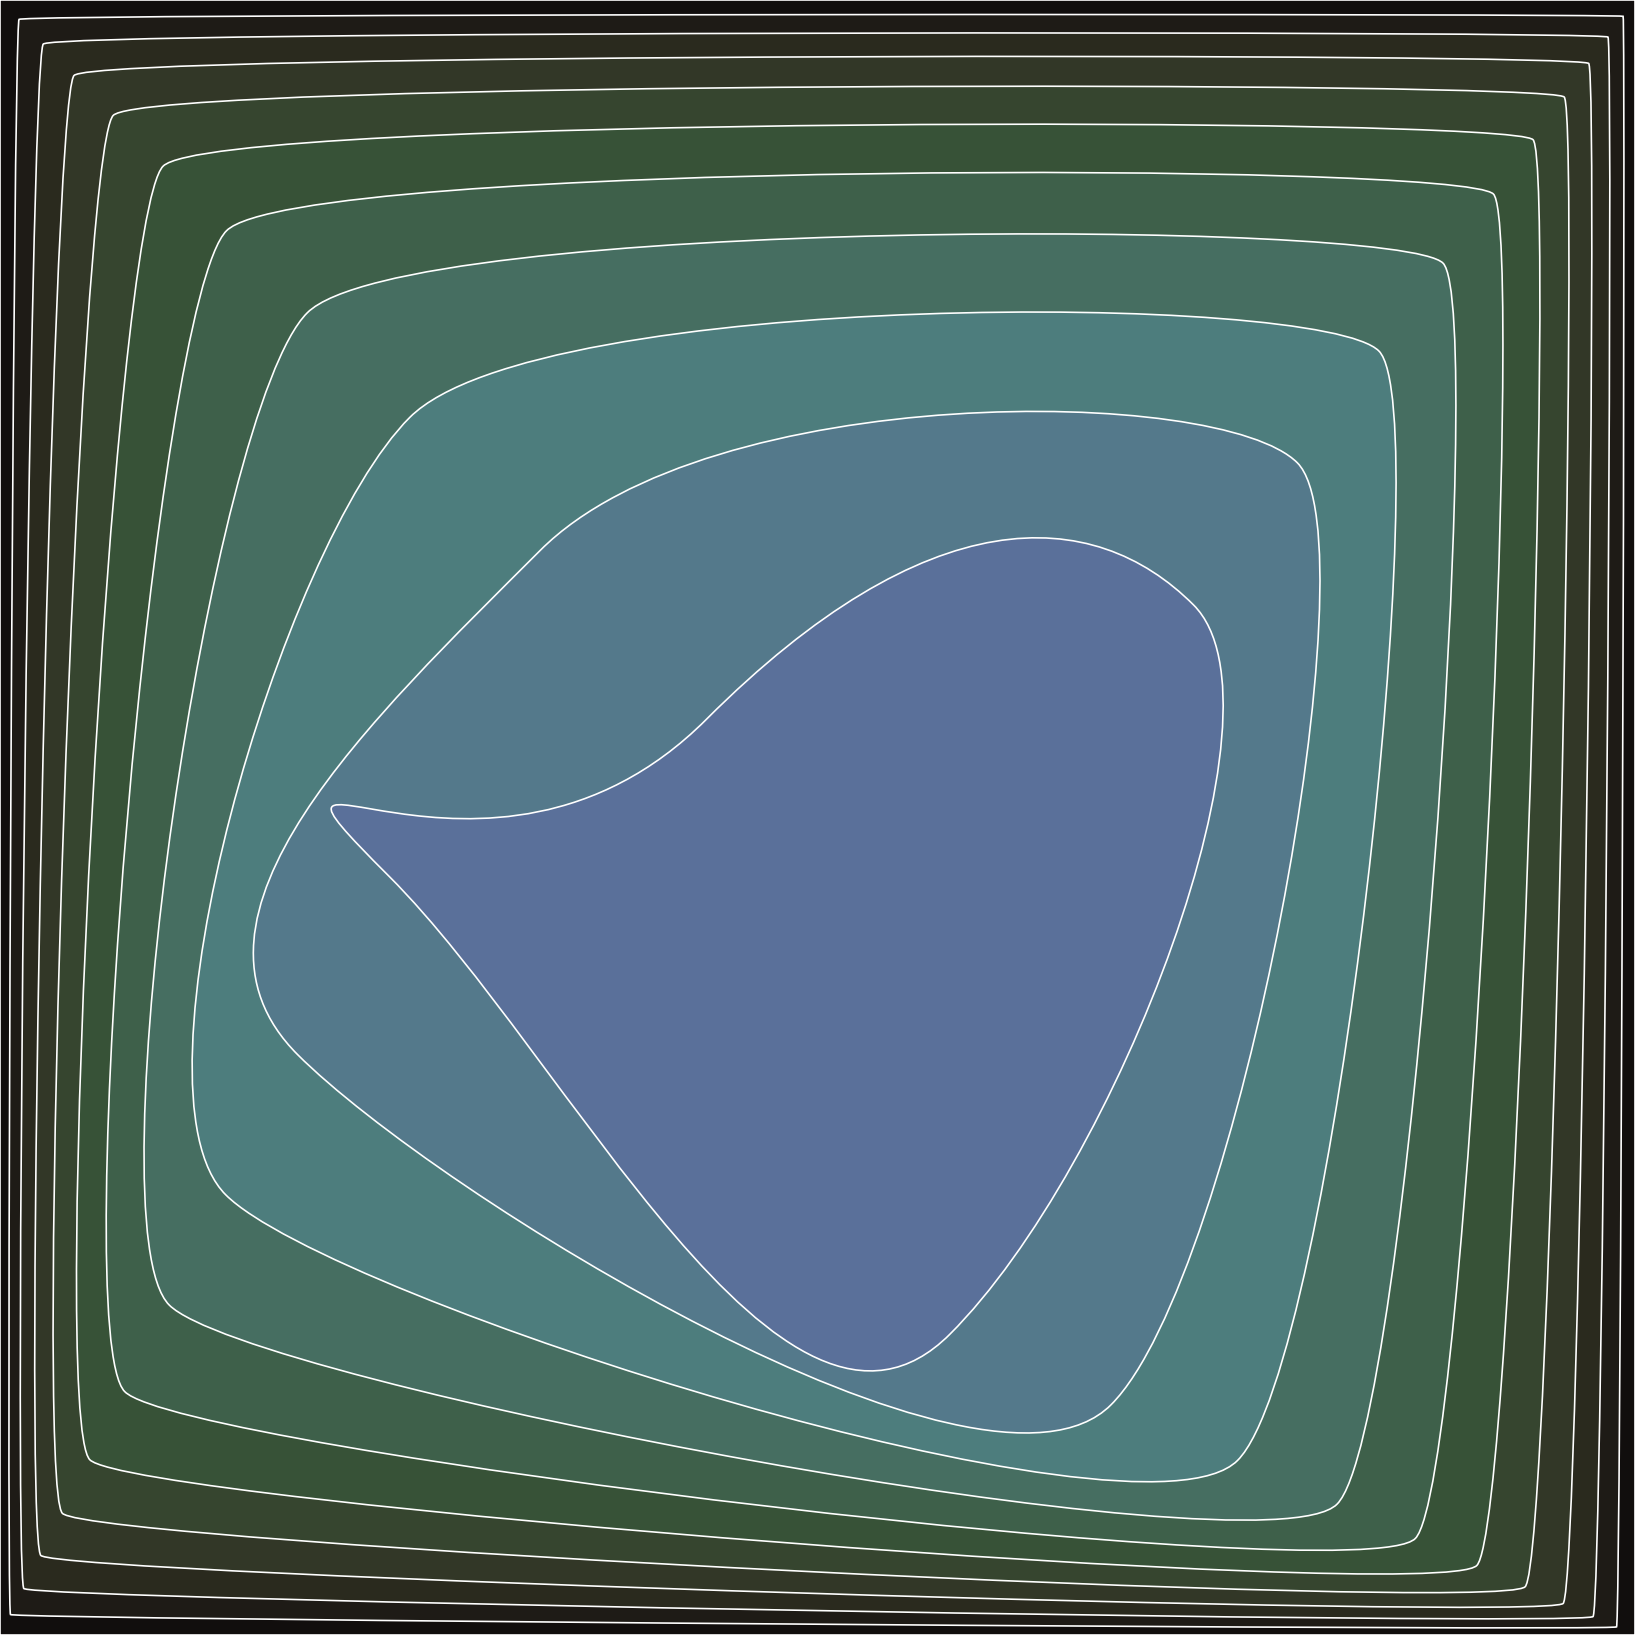

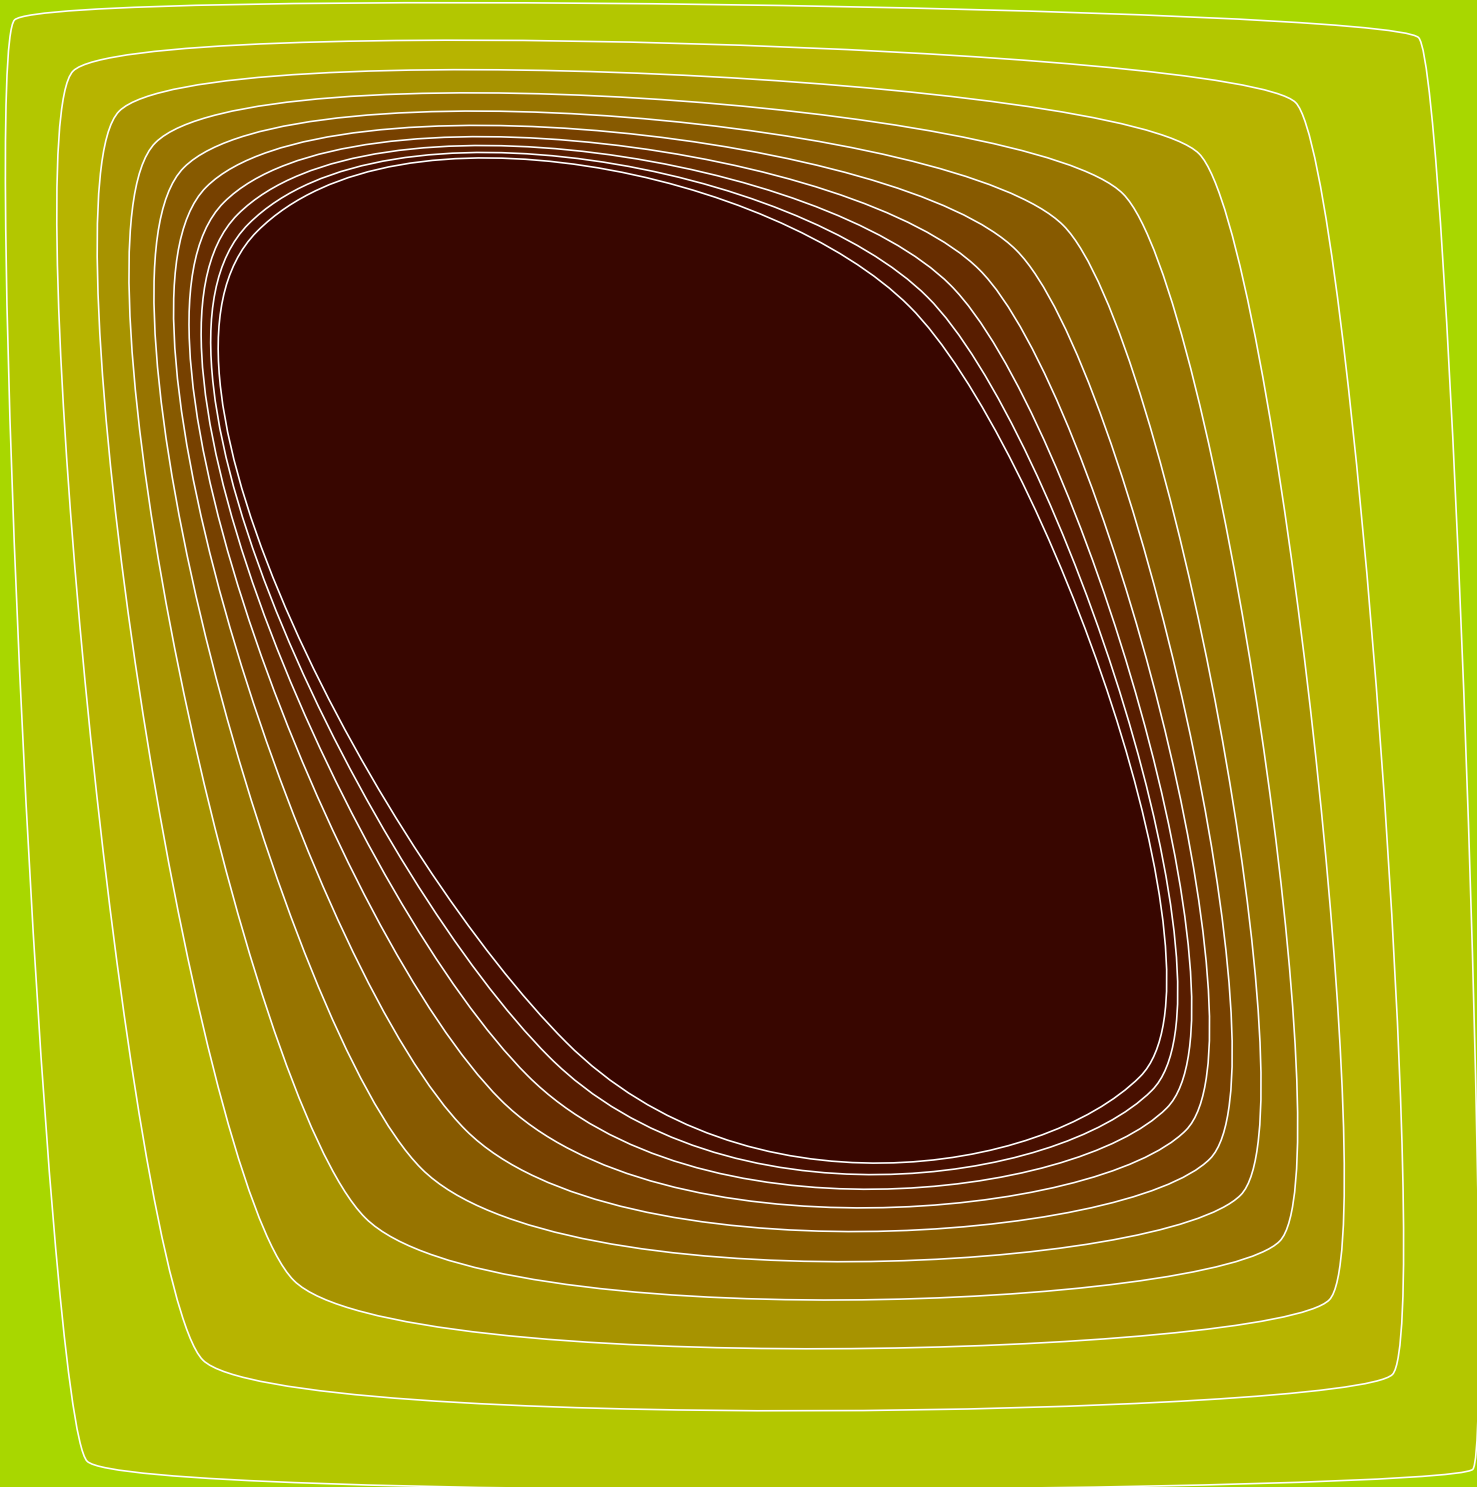

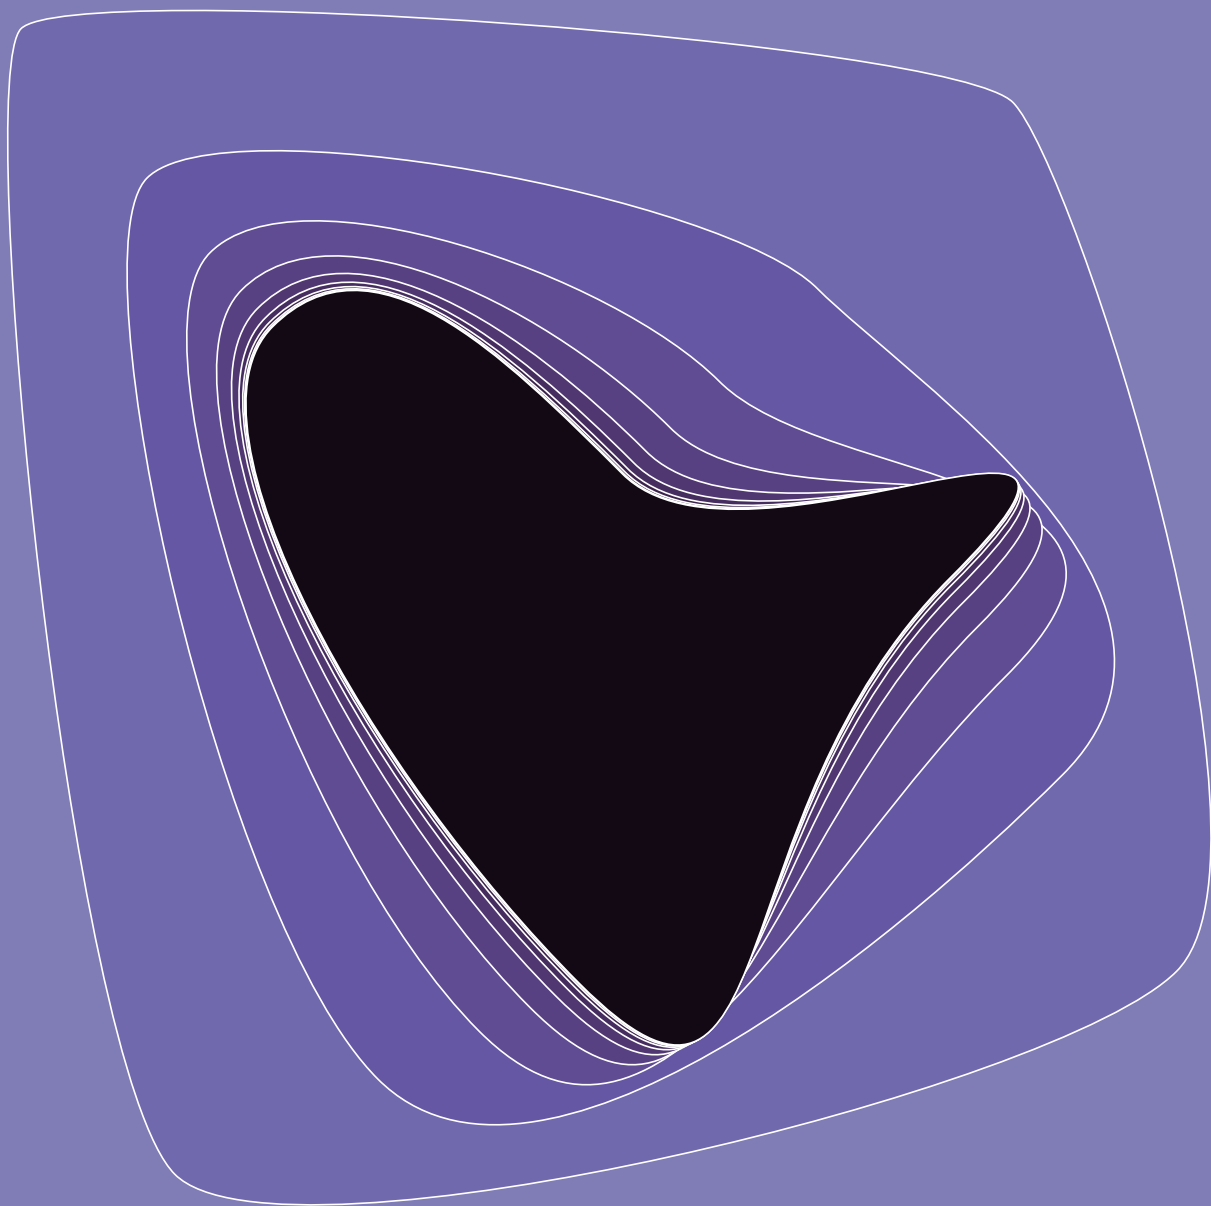

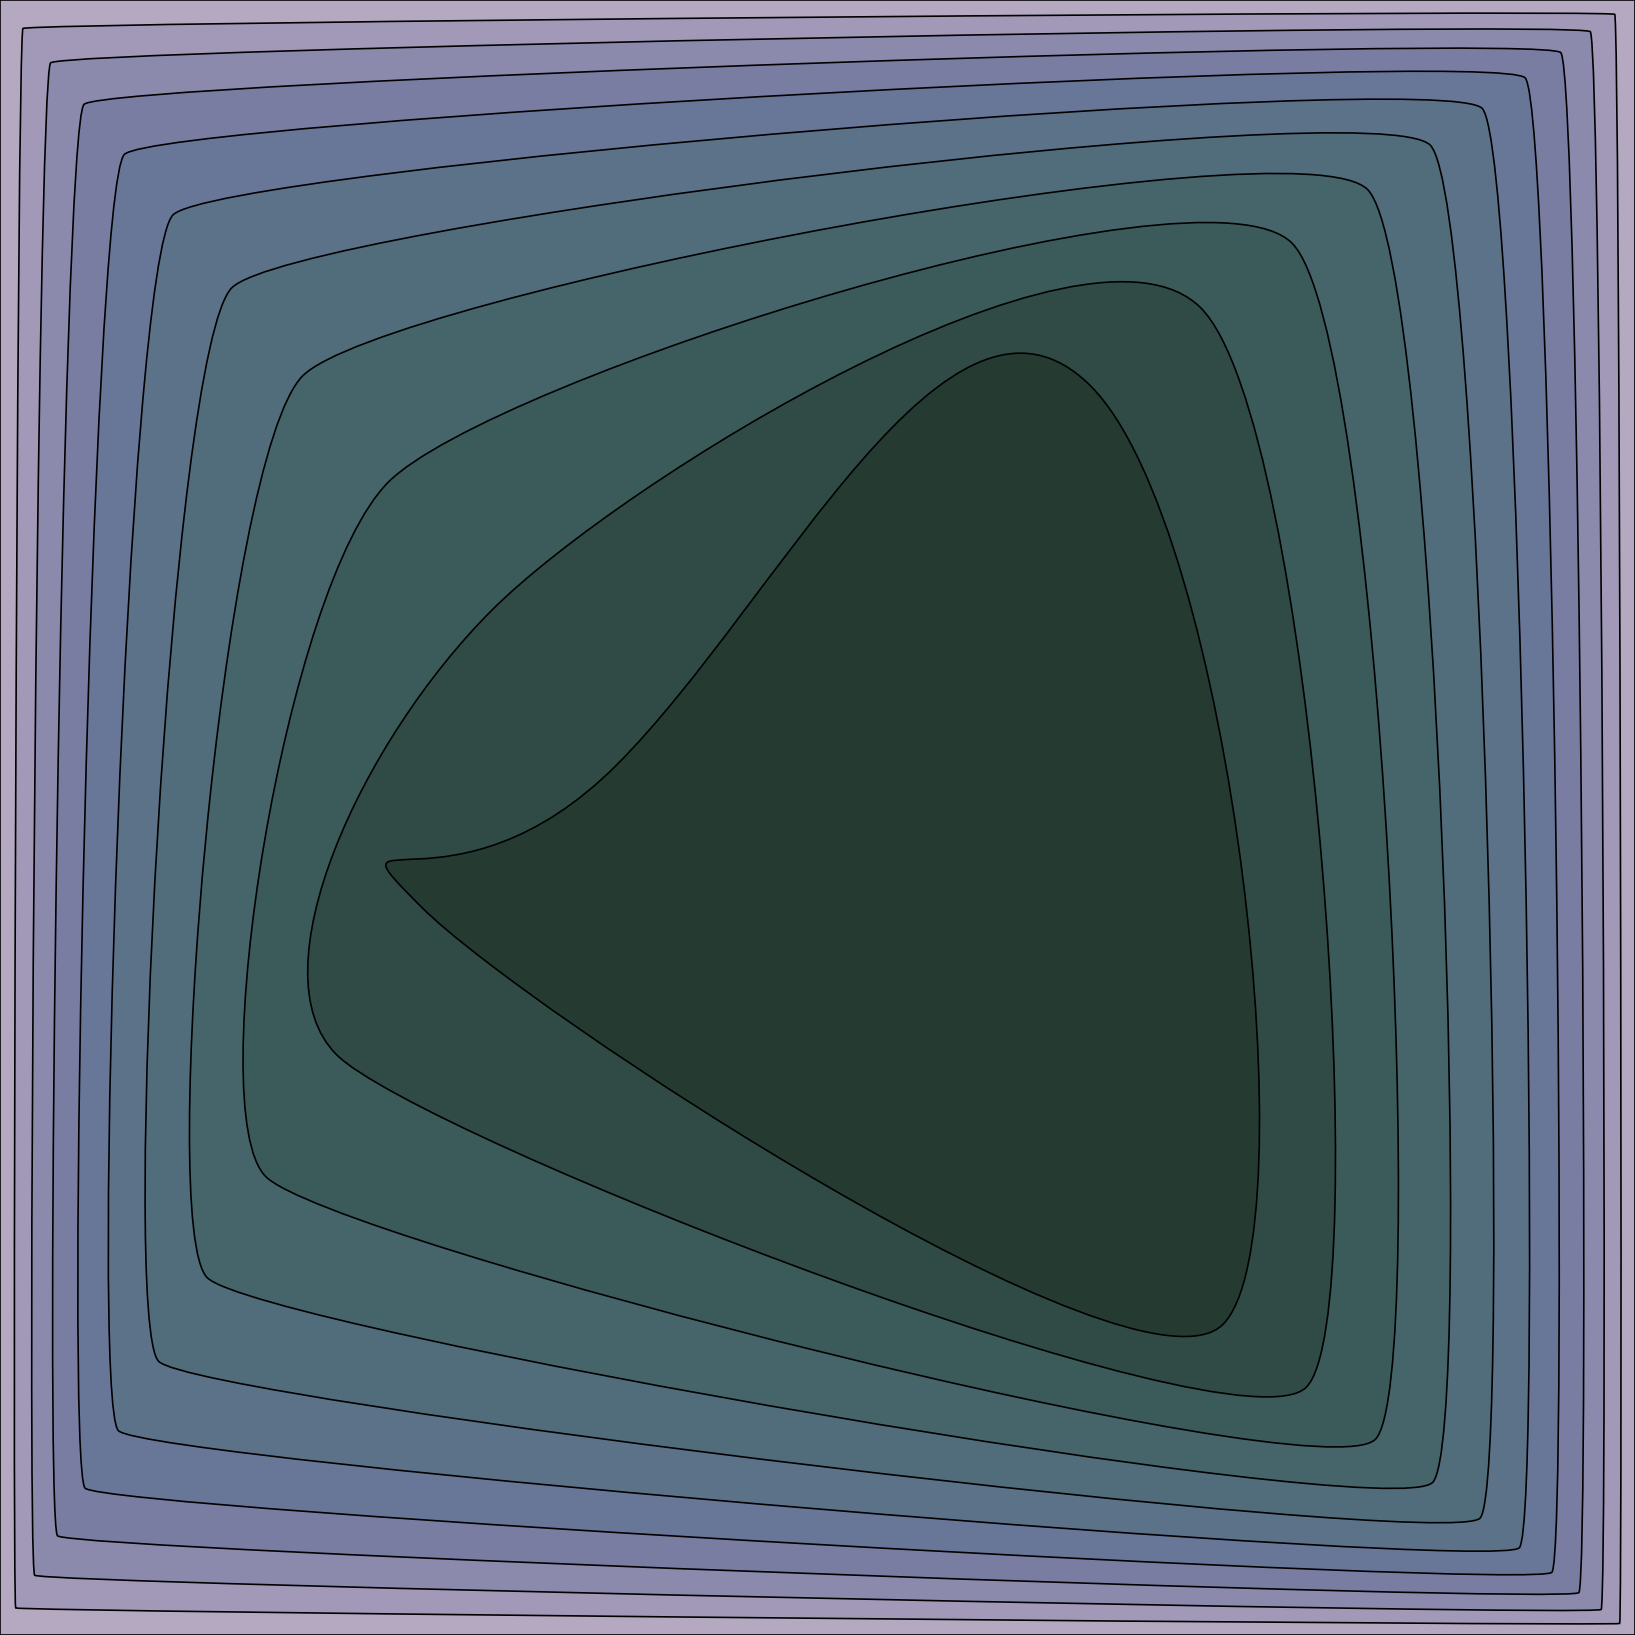

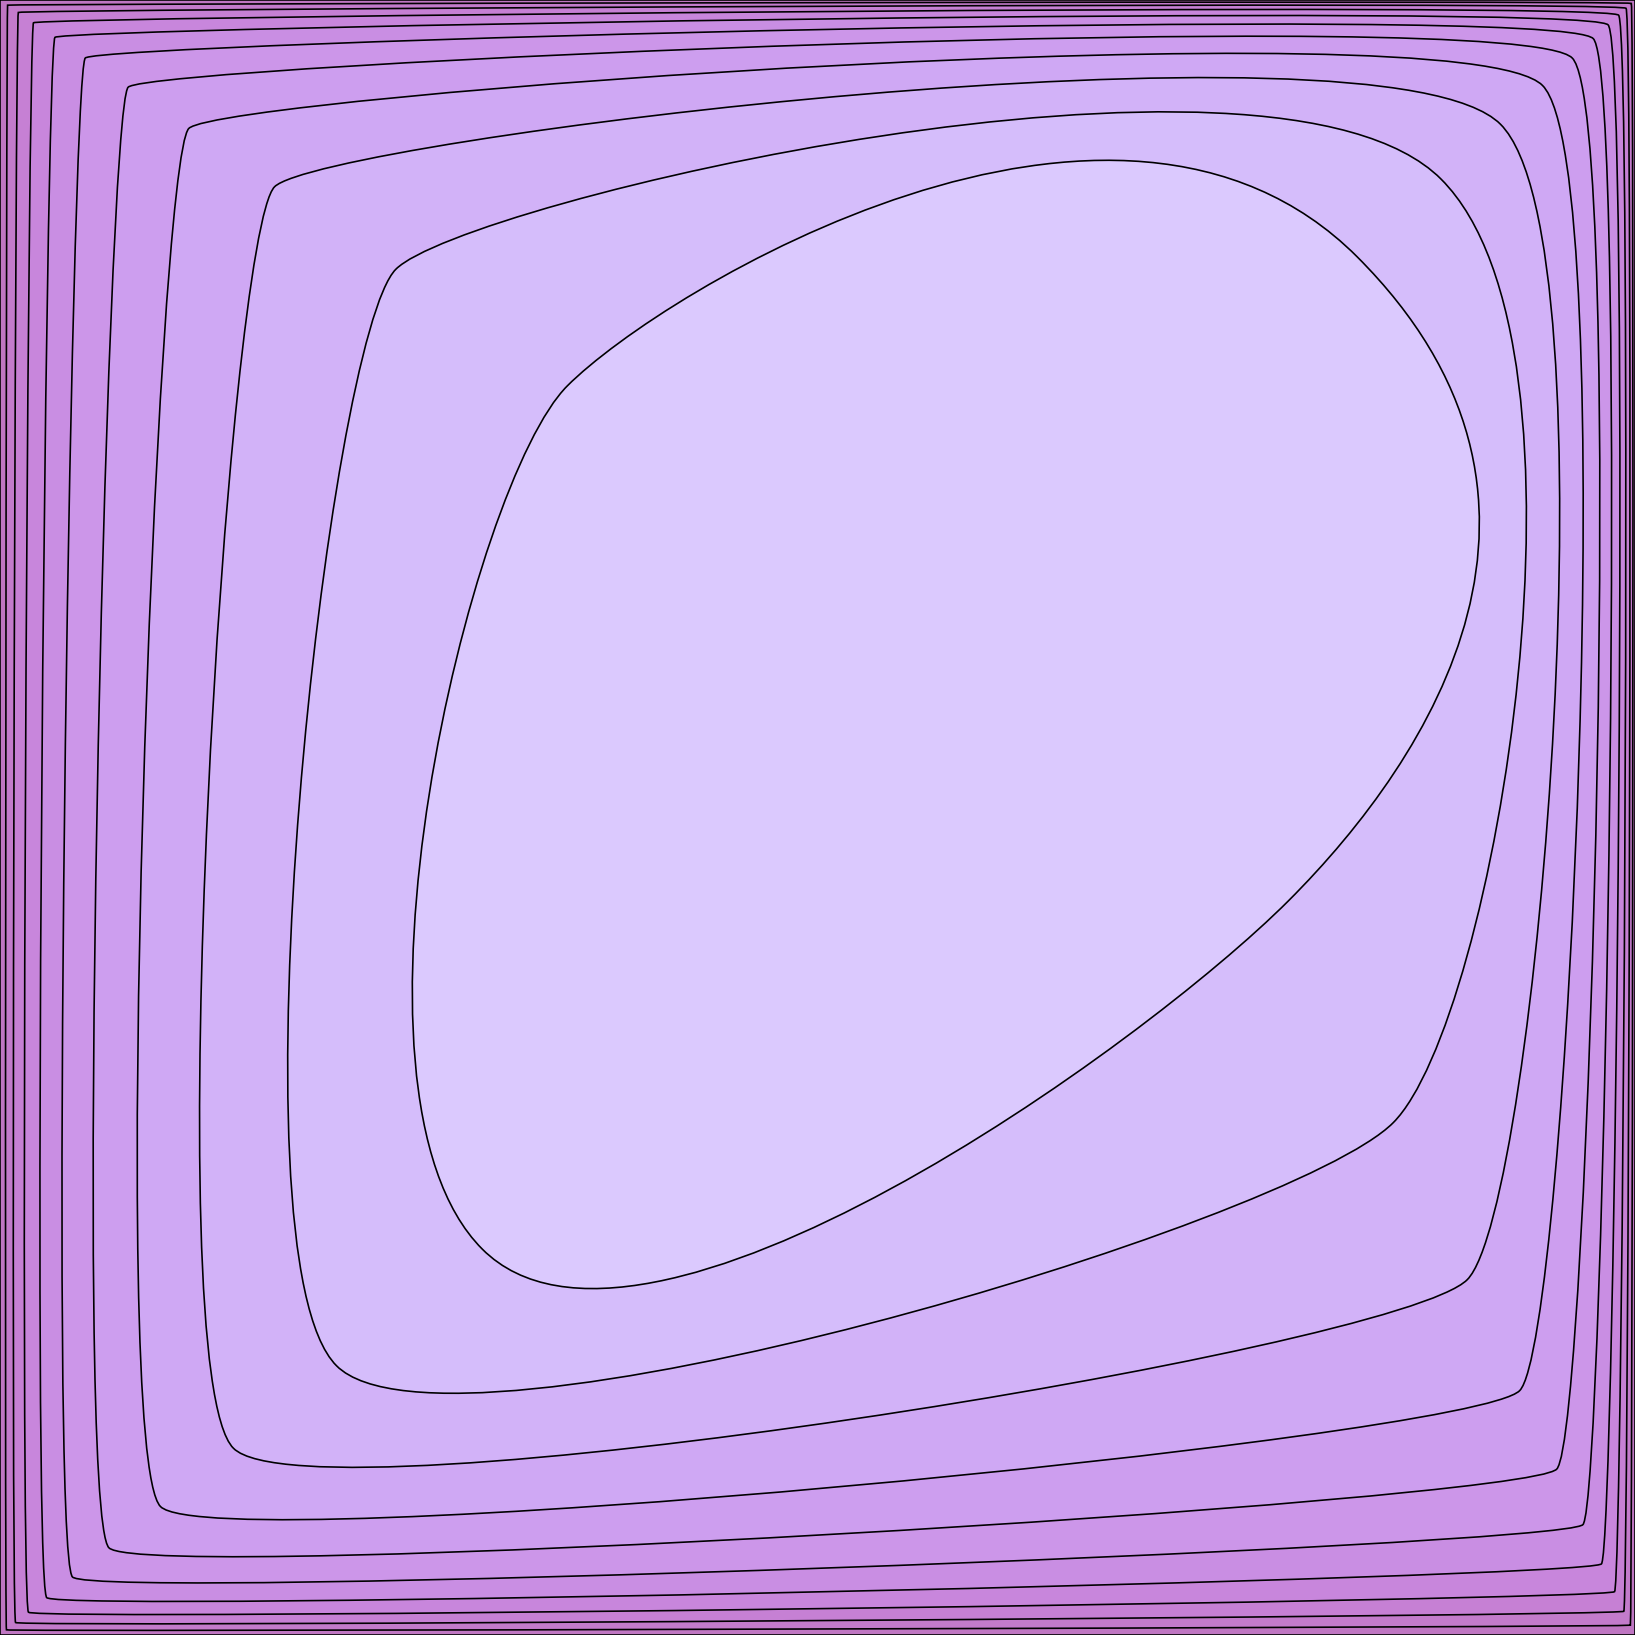

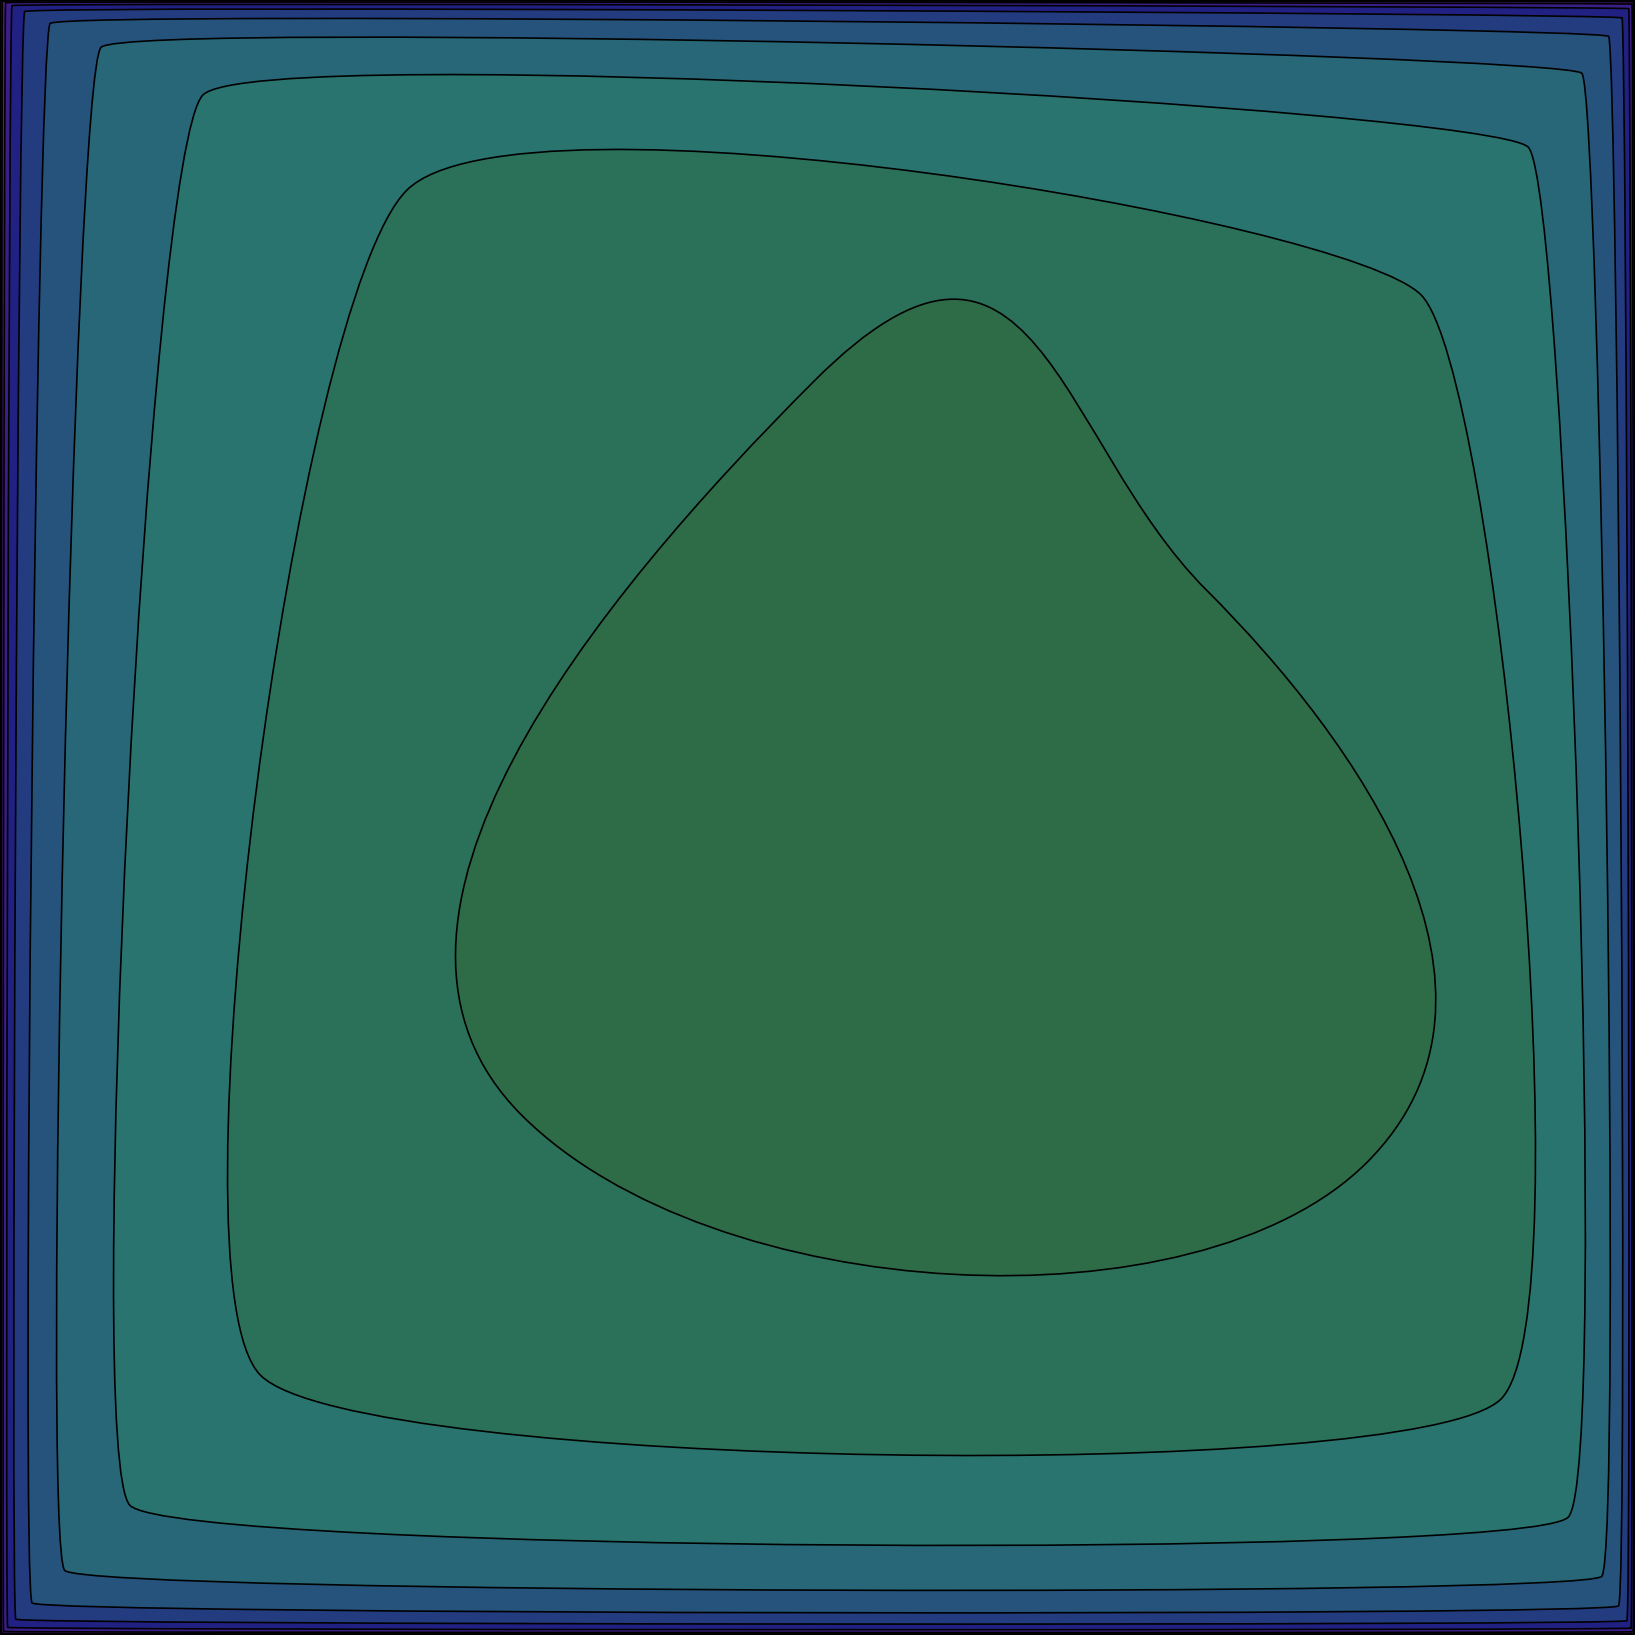

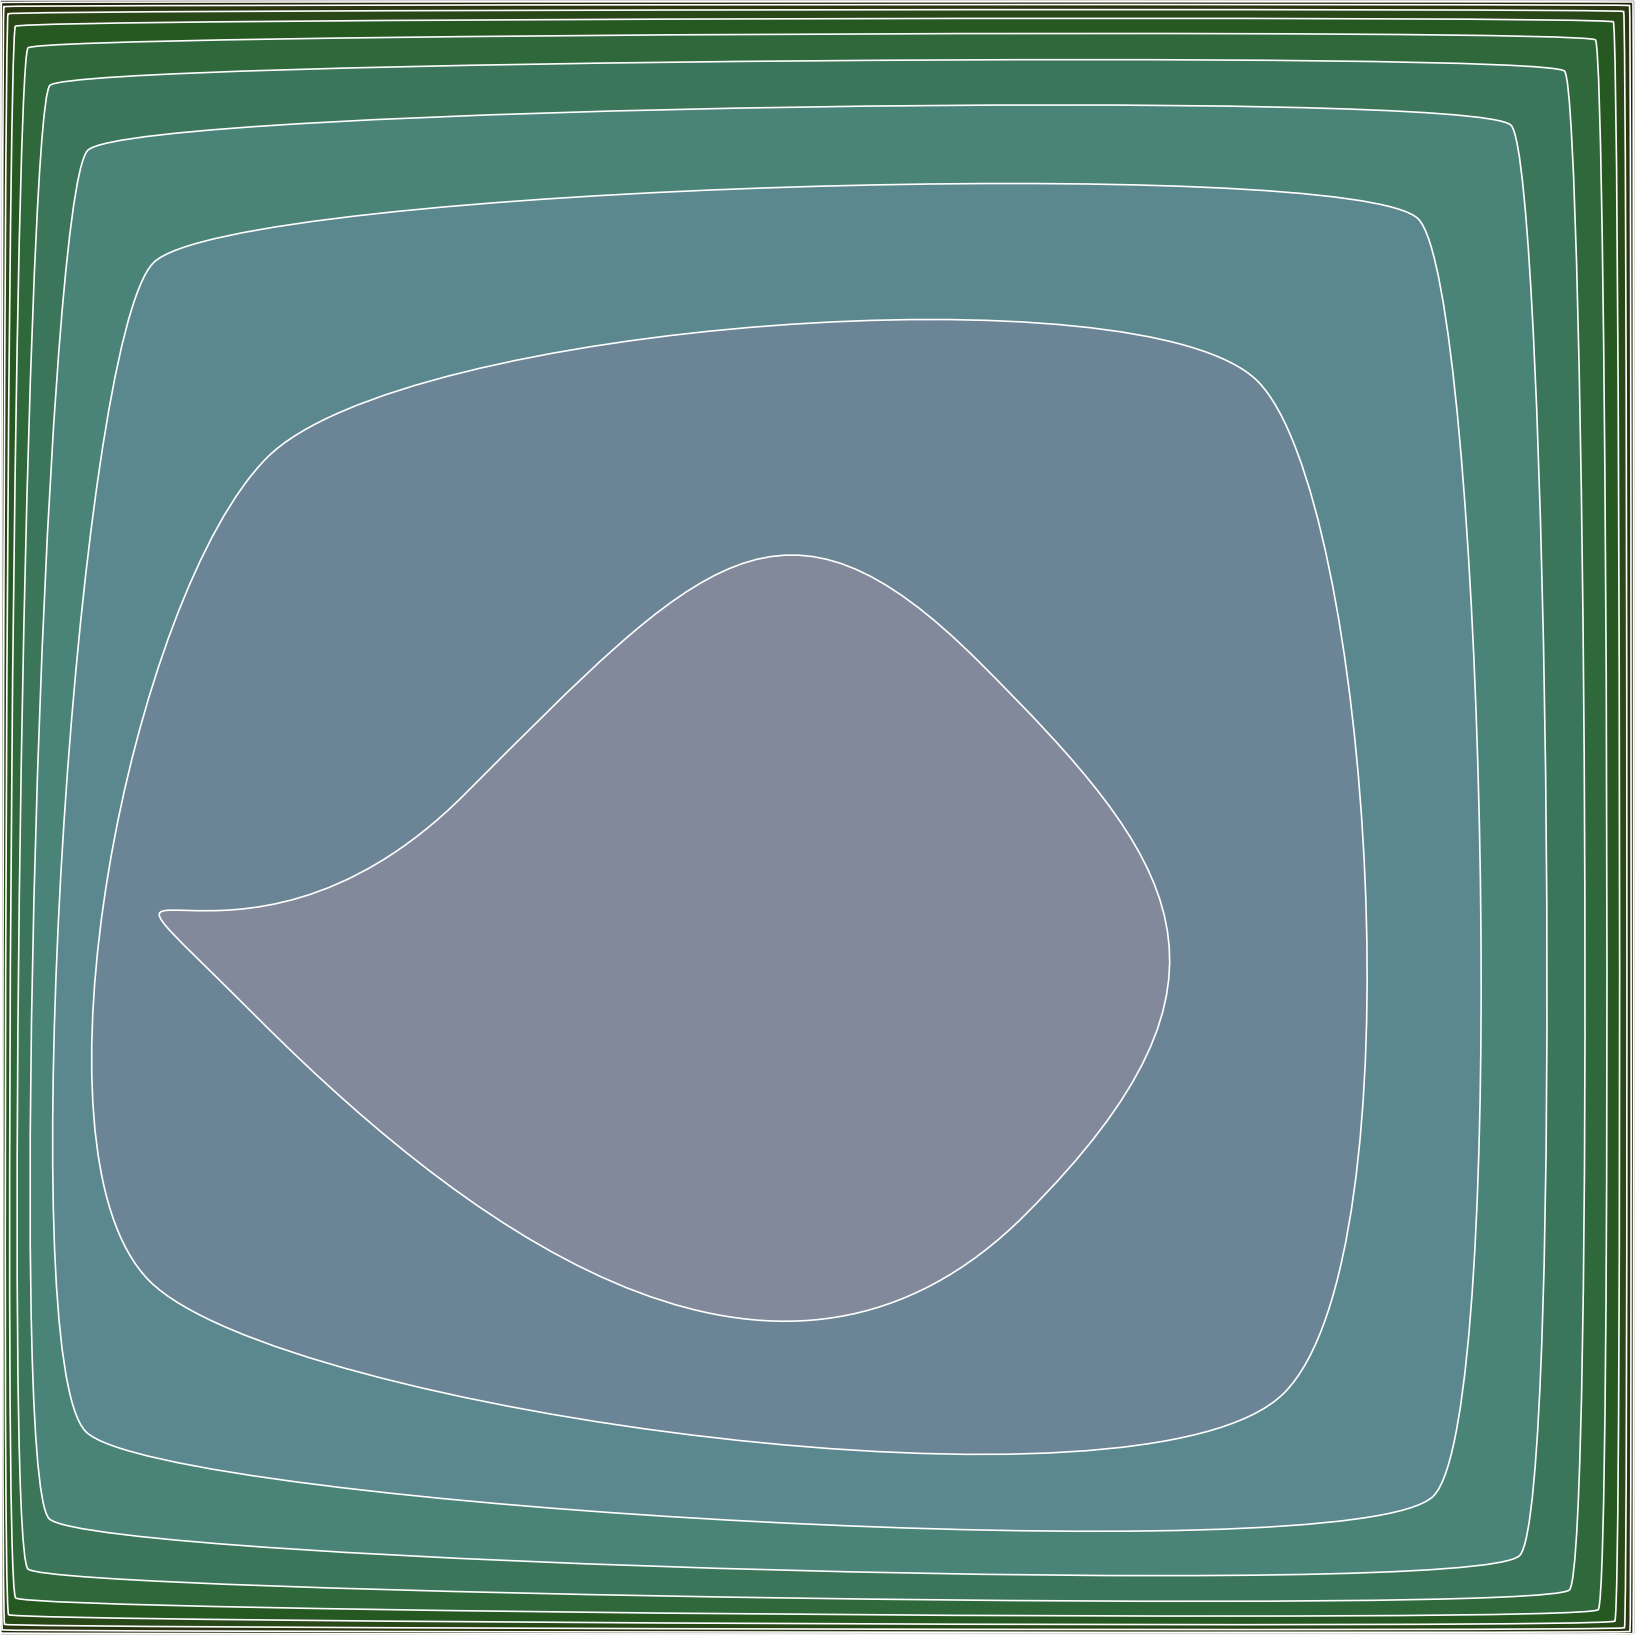

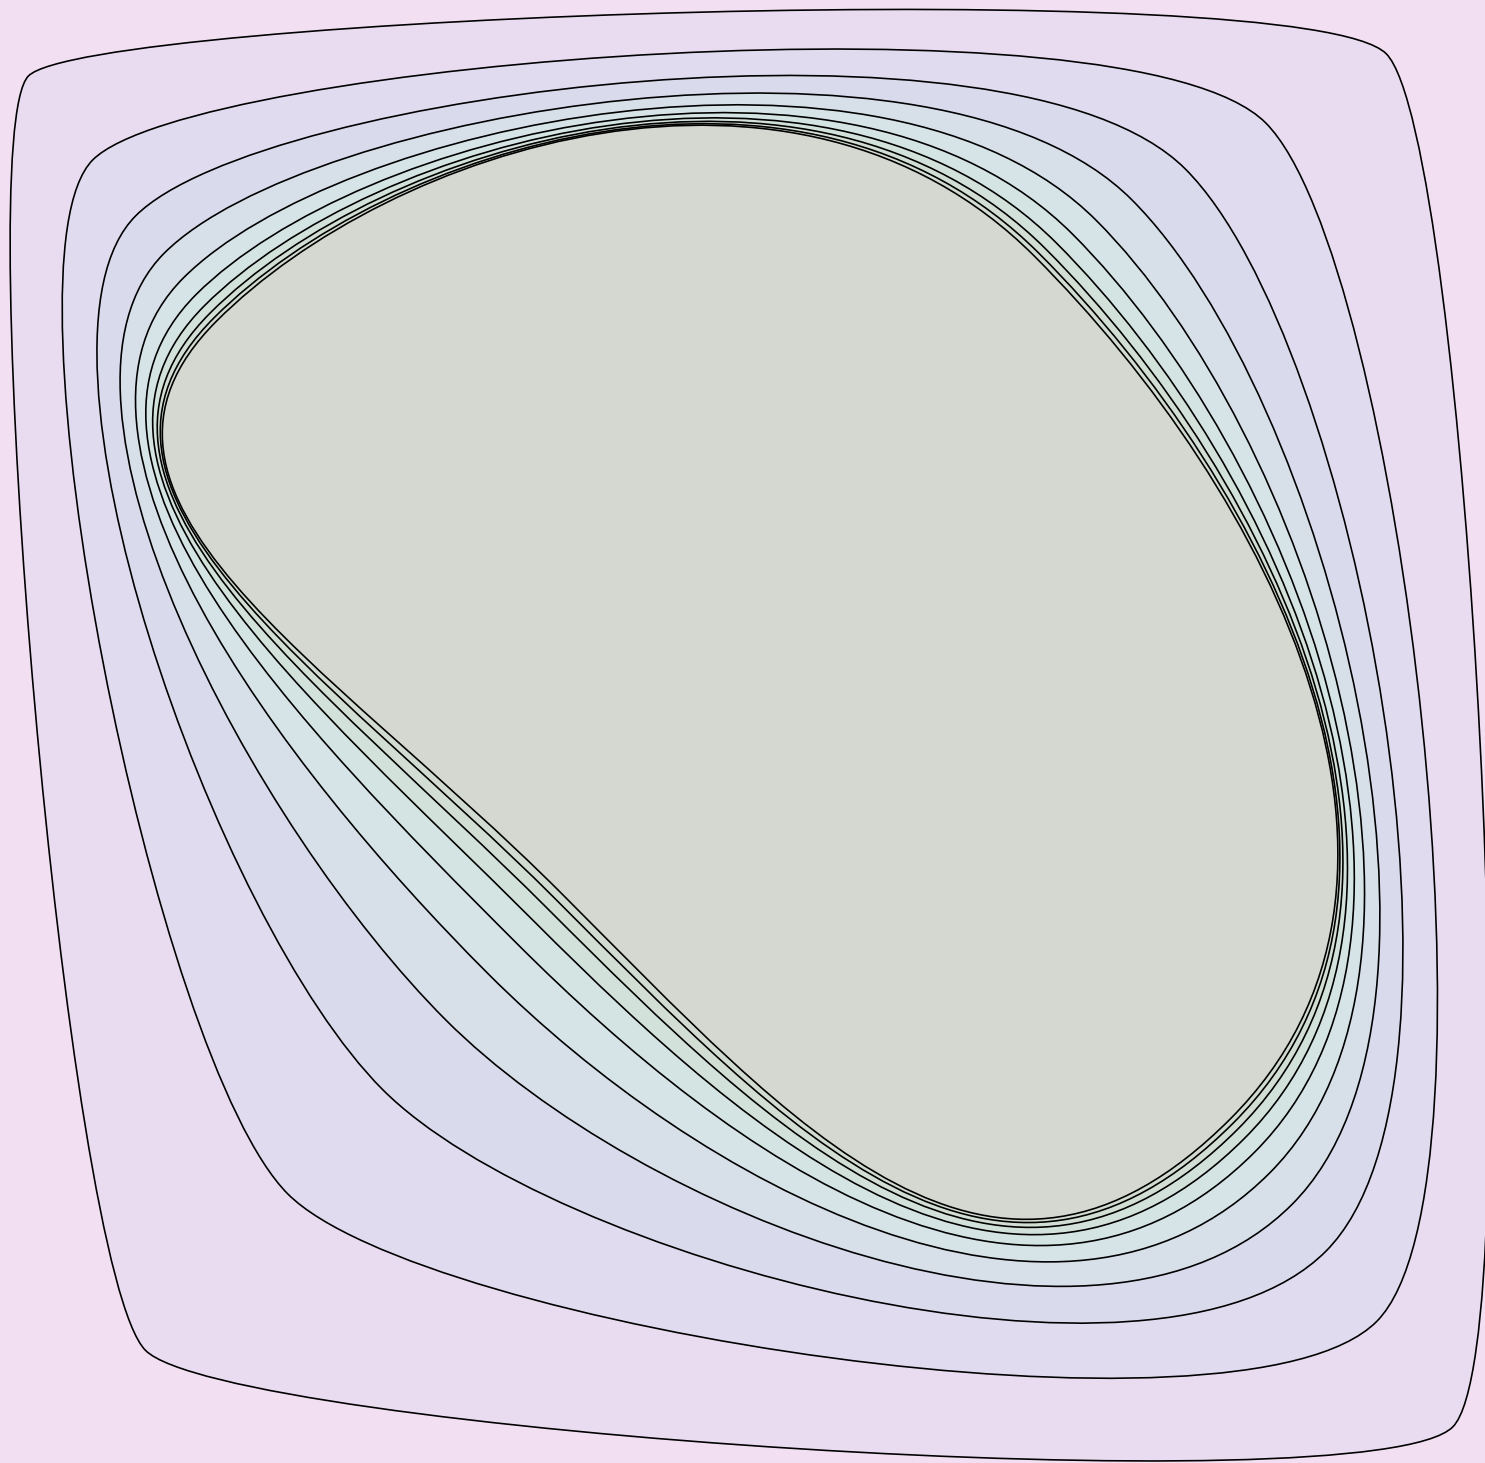

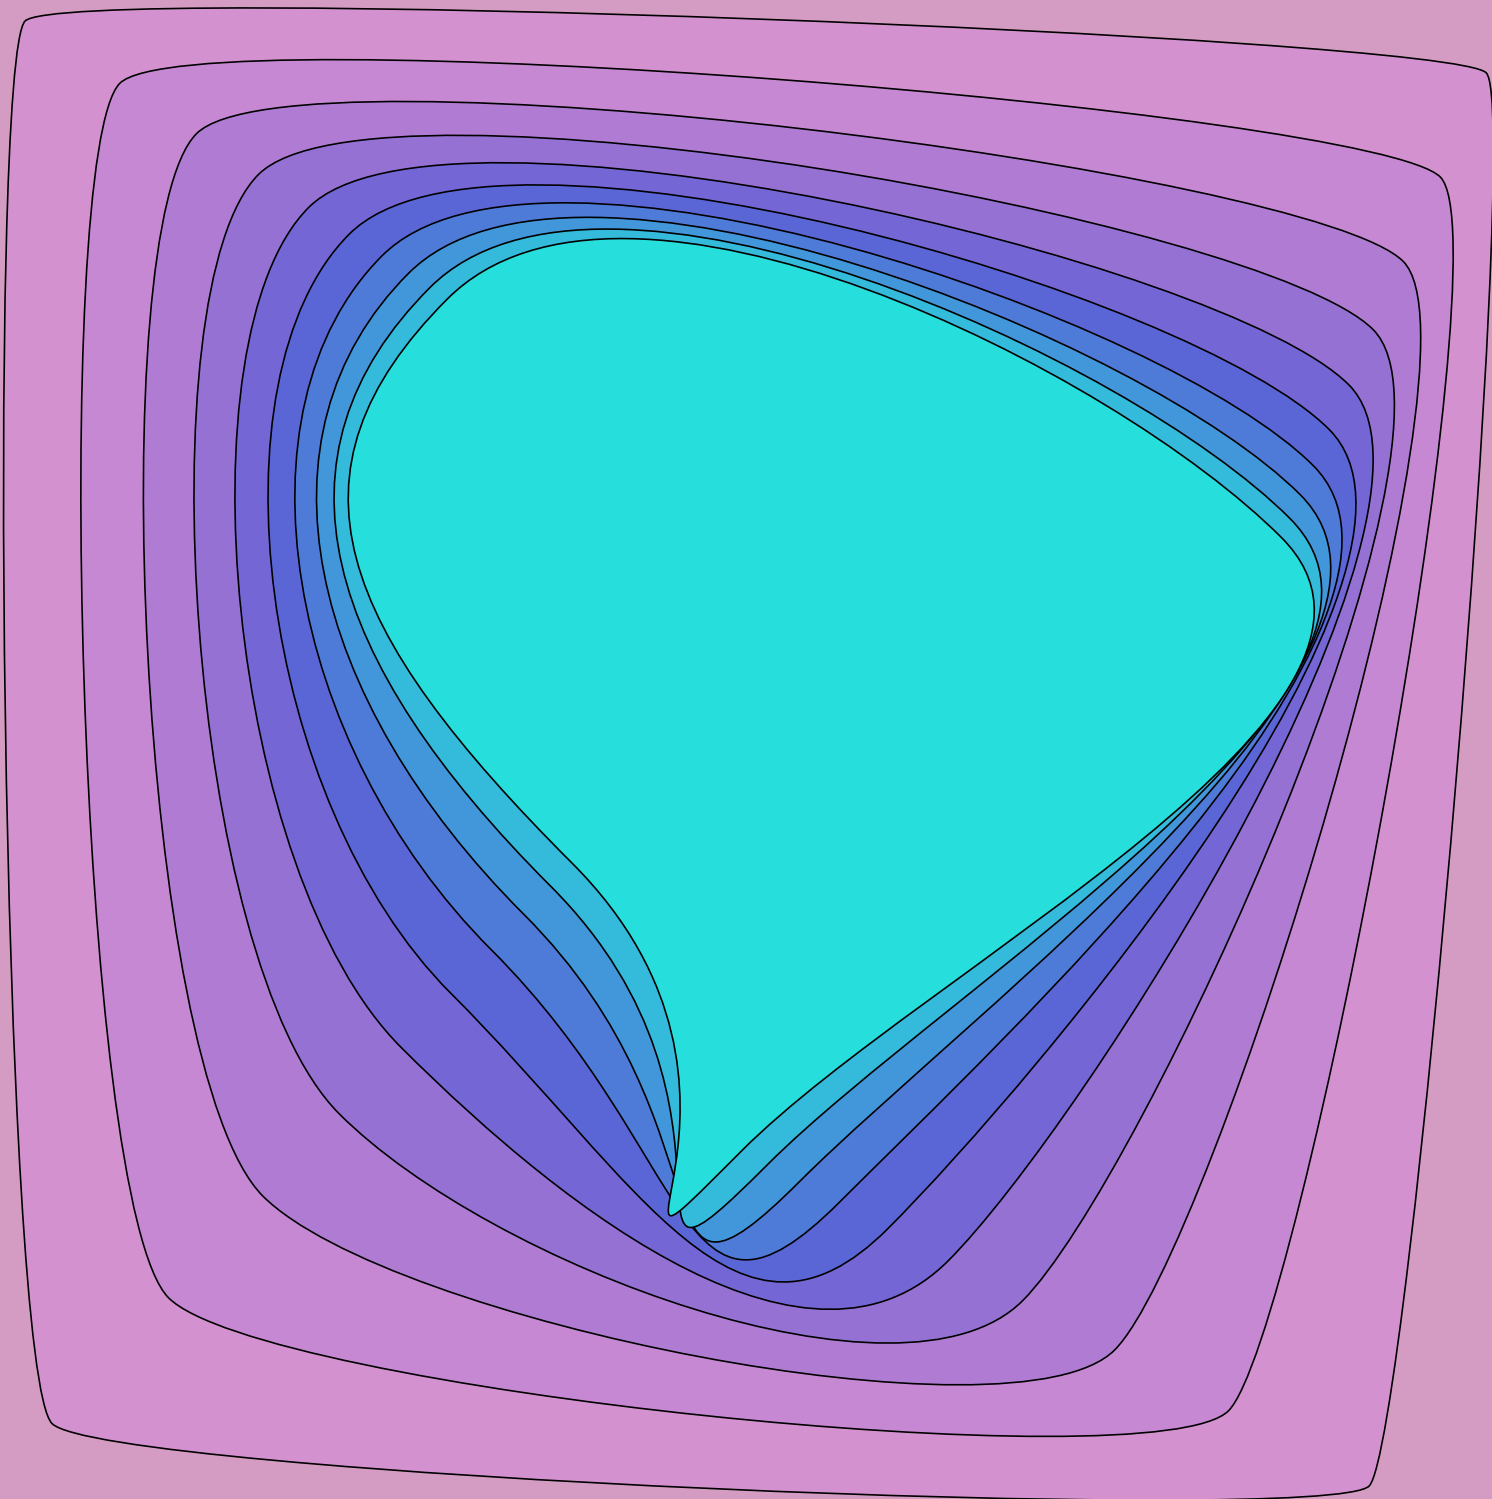

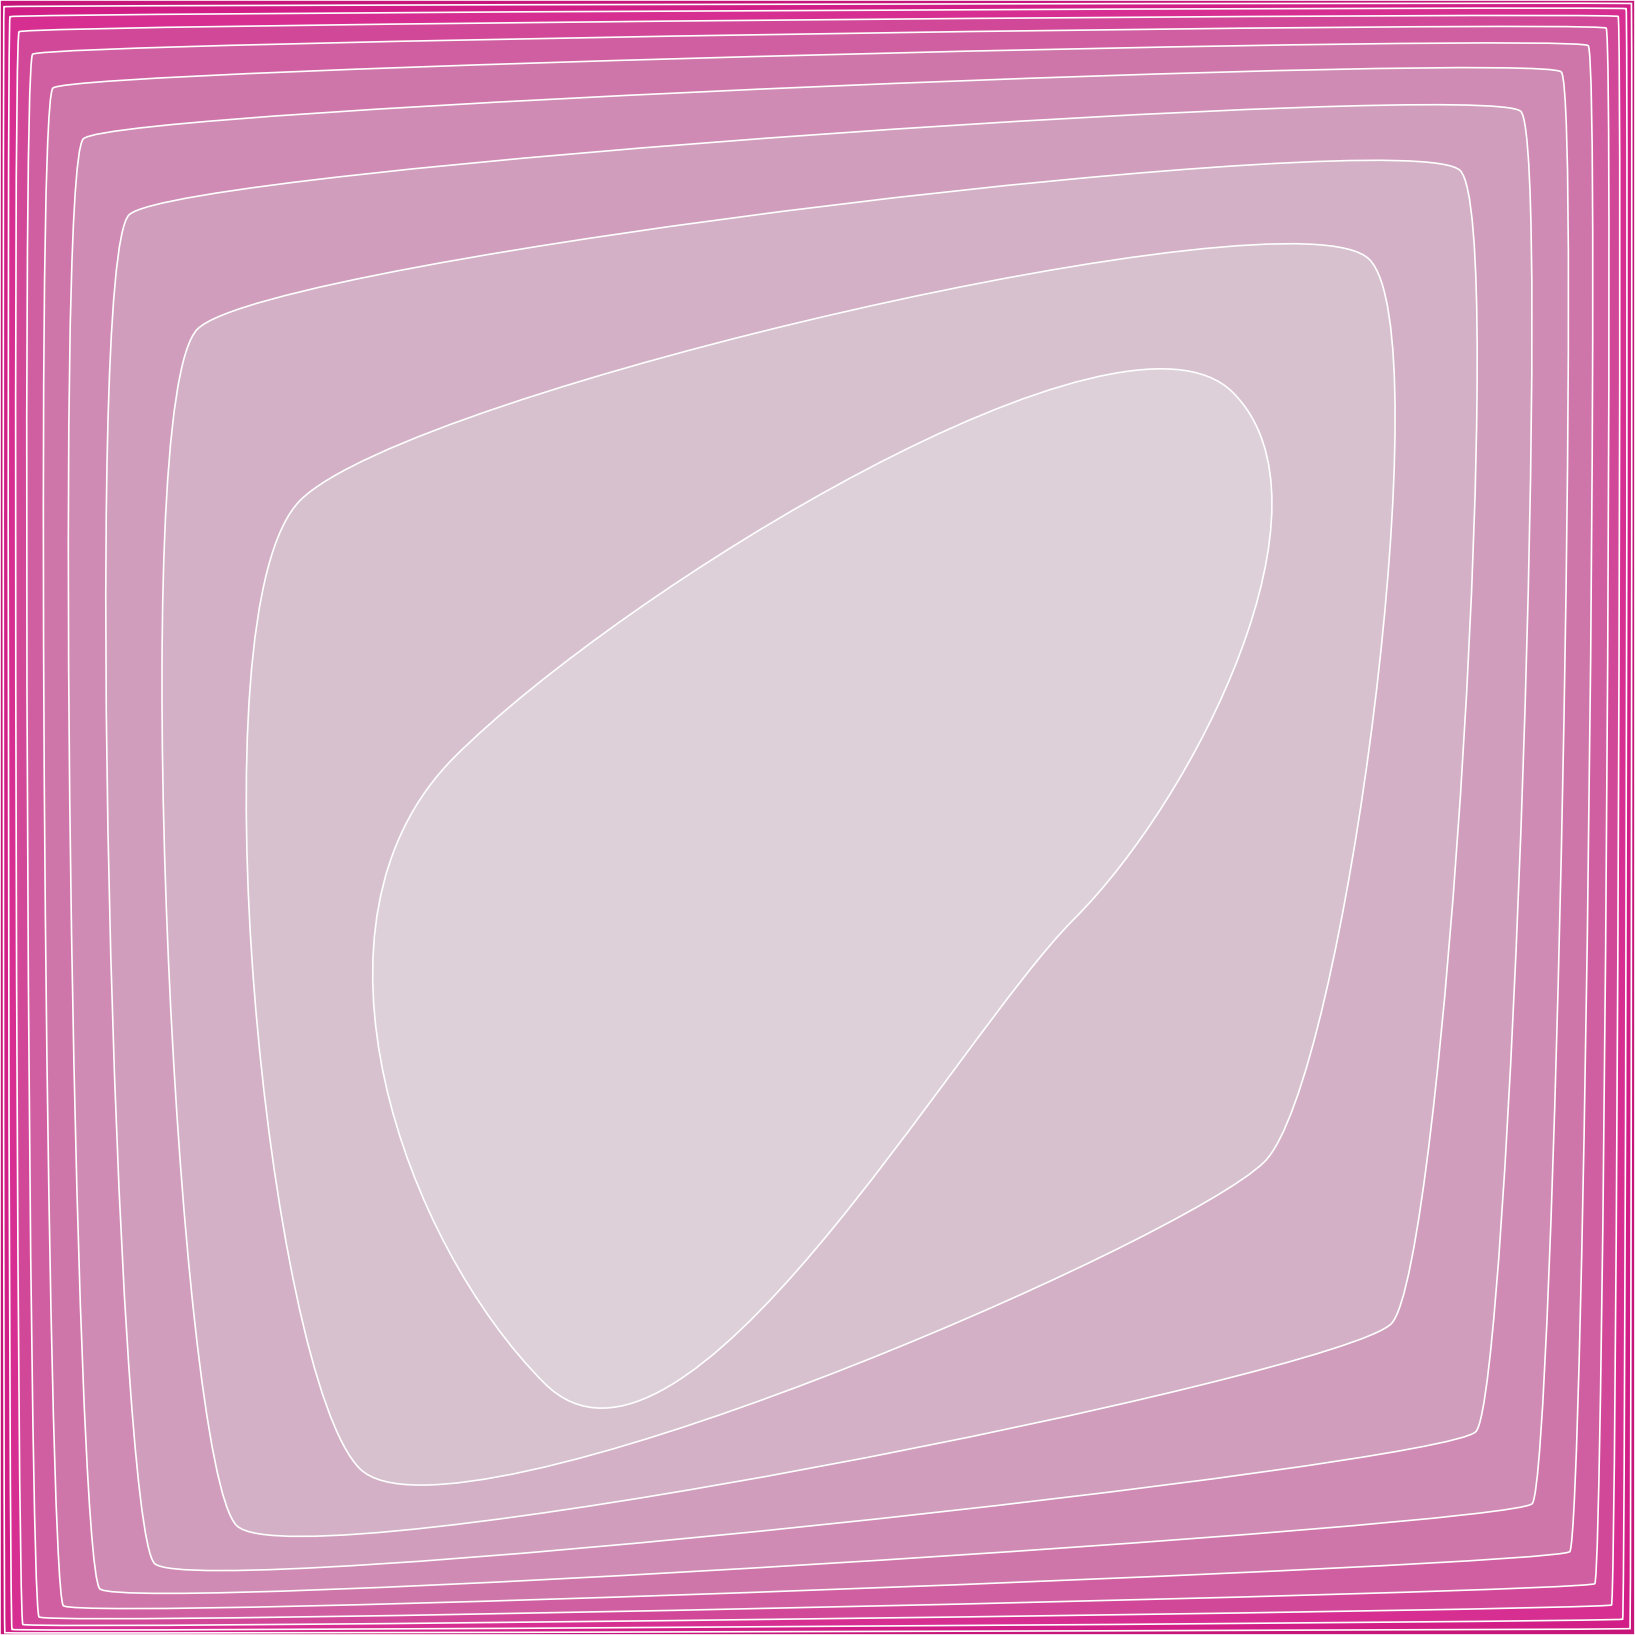

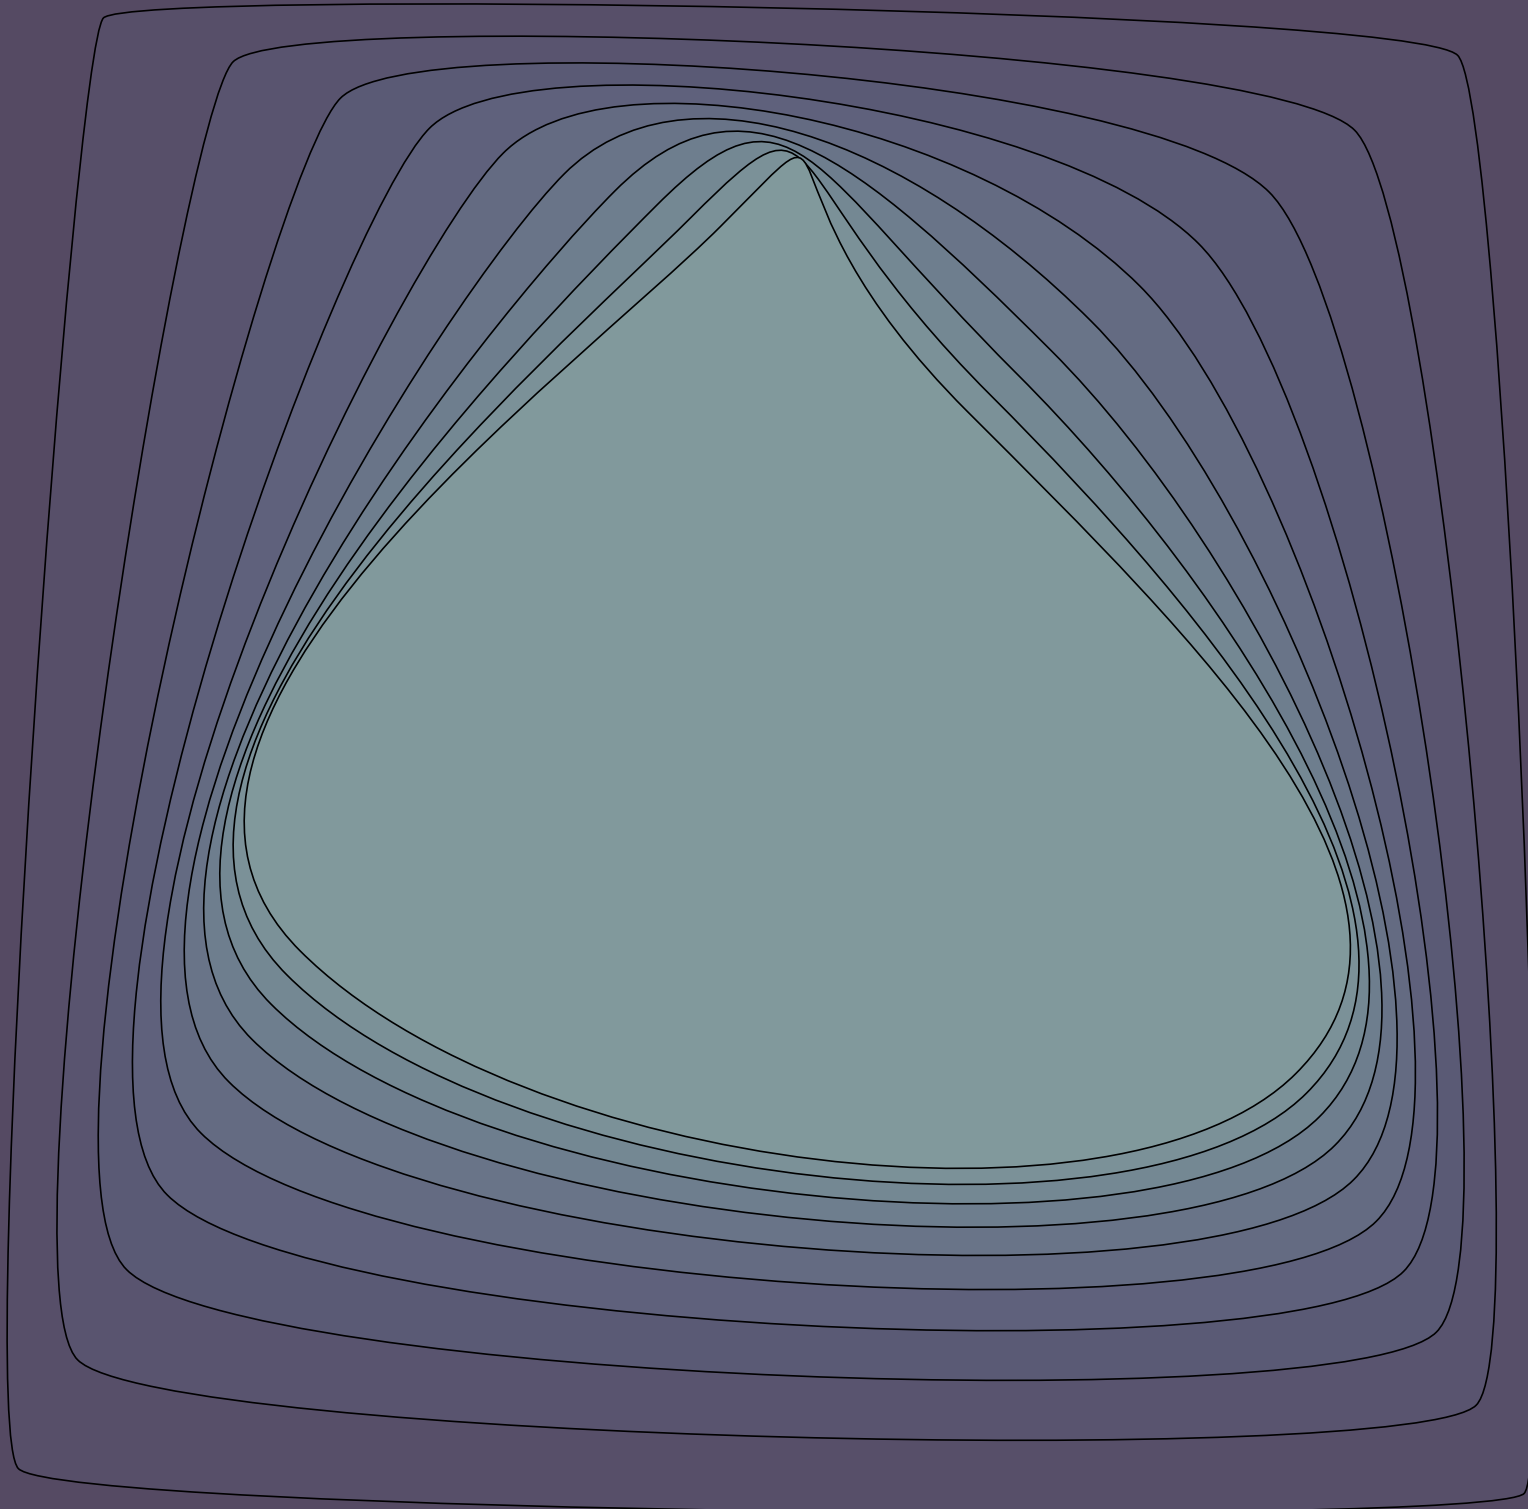

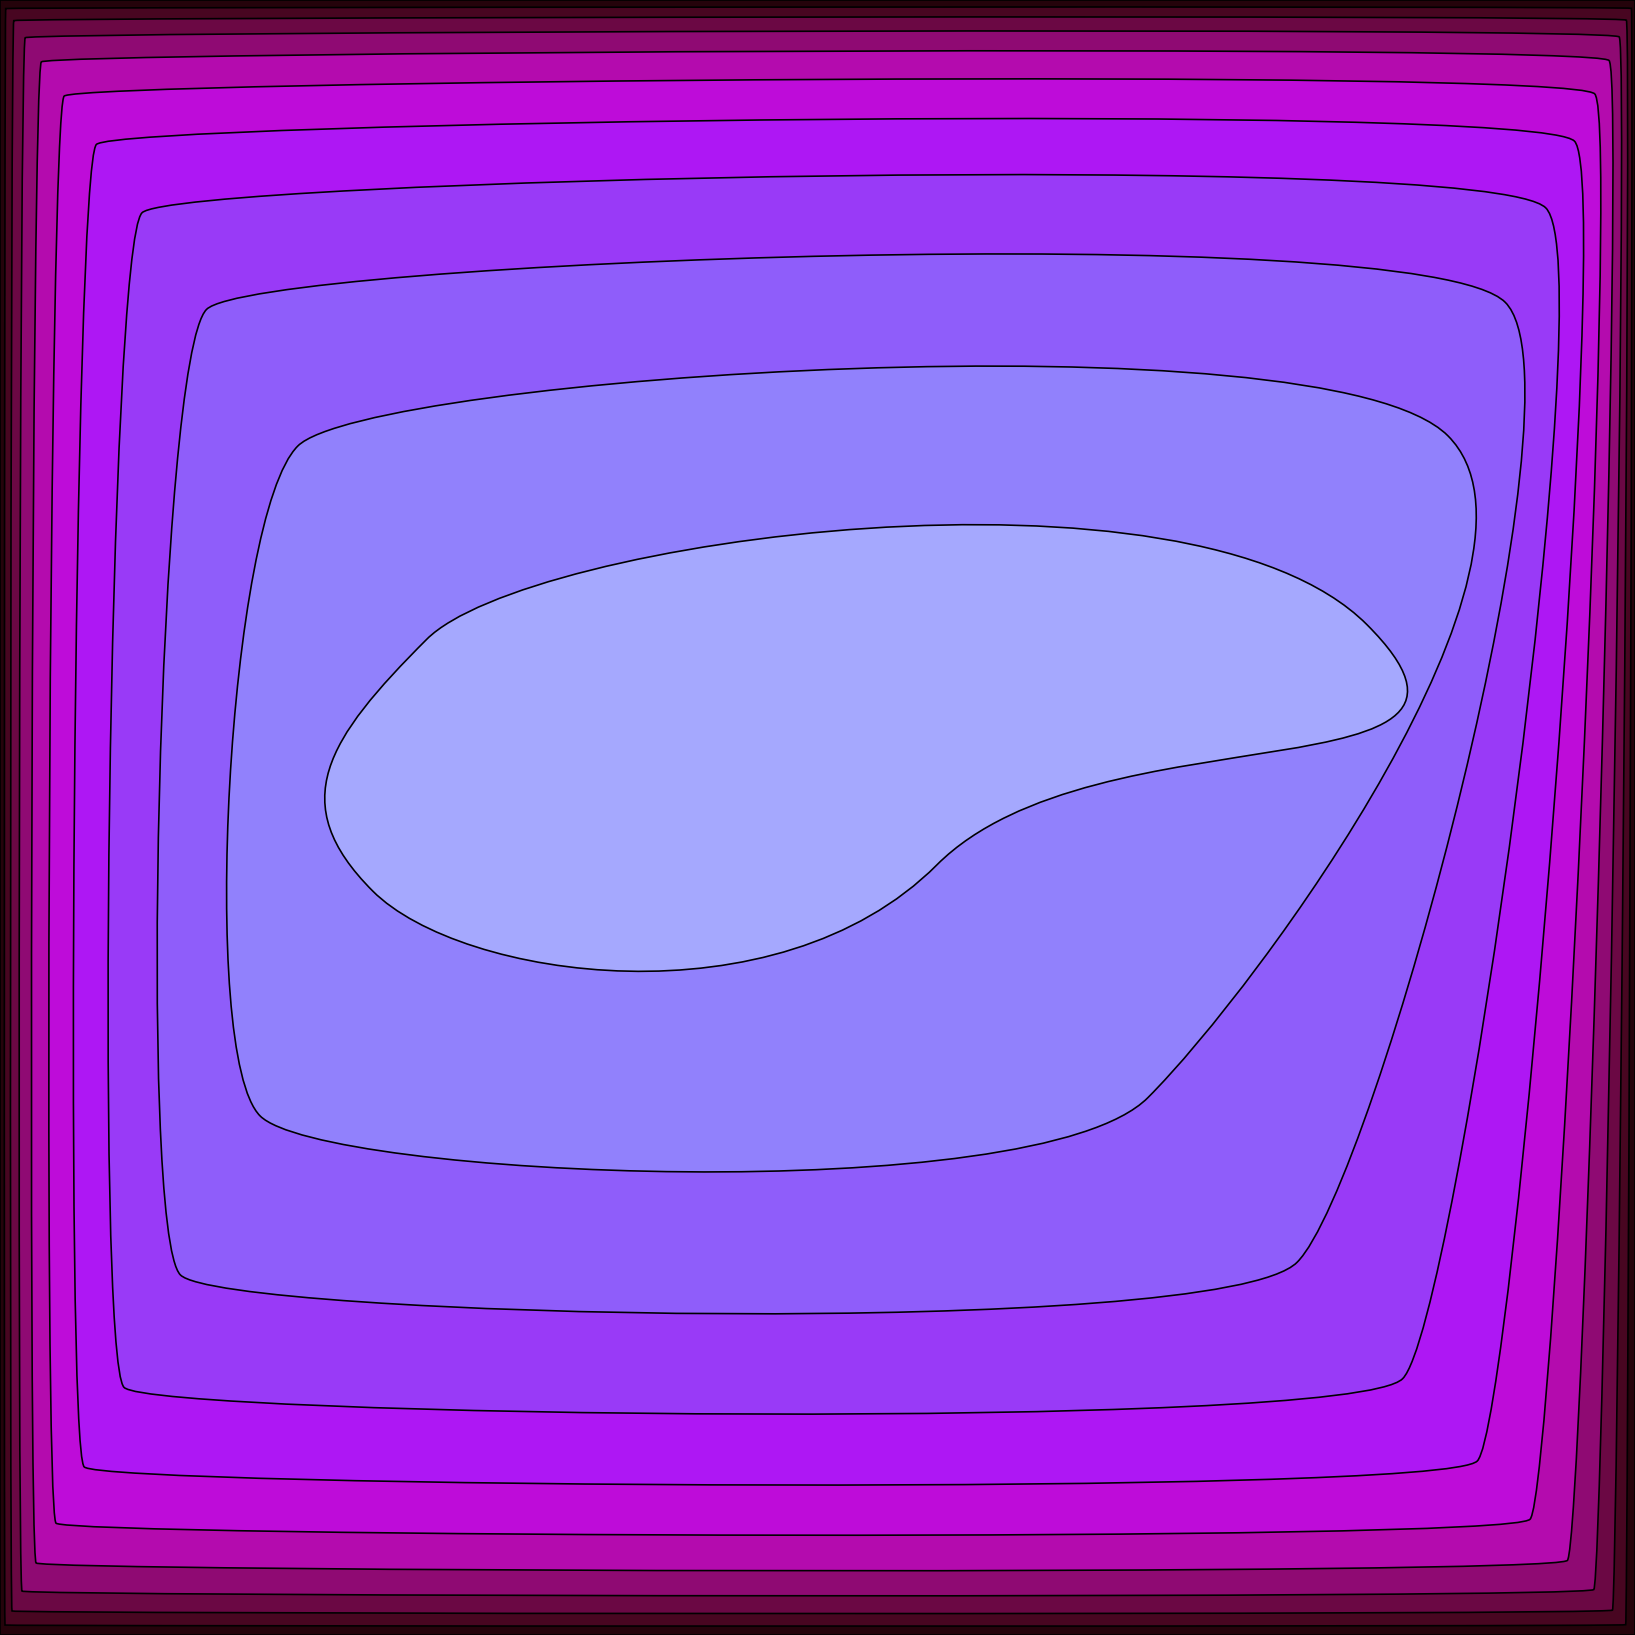

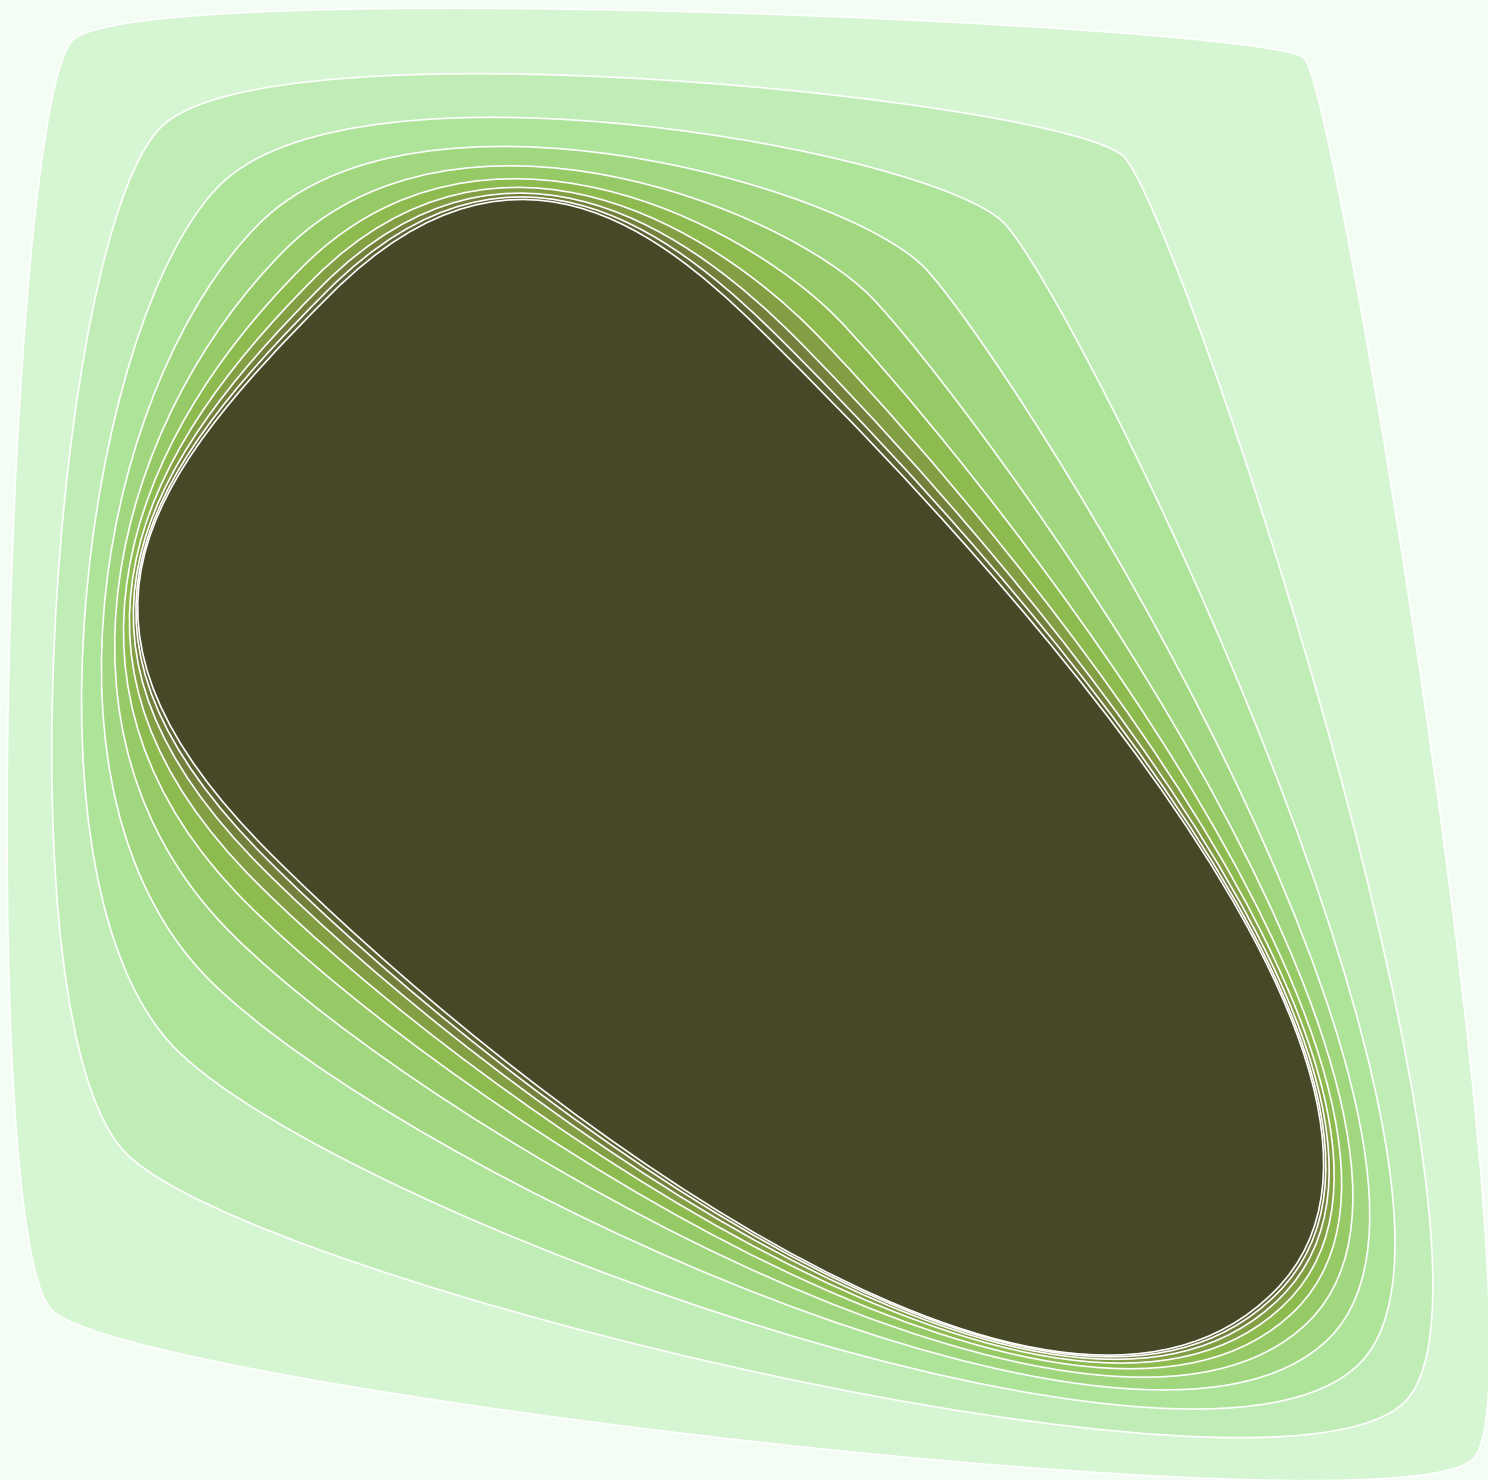

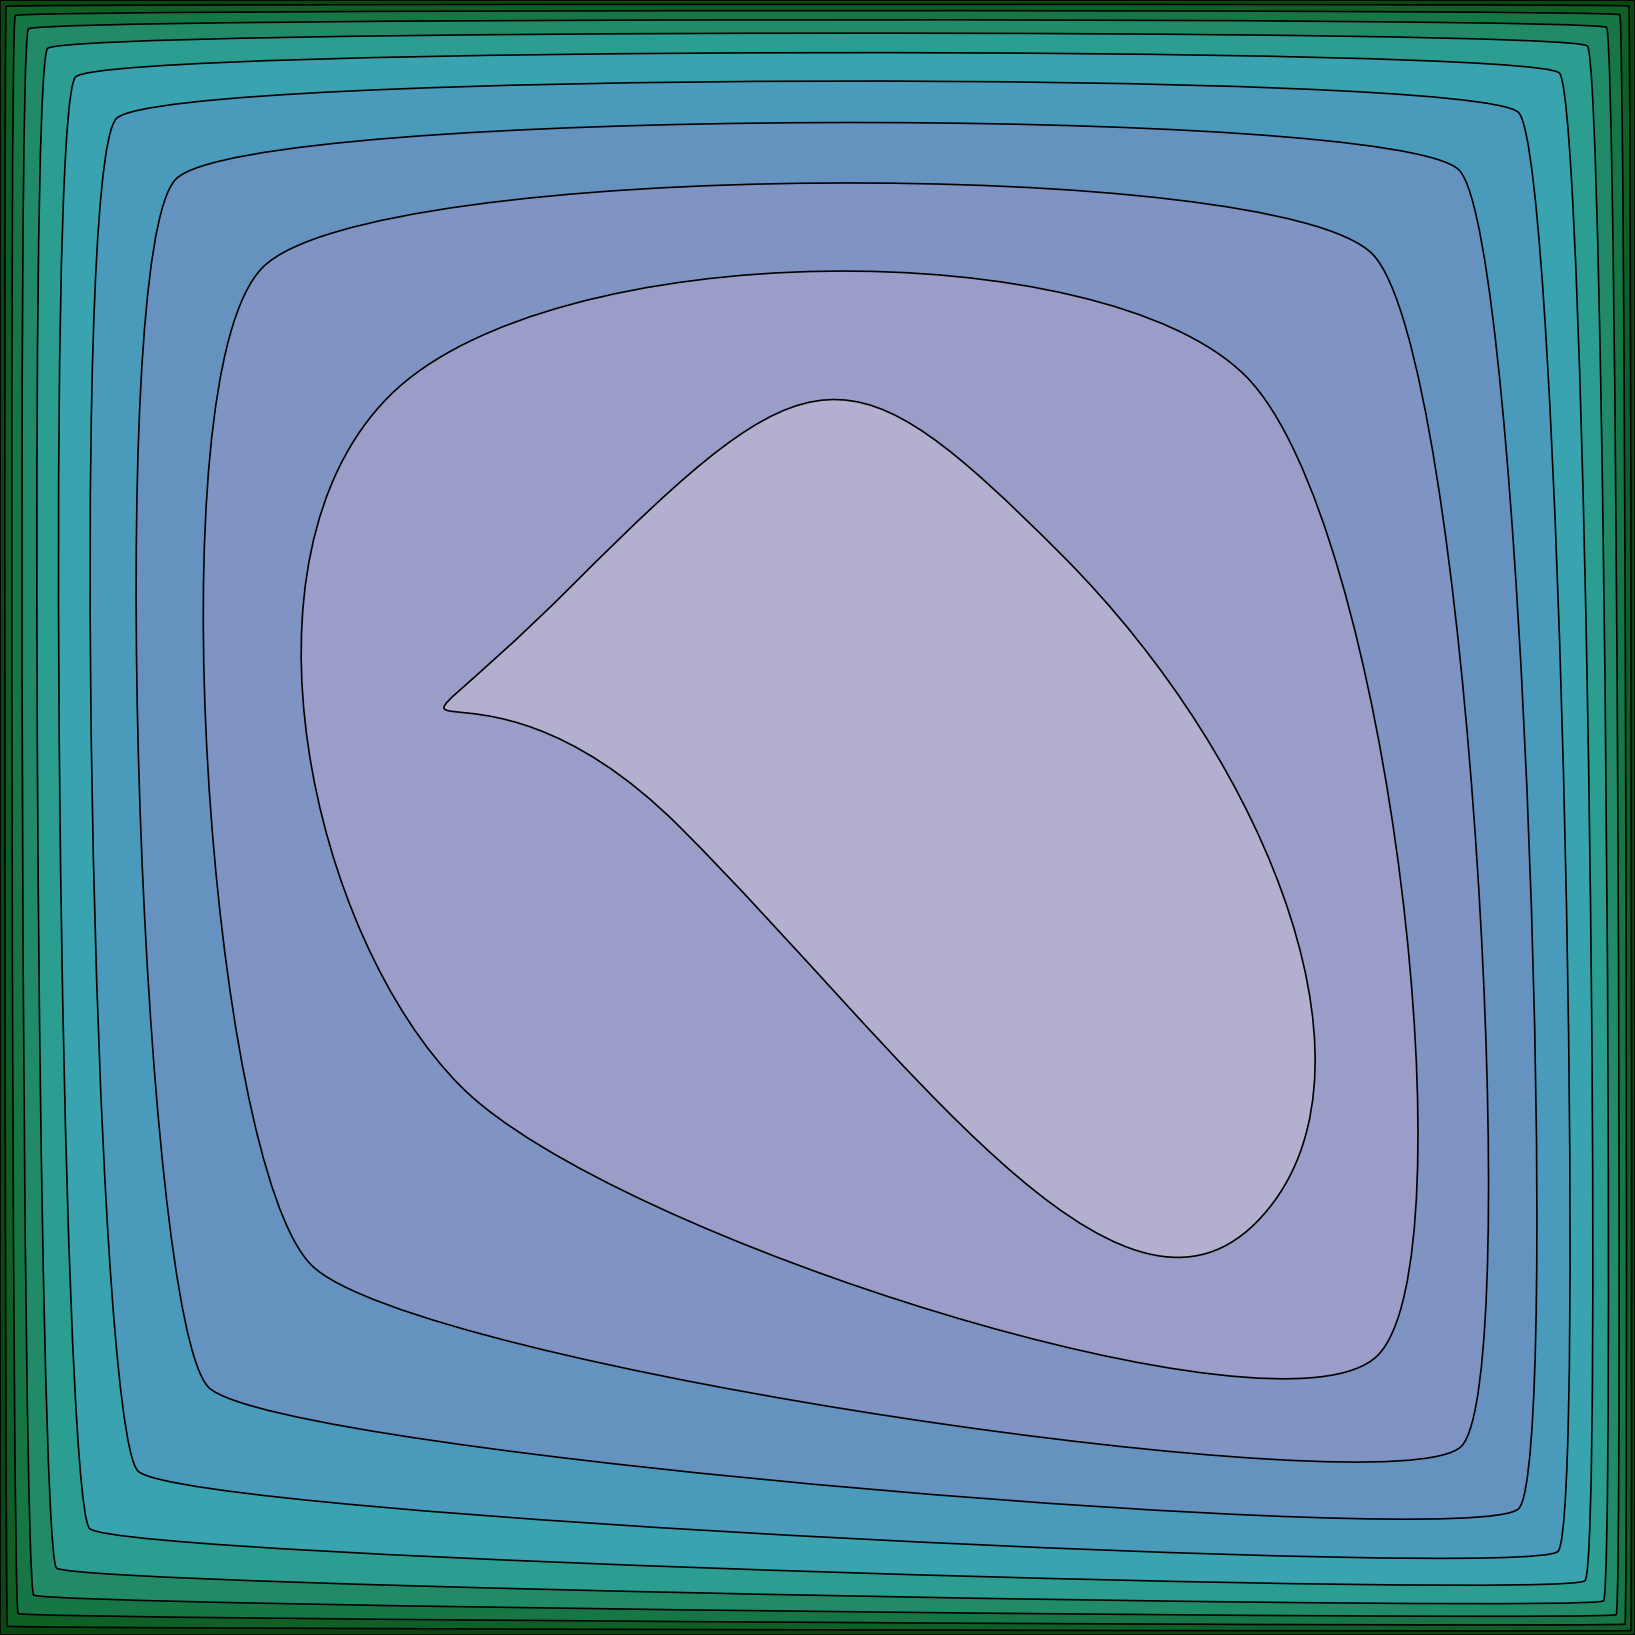

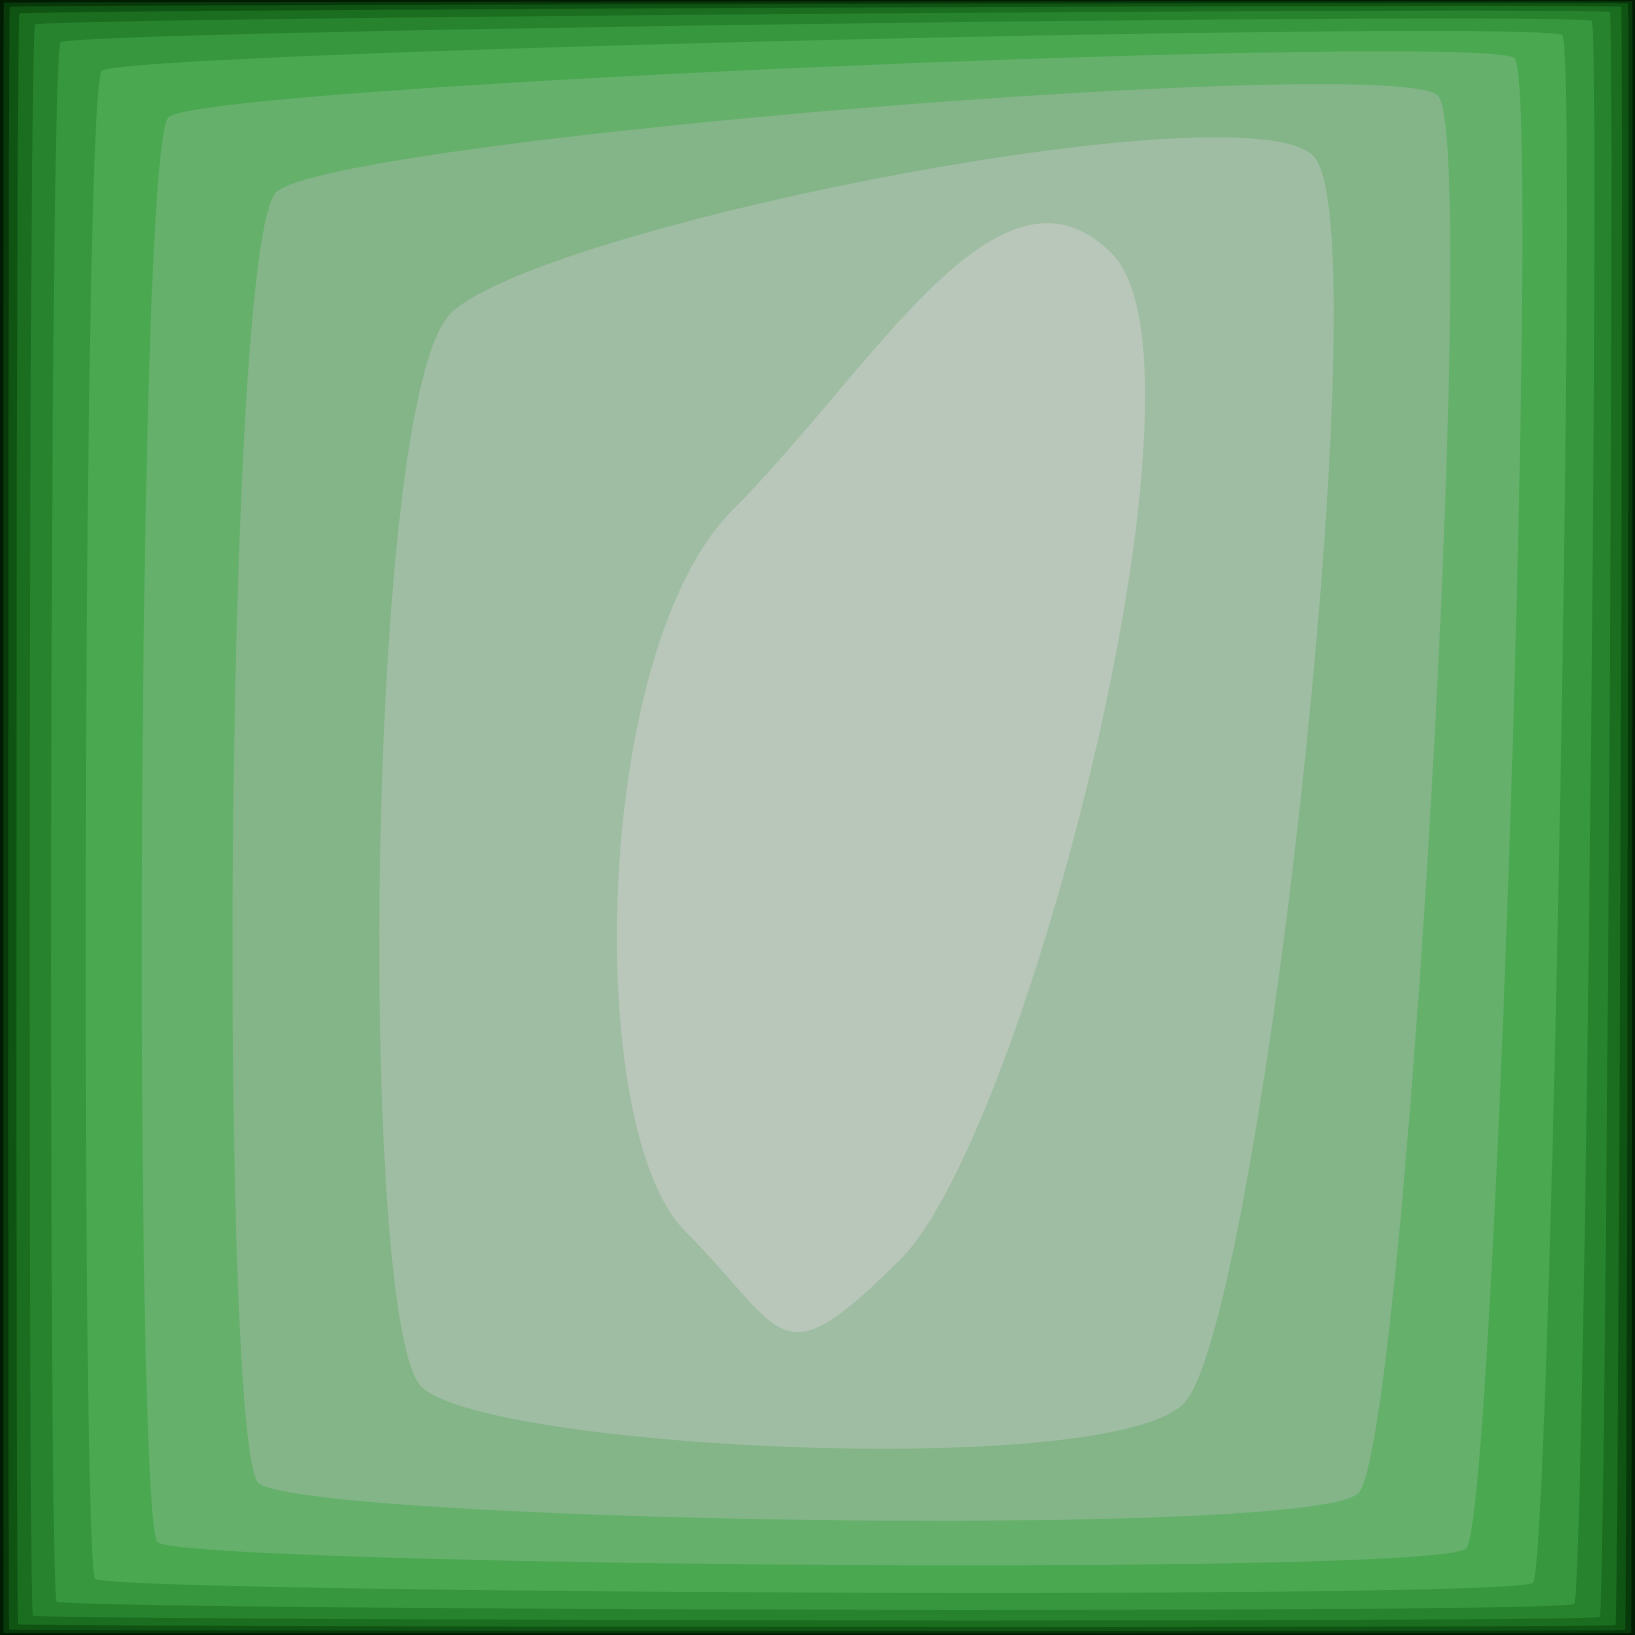

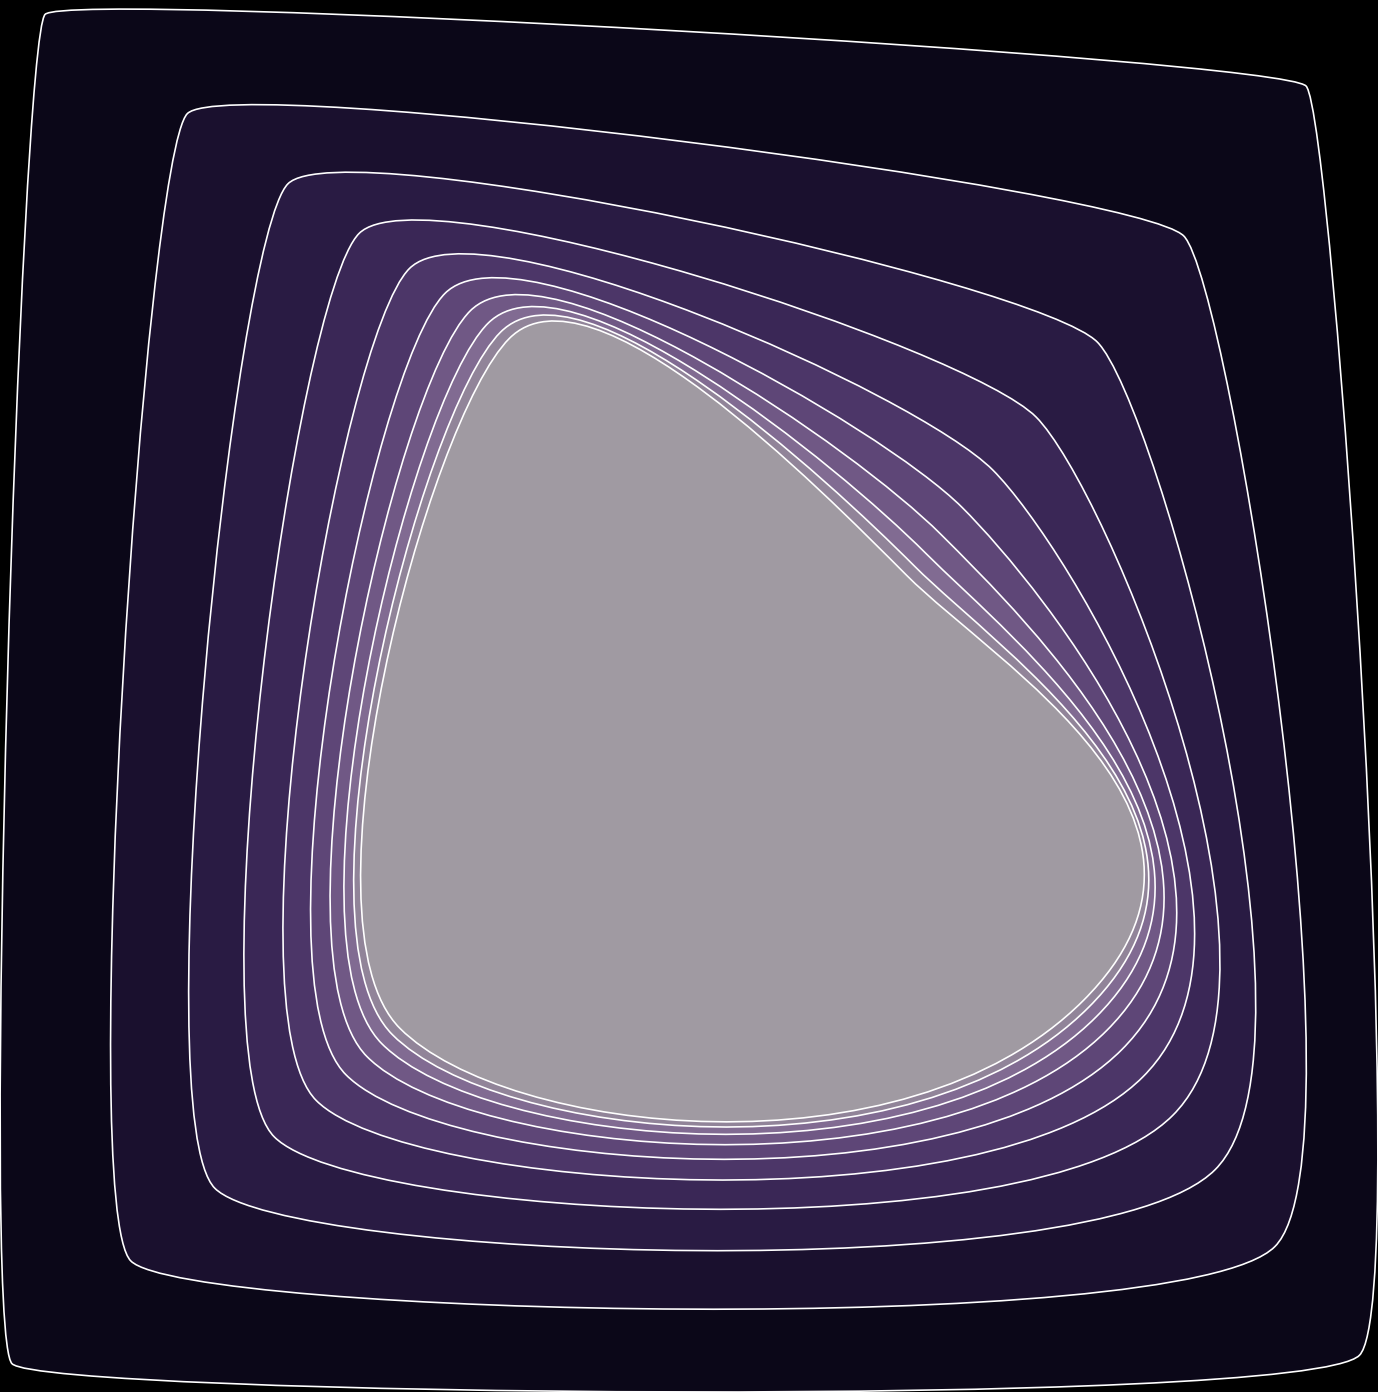

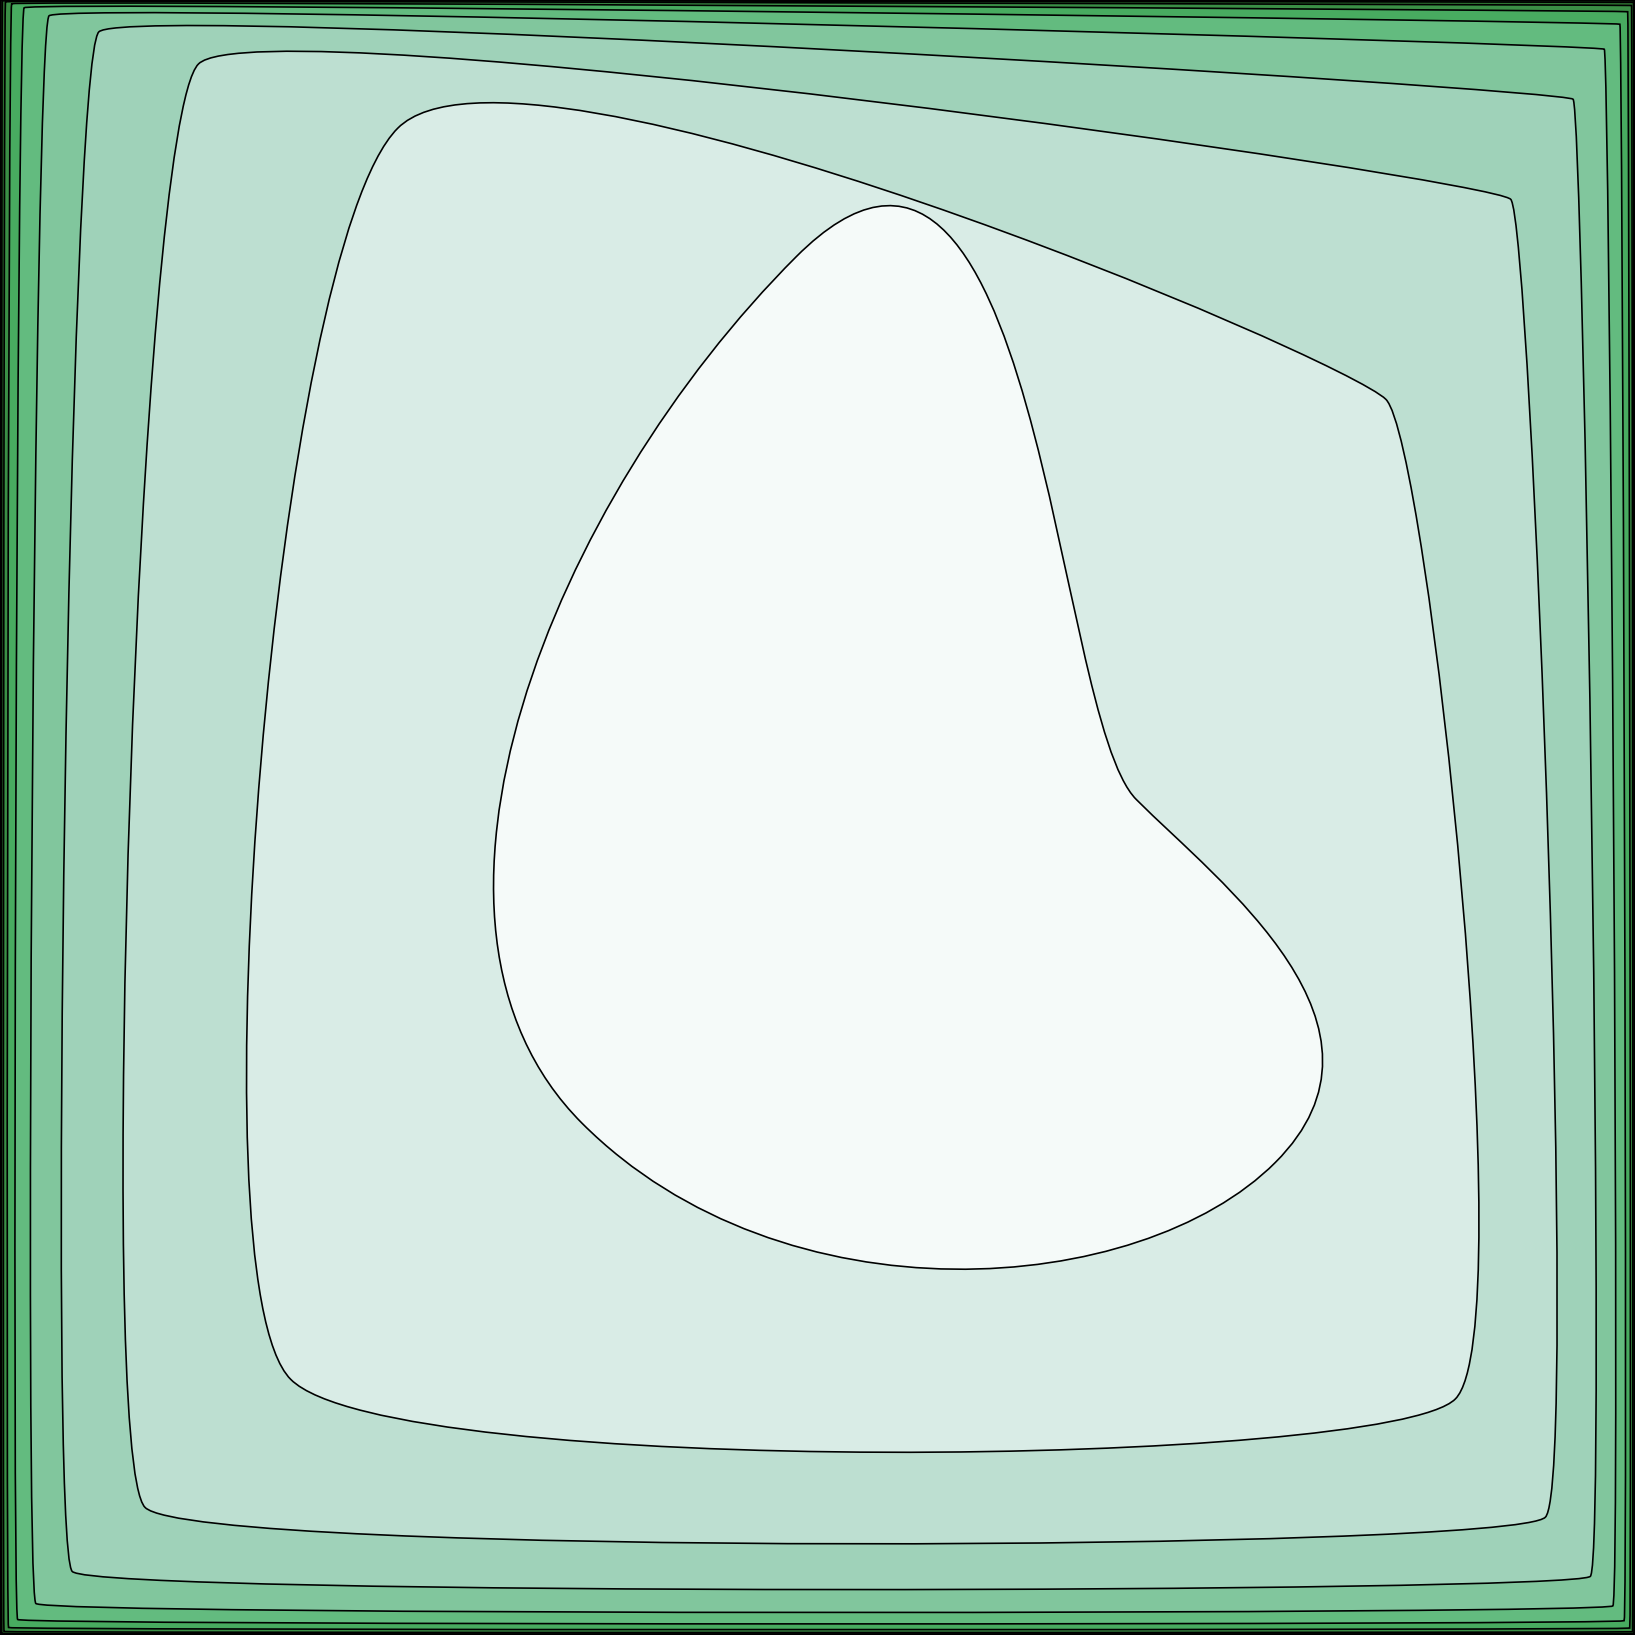

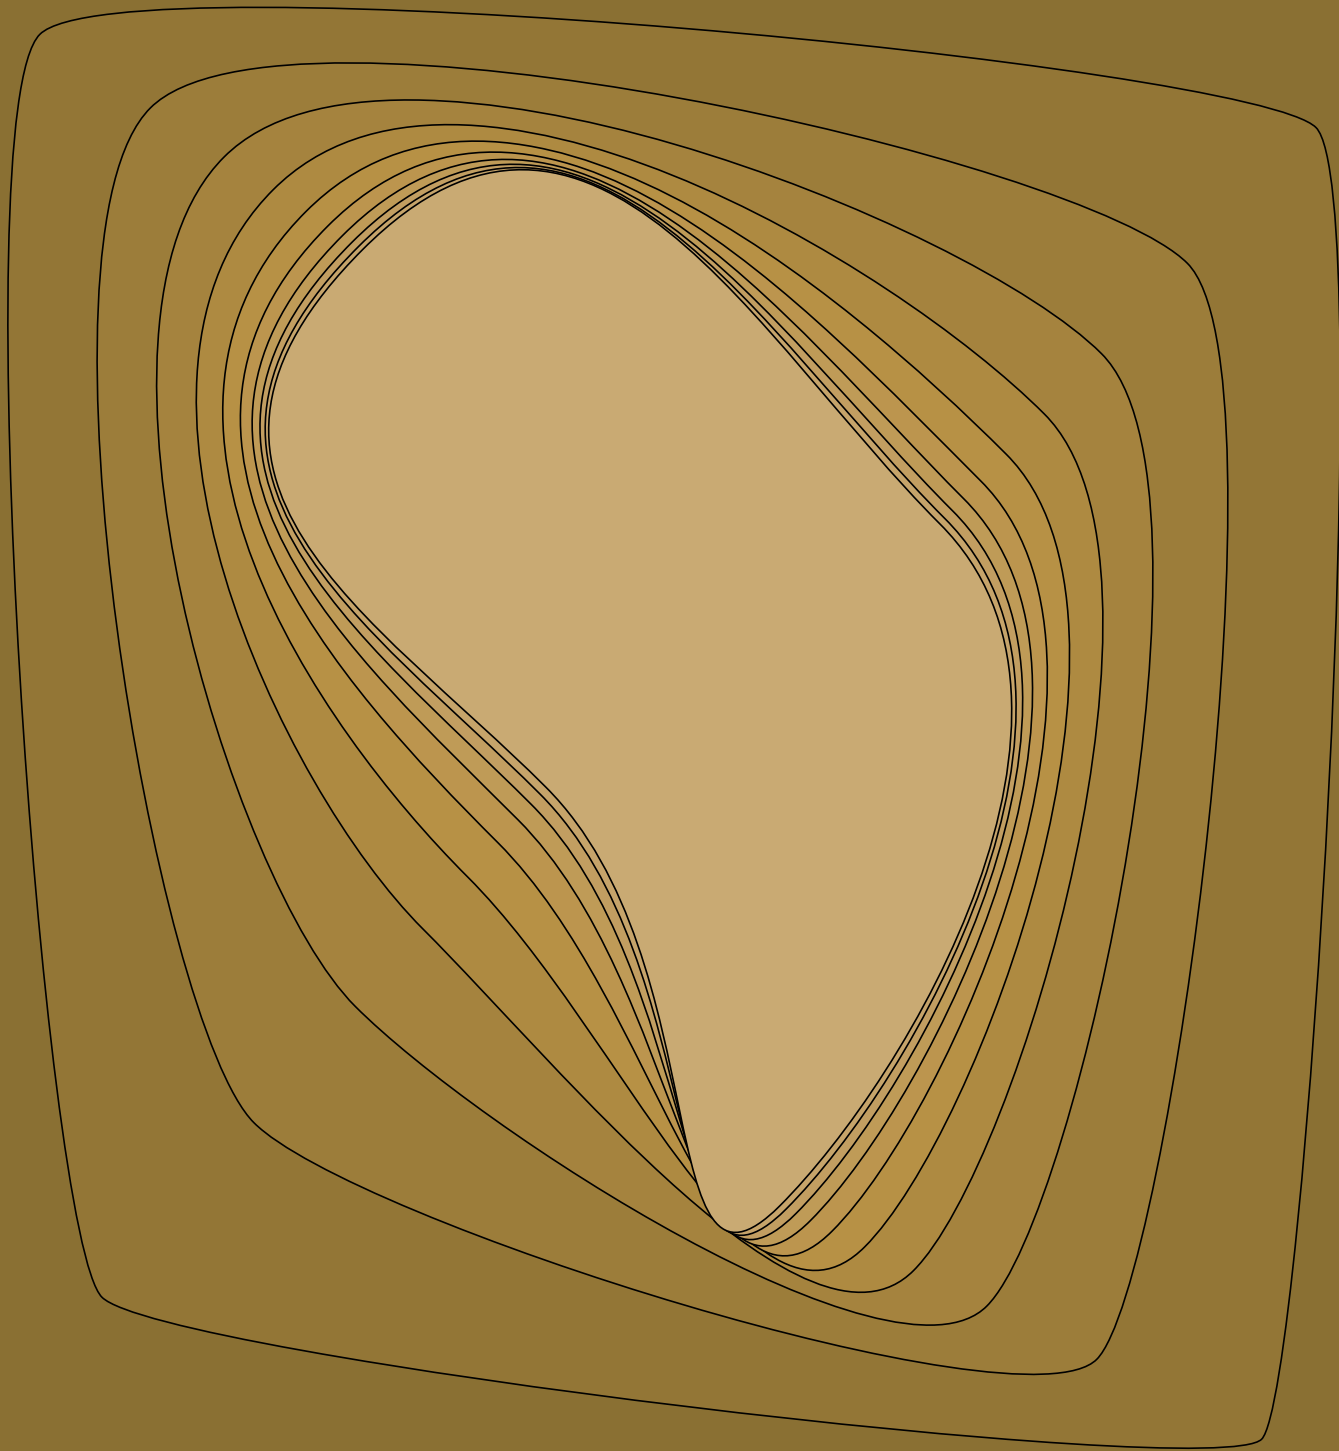

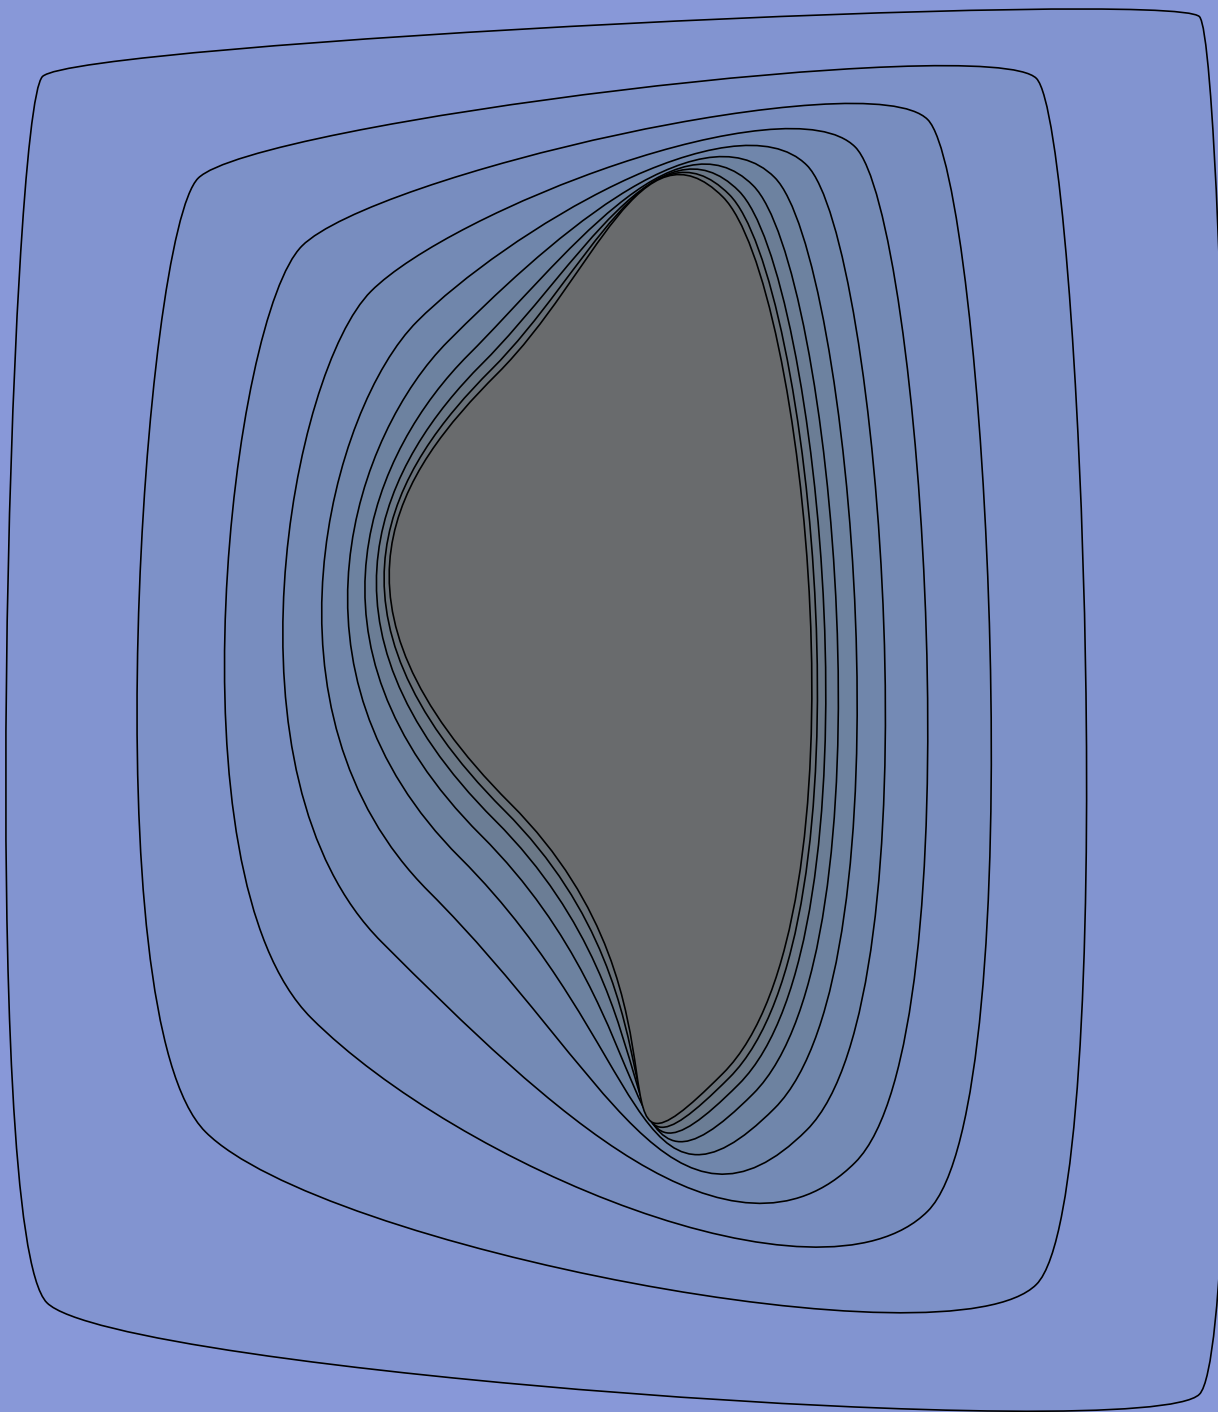

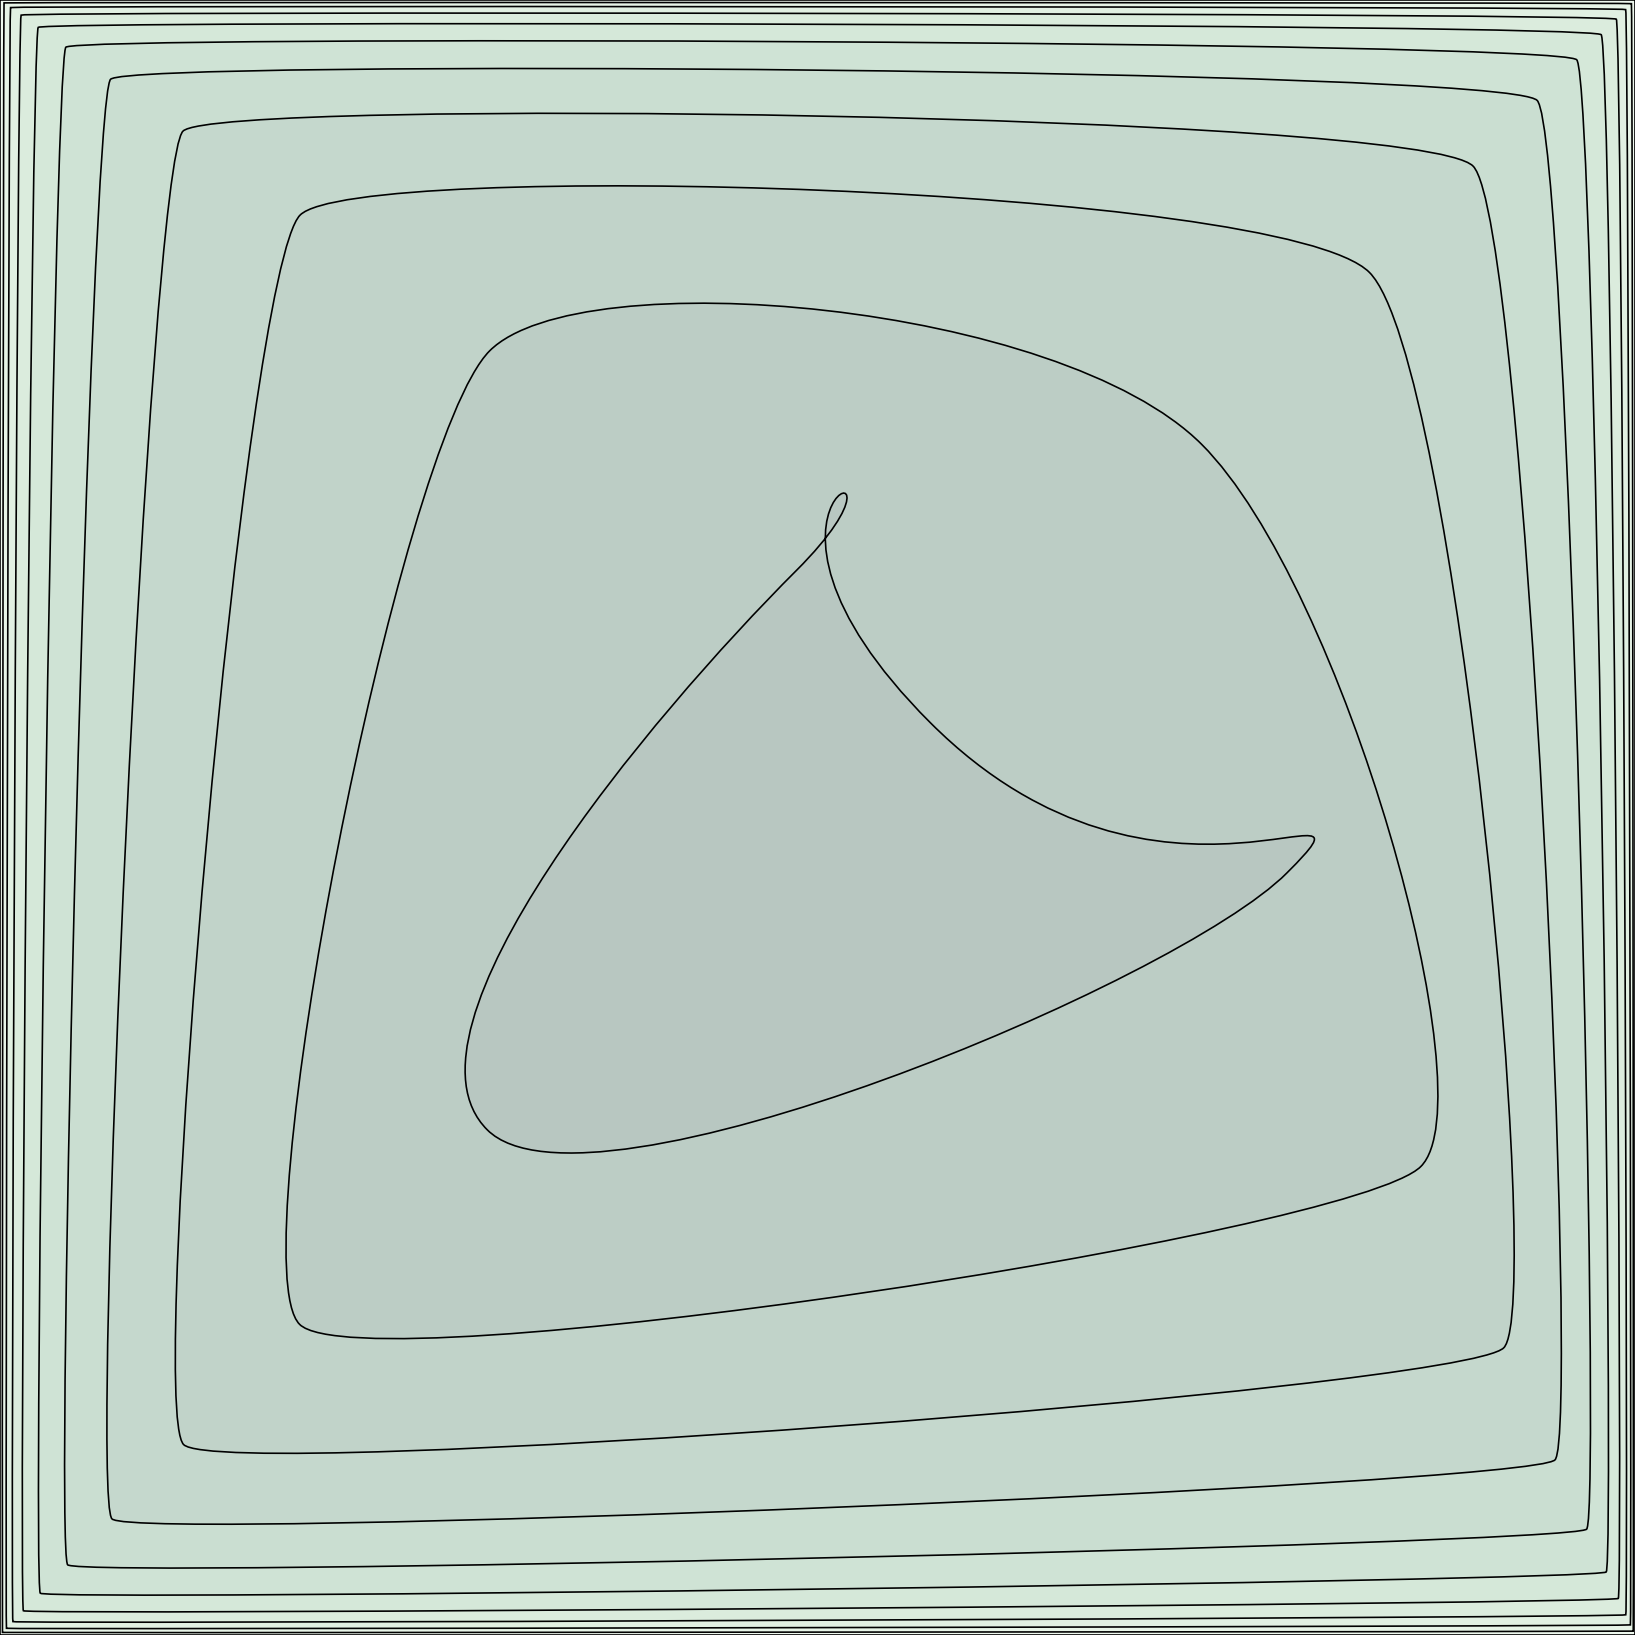

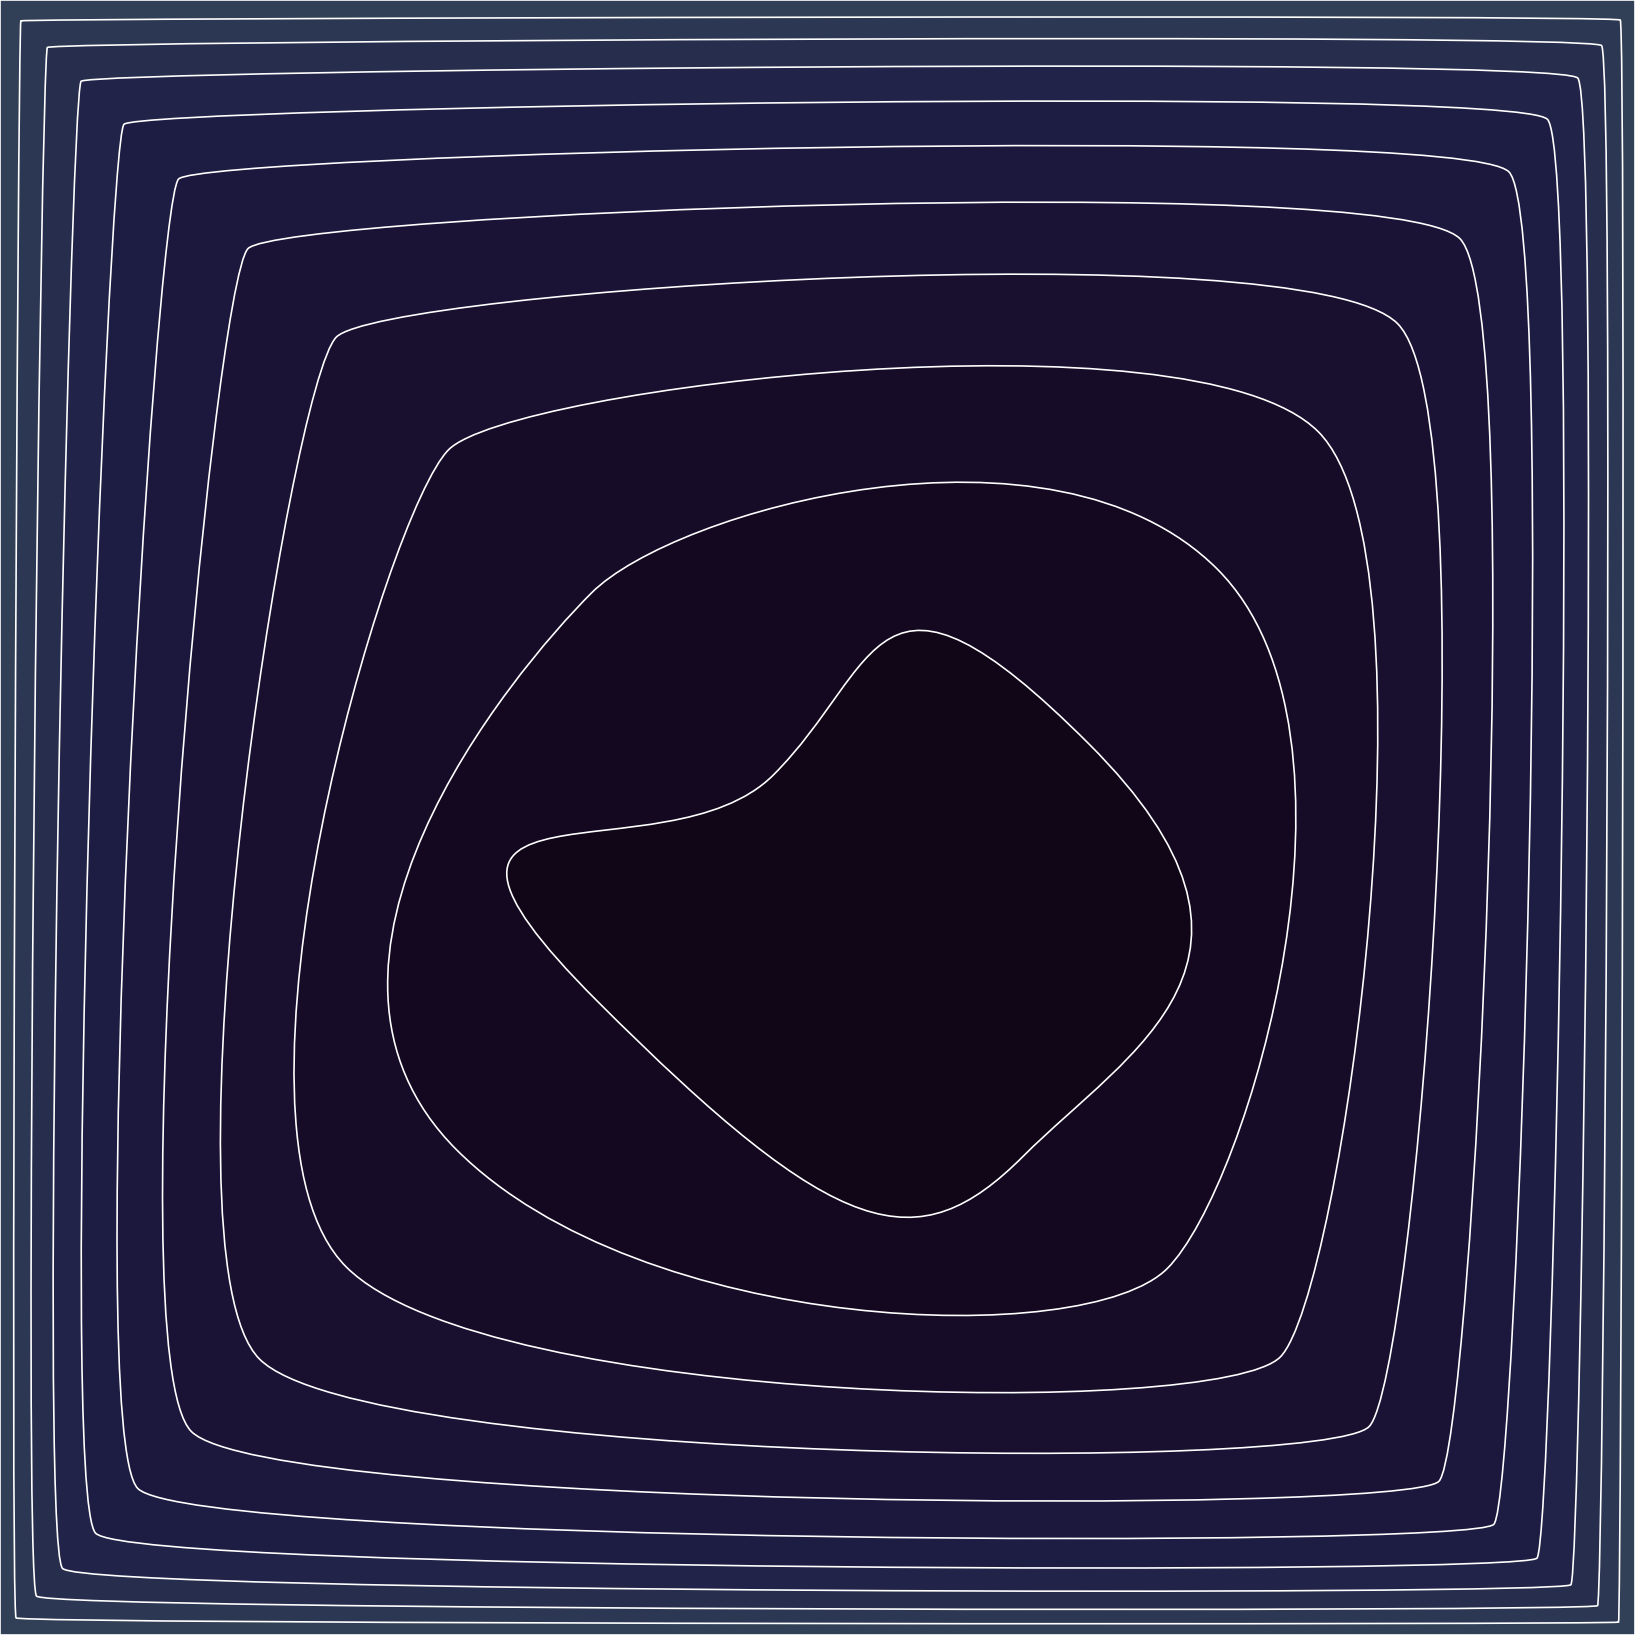

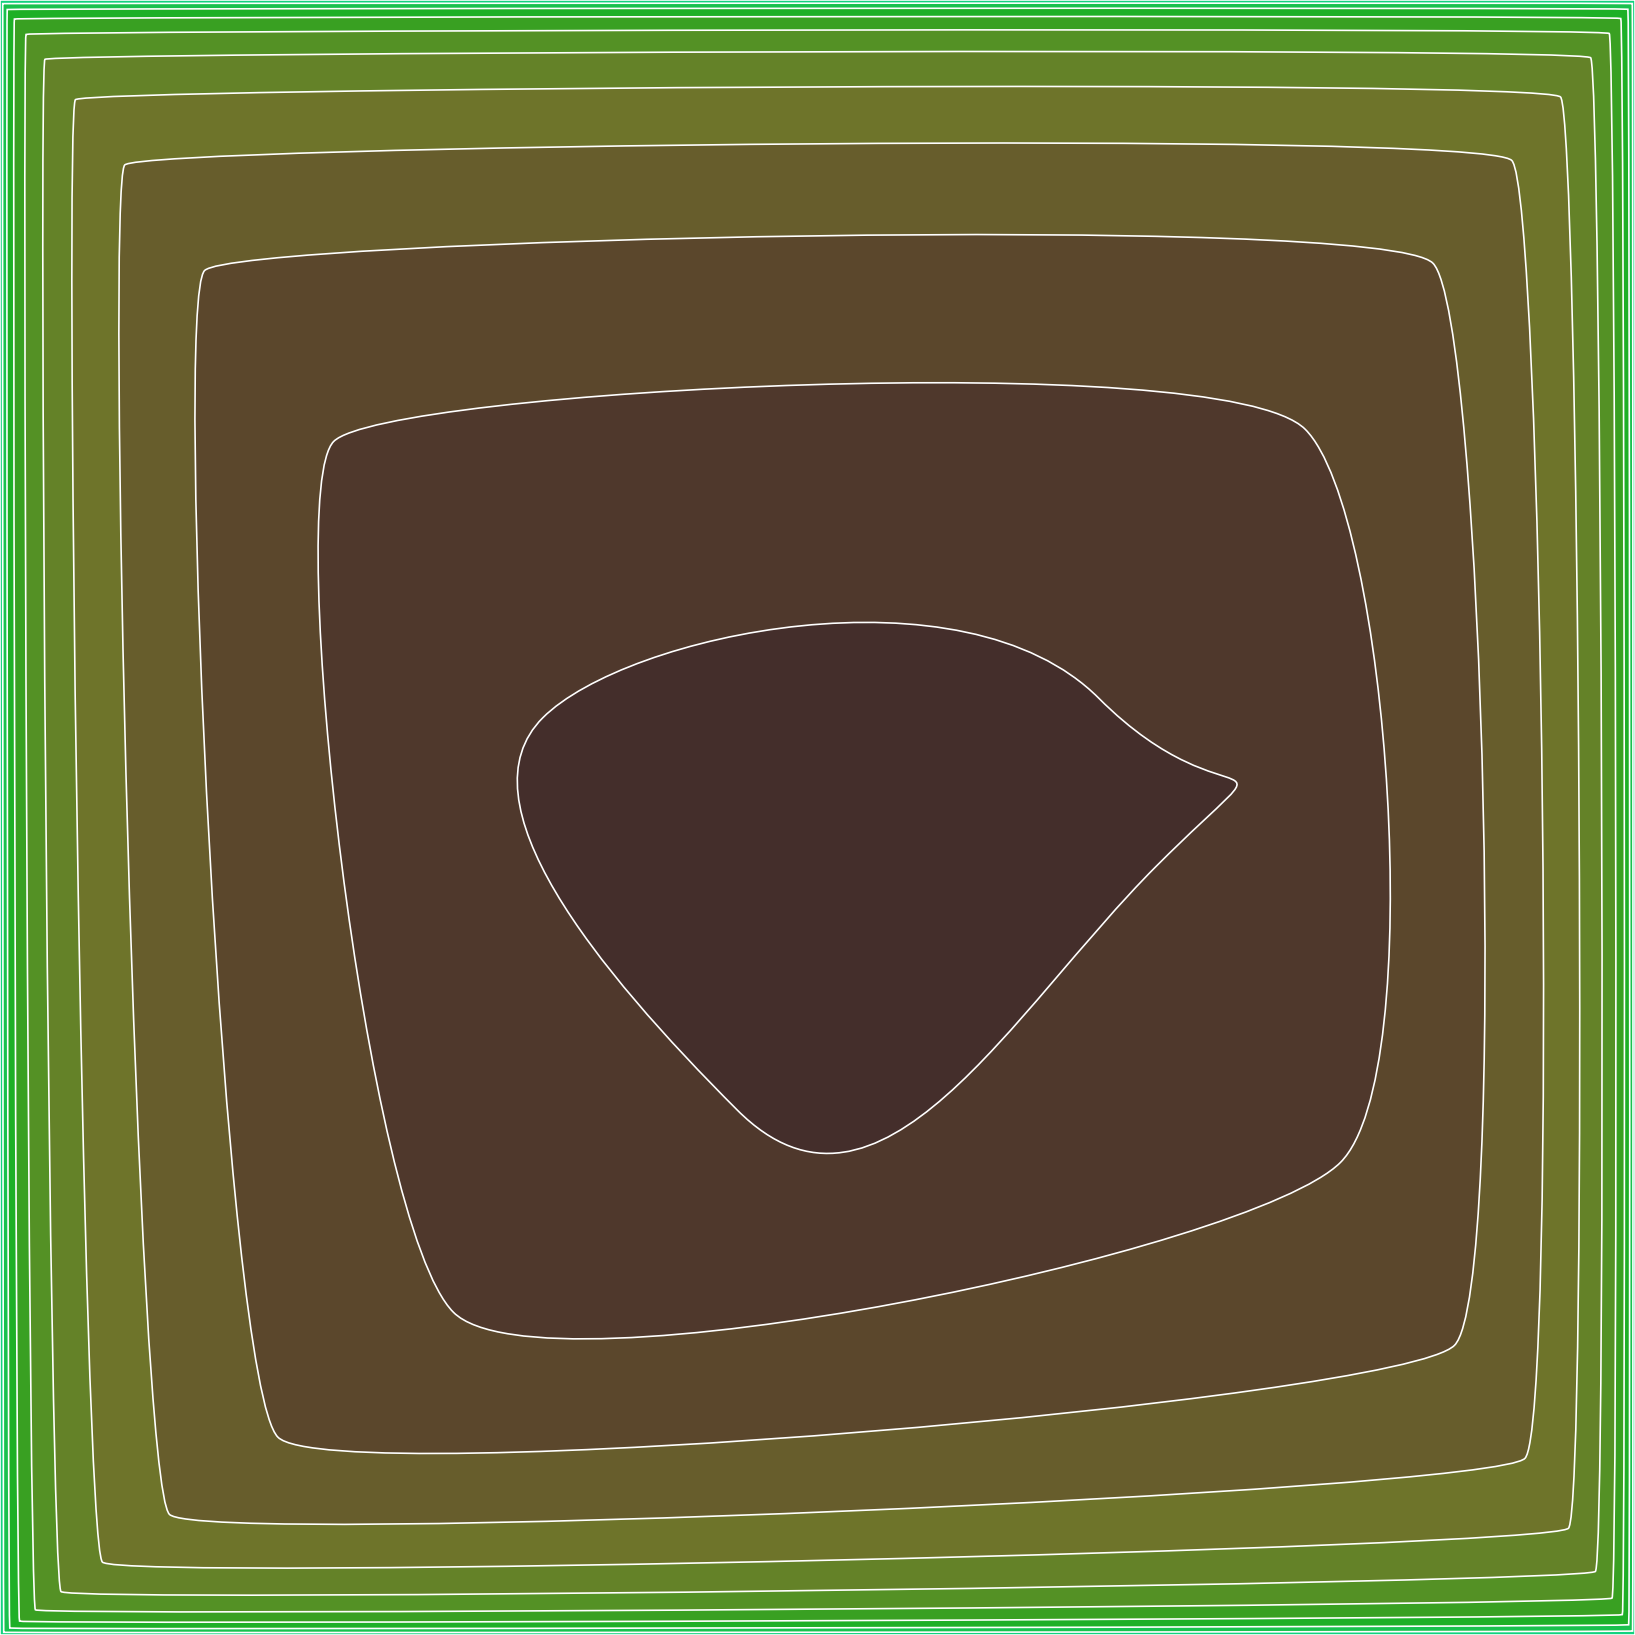

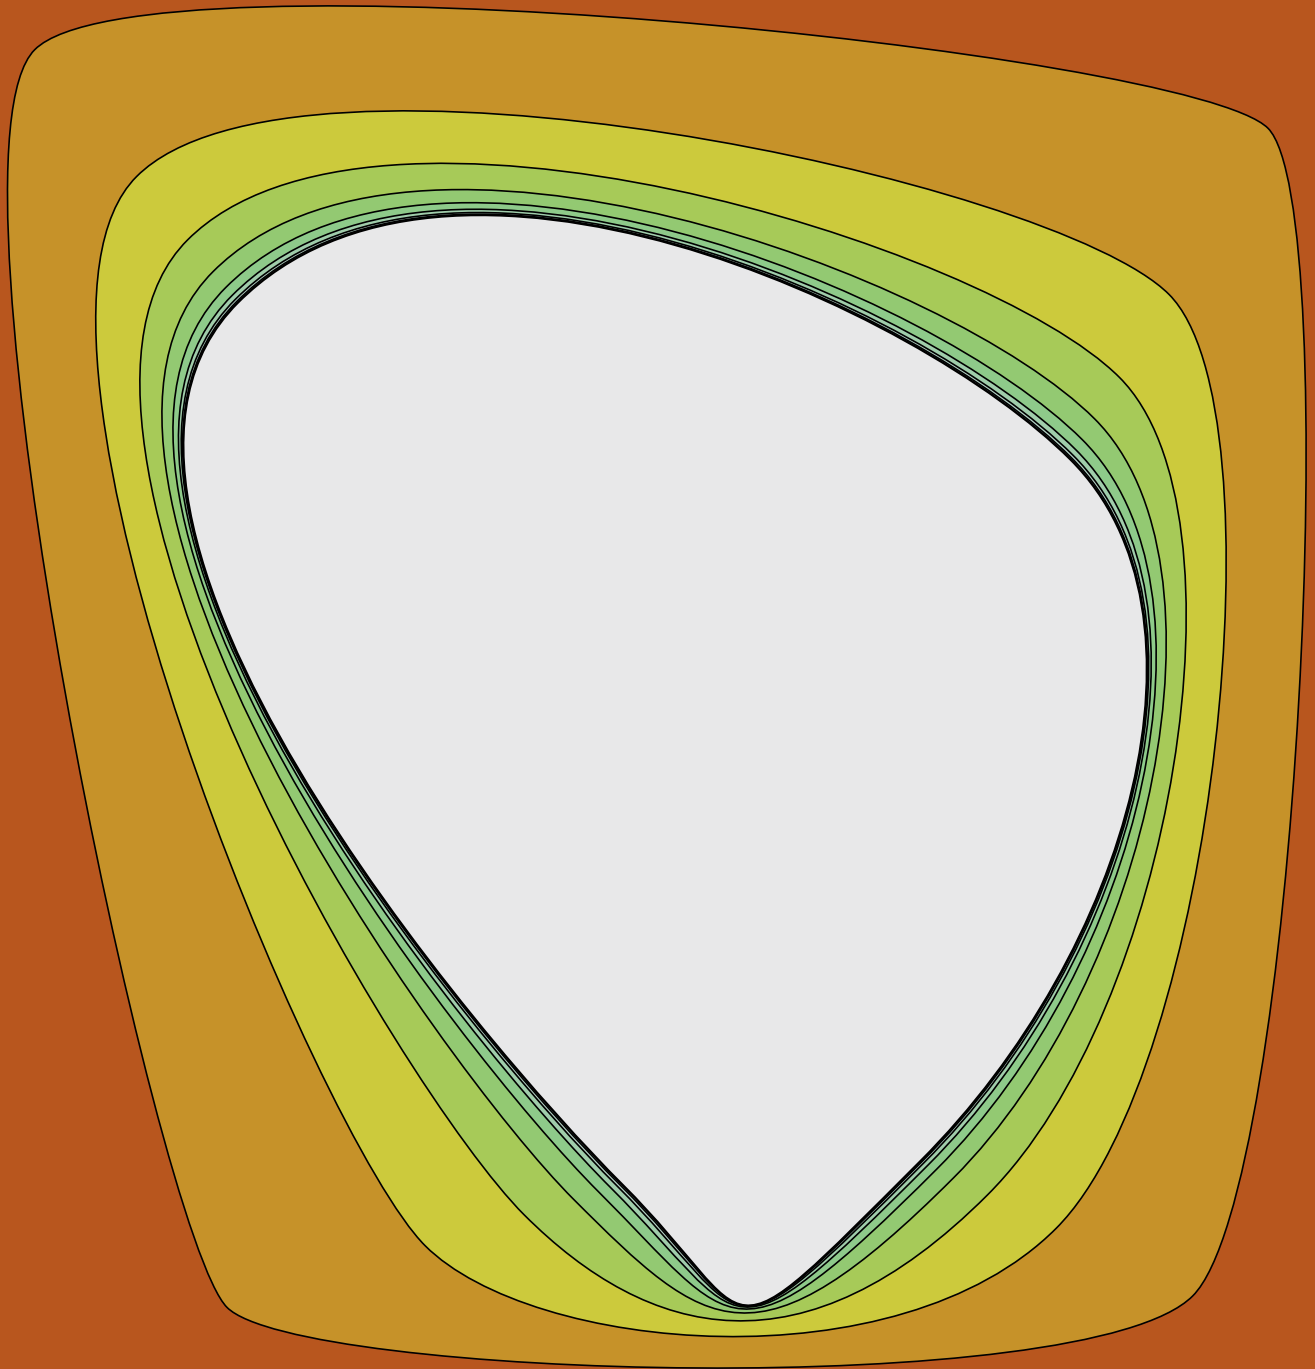

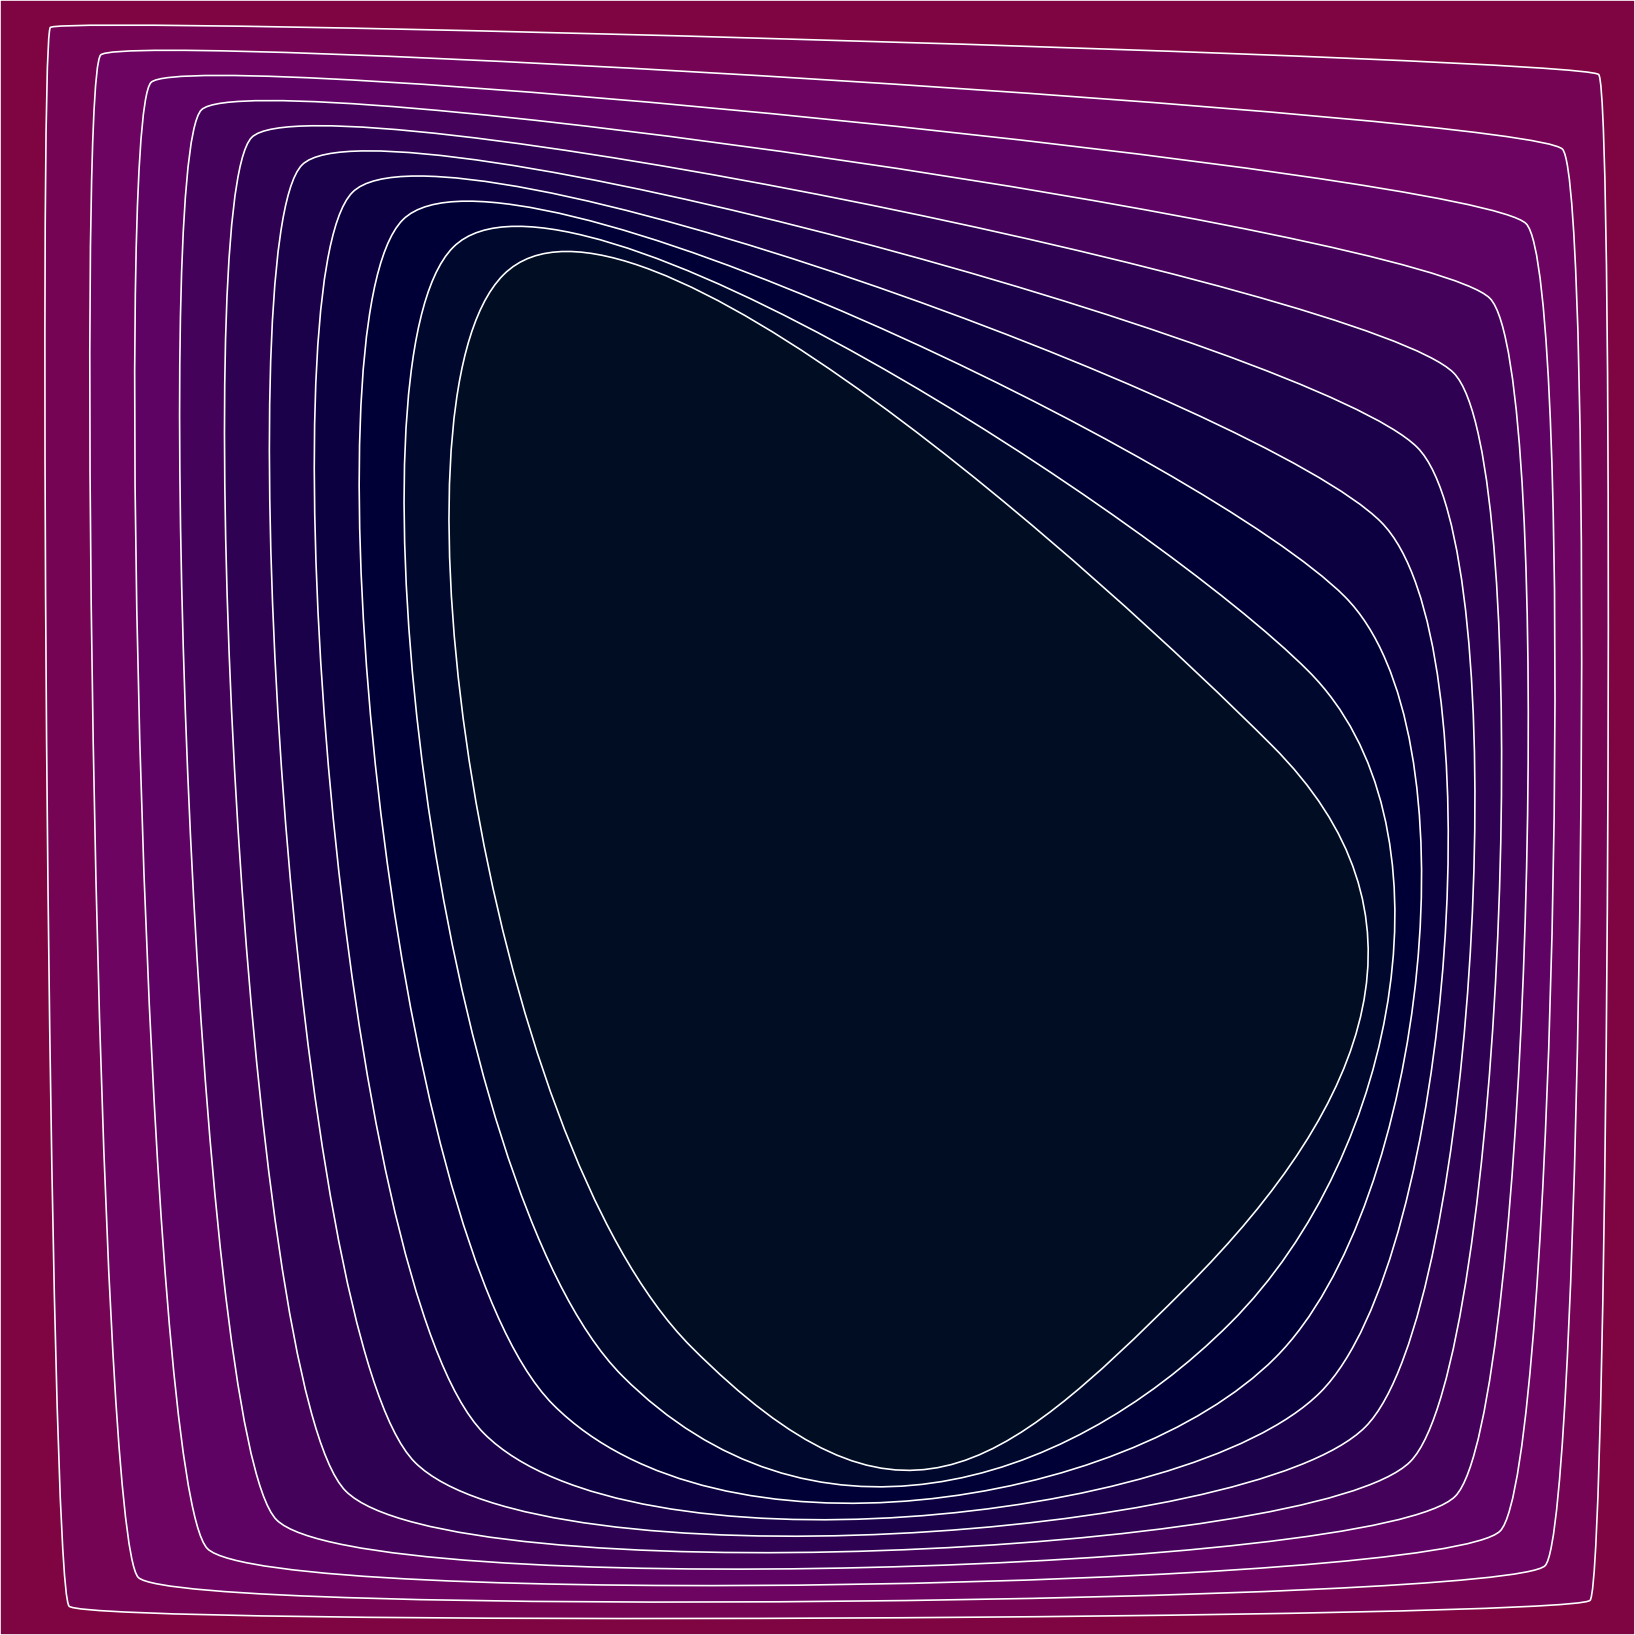

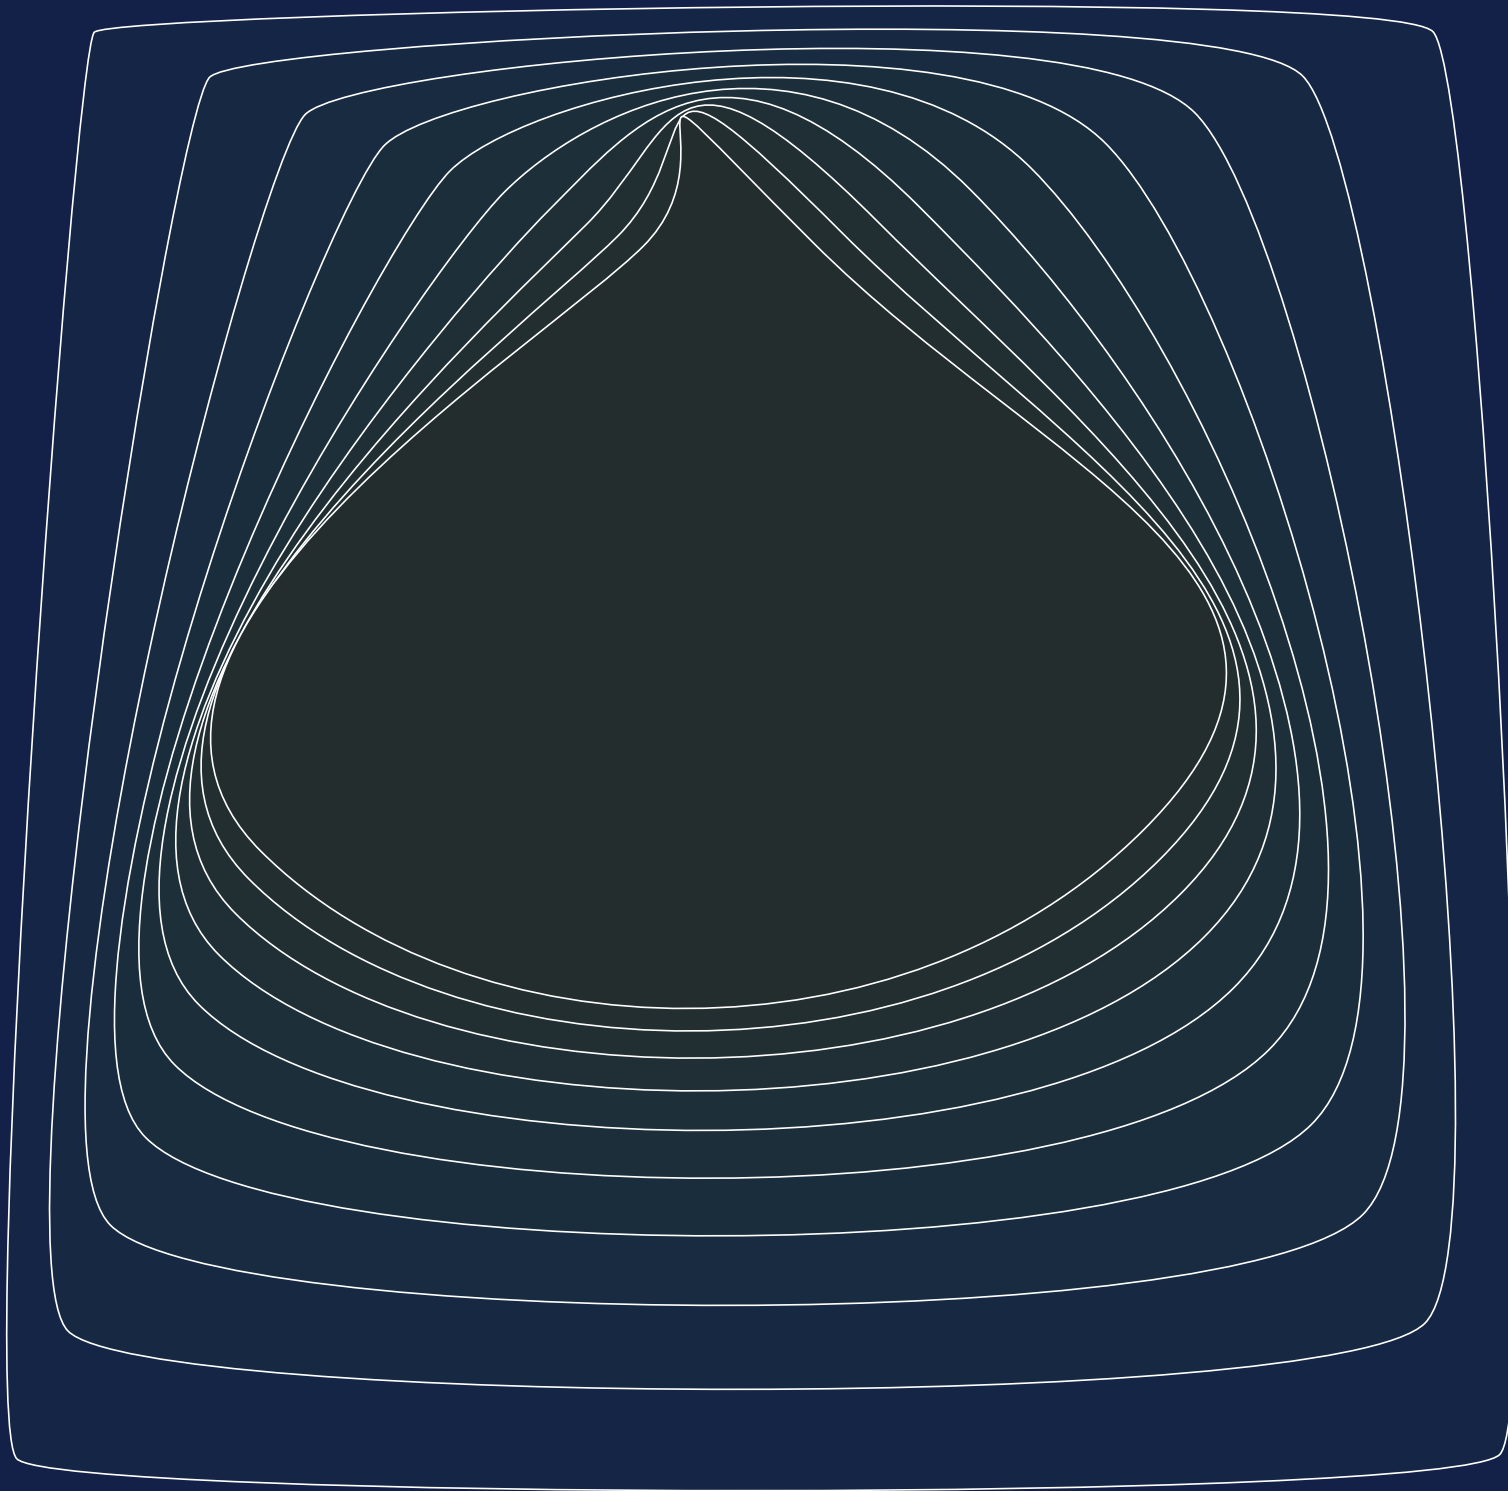

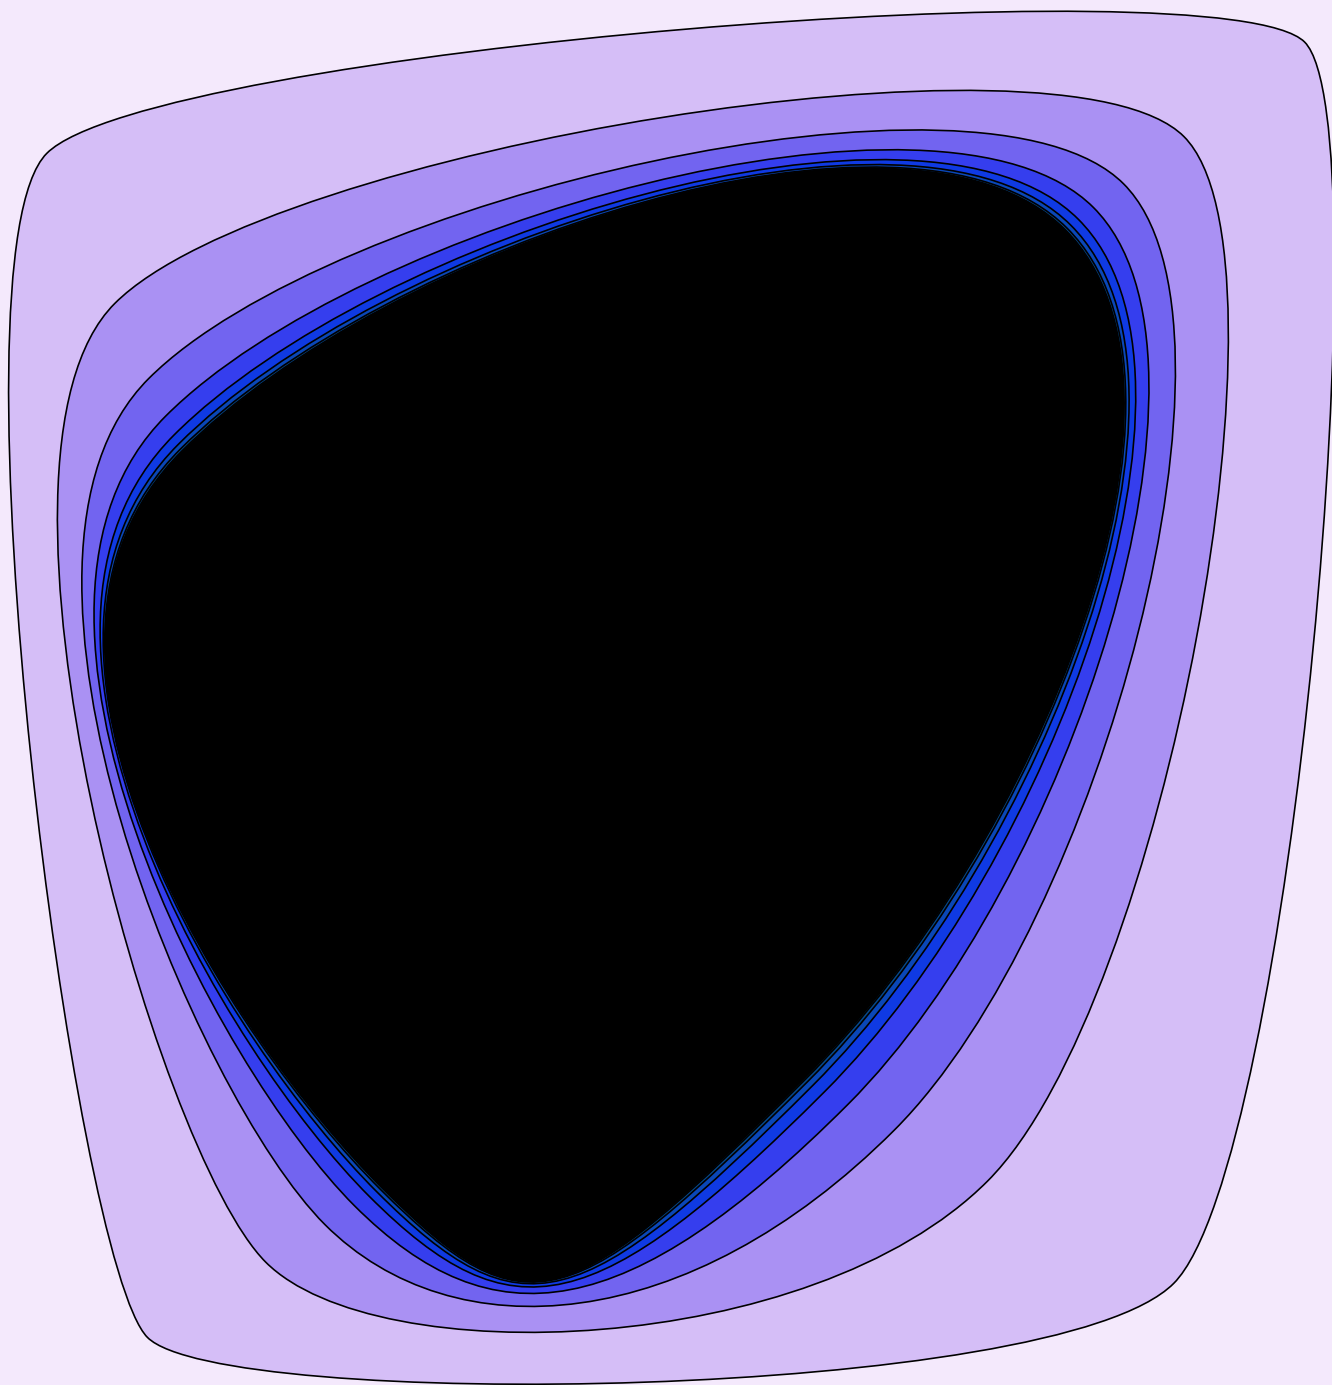

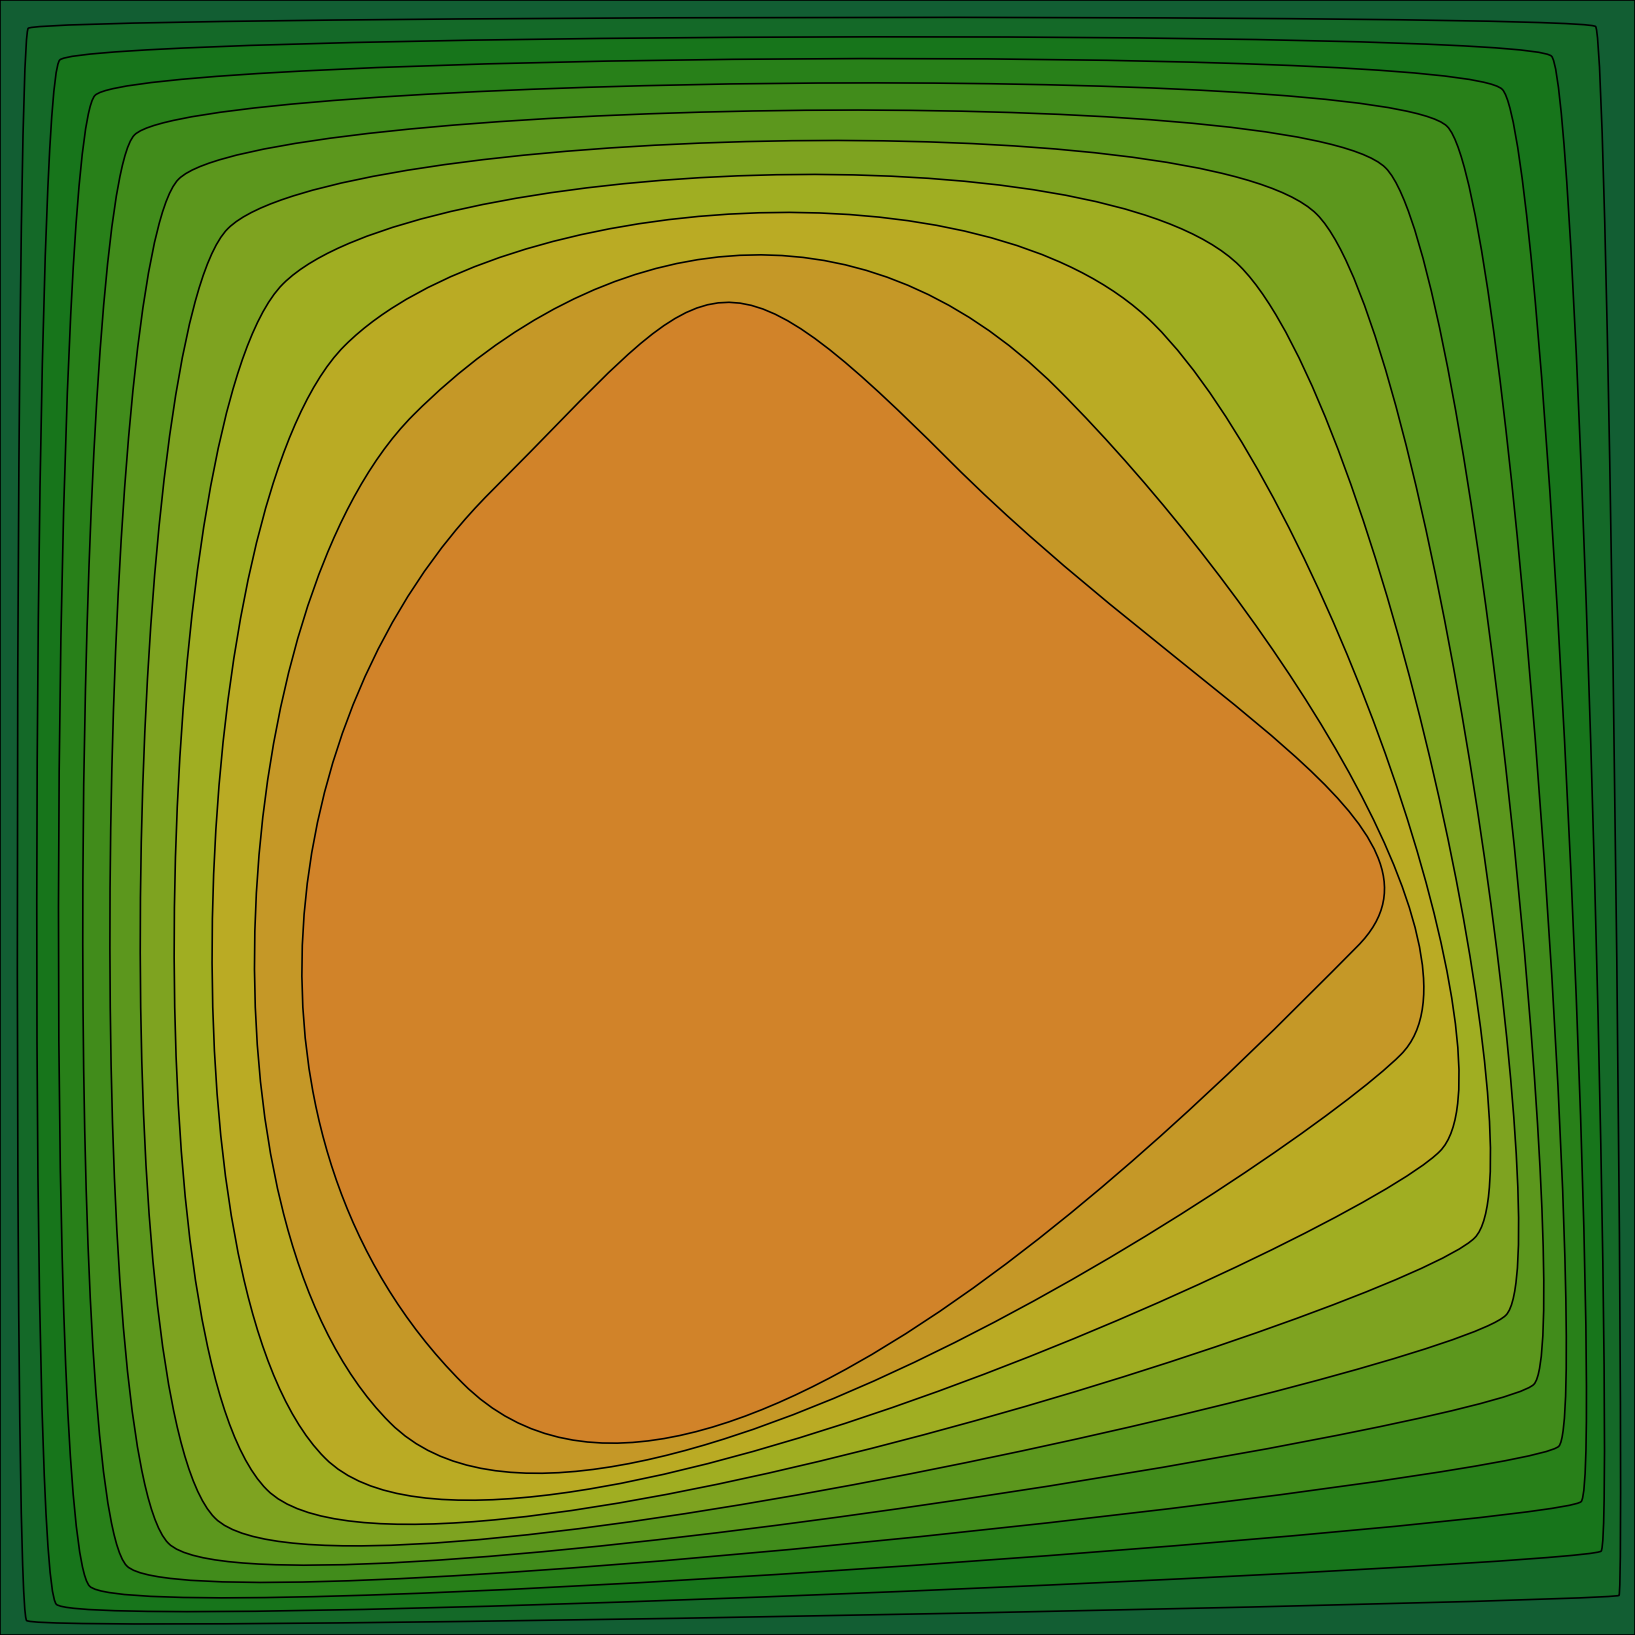

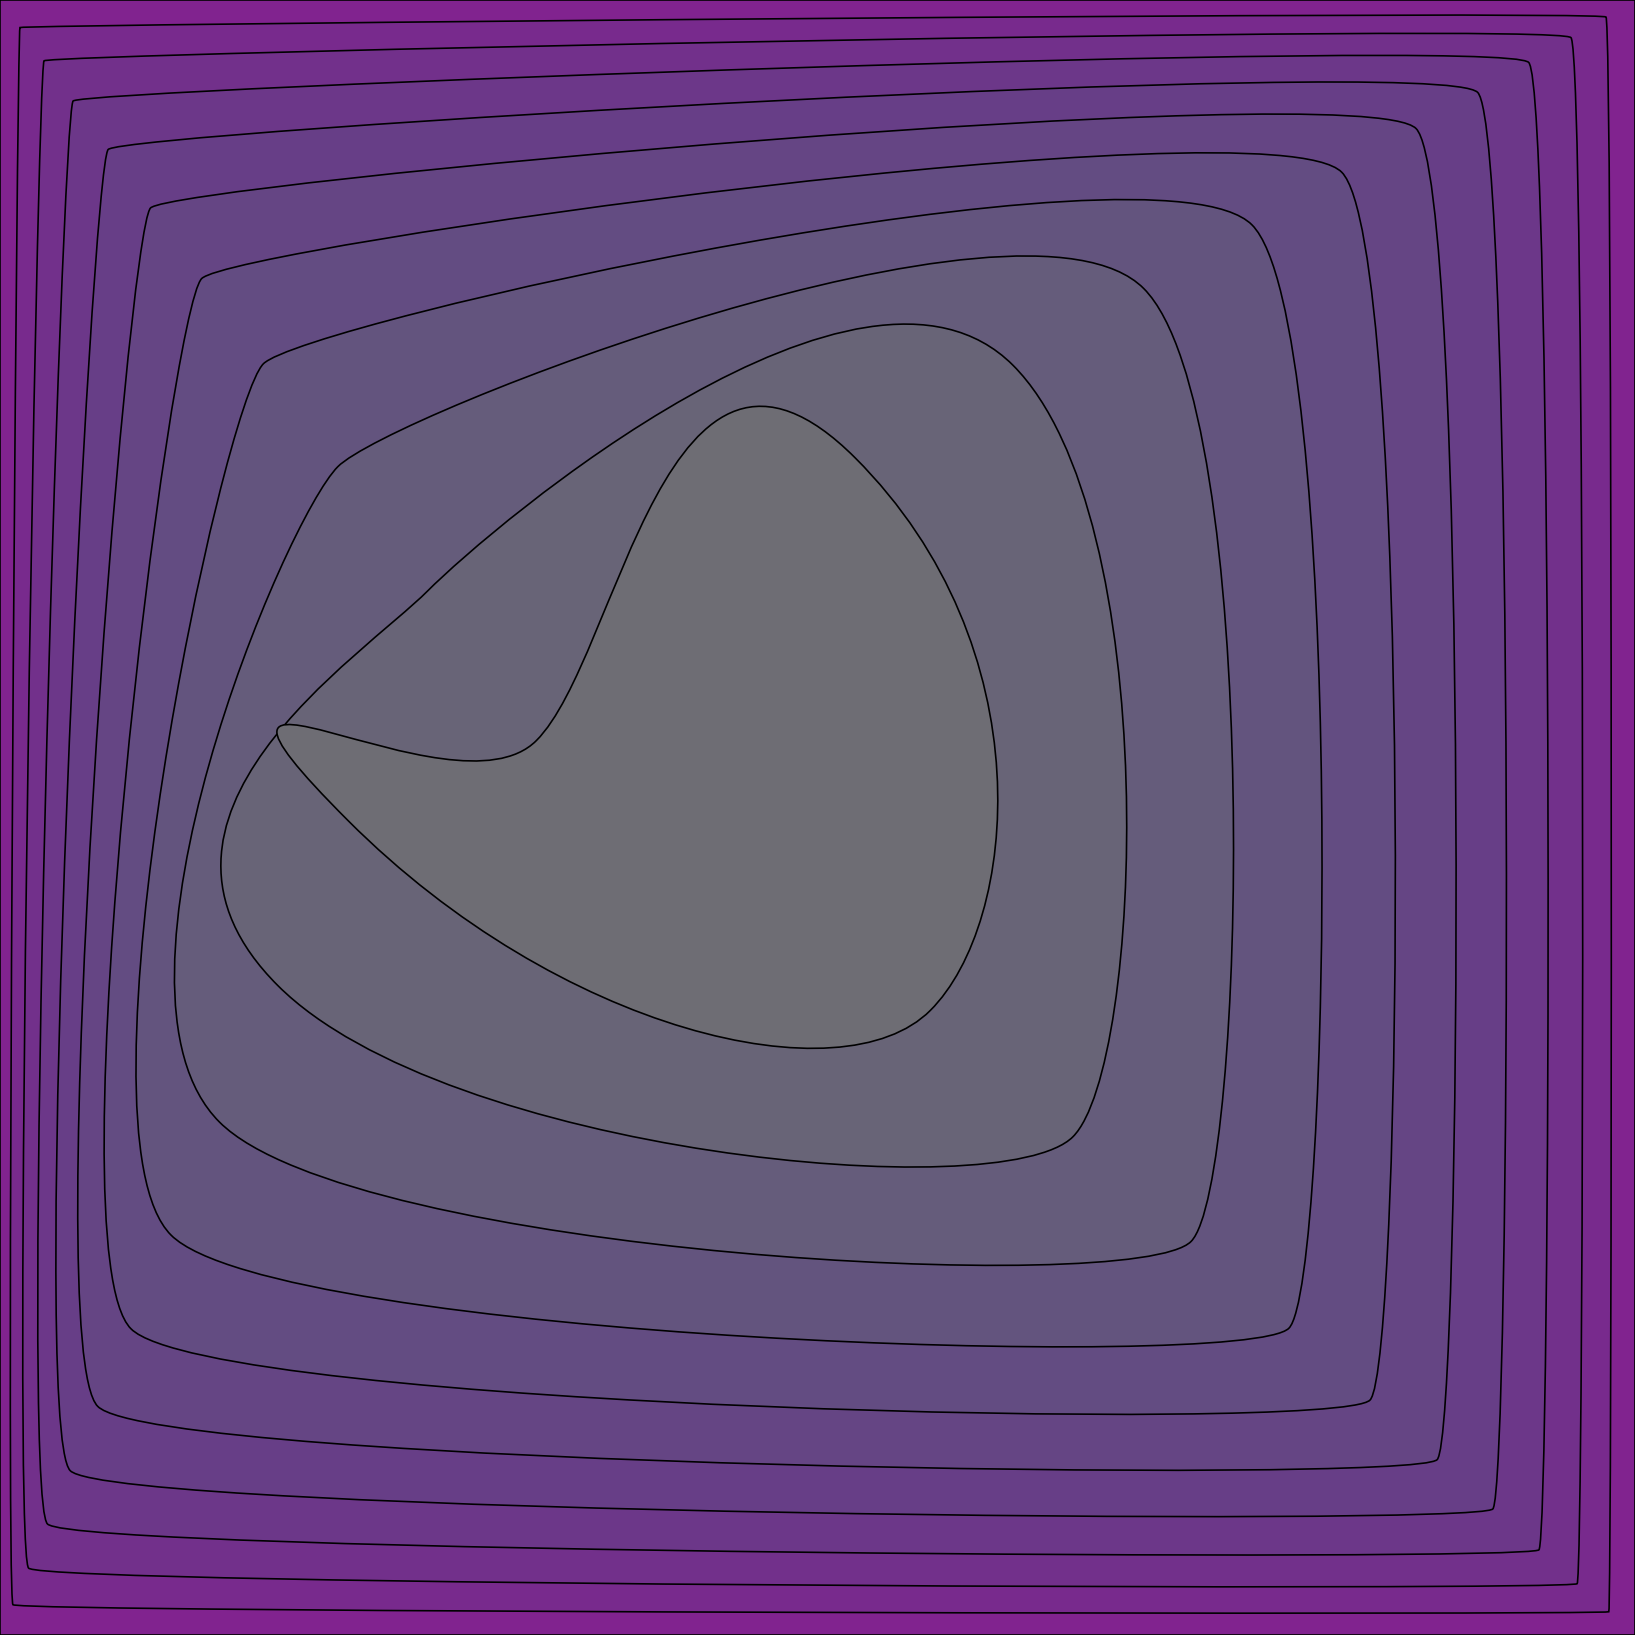

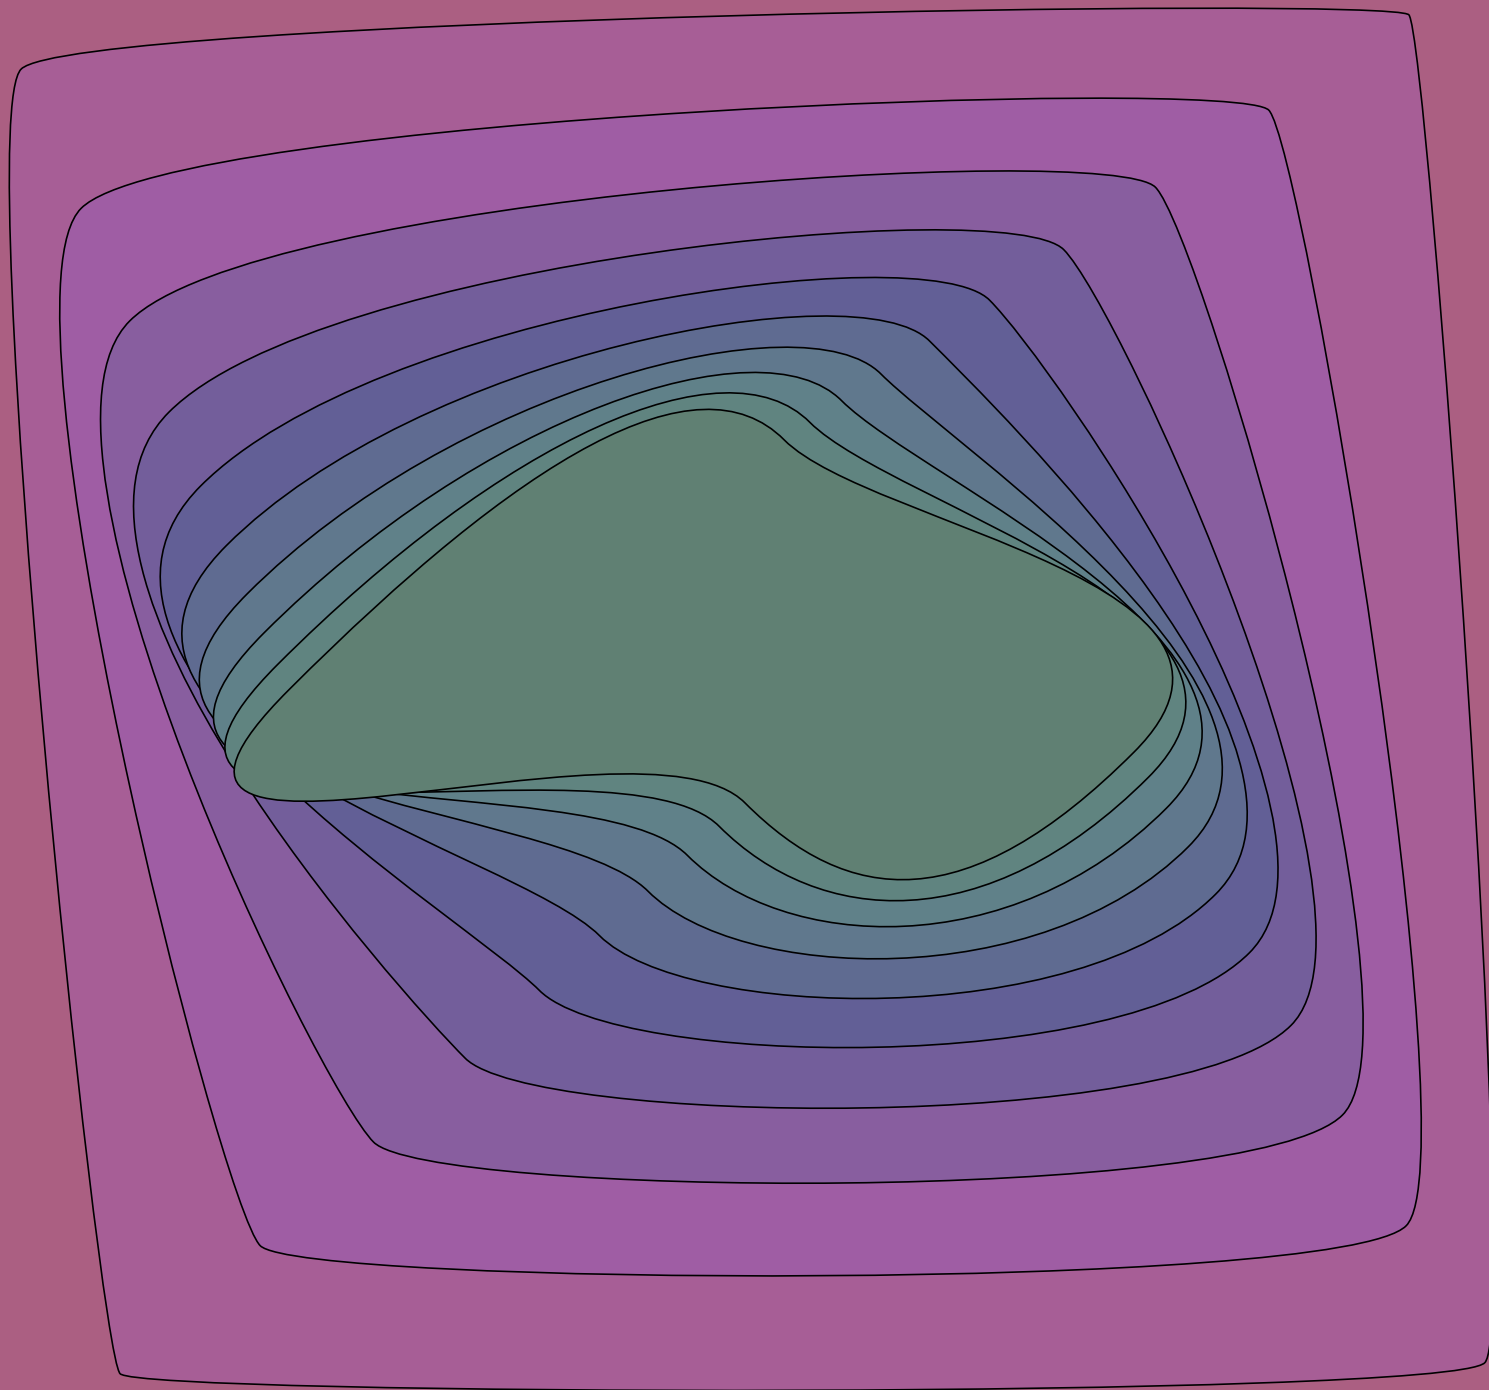

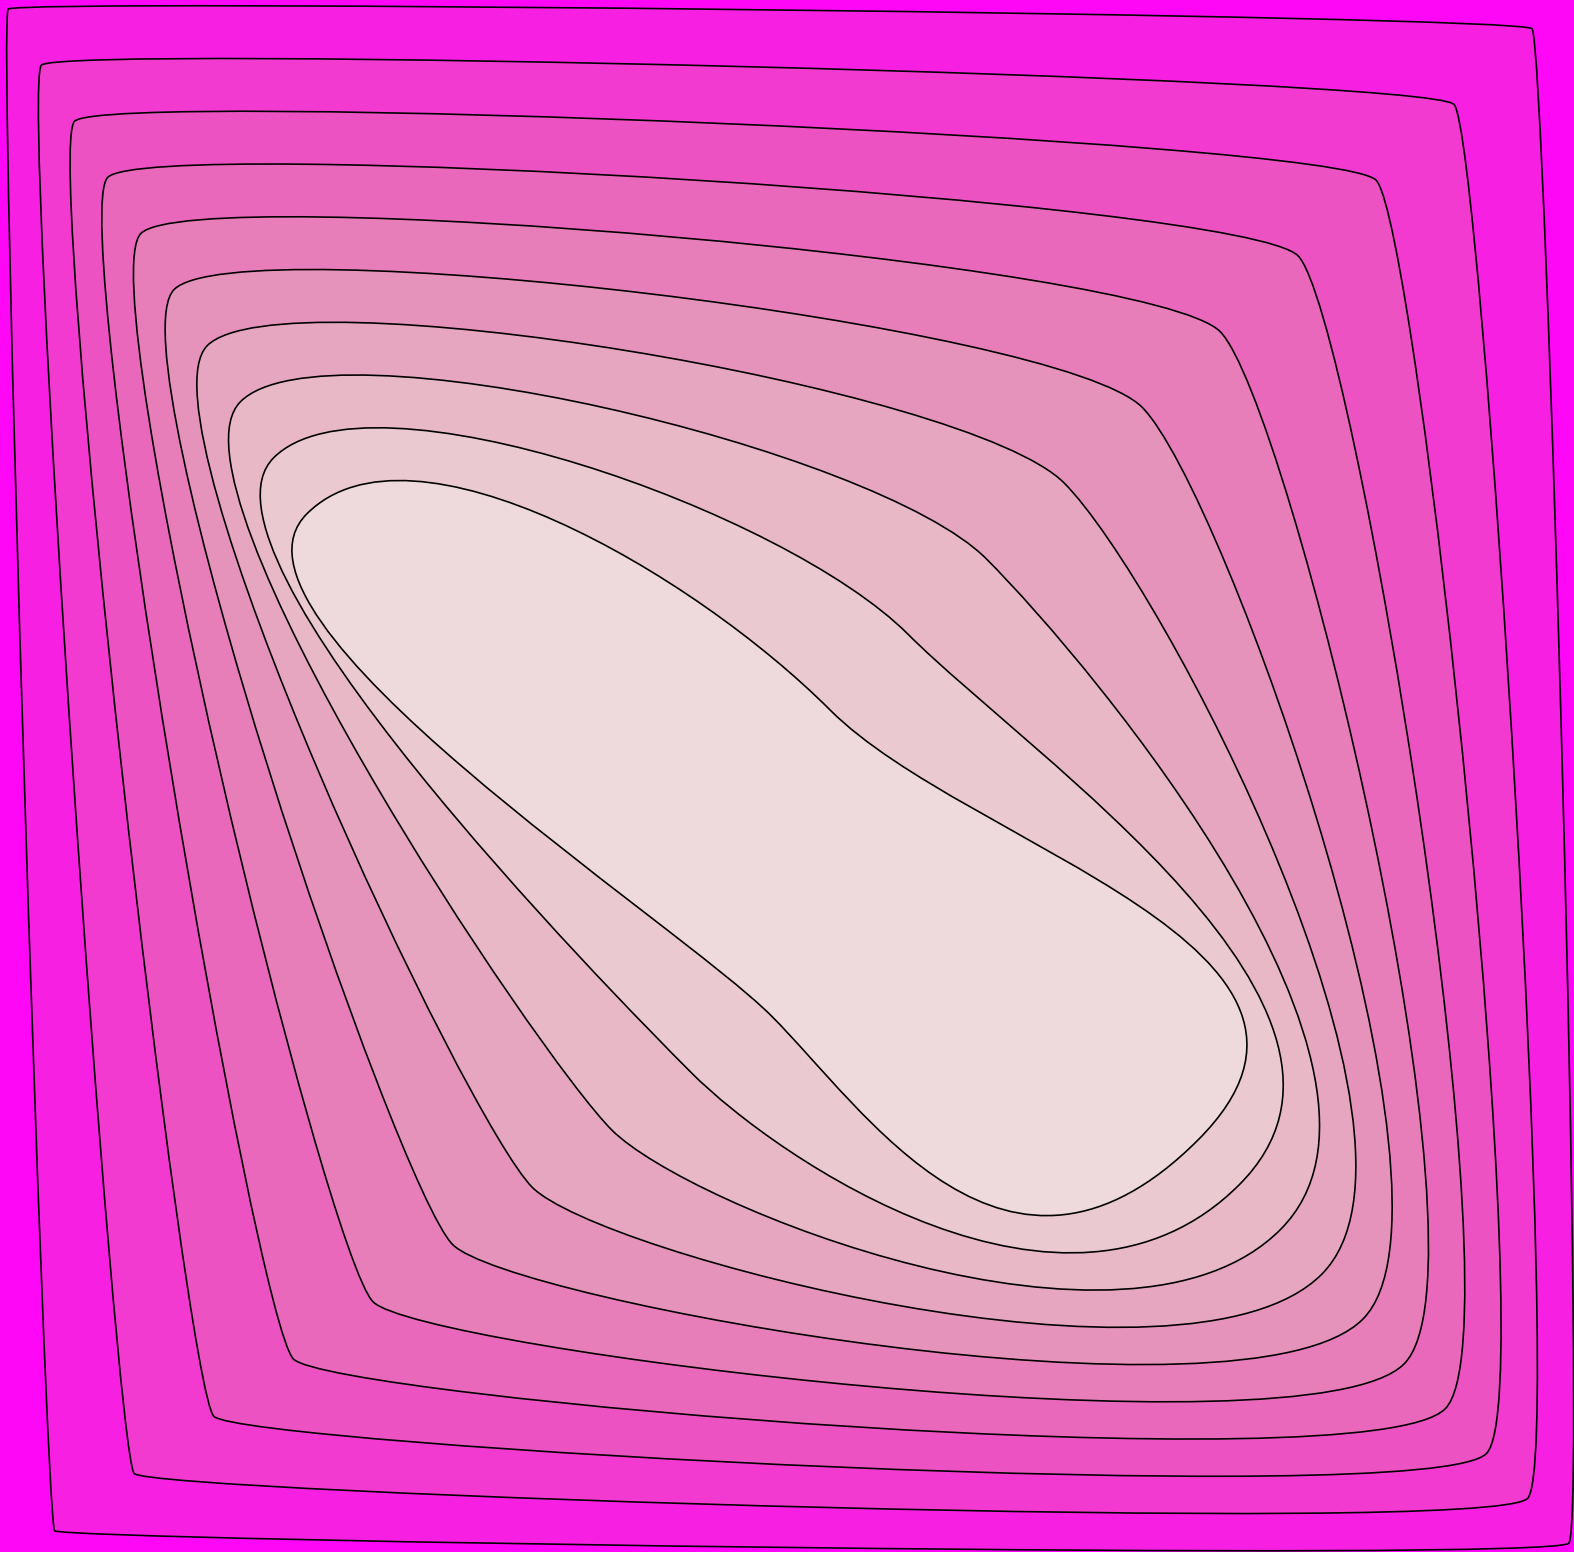

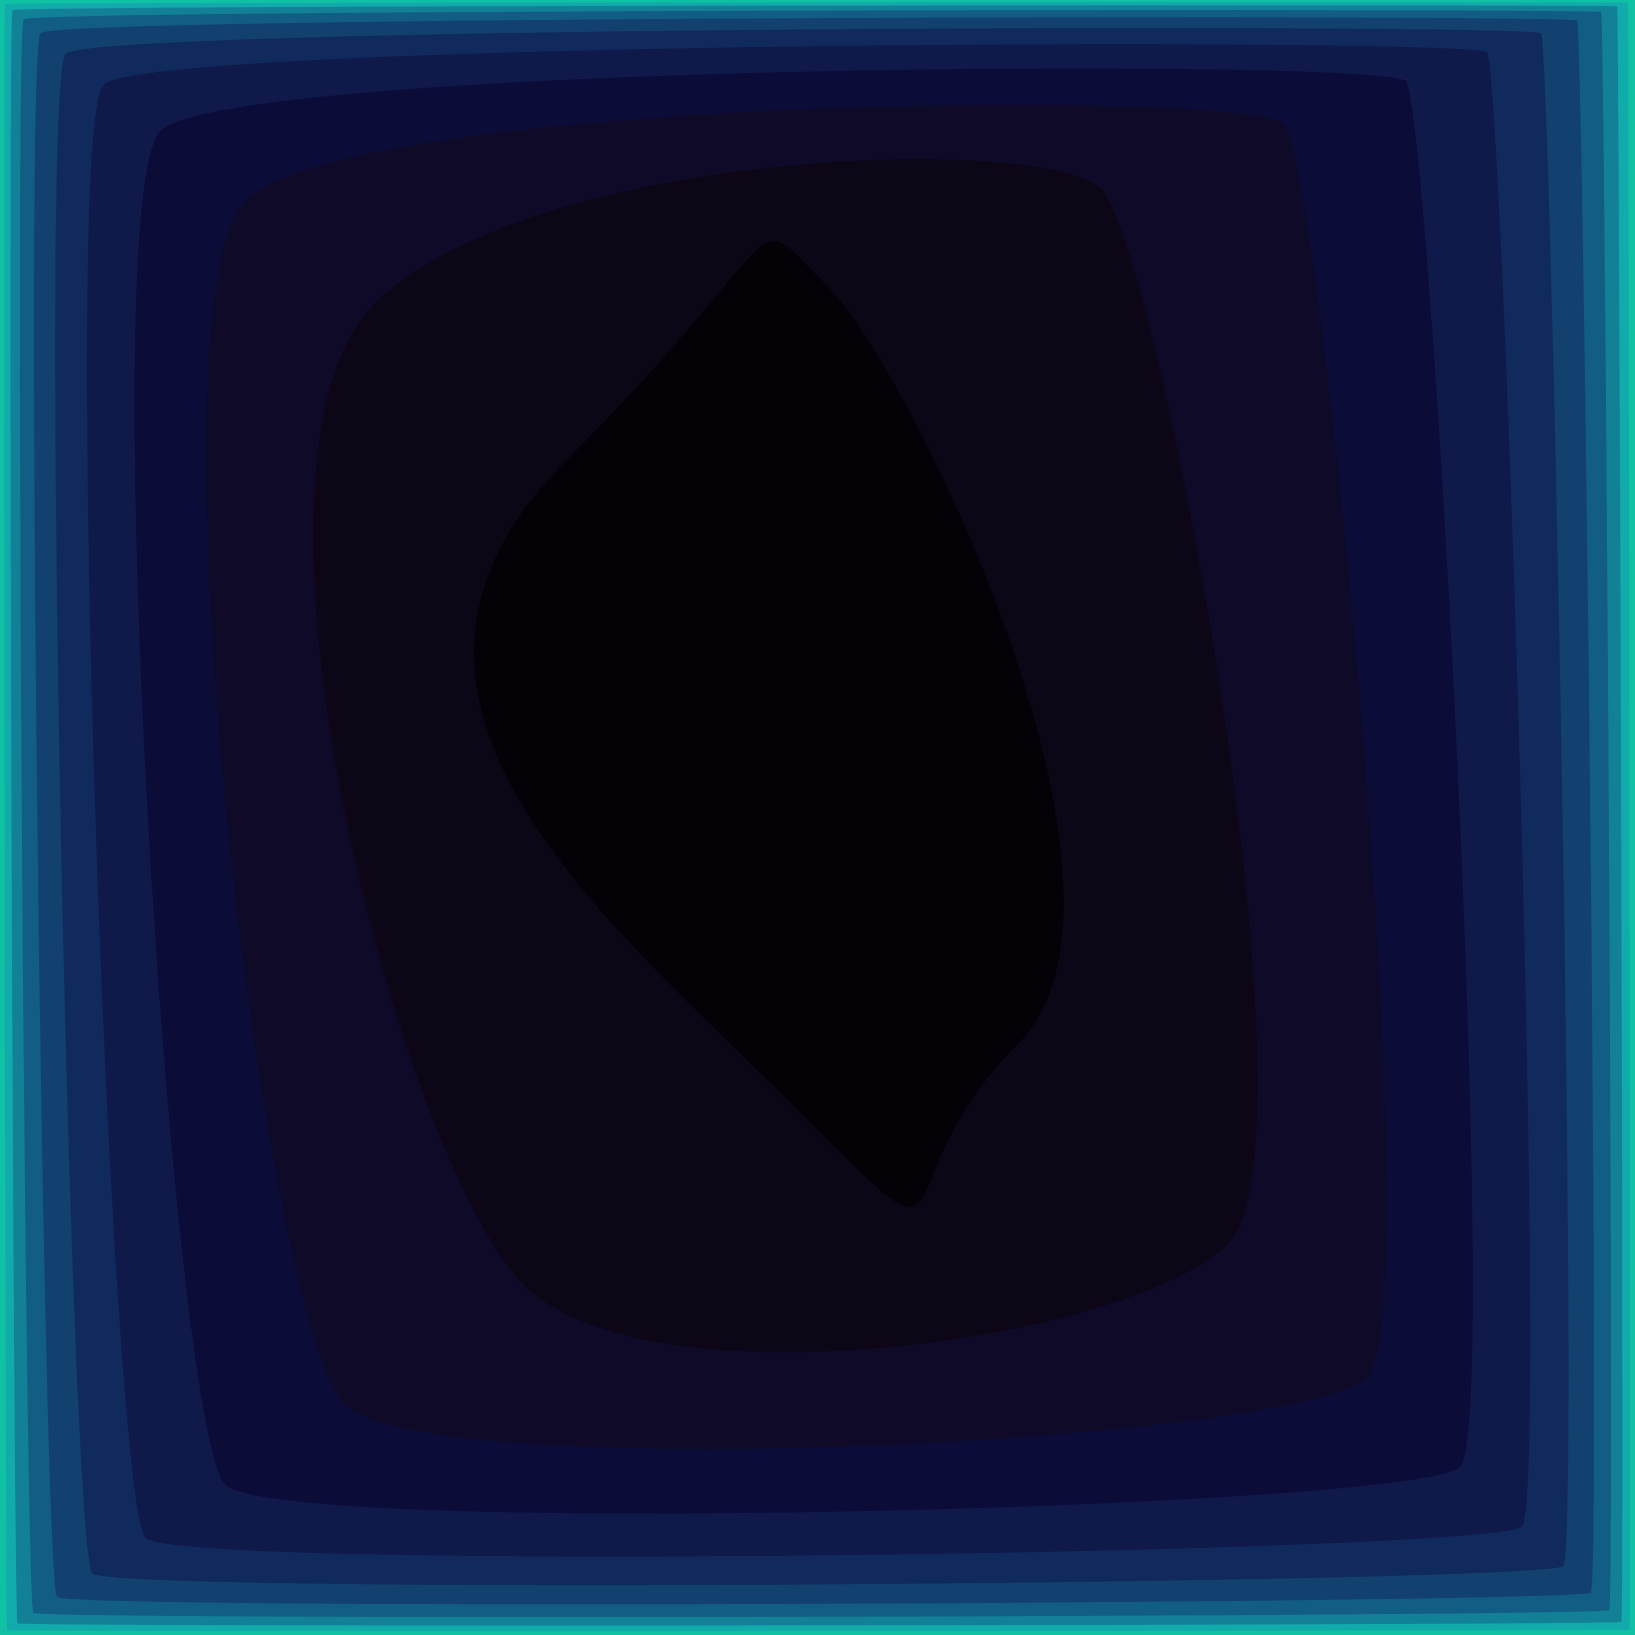

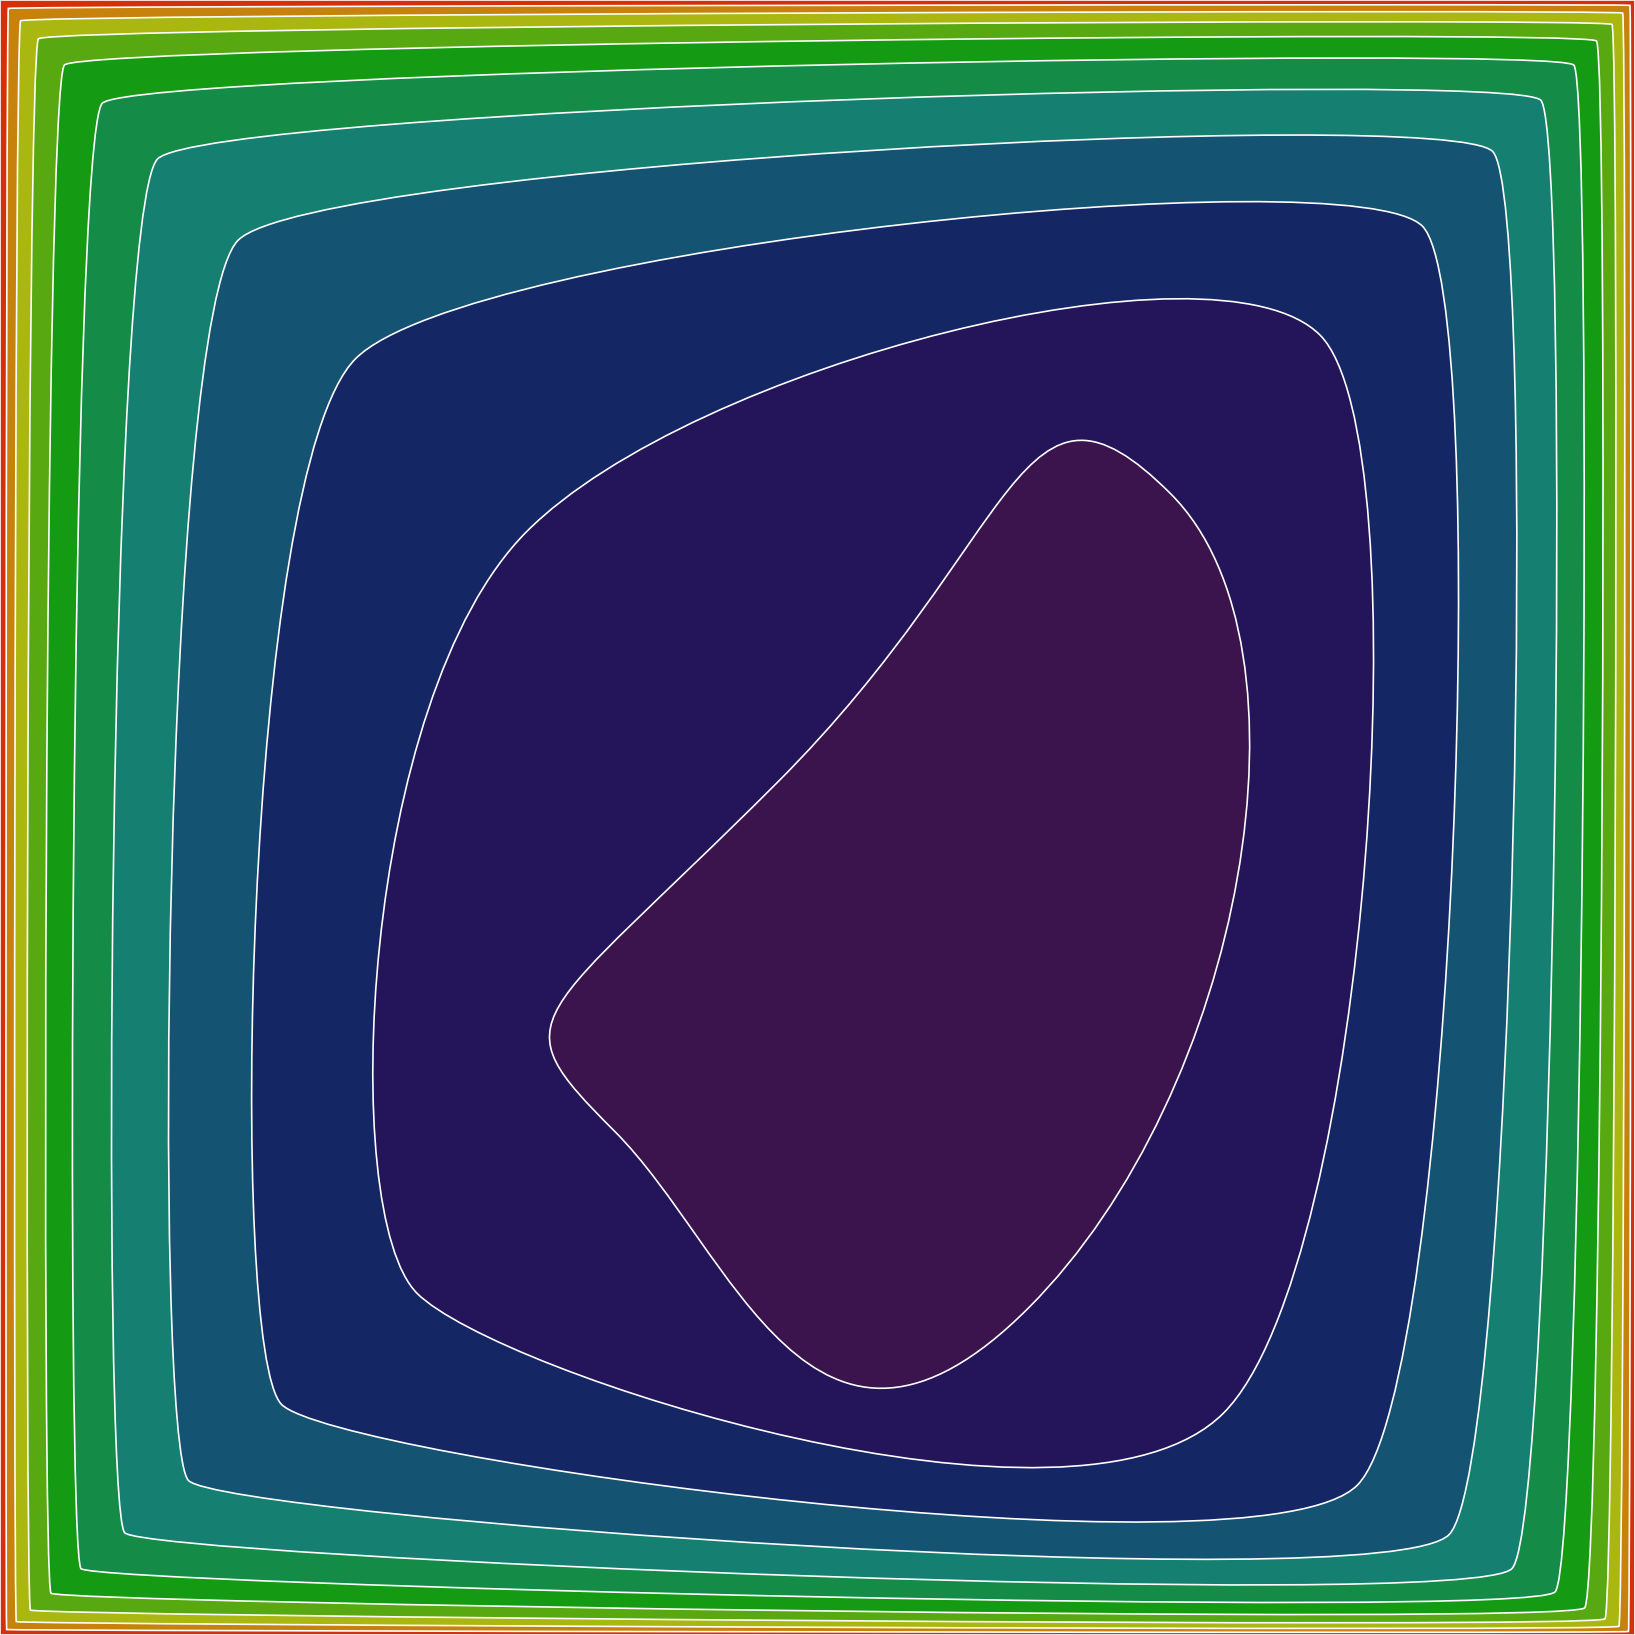

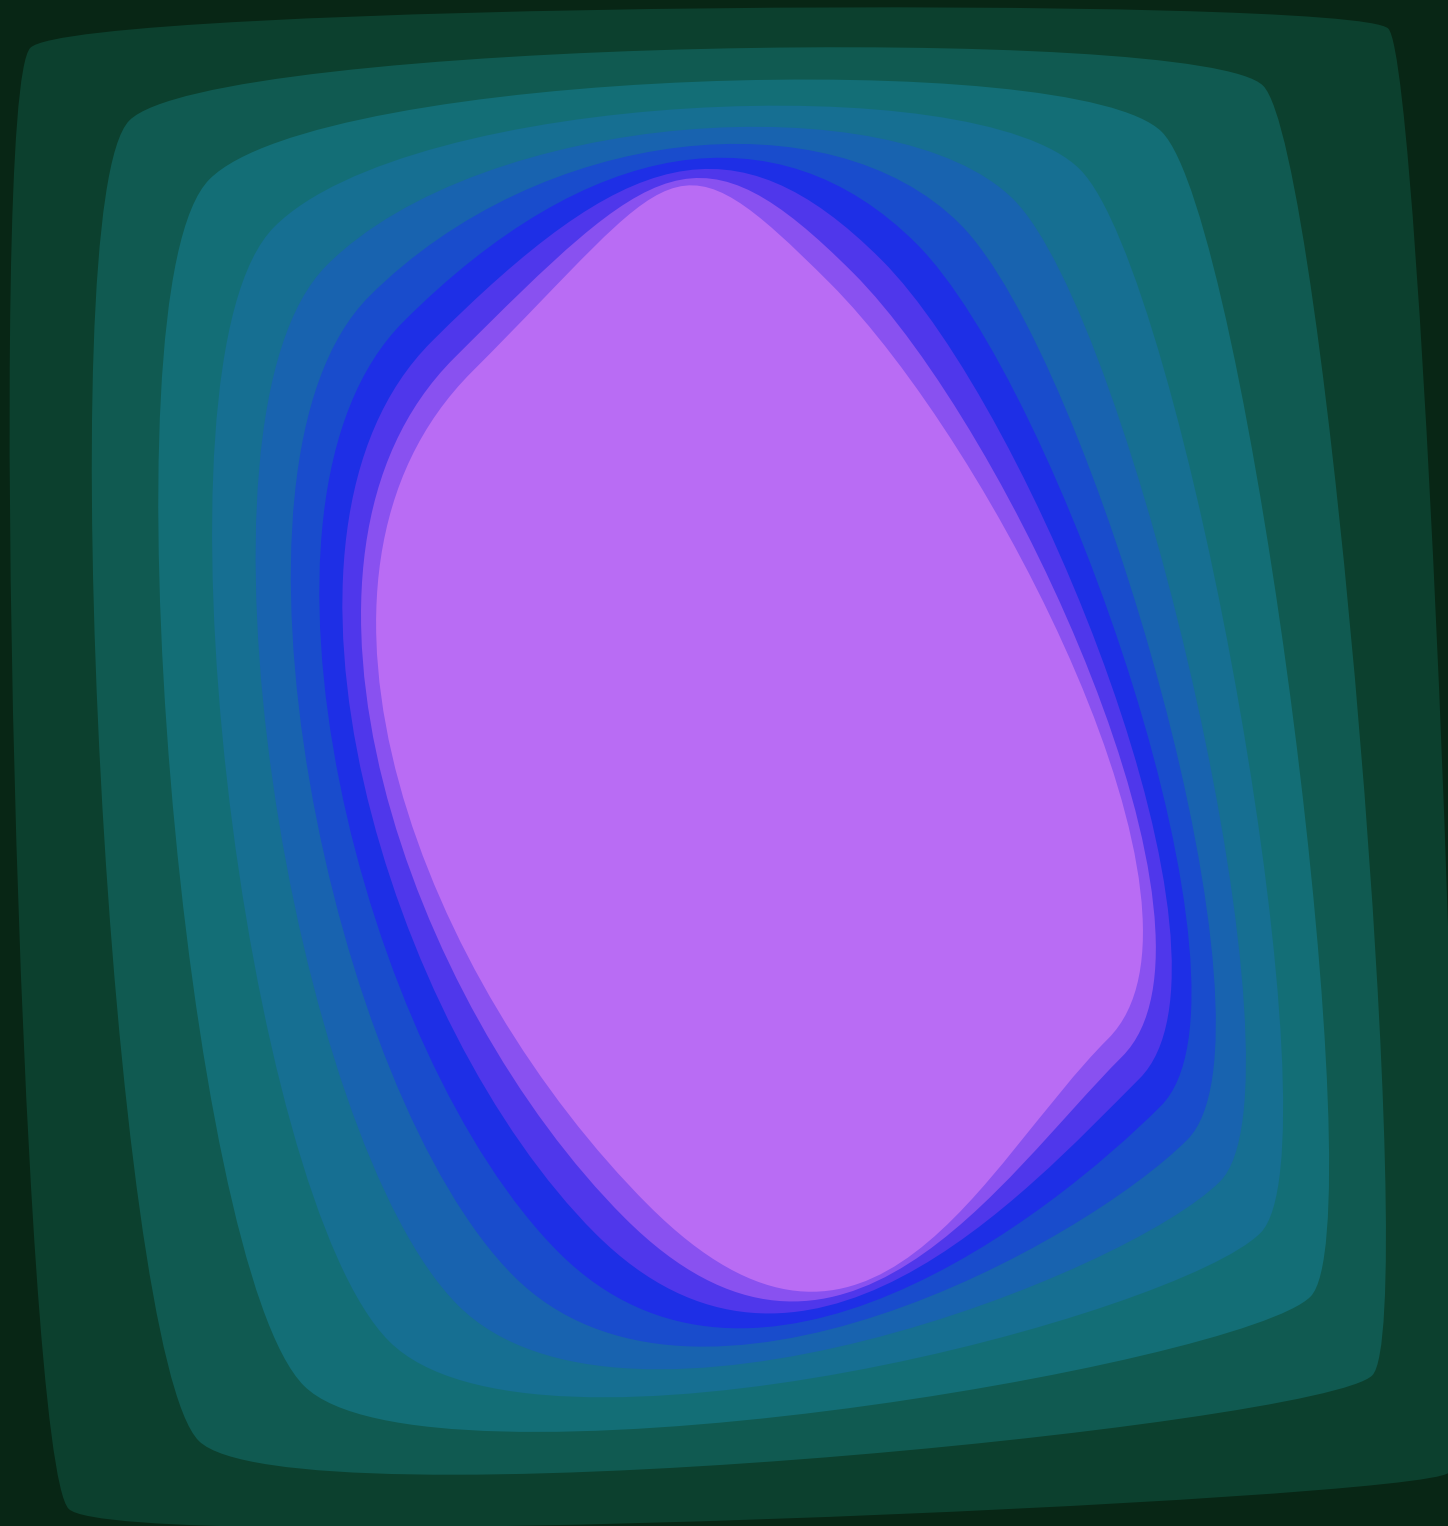

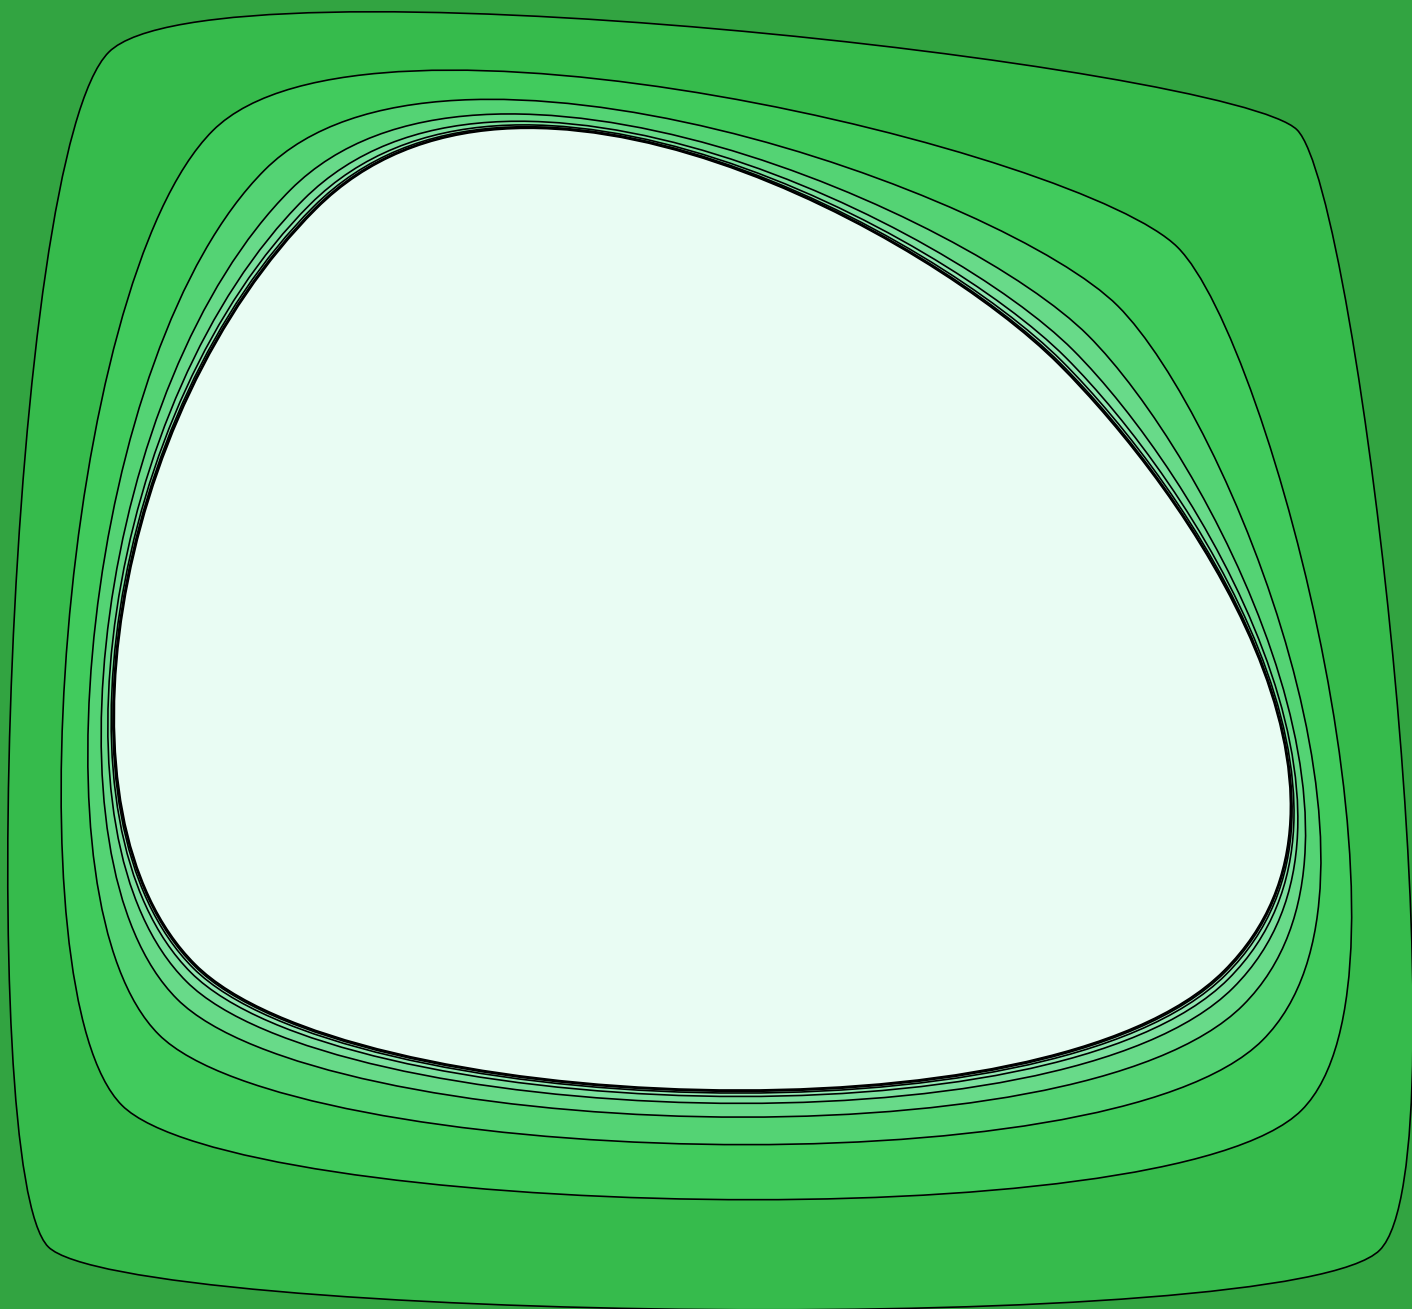

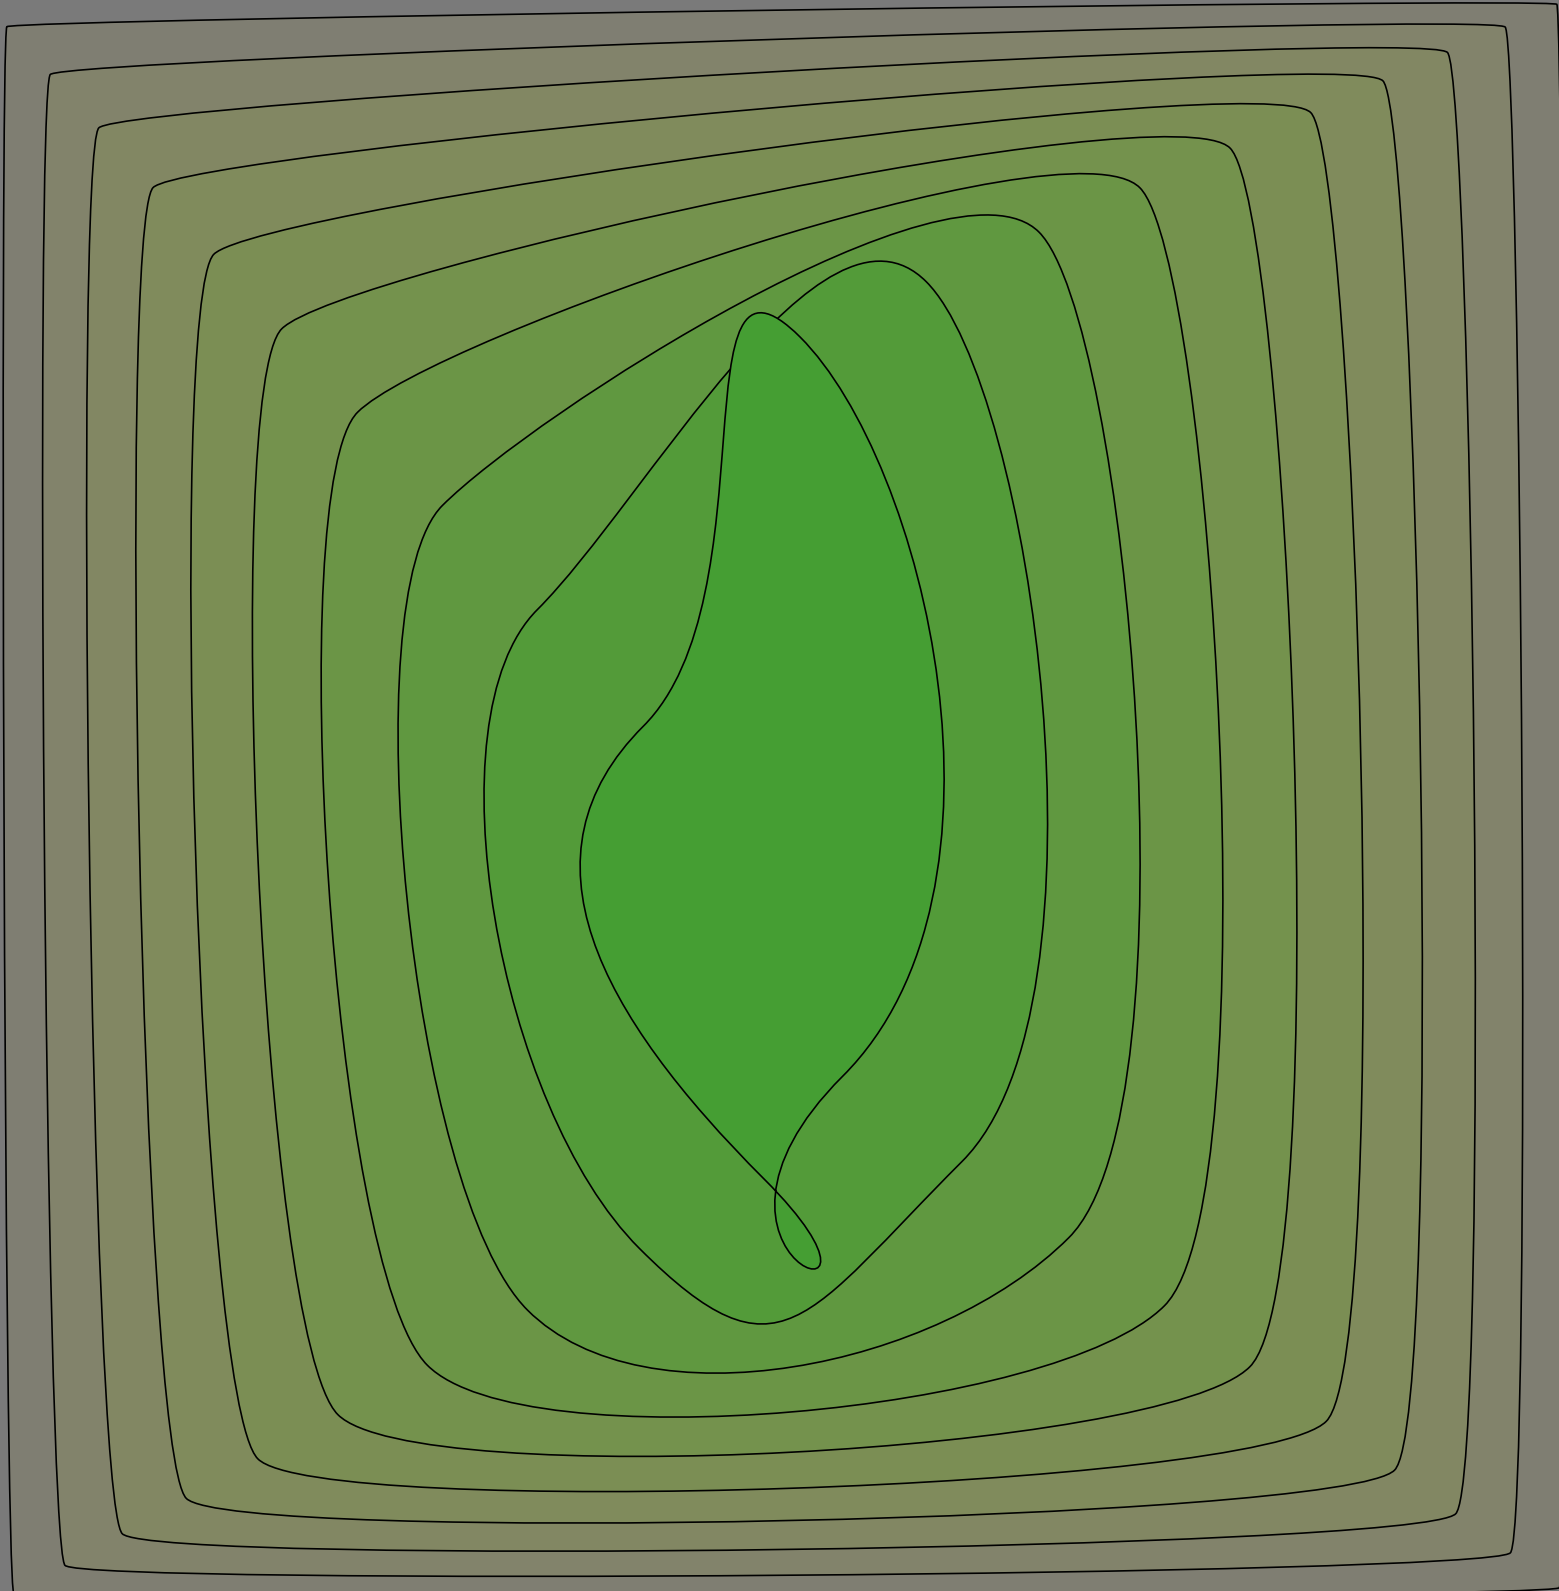

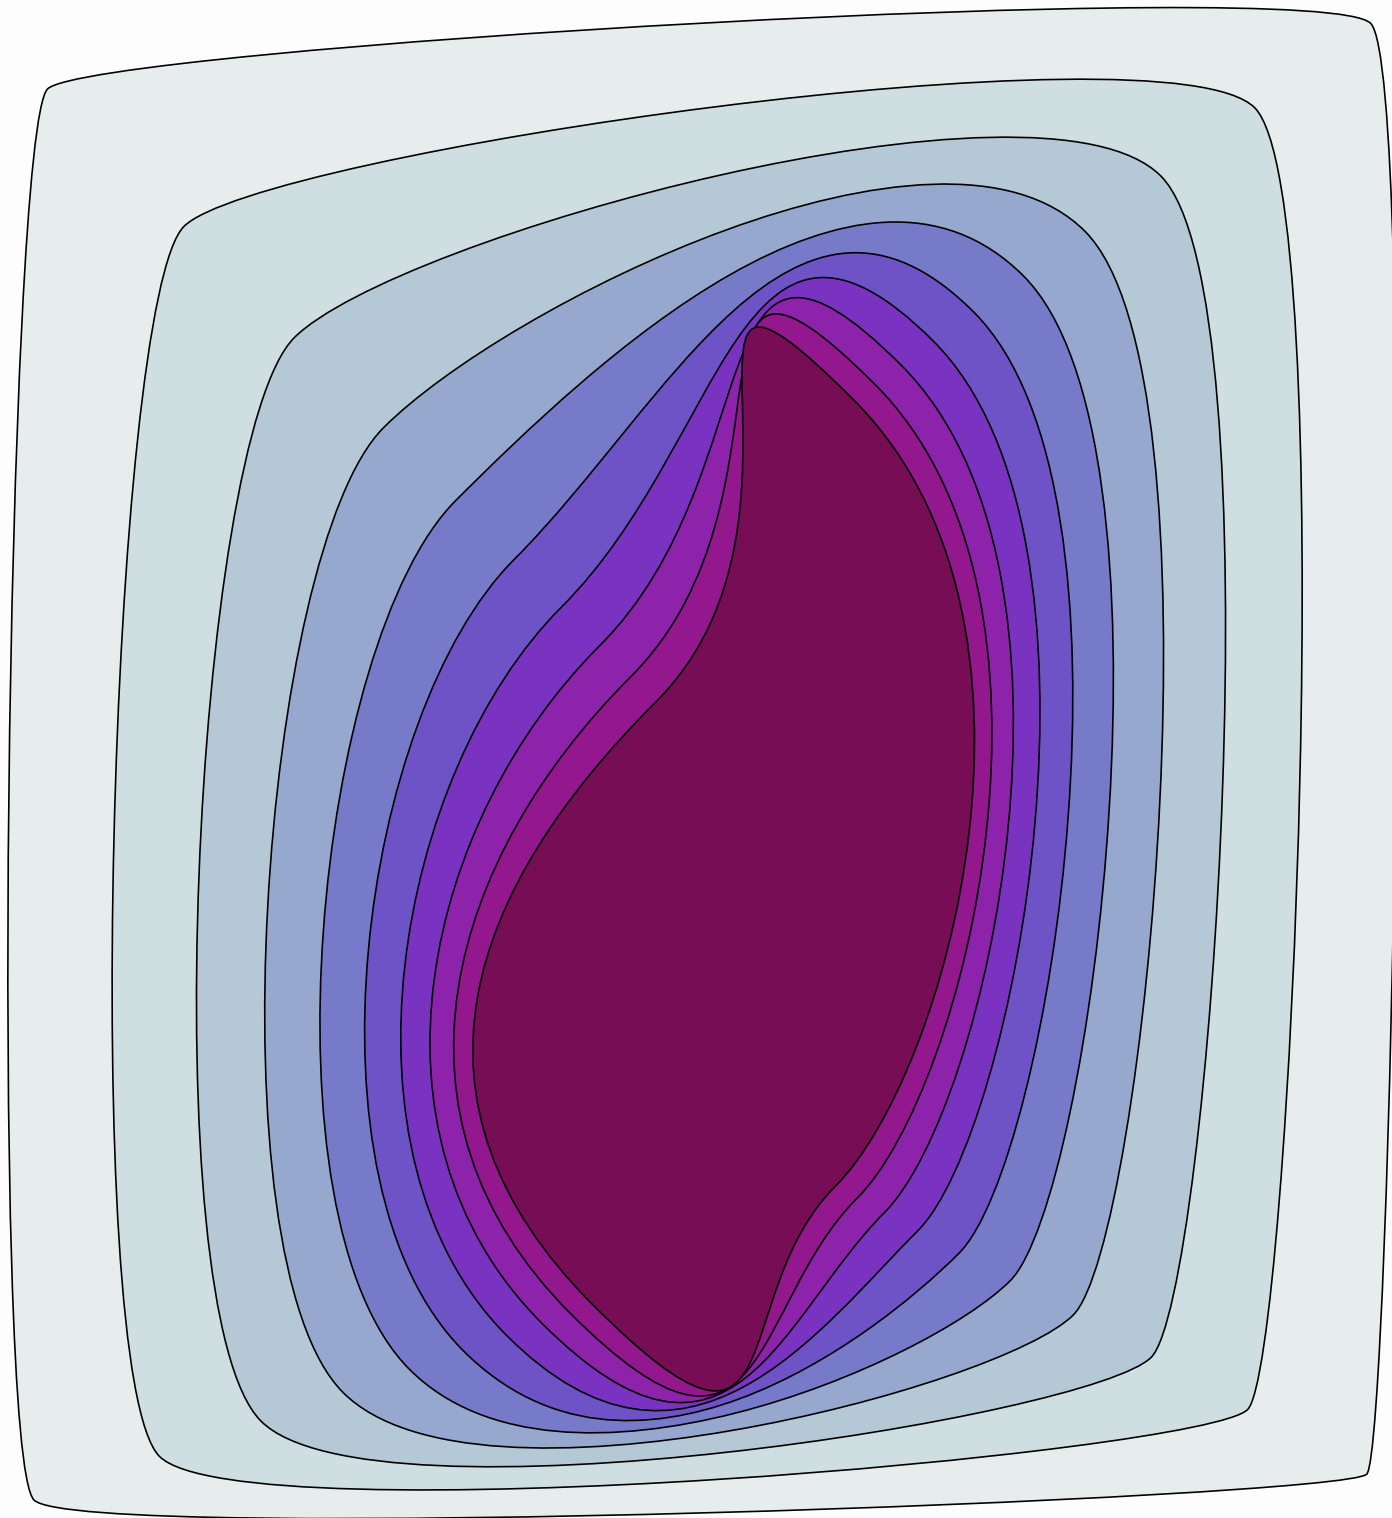

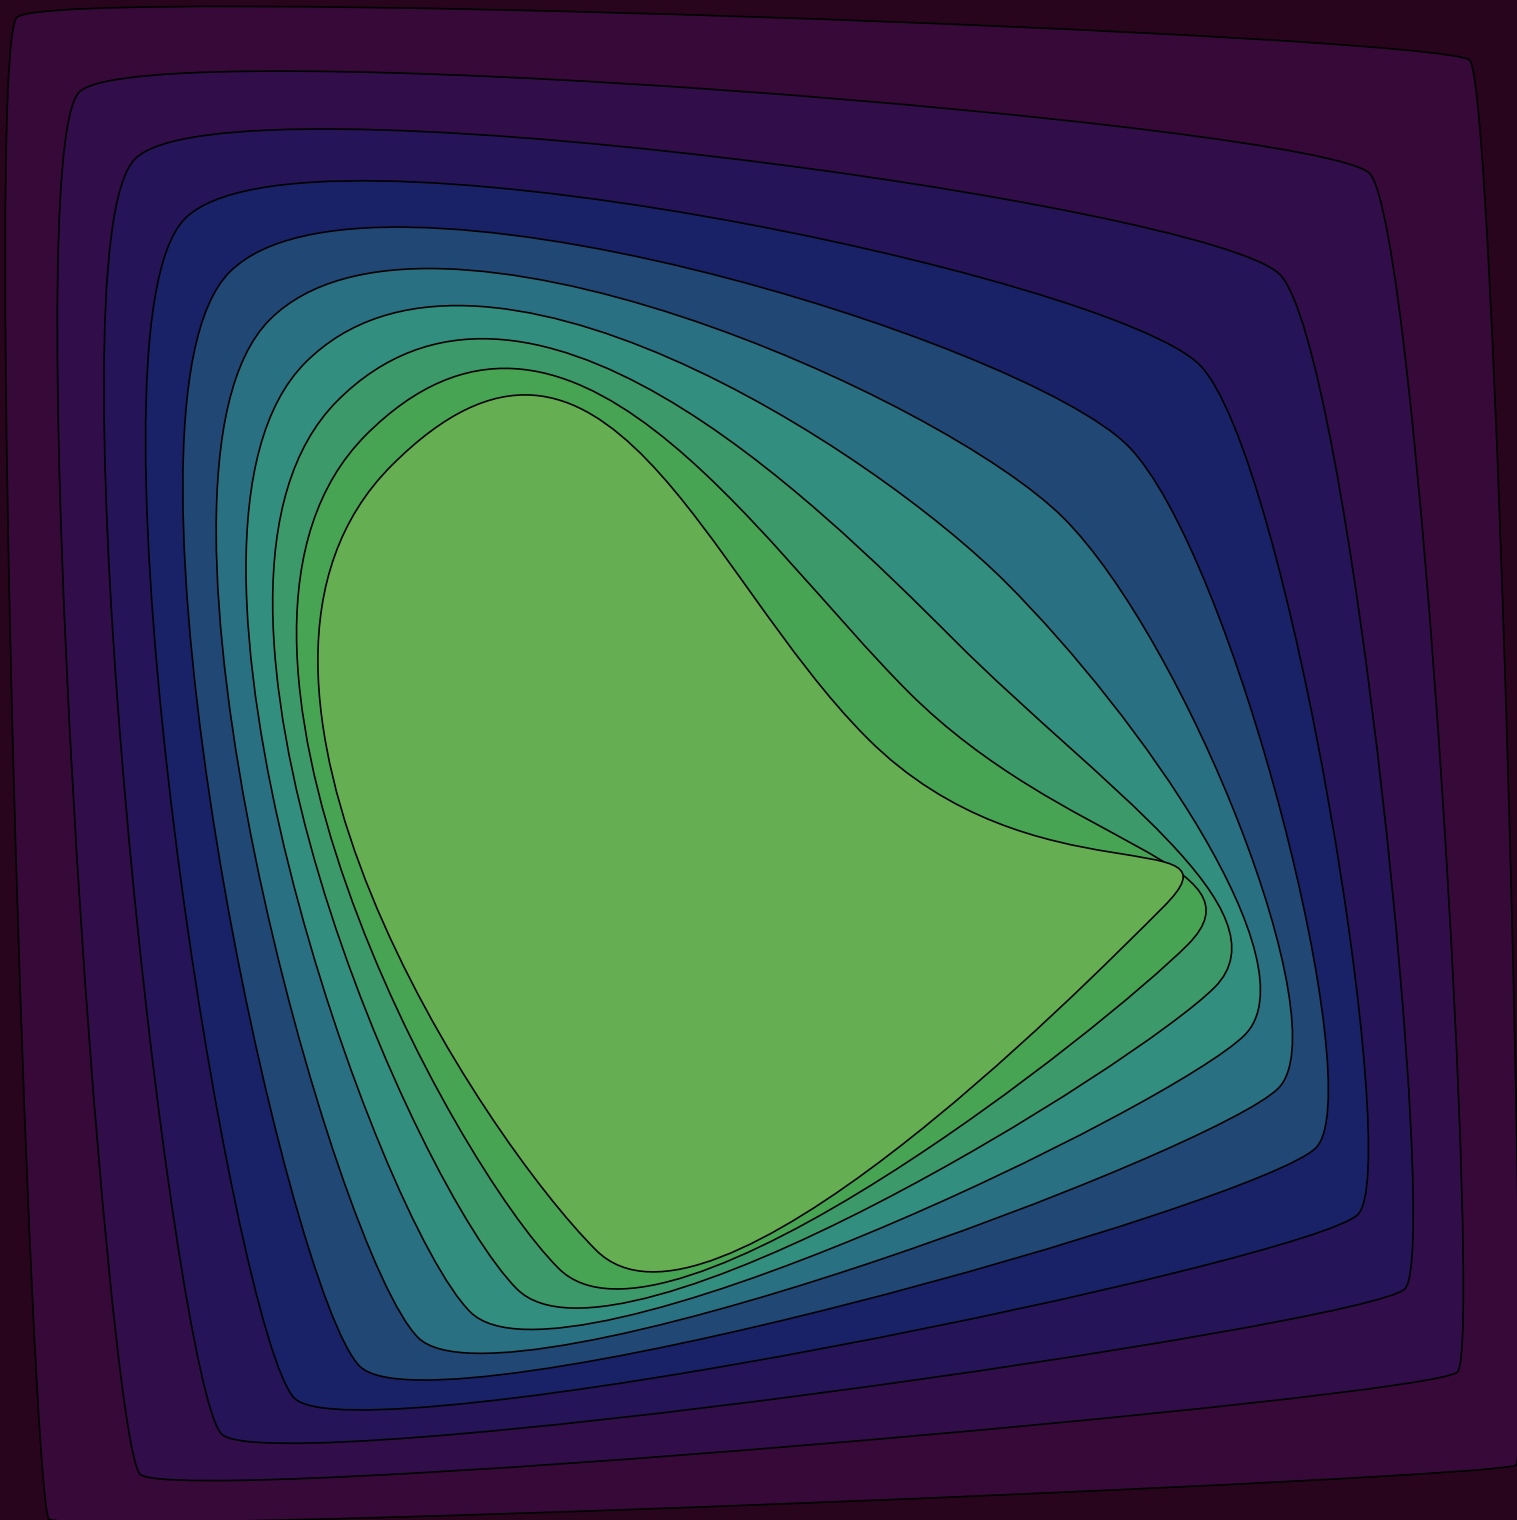

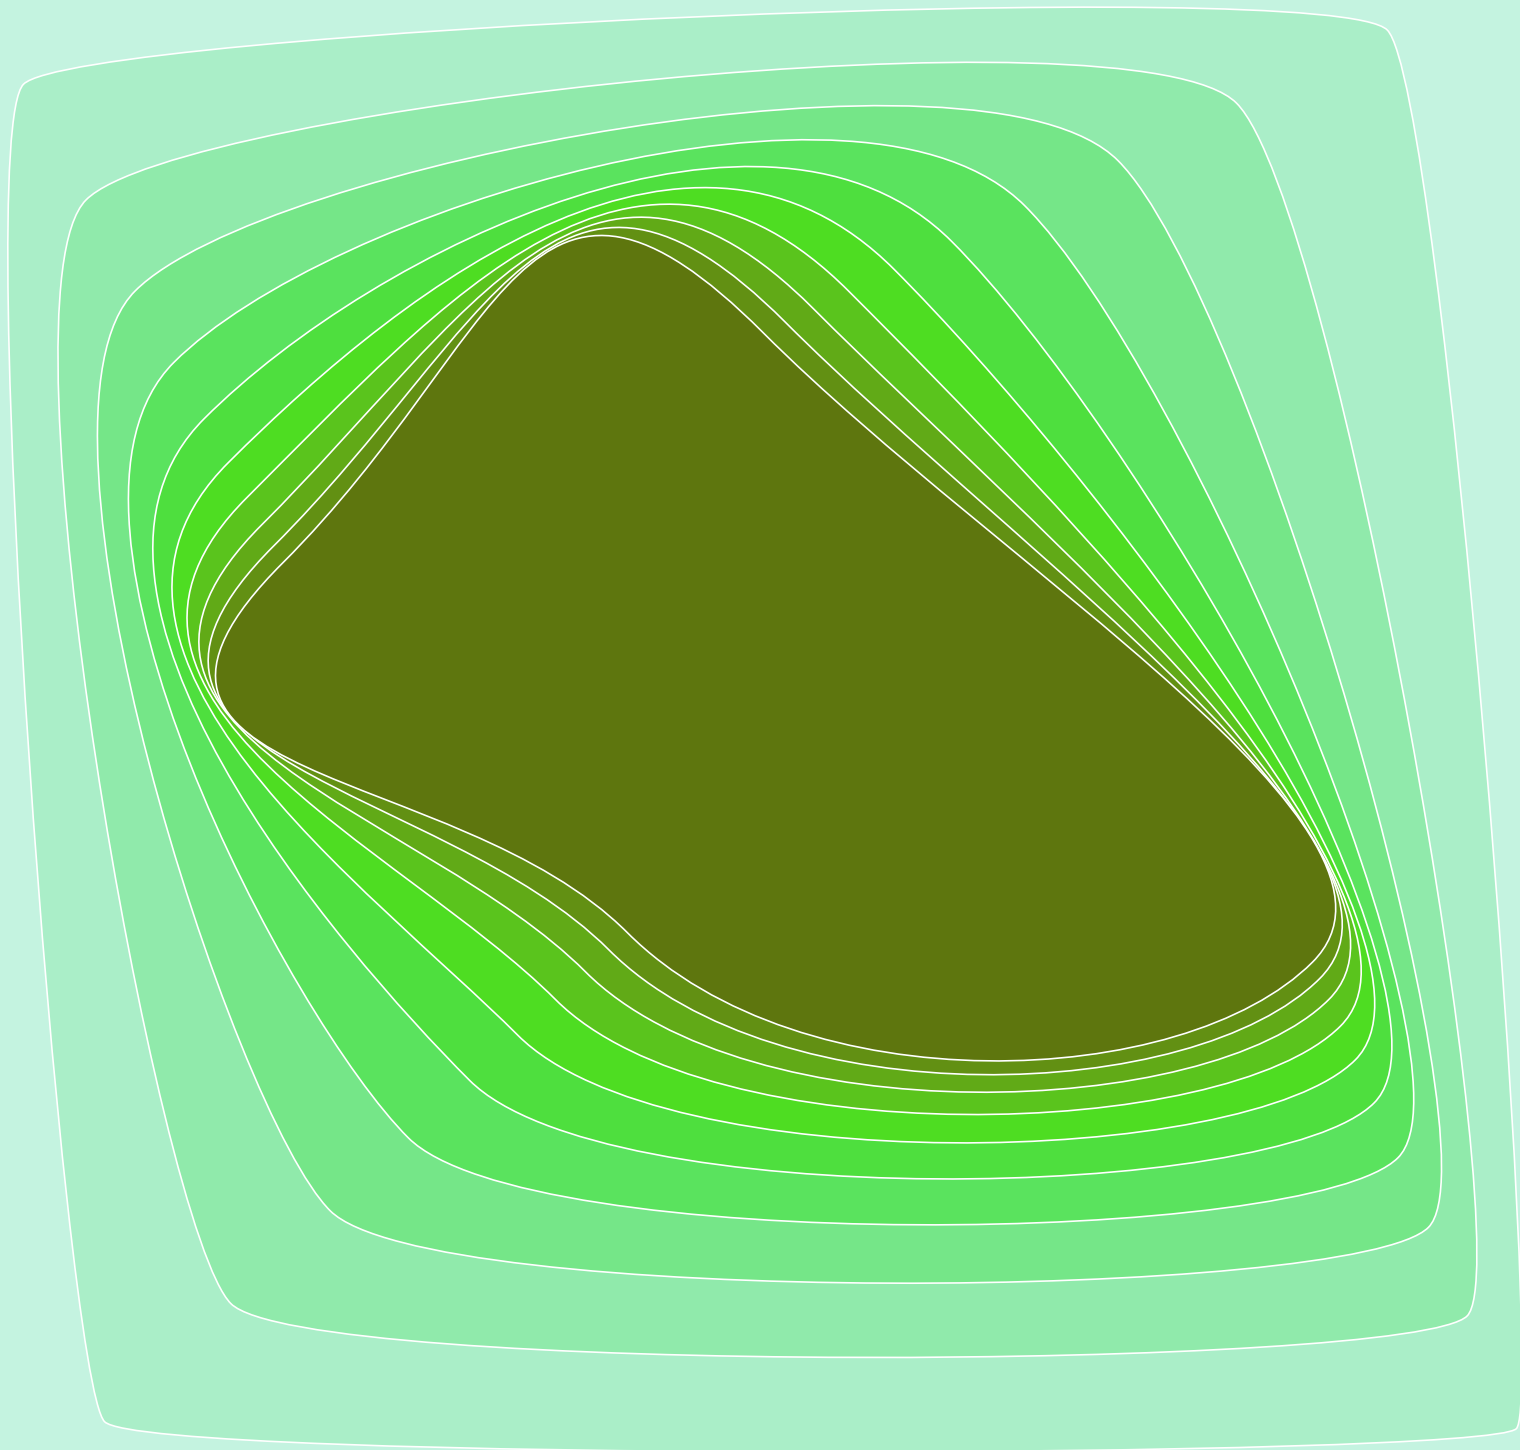

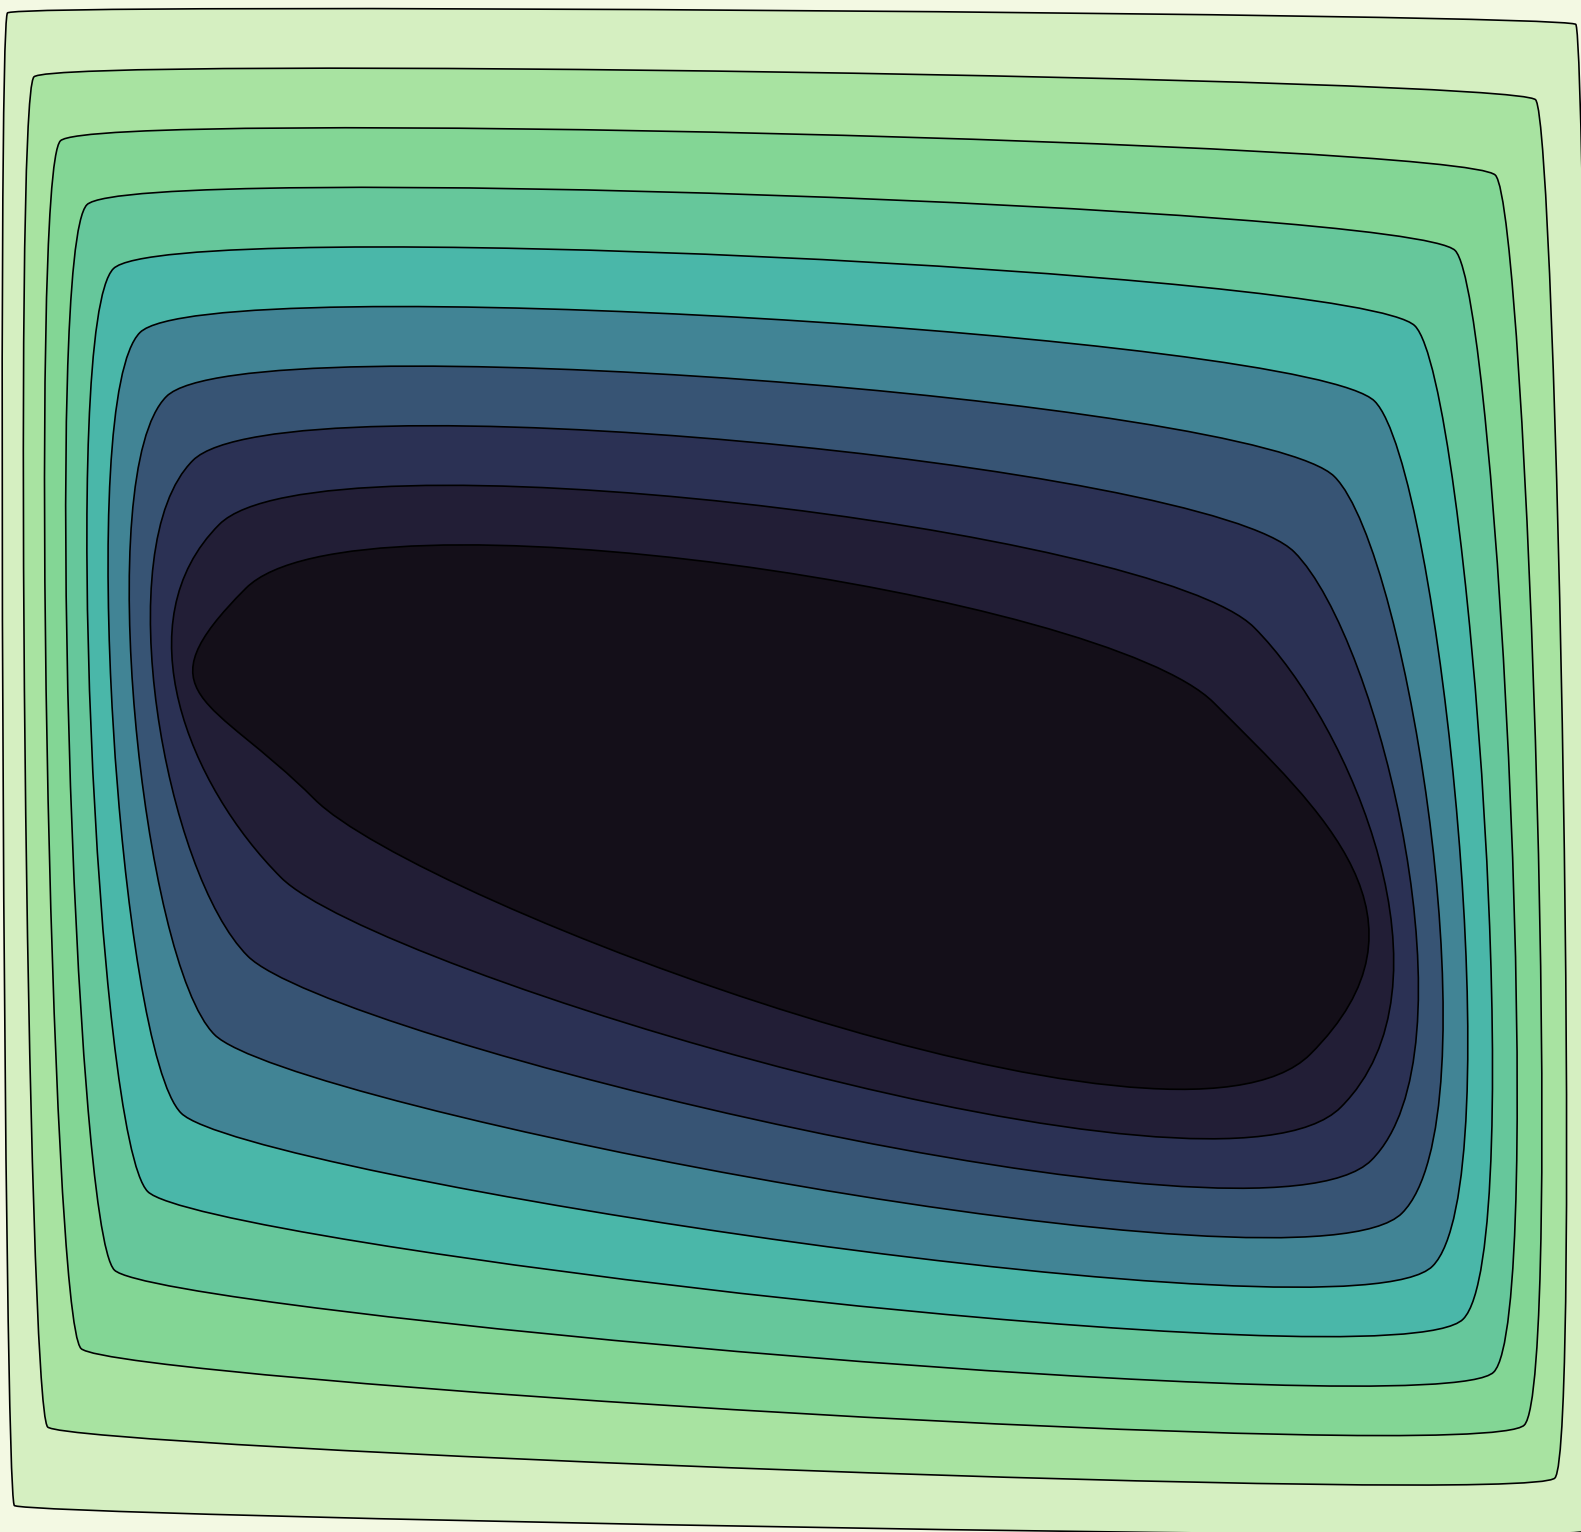

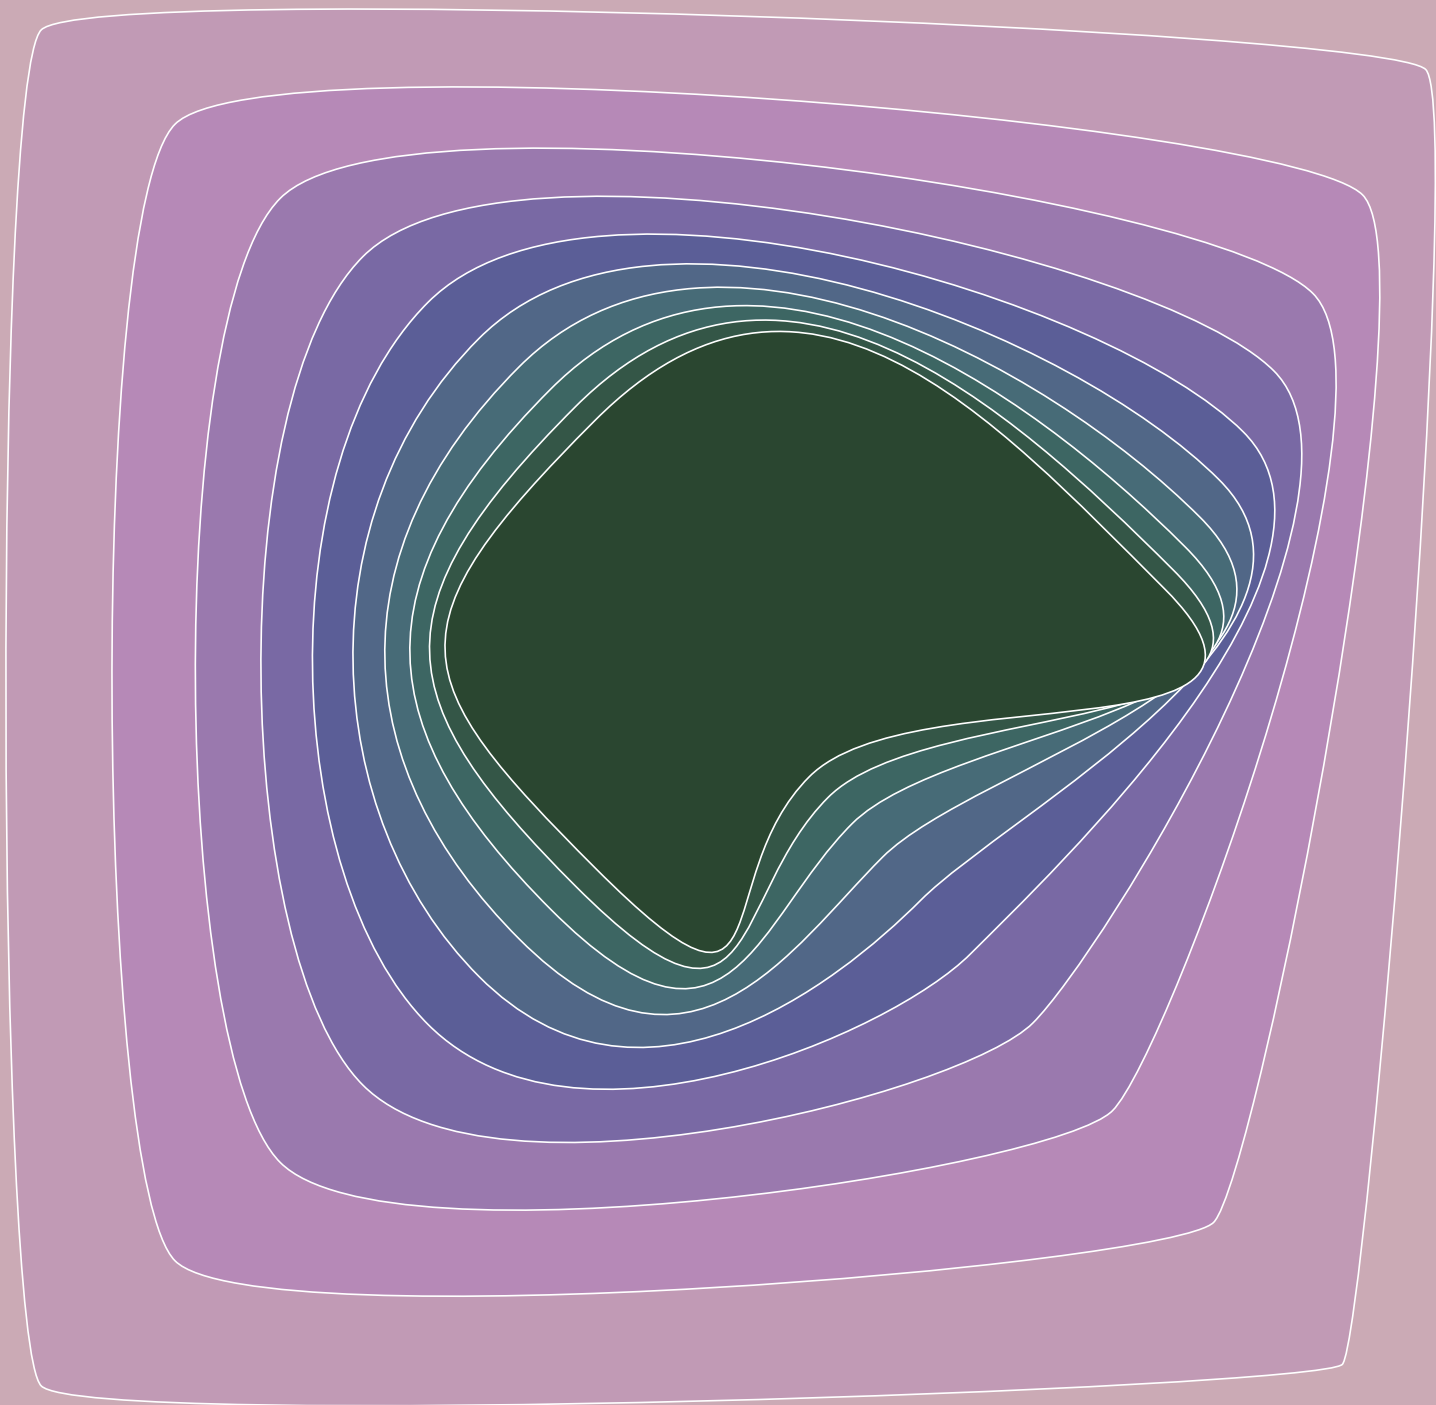

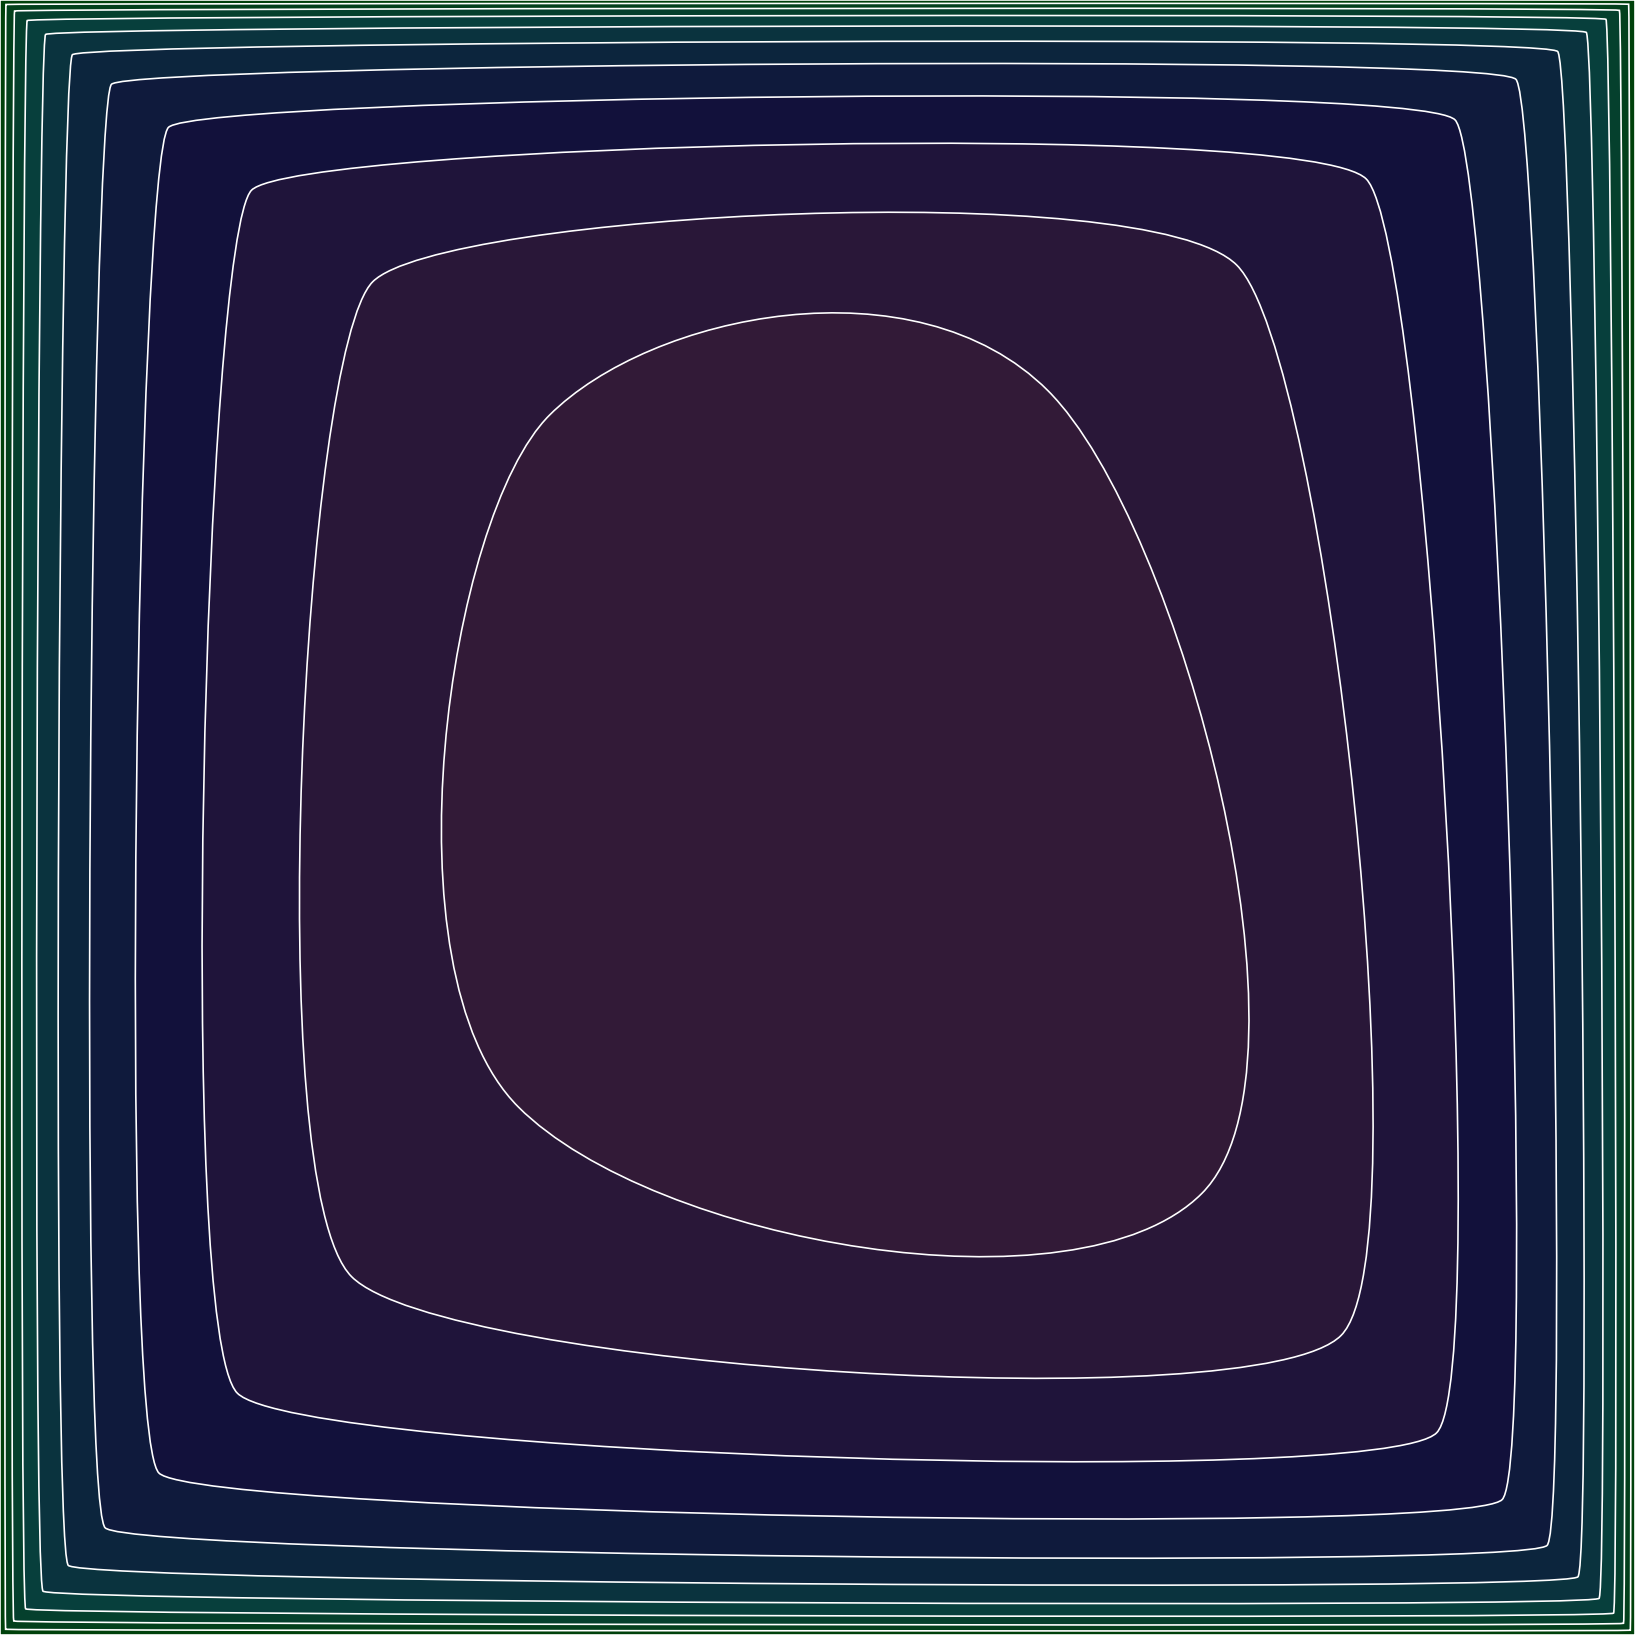

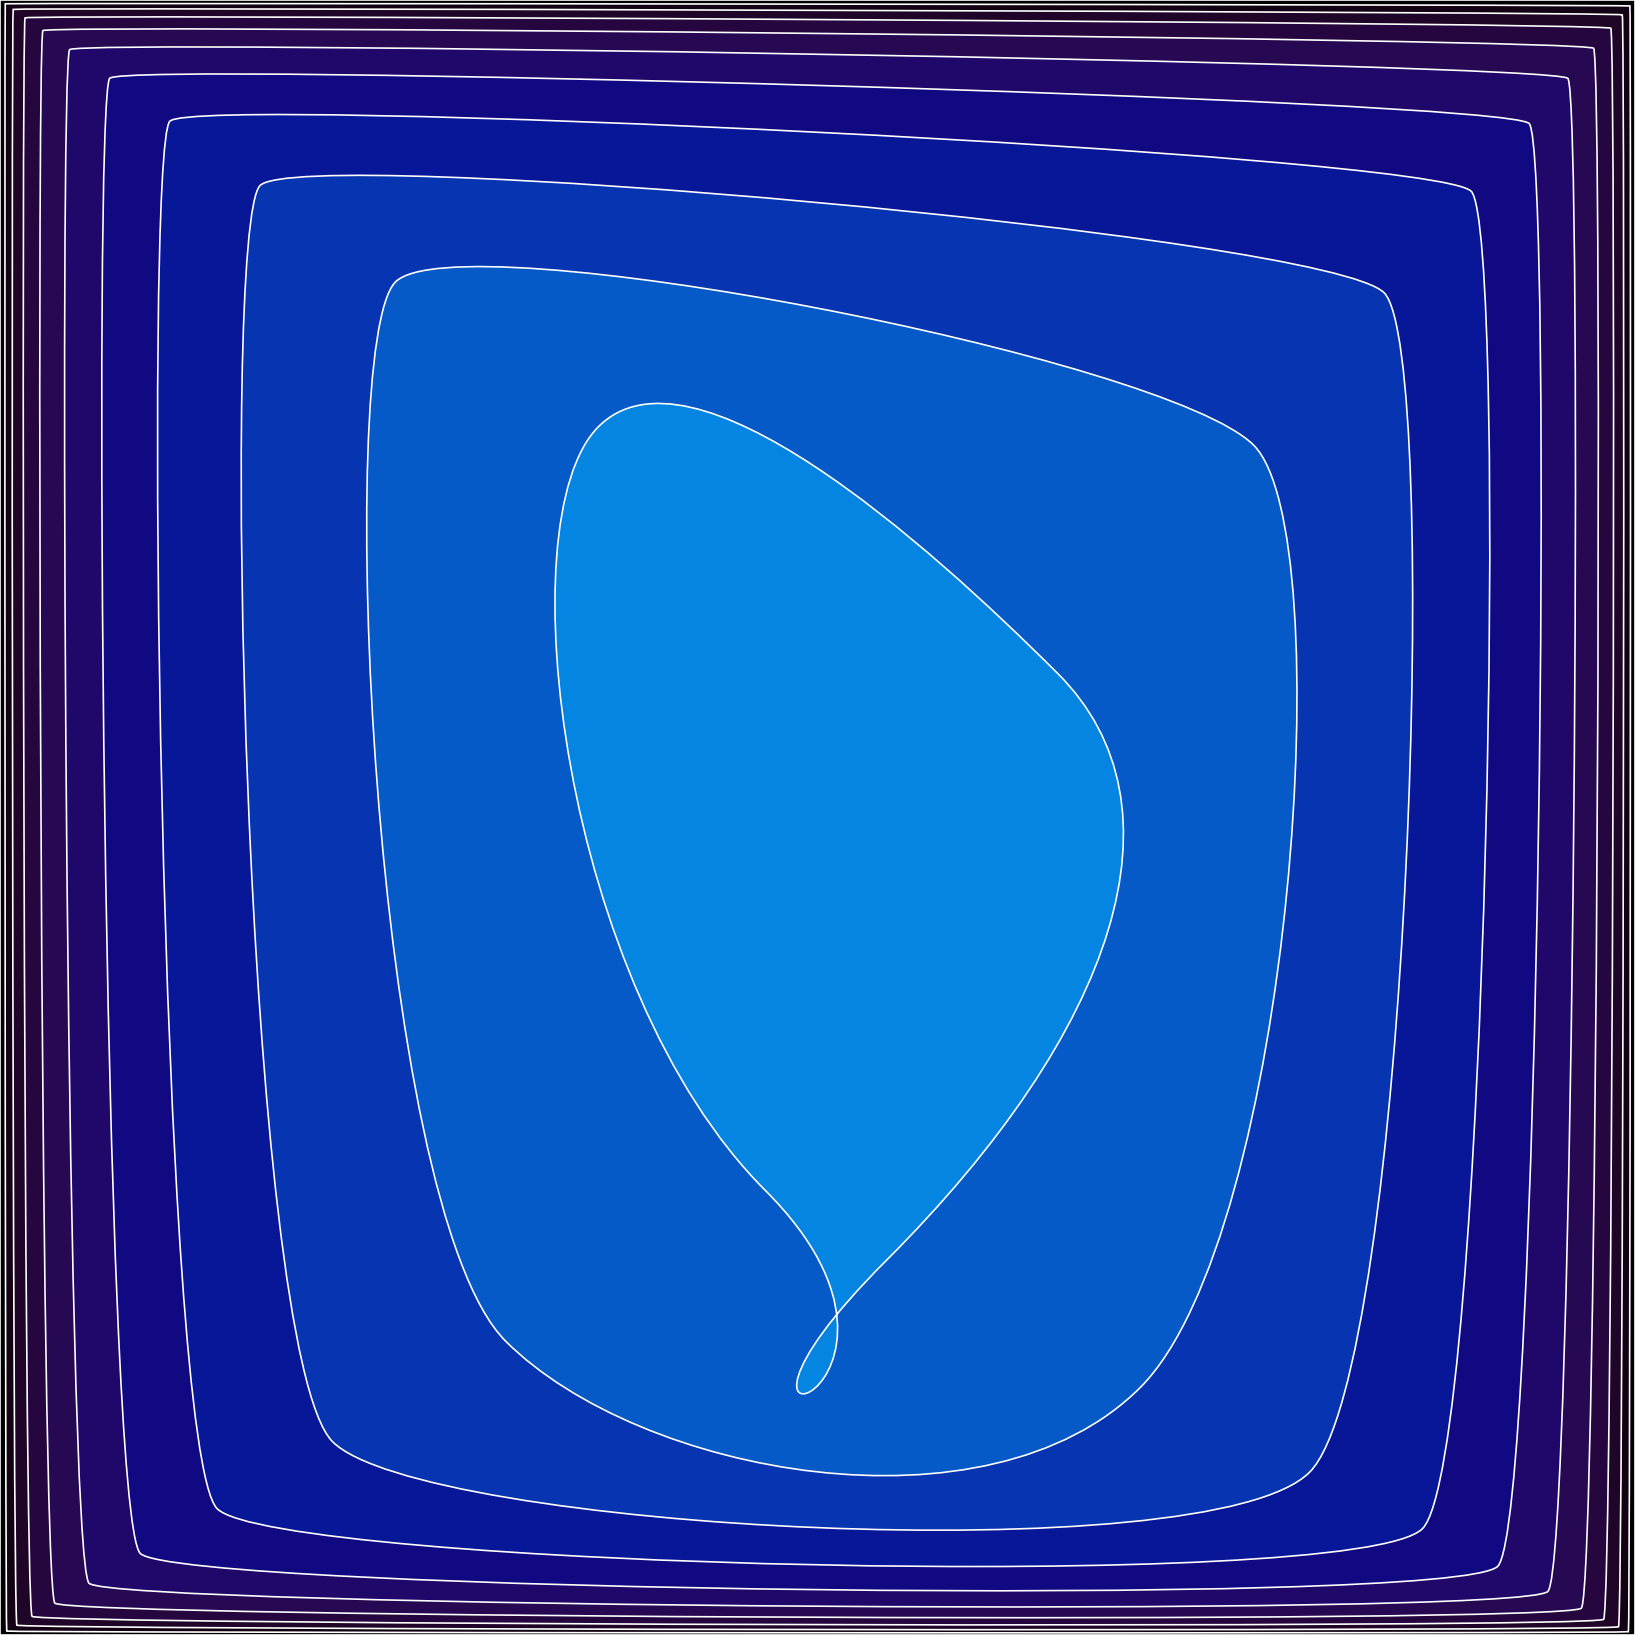

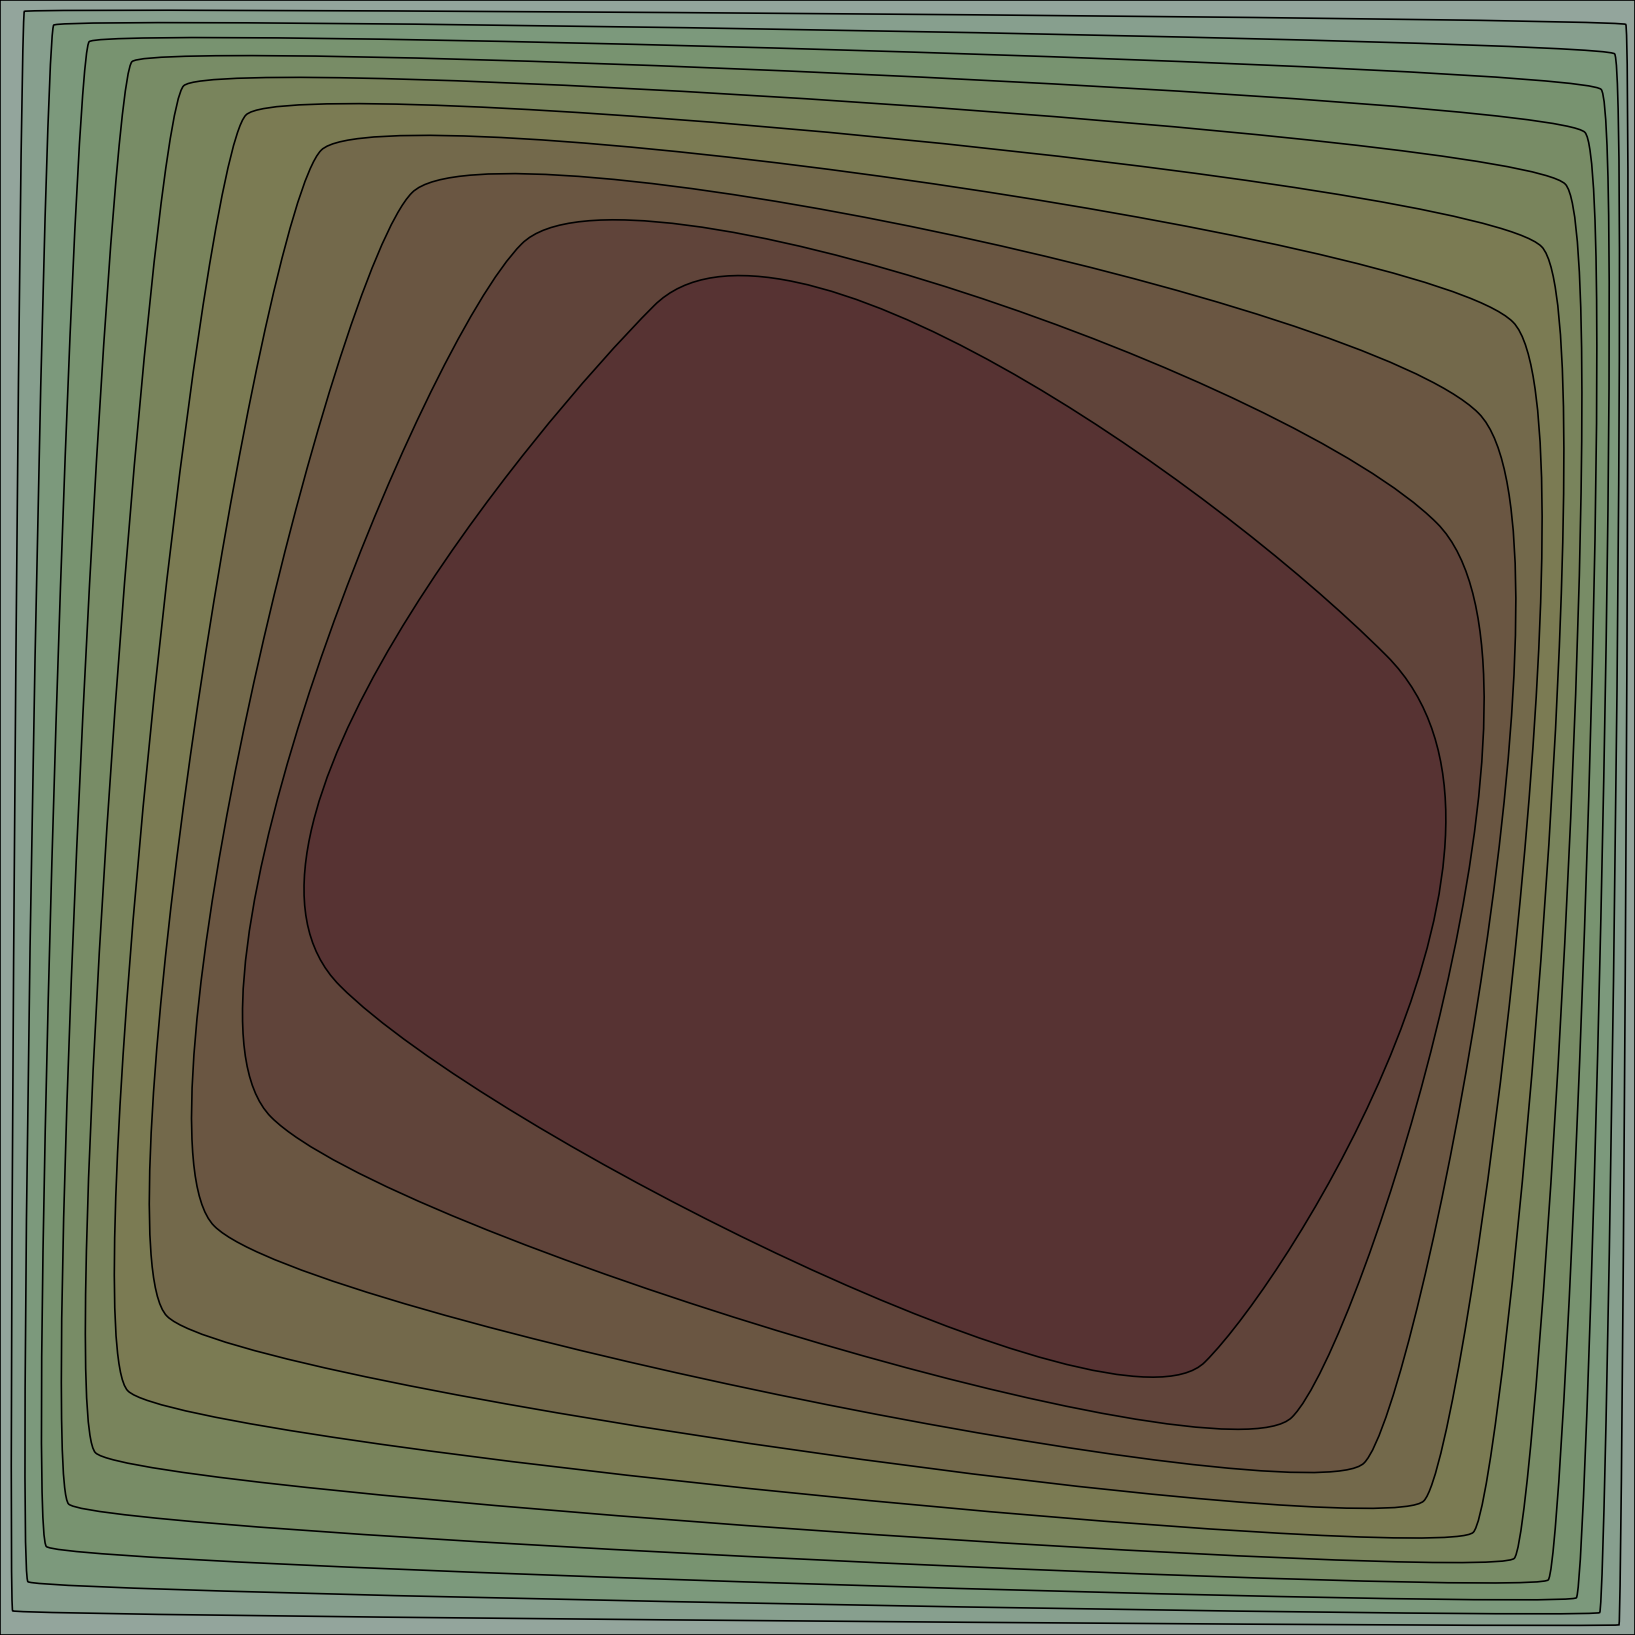

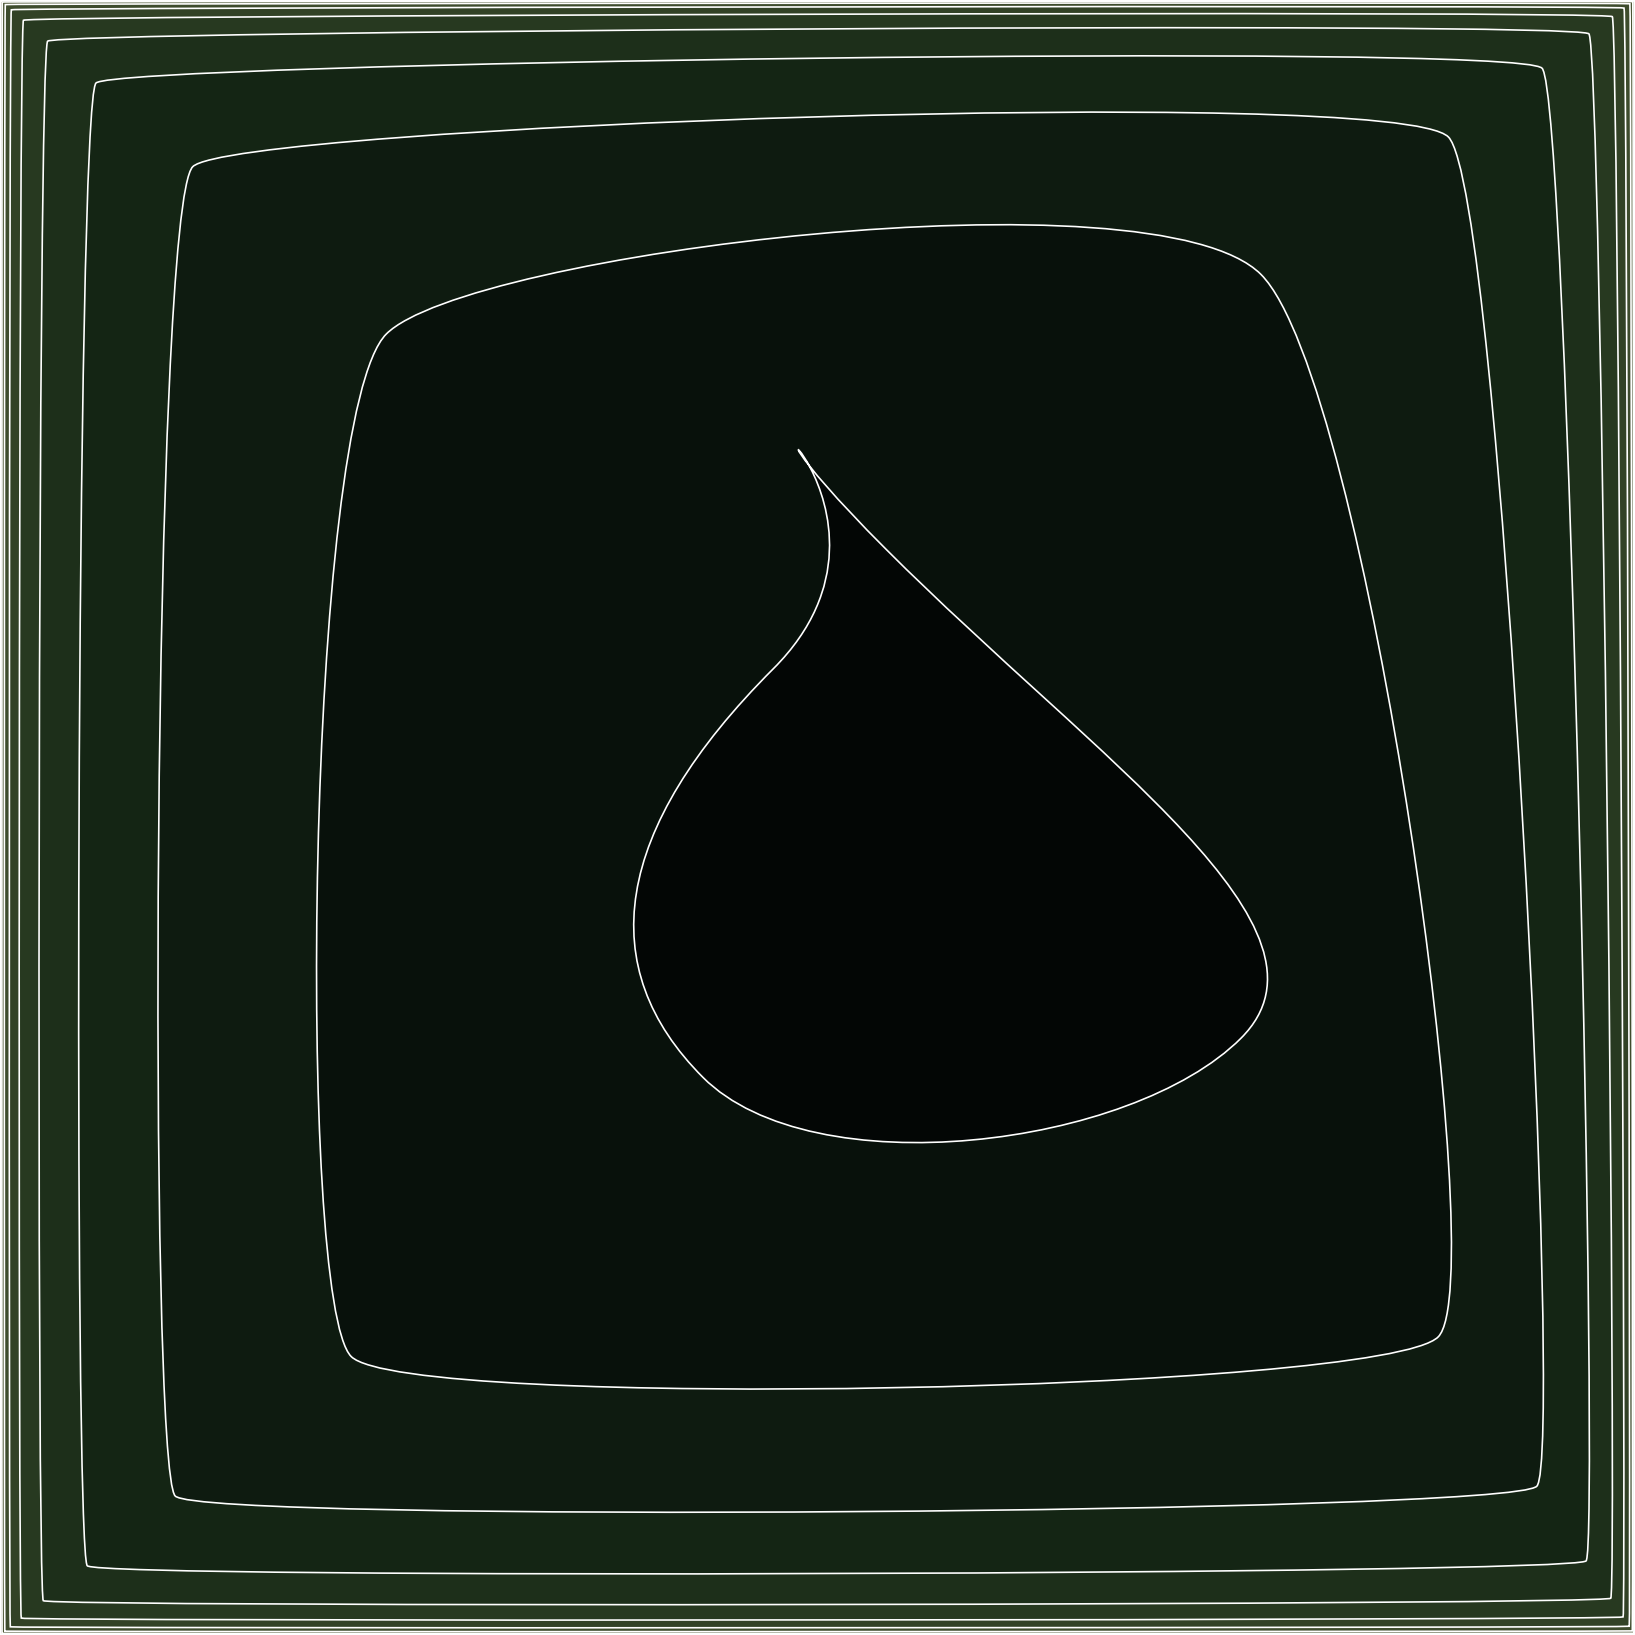

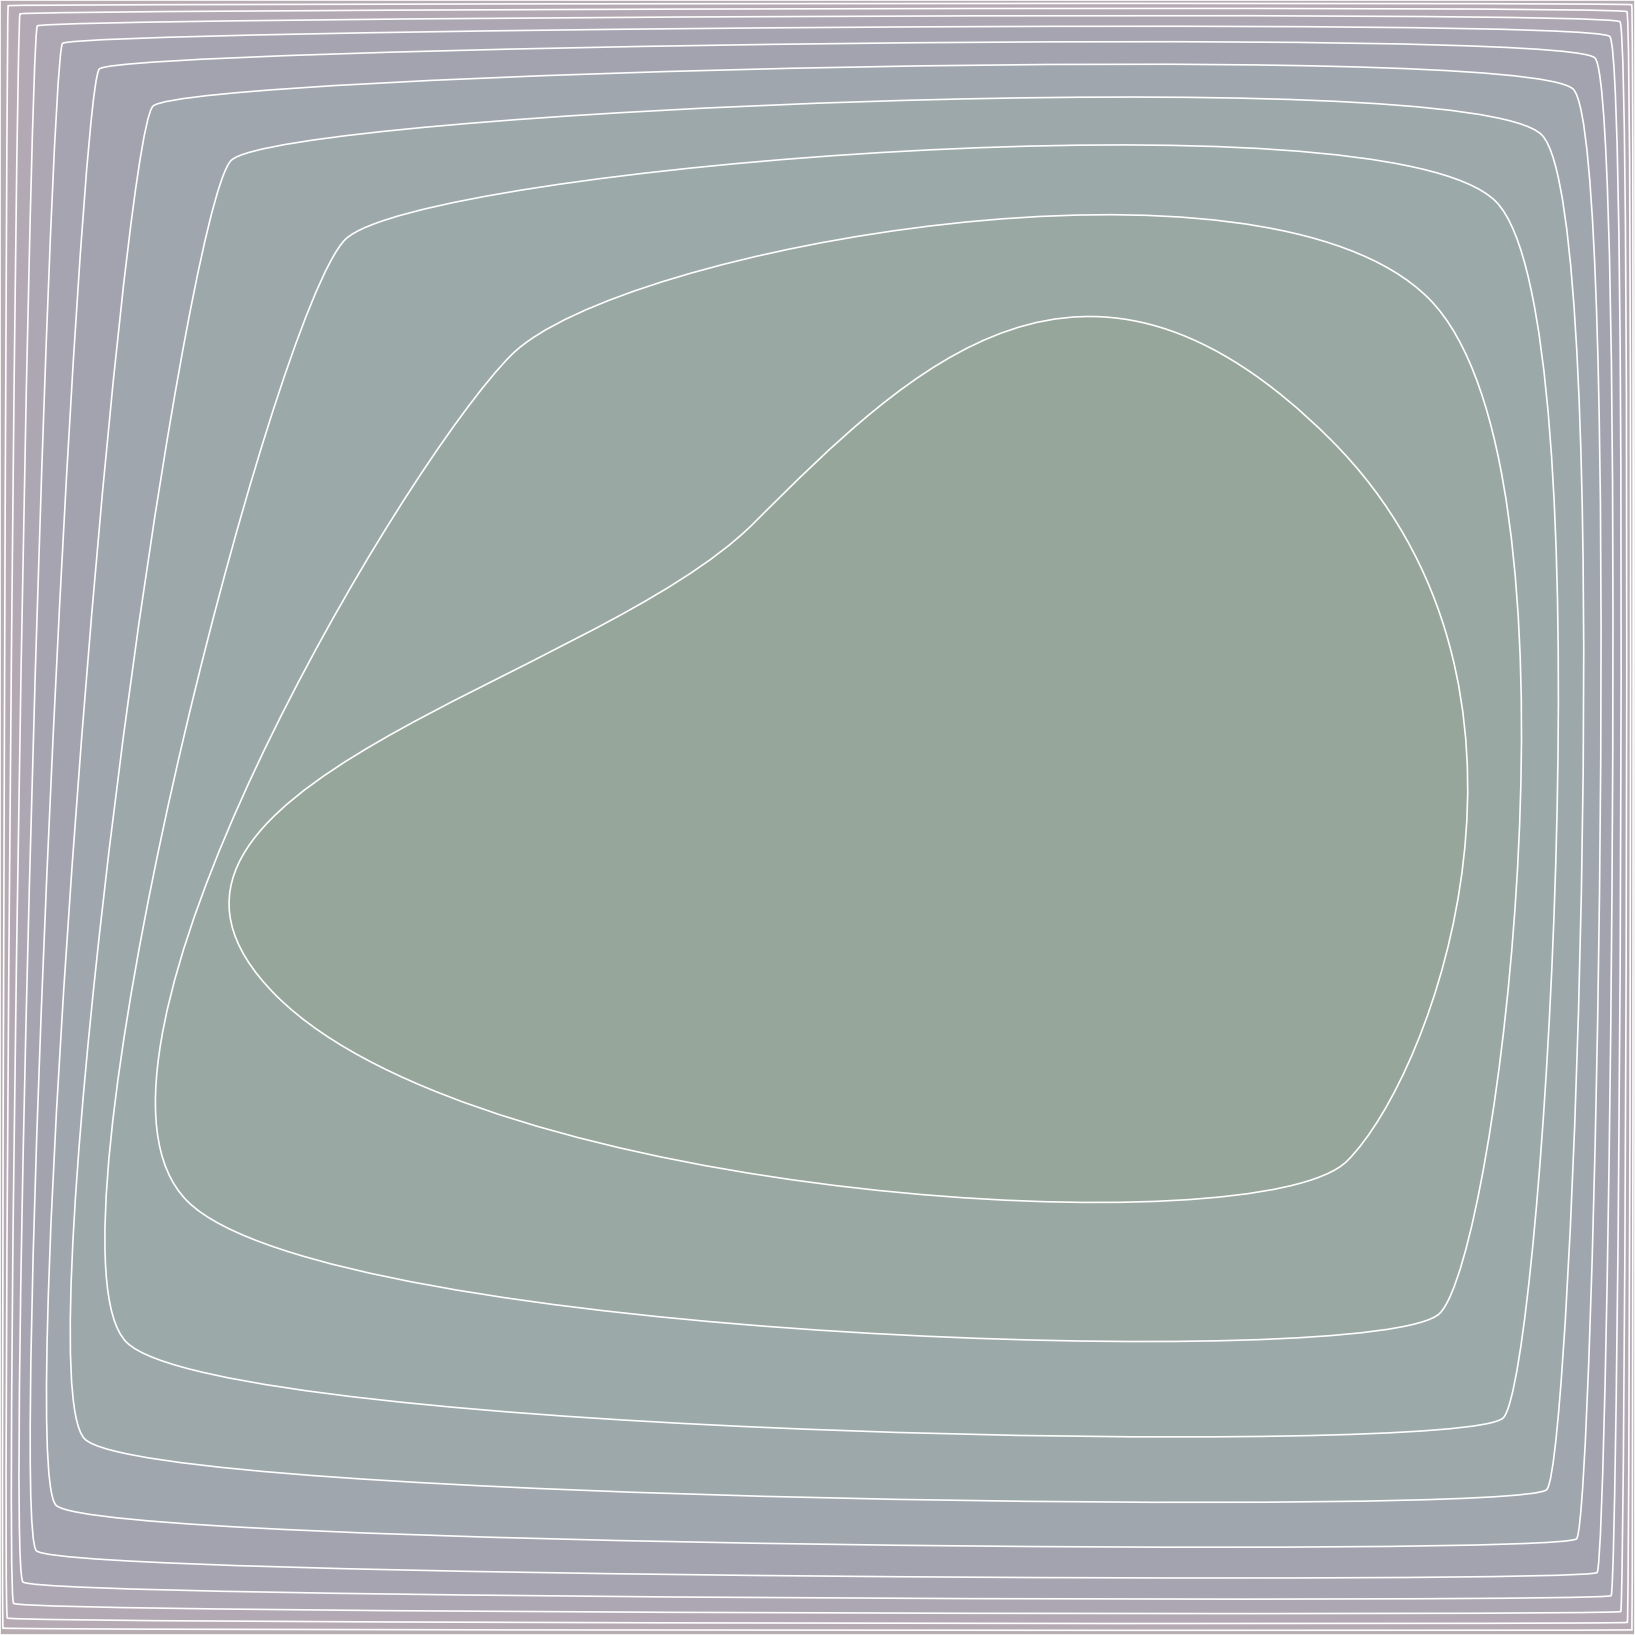

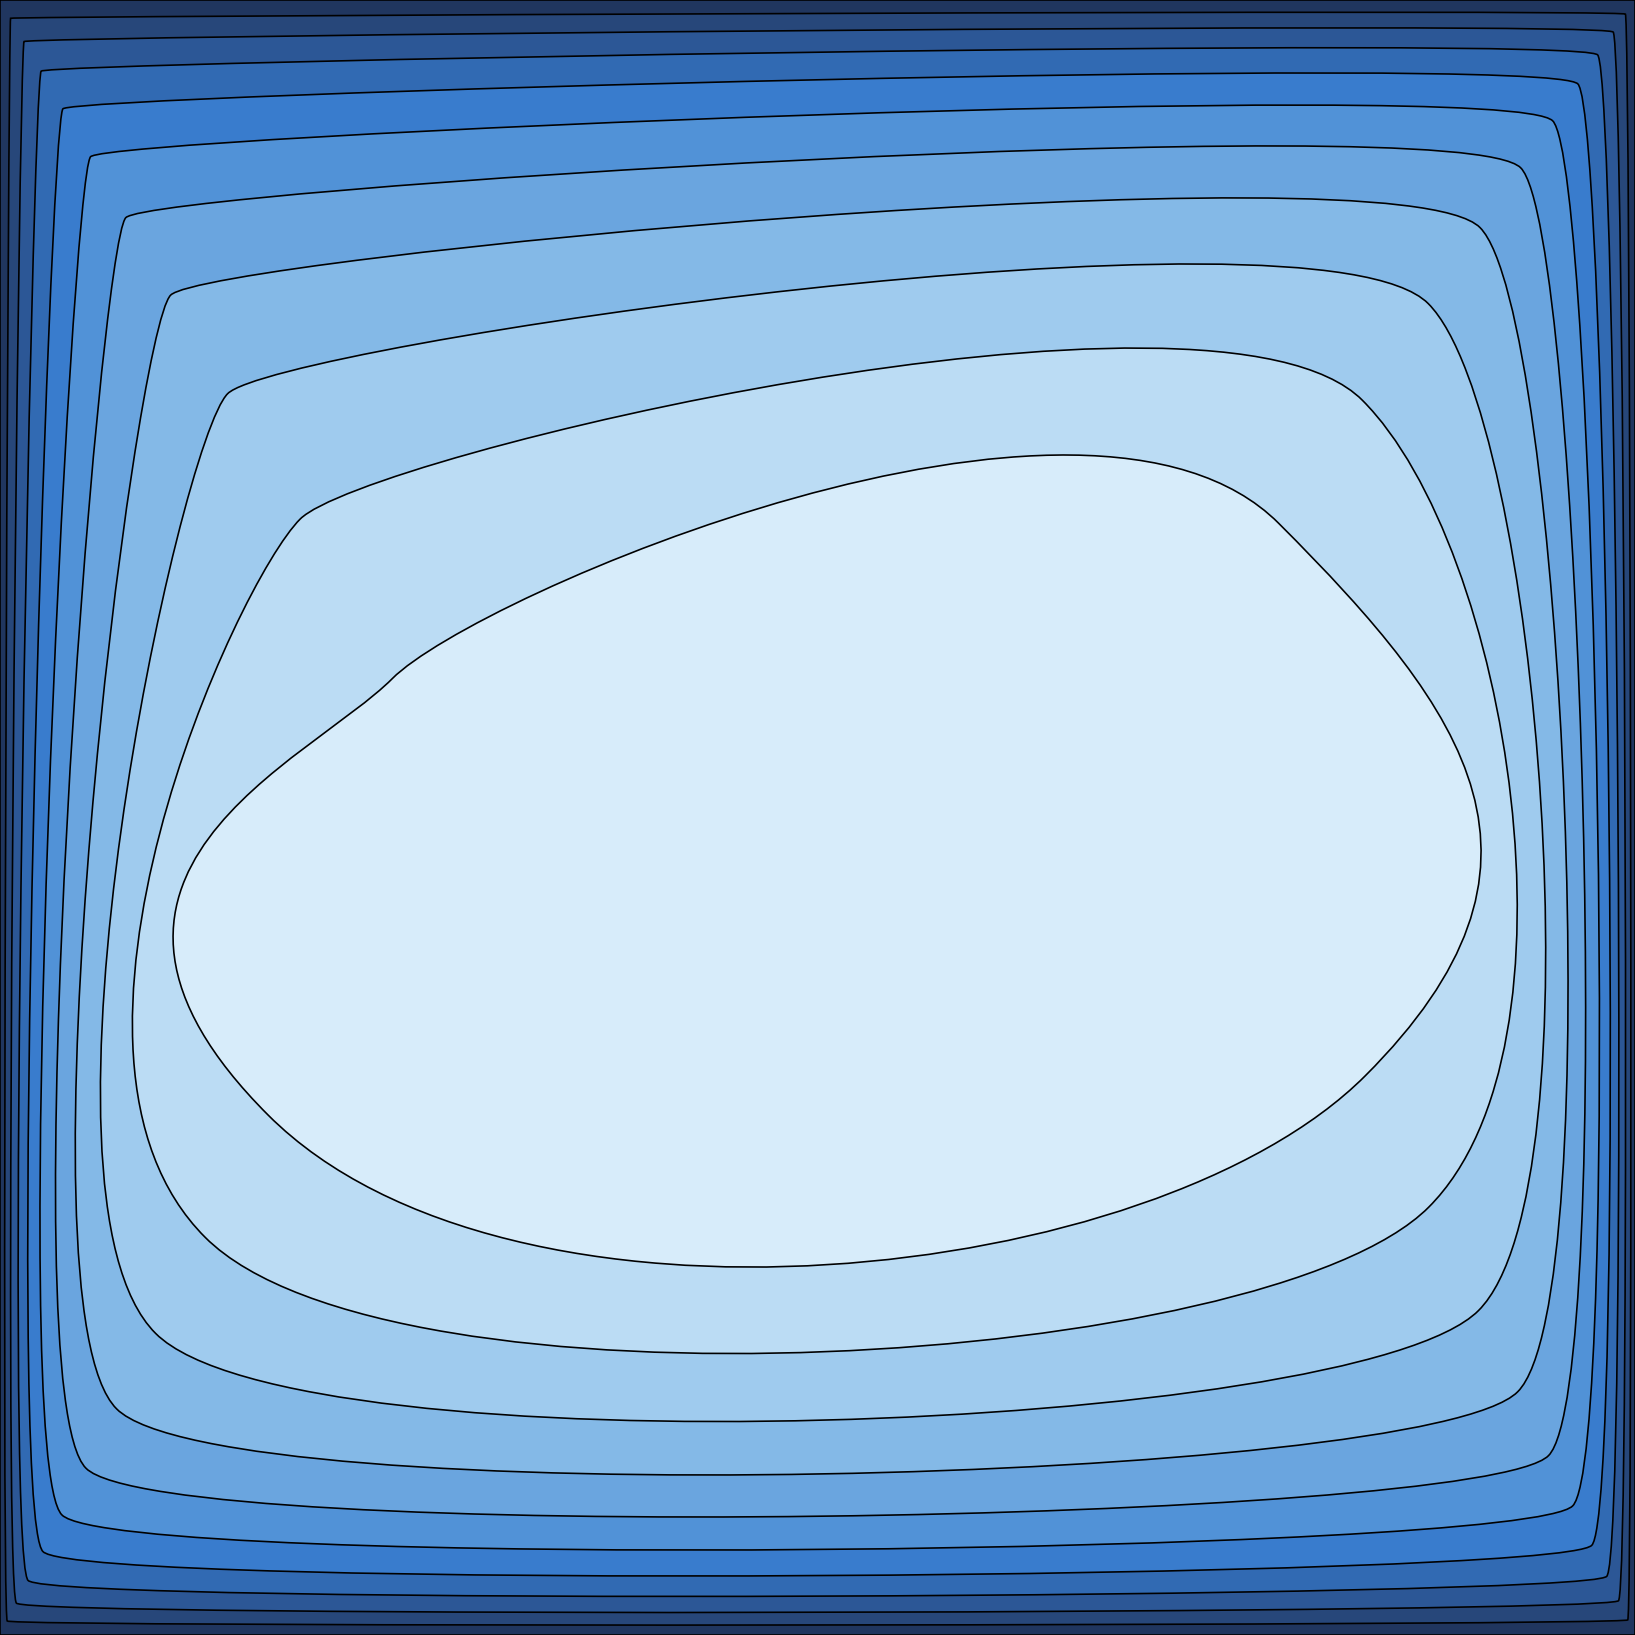

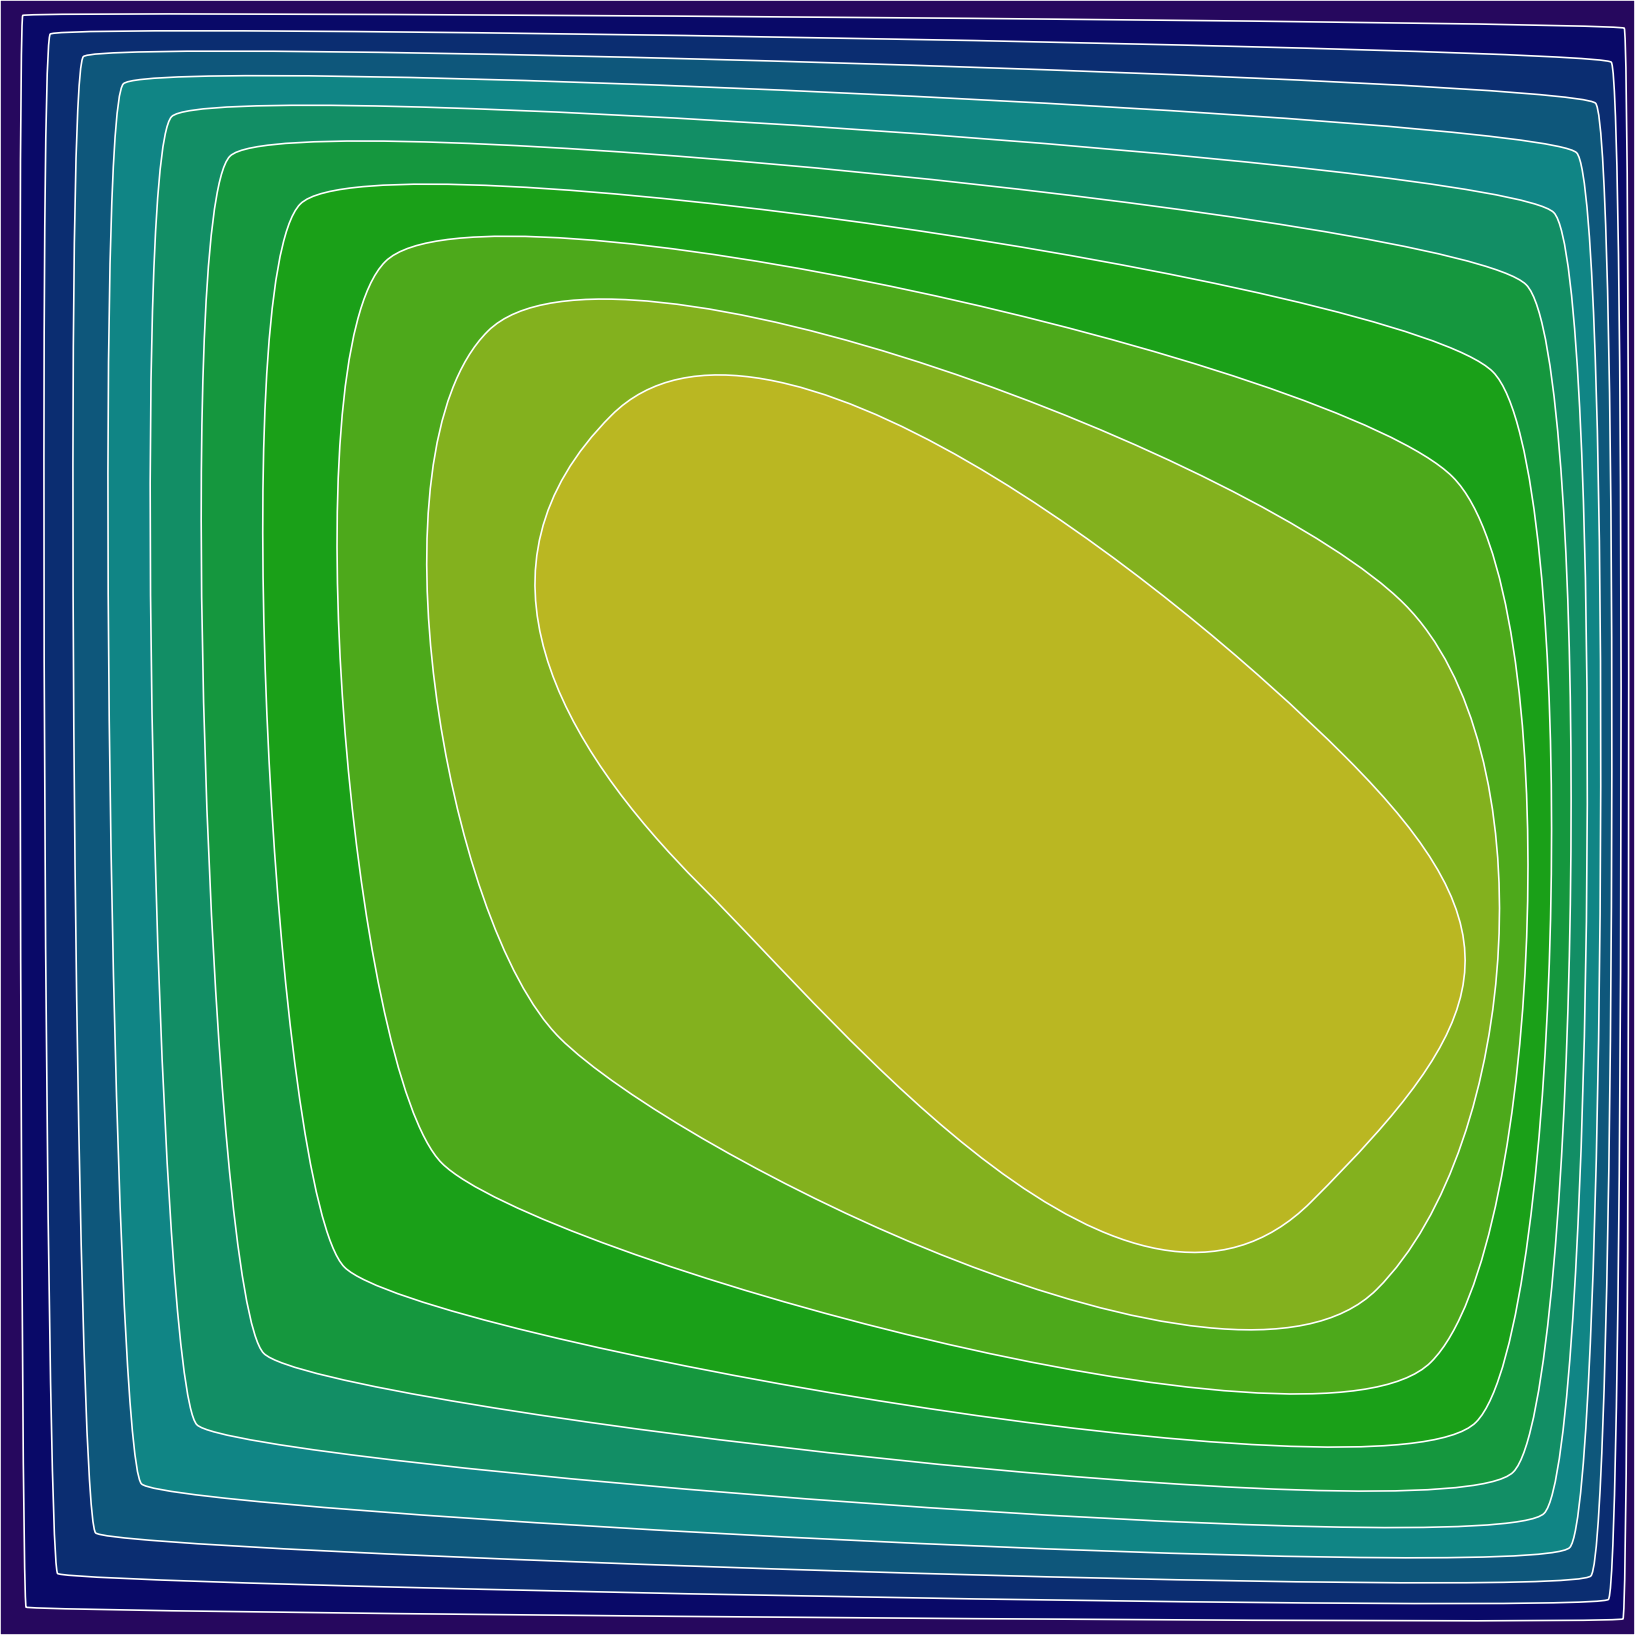

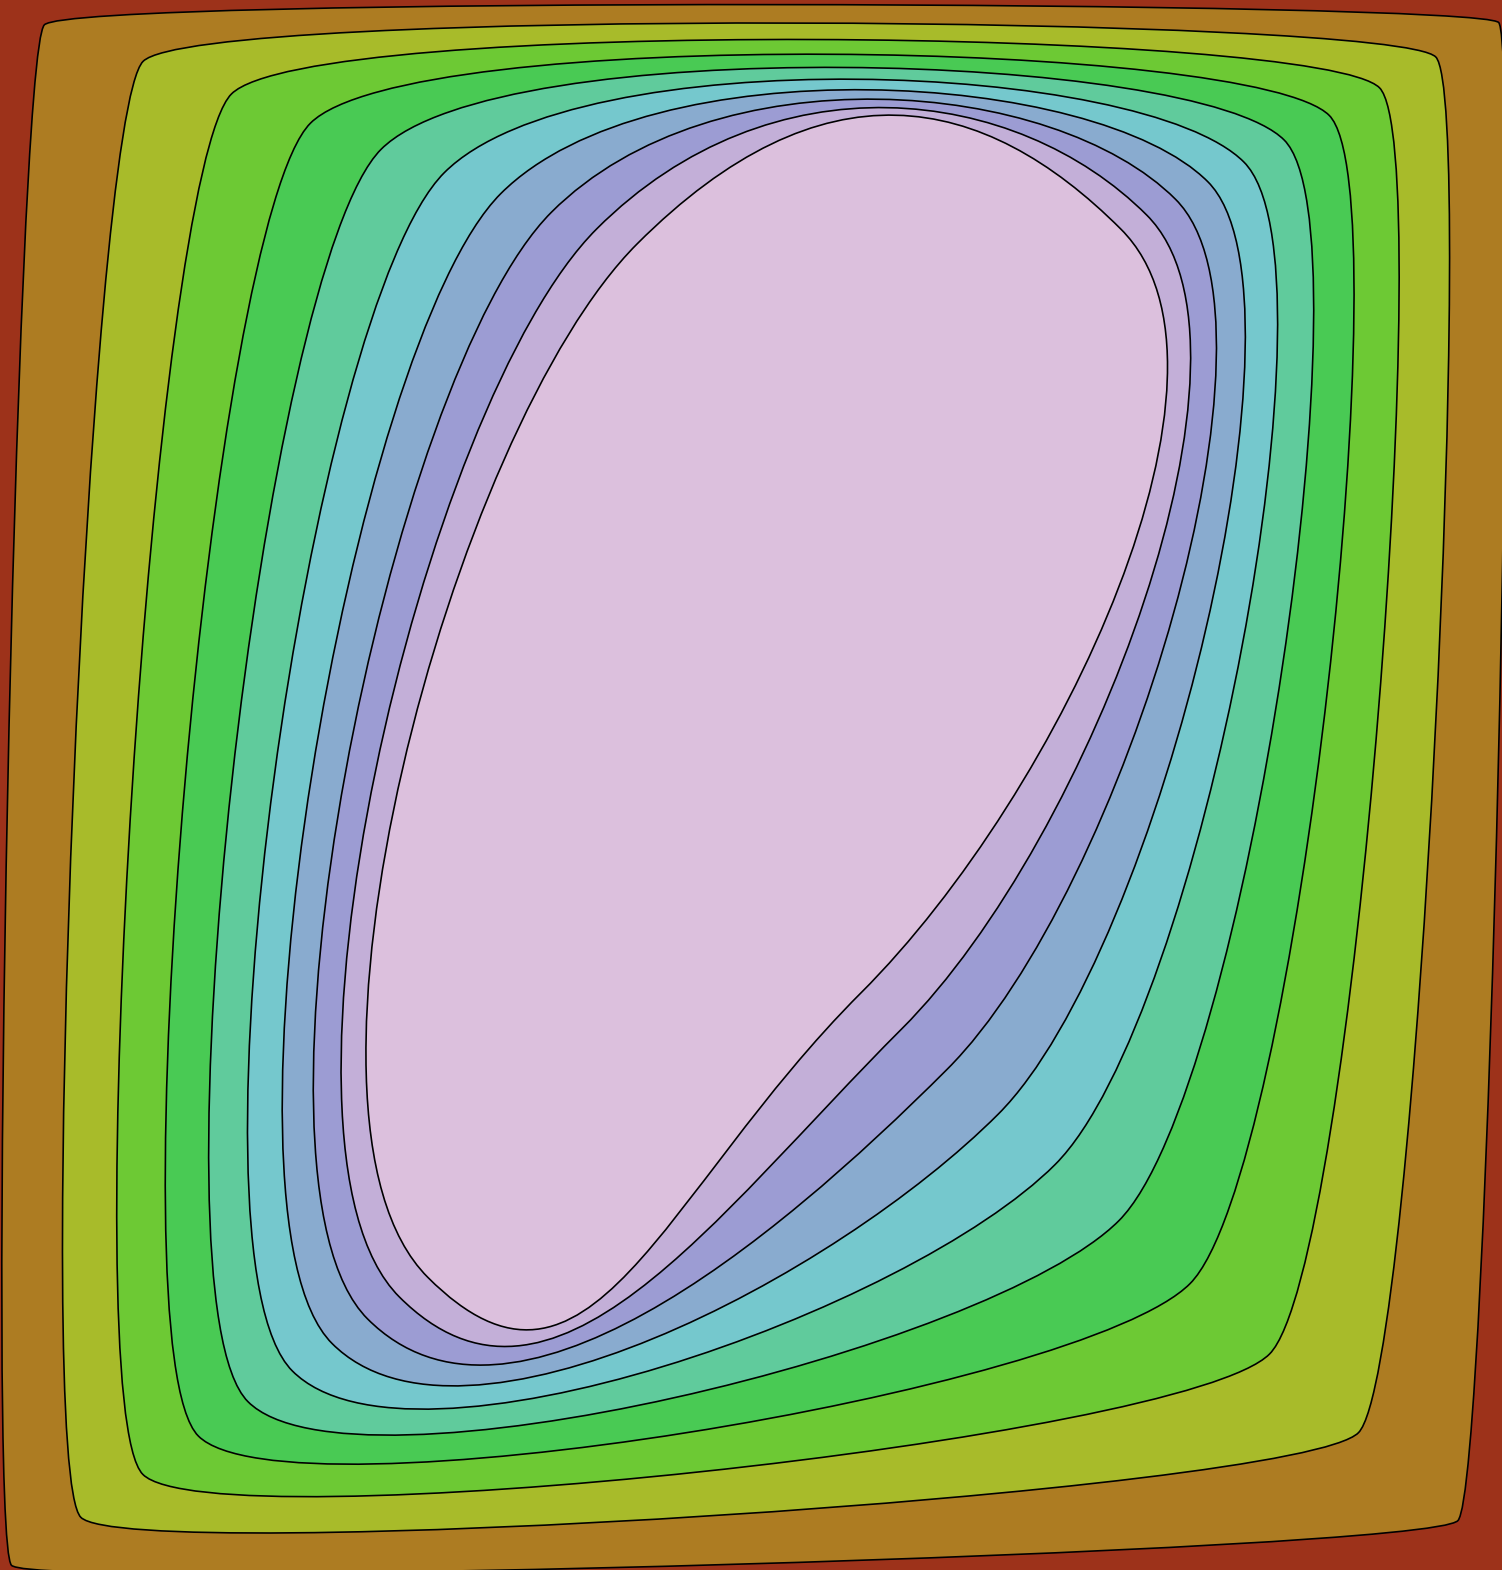

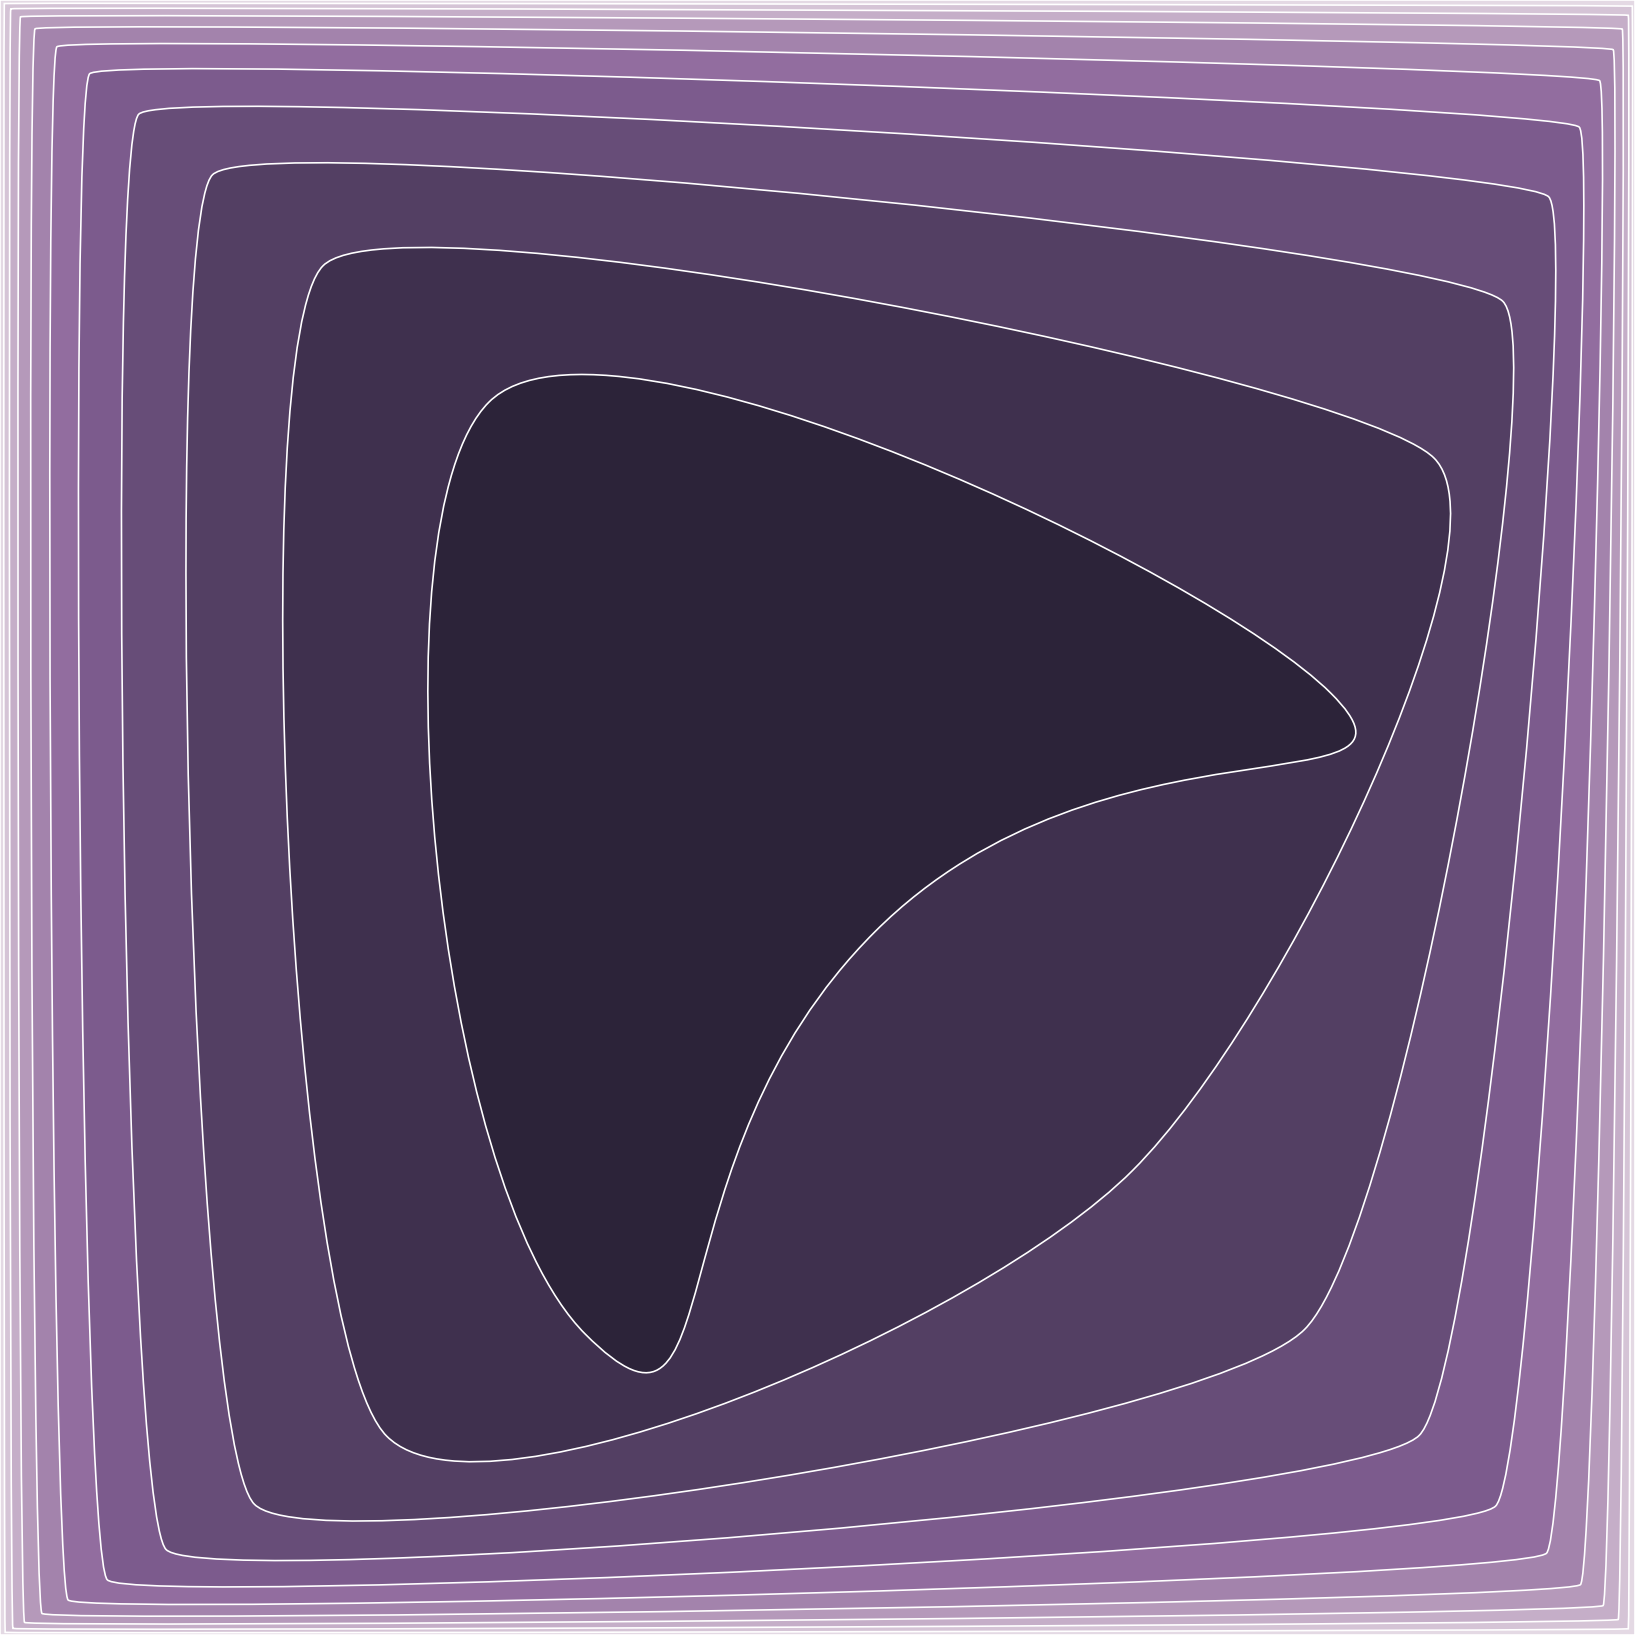

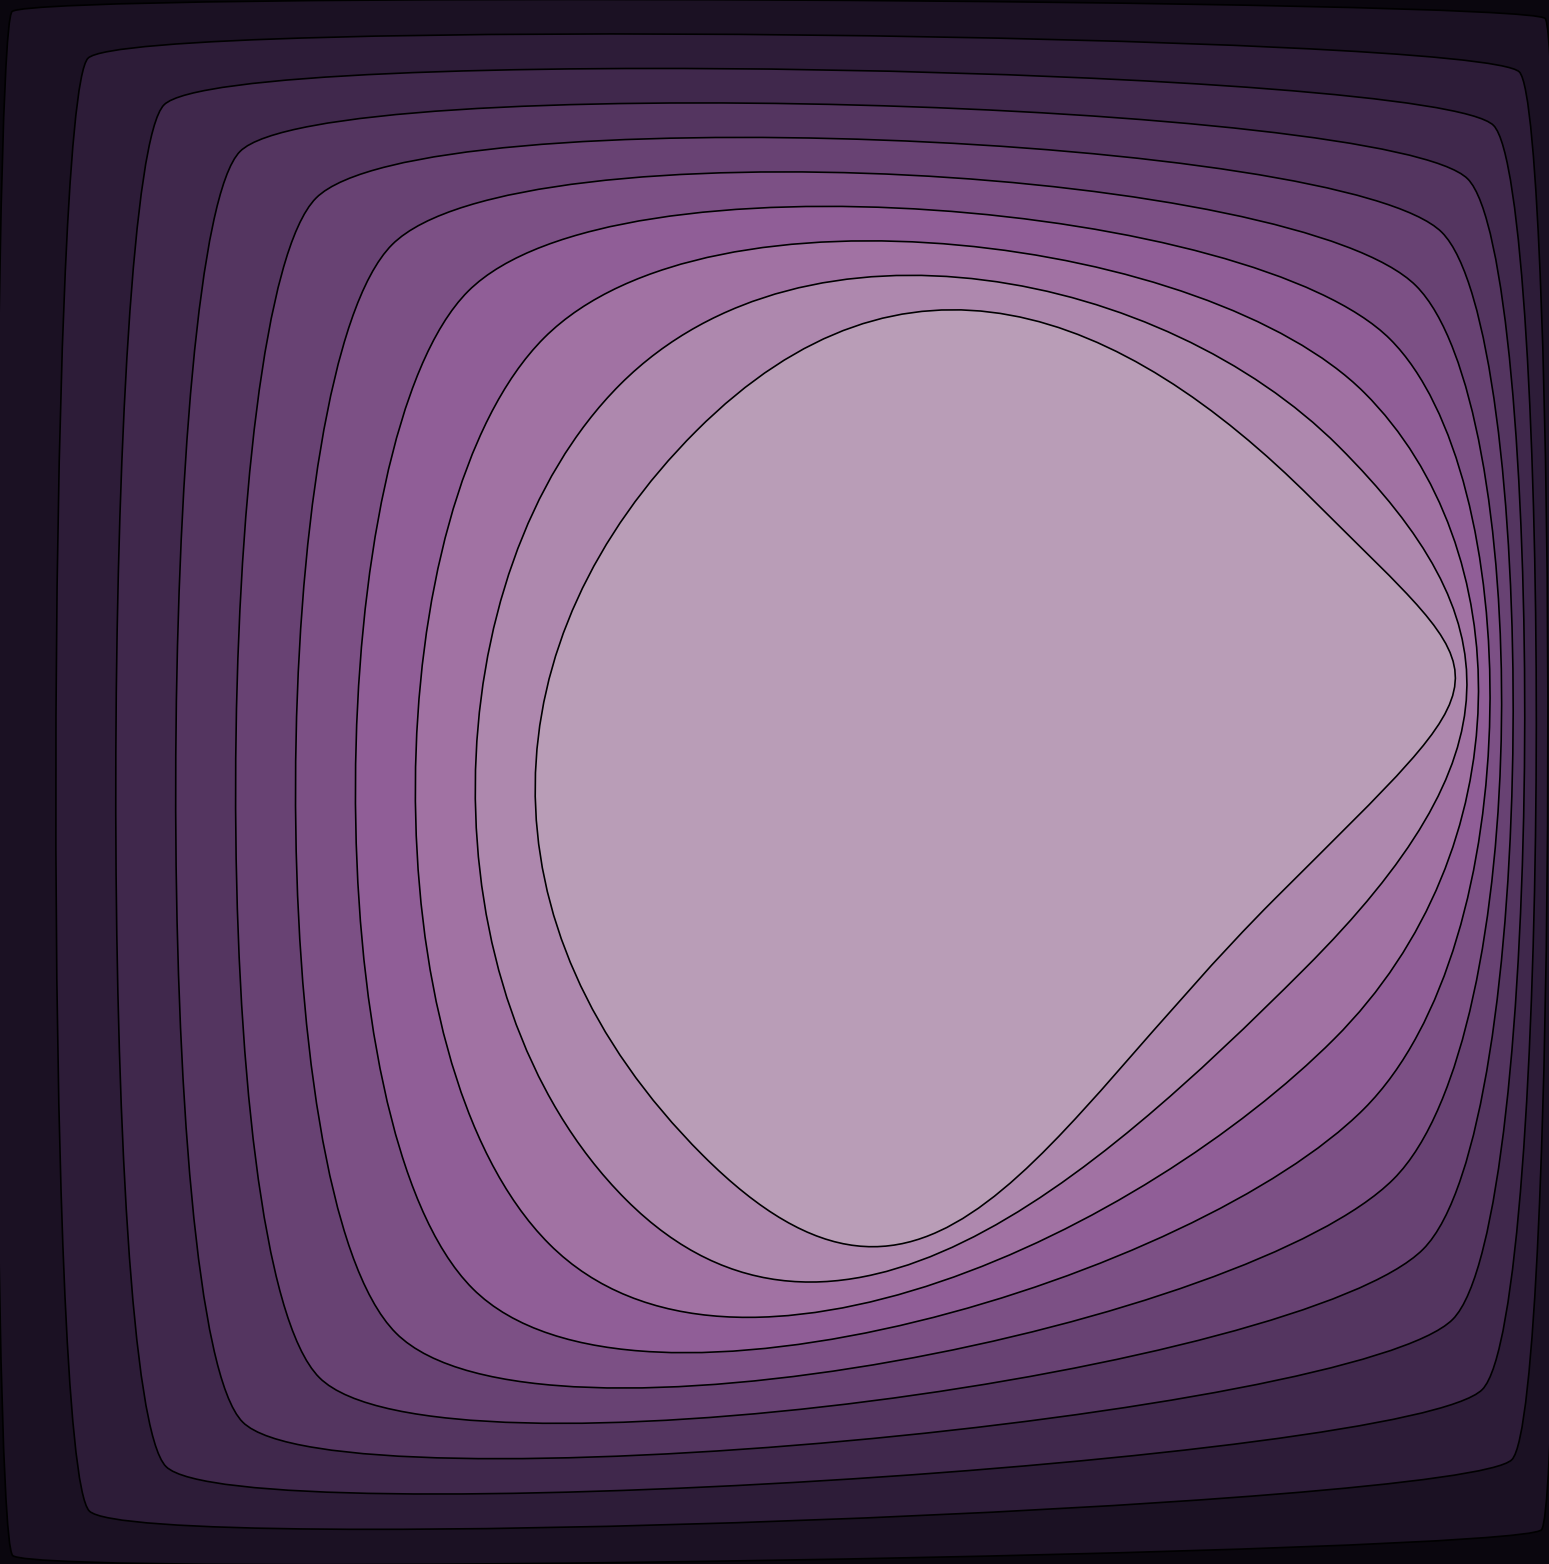

Every day my webserver generates a new book, filled with blobs of a random colour that turn into rectangles in ten steps. The blobs might have a border, and this border, if it exists, is either black or white. The ten steps follow a certain ratio. This ratio is one of the twelve so called excellent orthogons: The Quadrat, the Hemidiagon, the Trion, the Quadriagon, the Biauron, the Penton, the Diagon, the Bipenton, the Hemiolion, the Auron, the Hecton, and the Doppelquadrat.

Created for Vasilis van Gemert — and you — by his webserver.
